Not a pure sine oscillation (rather than wave), but a near sine
oscillation at an exact period of 1/222 s. The closer the source
frequenties, the better the sine fits a pure sine. Thus if you
wish to get a sufficient near harmonic oscillation, conditions like
"slow changing envelope" are essential.

Hmm, let's examine this.
From the two composing oscillations you get the overall
displacement:
y(t) = sin(2 pi 220 t) + sin(2 pi 224 t)
From the points of intersection of y(t) at the time-axes you
can find the period of the function, so examine when y(t) = 0.
sin(2 pi 220 t) + sin(2 pi 224 t) = 0
(..)

(Assuming you can do the math.)
(..)
The solutions are:
t = k/(220+224) with k = 0, 1, 2, 3, etc.
so the time between two successive intersections is
Dt = 1/(220+224) s.
With two intersections per period, the period is
twice as large, thus
T = 2/(220+224) s,
hence the frequency is
f = (220+224)/2 = 222 Hz,
which is the arithmetic average of both composing
frequencies.

> The waveform which results from the sum of two pure sine waves is not a pure
> sine wave, and therefore cannot be accurately described at any single
> frequency.

As seen above, the particle oscillates (or vibrates) at 222 Hz.
Since the oscillation is non-harmonic (not a pure sine),
it needs several harmonic oscillations (frequencies,
here 220 Hz and 224 Hz) to compose the oscillation at 222 Hz.

To be precise, this is nonsense, but I suspect you're trying
to state somewhat else, and since I'm not able to read your
mind today, I skip that part. :)

Is it just me or have I got a decent E5
I have read loads about how bad they are but still went ahead and bought one, and I like it, in fact I like it a lot.
I run it alongside my Sony SW77 and it could get everything the 77 could, sideband was easy to use and tune, obviously the sound is not as good as the 77 but its quite good considering the small speaker.
It could be that I live in the UK, and we dont seem to get many problems with strong stations on nearby frequencies wiping out what your listening to.
All in all I'm very pleased, it certainly blows my trusty old Degan/Kaito1103 away, I find it better than my Sony 7600GR, except for no sync-lock. I always find the 7600gr sounds very tinny and crap so I dont bother with it much, and ssb on the 7600gr is a bloody nightmare.
Anyway, happy to say, I'm glad I bought it

As I said before, it might be correct to say that the average, or
effective frequency is 222 Hz. But the actual period varies from
cycle to cycle over a period of 1/(224-220).

Perhaps you would agree that a change in period of less than 2% might
be difficult to observe - especially when you're not expecting to see
it. To more easily find the 'peculiarities' I suggest that you try
using more widely spaced frequencies.

Time is Up

Al-Qaida Kagan "Al-Qaida, their whole strategy revolves around generating sectarian violence, because that is how they embed themselves within local communities "

What?? For friendship?

What is the demon TRAITOR to HUMANITY in America saying about the reasons he embeds an Iraqi under 50 odd divergent NEOCON labels? Wouldn't most Al-Qaida take great joy in killing a bushite nazi grunt like any real Family man would also? These LIAR dumfuk grunts who cheer "whore yeah", routinely, can barely read or write, so, how possibly does this FOXNEWS expert, expect such ungodly antichrist forces to delineate Al-Qaida from the local communities they PROVABLY indiscriminately bomb as Satanic?

Kristol and Kagan: 'Put Everything' Behind Escalation So We Can Bomb Iran and Syria

Kristol and Kagan MUST be put to death for treason against America, treason against Life, treason against GOD. They both have continued to Publicly advocate murdering more innocent peoples indiscriminately they call, "Al-Qaida", all to rob further monies from an undefended America. It is easily learned by any as all, the victims of bushite tyranny are exclusively, US, The People, guilty of nothing but our shared love of GOD. Remember forever: there was NO JUSIFIED REASON for bombing PEACEFUL Samara, NONE! that bombers confess was done as ordered by Allawi INDISCRIMINATELY, all for getting killed Marines sent in later for more stolen cash from America. P2OG. [hundreds of bushited Marines died rightly almost immediately - (wow eh?)] A Satanic action, Kistol and

Kagan, both blame without thought to question on "Al-Qaida".

The action of Satanic bushite bombers targeting Samarra as war criminals is FULLY documented.

Death to the bushite neocon LIARS, death to the enemies of Freedom for Humanity. My beloved friends of GOD, please, when you see the mute bushite, kill it for Christ, kill it for Love, kill it to defend your loved family. (Any soldier who doesn't proudly talk of how it hunts those british soldiers who kidnapped barefoot children and victimized them on video, is a soldier worth destroying NOW to defend Life from death)

It was these DOCUMENTED acts that had him thrown out of 'the CBC, CNN, and FOXNEWS TV expert scene as workable', all for fears that US humans might actually wake the fuk up on WHO is Our True Enemies here. All three, pro-private-bank zionist news stations are well aware that the bushmob did 911, but lie to YOU as forsakenly dying for their growing riches and world wide broadcast fame.

OBSTRUCTING JUSTICE FOR AMERICA

Tony Snow "The executive branch is under no compulsion to
testify to Congress because Congress, in fact, doesn't have
oversight abilities."

IT LOOKS like they are going to attempt making the move of
BLATANTLY TREASONOUS war criminals acting to measurably now
destroy yOur Freedoms in godless America. The Satanic
neocon's 'faith', is in that YOU as an American, will watch
the same corporate drivel that offers next to nothing to
empower YOURSELF to speak Justly for a dying America. Instead
of demanding 24 hour, wall to wall news coverage, of war
criminals going down one by one by the will of Man to Justice,
CNN, CBC, and FOXNEWS will broadcast your blind 'belief' that
you are only a impartial viewer, who doesn't really care about
dying right in front of yourself for the zionist's riches, and
great worldly power of tyranny through lawless nazi bushite
censorship.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in
crime"

Jesus man, do I truly hate these zionist nazi thieving LIARS
on our magic TV shows who con our kids to die as bad guys.
How about You?

/ / If Bush and his PNAC buds are innocent, then Investigate
911! What have innocent people to fear from a fair, complete
and real investigation? \ \

They are guilty, so, of course, the demon Bush enemy,
OBSTRUCTED JUSTICE FOR AMERICA.

I hear the national radio program Coast to Coast is still
feeding us neocon lies. Why don't you make the call for

Johnny.. believe in yourself for a change why don't you?, buddies??... I am Your god king. King Johnny I am. Champion of Universal Life! Not enough? Who cares?, to allow US speak on our broad casts as legitimate? Worried I'm going to love Life as truly honorable, and Greater than those who openly lie to our soldiers to have them unjustly die for no better good or reason understood? Let us make life better than the neocon envision, and support our rise to popular acclaim by allowing US to speak openly for public challenge in defense of America.

Death to the neocon soldier, death to the enemies of Man.

ISRAEL PEDDLING WHORES TO ATTRACT TOURISTS
http://desertpeace.blogspot.com/2007/06/israel-peddling-flesh-to-attract.html

[The freely self confessed child murderers of the IDF, tell US as demon liars, they're "Jews". Anyone in Israel KNOWS this factually to be so. For, the zionist forbid 'by law', to allow military service from anyone in Israel who disagree that God would will the thieving and murder of the completely innocent in GOD accepting without question. Now why would YOU want that?]

/ / So honestly, they could have just done it as "hot chicks of Israel" instead of including the military element. that's the sick part. [..] the sick part is the exploitation of women. For a government to officially sanction such a campaign is a sign of how bankrupt they really are, and I'm not talking tourist dollars. \ \

The nazi IDF does what Canada's dope pusher O'Conner suggests we accept. Demon enemy bushite in Afghanistan murder children without real understanding 'by accident', [no evidence is shown to ANYONE, just treasonous demon evil bushite necon spewing, "red handed"] lies after lies, while, the Taliban, we are told, are so much worse, because they would murder

"ANYONE." Make sense? No. Remember: (The bush regime has been found funding Al-Qaida in Iran to commit terrorist acts against COWARDLY soldiers without free minds to speak in their own defenses.)

/ / The group is demanding his impeachment not only for his crimes against humanity but for lying to the American people about his worship of Satan. \ \

It almost makes me laugh, and then, I push to remind, we are so very far from where civilized is dreamed to reside. Look, think of US as actors, (because that is who we are,) and support my rise to proclaim by the will of a suffering for real human kind. Believe in US, as if your life depends on it, because it does my friends, because it does. Live free or die unwillingly.

AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man.

/ / "They can try to have their votes of no confidence," the president said, "but it's not going to determine - make the determination - who serves in my government."

MY government? Now that's entitlement. And you thought George Bush didn't have a vision for America \ \

Hitler, the mad man, wasn't as insane as our demon enemy George Bush Jr. is.

/ / The [BUSHITE ENEMY] US has said it would refuse any request by Italy to extradite the accused [satanic bushite torturers of completely INNOCENT PEOPLE]. \ \

Christ, The Son of Man, Begs the Godly Men of Earth

Christ, The Son of Man, begs the godly men of Earth, to judicially bill on sight, any neocon soldier who supports the carnage waged in Afghanistan as cop killing dope pushers. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism, persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. Death to the dishonorable bushite THIEVES, death to the enemy neocon LIARS of GOD and man.

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by

Christian values committed to TRUE freedom from lawless
godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as
betrayers of the Human race, deny soldiers to know: General
Ahmad funded Atta. They will both support the murder of Your
American Son or Daughter for further zionist evils, before
allowing true open line communications, to defend ourselves
from the lawless demon enemies of Man. Do something about it,
or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying
brothers and sisters, die as Satanic bad guy enemies of Life
on Earth, sacrificed in cowardice to the real demon
antichrist, and see if we, the true, strong, and free, care.
The Son of Man SCREAMS before coming home to GOD'S America:
We are coming to destroy Satanically lawless bushite enemies,
all for the love of God, we shall succeed my friends, we
shall succeed. I will not willingly live in a forsaken world
with LIAR zionist war criminals conning US to believe, God is
not Great, True, Strong and Just.

Die bushite die!

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC zionists, actual treasonous LIARS, actually smile to dying Canadian soldiers with only true contempt. CBC kills Canadian kids, with their intentional demon lies, trying to subvert Justice for God and Johnny. In fact, yesterday, they did a special, all on how "God is NOT Great", giving that bush bitch demon LIAR, all the space to pontificate it's hatred for Wisdom, Science, and GOD, with only nods and smiles from the 'illiterate' hord. Remember: A zionist KNOWS it's an enemy of Humanity when it supports dropping seven million land minds to murder indiscriminately OUR CHILDREN for decades, or stealing a Christians Home because they say God says Jews would do such ungodly acts. Blame innocent Jews the holocaust denying zionist shout, of which not one, is a Jew. Like me.

To Kill a Bushite, is to be Heroic

Pro child killer George Norry, enemy of the American soldier, still blabs about how more must die unjustly for bin Laden with LIES, knowing full well, video of steel flowing like water from the WTC exists, and that General Ahmad funded Atta. George Norry is a traitor to the FBI, who further plans more to die sacrificed under the censorship of the tyrant antichrist. Who cares I ask about America truly dying as neoCONNED, for George Norry has millions to not take your calls for protection, and honestly, 'Americans' couldn't care much less for Our Humanity's future. Live free by defending liberty by killing pro lawless pro torture pro fascist bushite enemies my friend, live free by defending Yourself and GOD.

Love to God Gives US Strength

The Son of Man begs the Men of Earth to defend Ourselves from the unholy forces of our tyrannical enemies. Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of Just causes. The THIEVING satanic bushite forces, speak only contempt for GOD on our demandings of the public execution of the boastful terrorists, like the bushite who video taped the murderous assault of OUR kidnapped bare footed children, or murdered Iraqis while desecrating ELVIS, done all to please the "escaping" satanic demon antichrist zionist, Our Mr. bush Jr., who with his private business partner, General Ahmad, actually committed the ungodly treasons of 911 in a land of blind men sleeping., according to the eternally Honorable FBI anyway.

Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of America's America. War criminals who deliberately set them up with Satanic 'black magic' to be killed in criminal actions. P2OG. But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. By Satanic command, 'inconceivable' to see the bushmob up on high treason charges... Oohh. Yeahhh.. I can see that going for real - quite excitedly I am about saving innocent lives. Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying.

Thank god for that. Thank god for that. Talk radio in
America should take open line calls on our ideas about how to
actually plan to defeat these, found factually to be, traitors
to God and Country.

McCain is some kinda demon enemy of God isn't he? To say
publicly, he apposes torturing innocent people to death for
the practicing Satanic bushite LIAR bad guys, leaves US
thinking, shouldn't WE put McCain to death for OFFICIALLY
sanctioning such criminality? I'd easily, without a second
thought, put to death all those FOXJunkies in that debate
audience who cheered from hell with JOY, the prospect of
torturing innocent people to death, 'if it means' such
IRRATIONAL action protects "American lives". See? the Magic
TV and radio people refuse to allow me or anyone to think
through such absent minded ungodly EVIL intent. Example: If
you take FOXNews' word for it, and 'knew' your potential

Do you know how a crackhead finds itself? Lost by indifference to the ultimate, only goal, more dope. Freedom Fighter? or crackhead WHORE, who hopes to find a dollar 'somewhere' to stave off it's crackmaster, the "American People", led by the un-elected demon dictator, our criminal Mr. bush Jr., as the true enemies of all Mankind. Bushites are on serious dope to be so dumb as cowardly accomplices to a traitor of themselves, that they would die as, before actually defending God's America - that they gave an Oath to.

I guess a soldier's word doesn't count for much in bushville.

The bushmob did 911 as traitors to God and Country, don't you know anything worth living for? my dying unjustly brothers and sisters? My friends, please fear not wisdom communicated by a REAL Man, for, we explain ourselves to the best of YOUR ability to listen simply. G. W. Bush used no evidence to form America's "conclusion" on who did US wrong on 911. So, Please, stop forsaking yourself, for, we're going nowhere. Support Johnny's call to demand open debate without censorship from the magic radio and TV execs, who hide in darkness, pretending to be our friends, while refusing intelligent dialog to answer any of our big troubles easily. Why? because largely, they're powerless without beating us down as giving 'Christ like' VICTIM so much - with their irrational ignorance for our survivals by the fittest. The fittest Ideas that rule this Universe, are the simplest, most easy to understand, but I digress about GOD'S greatness, for we know,. the corporate media elites as our voice, "Couldn't Care Less".

CBC just did a report about all the great heroin coming in from Afghanistan, that will still cause crime, and be illegal, (and maybe give you life in prison as an American,) but brought in with the help of the demonically evil bushite thieving murderous military, by the likely ton full to attack our direct family left un-protected, BY YOU PERSONALLY. And guess what? THEY, our media masters, couldn't care less if they actually tried to be our good guys. Reminder: the god guys is good, the demon liar antichrist demon enemies who thieve from Life with censorship is bad. If they hide ourselves too far, they loose all around, up and down. So get to it. Or don't. Your choice. Life lived Now, or damnable death by cowardly design brought forthwith under your own power to do nothing under such terrible costs against our suffering natures.

Typical tyranny for media control over all of Life for the beginners is this treasonous betrayal against our Nature, by

refusing to be honest about our potential to be far greater than first considered. If they'd only allow US to have open communications, all our worlds would be better living for it.

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \ Kill the bushite for America, for Justice is Freedom. Lawless mercenaries are not granted by our will to survive truly. A "lawless" enemy granted "immunity" by bushite evil phonies, is that of which, holds ourselves in their confessed contempt for Justice. Receive thanks from everyone, GOD included, by rightly destroying such inexcusable treasonous ungodly enemies of all human life.

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes

they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

SATANIC AMERICA

/ / After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?" \ \

911 "truthers" don't want to address the hard evidence like the clear as day video of steel running like water from the WTC towers, for, as Humanity witnesses, they'd rather watch silently, children murdered indiscriminately, before, acknowledging wise godly men from our communities who speak ONLY facts on America's derision for real, open market Free communications - freedom fighters who ACTUALLY defend the innocent from the neocon bushmob traitors. Each day we hear of near hundreds of US murdered by the godless Satanic

THEIVING "American" forces in Iraq. without near a peep of concern by "America". Lawless bushite mercenaries torture rape and murder, paid to do so by the WILLING American tax payer, and near 300 million "People" (the NAZIS) can't find the effort to pick up a princely phone and call the ENEMY pro child killer George Norry, (who broadcasts every day across America nationally for the IRRATIONAL neocons,) to air any real concern for our Lives. True, the demon enemy censors OUR calls, and contrives WE a buyer without questions, but he doesn't censor You always forever. So, get to it fukhead, JOHN is growing angry with americans of EVIL ignoramuses escaping the bushmob for crimes against MY HUMANITY. As US State Attorneys?, whom have the most serious of American Justice Department Motions of Defense for REAL Freedom?, he's not concerned directly with?, nor would "like" democratic Peoples to be allowed to care either?. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS,
while George W. Bush personally stole 50 billion from America
in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her

godless bushite dumfuk traitors obscening to God and Man as
the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously
kill this lawless bushite enemy and his demonic ilk, for our
love of girls everywhere? Or, how about the UNARRESTED
soldiers we witnessed on video beat shoeless children
pratically to death while laughing and cheering? Or like
those that speak zero defenses for Haditha's confessed MASS
MURDERING irrational women and child killers? The REAL demons
CONFESS to going into a house, WITHOUT reasoned approach, and
slaughtering an entire INNOCENT family.. for nothing but
their lifeless SATANIC pleasures. The 'cause'? "The [mass

The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun, paid for by the silent American tax payer. Americans refuses to bother making a simple phone call to Coast to Coast to raise some concern. THEY don't. They refuse to hunt bushite down in their streets for death to defend the innocent held indefinitely against GOD'S will. Death to the bushite, death to Johnny's godless, lawless, fascist enemies of FREEDOM.

/ / Never in modern history has country been forced to pay for its death, torture, and destruction with its own money - its own oil revenues. A country where thieves are entrusted with its richness and where murderous gangs are entrusted with its security. \ \

Look, CNN, CBC, and FOx News know the bushmob did 911, but will smile while watching your son or daughter sent out to die CONNED by their demonic hatred for US freely communicated. How do I know this? I made the effort of making the phone calls.

"Al-Qaida" = "General Mahmoud Ahmad"

Defend freedom, and the FBI, by demanding Coast to Coast radio hosts allow free communications, absent their personal contempt for preserving freedom to be our America. US Attorneys don't serve "the pleasure of the president", they
serve freedom lovers dedicated to defending America from
willful criminality. But, americans are too stupidly weak to
demand Coast to Coast hosts allow open communications on
America's highest of concerns. Bushite america would rather,
in silence, thieve from God as our Humanity, than serve the
protections of Justice as ourselves.

/ / According to the Islamic understanding of power, the Mujahideen don't compete for the positions in the leadership. \ \

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically.

Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

in defending Liberty, campaign JUST that? Why not??? Is it
because they're LIARS?

Like Coast to Coast's fun guy, he ain't taking our screams,
George "pro Arab child Killer" Norry??

Rapists and torturers must not be allowed to rule our pirated
authority through defending the further 'escape' of the
bushmob for 911.

/ / As a result, the Defense Department put up a Web site in
2005 designed to clarify [to the dumfuk bushite demon liars]
that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of
bushite rapists though, so has worked to deny Justice for
female grunts by denying all requests to the 'Pentagon' from
American Police Departments. [and you thought he was fired!]
Why? because, they, the very weakest intellectually of
America's - do what they're told teen kids, ALL don't have
rights anyone in bushite corporate america is willingly strong
enough as a dedicated Leader to speak in demanding defense of,
for innocence.. Why? because they soullessly advocate
continuing bushite war crimes for a stolen dollar. Stuck that
way apparently. Support my rise to speaking publicly for open
challenge on the rights and privileges of all concerned
parties. Rapists and torturers must not be allowed to rule
our pirated authority through defending the further 'escape'

of the bushmob for 911. I would like to form a global posse of sleuthers to identify on international open line radio, all guilty INDIVIDUAL parties by evidenced conclusion on our highest of priority issues, and get started with the nothing to hide from anyone global arrests, with PUBLIC court proceedings, done all for our public interest as the refusing to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush: "If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win." http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq

indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW

eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny

Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a candid interview on Bush's deeper than ever political thoughts about the war, up front, and personal. Surely, an historical event such as this, with the revelations contained in his own shockingly powerful words, while granting a stage in Johnny Wizard's World, is frankly, beyond the pale, quite shocking in perspective I'm sure I would state again. I feel confident Bush's surprising candor on life's humbling higher meaning wont make the crazies 'out there' any more less right per say. As for the barely living of you passing travelers to our dying Realm.... be ready to be taken on a journey of such profound discovery, with a wit never before witnessed from President Bush!, all about the cruel hardships Americans continue to endure without guidance through effective leadership. Without evidence to form his guilty verdicts. That orders the murder of the innocent with. I kid you NOT. Hey? maybe the Son of Man doesn't have to wipe out the entire human race after all.. With Bush co-operating now, I personally believe, no, I know, we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of Humanity to be gloriously publicly executed to defend the innocent lives, they once again, have indiscriminately murdered in Afghanistan without a sliver of evidence, but for to say, some dumfuk had a 'rumor' that a single individual SUSPECTED to be an anti-heroin pro-child defending Taliban supporter, granted the bombers of NATO to wipe out an entire village MURDERED indiscriminately by the TRUE demonic enemies of LIFE. Please, if you must forsake me in your personal cowardice and self loathing, don't forsake GOD and America by not killing with PRIDE, these bushite dumfuks of NATO the first chances you get. Love liberty as if it were your own, and kill a lawlessly murderous bushite nazi savage for your

love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was
told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book
is out there? Don't miss out on picking up a copy for
yourself, or your loved ones. And did you know, I'm trying to
get on international radio without a censor to thunder my
audience back into submission. I HATE HANNITY. All I want is
free open debate to resolve this crisis, that doesn't have to
be so ruining our dying worlds without questions forwarded by
the dumfuks. Justice is Paramount through reason to be so.
The Bush Administration have been up to no good, escaping for
911, that New York City should sue for. Hire me on as legal
consultant buddies, cause I'm like near starving broke here,
with supreme court challenges failing my cost factor, and
hunger pangs slowing our progress on fighting unjust
incarceration. I desperately need money, like now, as a gift,
or an advance on a industry paid private consultant gig. Or,
instead, maybe you'll idly watch some innocent person
willfully be sent to prison by liars in your demonized name,
to defend the ungodly evils of war criminal traitor, our Mr.
Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even
time, and Justice is binding to defend our lives if practiced
fairly with it's elemental divisions through reason. Example:
a person accused of a criminal offence, without any evidence,
is INNOCENT. Those who say otherwise, are the actual
terror-ists. Civilization's ancient Founder Hammurabi,
suggested just to openly publicly have executed those who lay
capital allegations without any evidence, while working to
close outstanding criminal investigations. A made CRIME
within ourselves Hammurabi claimed, and by thinking such ways,
brought birth of 'Civilized' to an untamed till then, chaotic
confusion. Old becomes again anew, because Americans are weak
as polluted, and too cowardly to defend the rights of US
innocent. Let's change that. Support my climb to
international controversy, with my unchallenged claims of
direct accountability being sought, for the 911's neocon war
terror plot.

P.S. someone tell Hannity, I got a beef with
his demon lies to sacrifice our guys. I'm calling
Hannity out to explain himself freely to US now,
as a demand for an immediate match between him and
ourselves in the dug pit of his utter contempt for
our free to be alive communications.

'A military judge ruled last week that Watada cannot base his
defense on the war's legality.'

Telling US what?, that it is a crime to not commit a crime?
It isn't only high treason against America the ungodly bushite
are guilty of, but of a madness held by those truly Satanic..

/ / 'Why are you taking pictures? You don't have permission."'
[...] the [bush whore] American, speaking through a translator,
warned him that he did not want to see any AP photos published
anywhere.\ \

No bushite was found gloriously killed for country, yet, they,
the godless bushite enemy, continued to shoot innocent People
indiscriminately for a distance of six miles, while likely,
secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent
un-armed Afghans were counted as murdered deliberately, by
those who believe our Mankind, can not ever find themselves
accountable, without zionist controlled, corporate news
permission. See? The military counts mankind as zionist, but
I am a man of real men, committed to defend our world from all
enemies, foreign, or domestic. Unlike a bushite traitor to God
and America, who's word, as Oath, means as much to them, as we
do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead
for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from
murder, (the innocent whom any pro-bush corporate professional
hold in total self contempt,) you save REAL peoples lives, and
you defend God's good name to love God as ourselves committed
to true Liberty. Bushites are enemies of freedom, enemies of
God, and worthy of death, before allowed to further bomb
people indiscriminately like the commanders of NATO order day
after day without risking instant frag because, bushites are
blind cowardly thieving nazi fascist savages, brain damaged,
who believe as satanic demon whores of Molech, they can con
all of US including me forever, just like dare dubya. Dumfuks.

God is Great!

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the government building destroyed by the Oklahoma bomb has called for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest of those who told America the victim committed suicide, when clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Get it done brother.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly advocates the rape and murder of the innocent in Iraq to thieve from for the 'escaping' neocons, (as the truly UNGODLY,) stated these words about why American Soldiers continue to lawlessly DIE sacrificed for no better good or reason understood, as total willing dumfuks under deep hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually, public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American

teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

-

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite

bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W.

Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to

death for treasons against Your Life dying teen soldier,
wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America

children, help me my loves. Please don't allow the bushmob to
escape for the treasons against America on 911, for, bushites

are OPENLY traitors, as the TRUE enemies of evidenced Justice, as the Freedom to do our own things loving God on our own. Besides, most bushites aren't even registered American citizens. Bushites need to be hunted down for destruction - by the Loyal Christian American Patriot Soldier, the ones who war to win against those who torture US innocent to death as the ungodly Satanic LIAR enemies. Save the Humans, kill a bushite false accusing traitor of American Freedom To-day, and become a real Man in the presence of Johnny America, an actual Man of Men, Lord of Lords, and King of Kings.

McCain is insane
http://www.codemonkeyramblings.com/2007/02/they_say_that_insanity_is.php

/ / The proposal, which Sen. John McCain is planning to introduce on Wednesday, also would require ISPs and perhaps [!?!] some Web sites to alert the government of any illegal images of real or "cartoon" minors. Failure to do would be punished by criminal penalties including fines of up to $300,000. [...]

What images must be reported? Illegal images of minors, which includes clothed teens in "lascivious" poses, according to the Justice Department. Obscene "cartoons" and "drawings" also qualify. (18 USC 1466A) \ \

Alert the USER! not tyrannical leaderless dumfuk thievers, for it is the expresser who, if any, that is guilty of a determined illegal expression. In 'The' Canadian case, they, (once proud IRRATIONAL bushiter THEIVES [pro Afghan child killers determined to help the ungodly demon Bush's 'escape' for 911]), want/HAVE to put MEN is prison for beautiful pictures of girls in panties, or bubble bathtubs being. IT IS demonization. Leaving twenty year olds to look like they could be tens in a singled out of context womanly derriere, that our Jurys nations-wide, are generally, denied to perceive normally, if at all. McCain knows he is an enemy to God's children everywhere. McCain speaks NOTHING to demand the execution of hiding as 'British' soldiers who on prized video tape, beat to death young barefoot children for erotic fun, nor on mercury vaccines not banned minus "The President" in name. BANNED.

Sorry everybody, but that's the way it's gotta be for my Life to have meaning terms.] Long story short: Females Rule, and wiseguy Johnny is Freedom King for this moment Being.

Please help God.

We have to overhaul how all our national news Podcasts are assimilated through corporate nazi zionist censorship. Art Bell and George Norry are enemies to ALL american teen troops

put in harms way to die as bad guy irrationally for the neocon God betrayers. Why? because they purposefully lie to have YOU die as innocent murder victim. Death to the bushite, death to God's enemies.

Be a friend if not an enemy,
Your buddy,

King Johnny

Well, gee, Iran has no nuke program, in anyway, shape, or form, but Israel wants to murder more of humanity for their ungodly lies anyway. The enriched uranium Iran is making, can not be used for a bomb because it's only enriched to 2 percent, and to get the bomb making stuff, you need a COMPLETELY different technology. But science?, in bushite america? Nazi America would rather be nazi chauvinist pigs, before admitting the Son of Man exists, or to go to the trouble of phoning someone who refuses to take our public calls for Justice. What religion is this America?, where Human life has little of no value? And Johnny's love means nothing?

How is a Zionist Jewish?, I, the King of the Jews Messiah ask my fellow brothers and sisters everywhere. How? FOUR million land mines in Lebanon a godly act is it? Jew only roads not Aparthied, nor stealing a Christian's Home I suppose..? How?

An Oath Every Soldier Swears To God With

/ / she told The Nation. "If I contribute to the Army's prosecution of Lieutenant Watada on speech-related charges, I will have colluded in suppression of speech. What could be more hostile to the ideas of a free press than that?" \ \

Again a Patriot Soldier whose only crime is that he refuses to commit a crime in Your name. Do something about it. You defend this Patriot American Citizen as if Your America depends upon it. The "Judge" who publicly forbids to hear Watada's freedom defense, an Oath every Soldier swears to God with, is a "Judge" who needs to be privately arrested for treason against YOURSELF. Support my call to demand our voices heard for Just causes, or go die silently to the grave prisonized in a military dictatorship your 'neighbor' will say quietly of, (under his bushite breath,) good riddance to caring where my pusher's overdue payment goes to??. who the kcuf are you?? ... Eiiiaaahh! Jesus kills bushite for breakfast.

- On yet another, praise be with US, Alex Jones News Podcast -

Bob Watada: "He did his own research, and he found that there was not only deception, but clearly lying by the commander. Now if YOUR boss lied to you, and put YOU out on the line, so that you can get KILLED, what would you do? You know, your certainly not going to walk out there... and this is what [Patriot] Aaron is saying, hey look Our Commander lied, and he's lying to the People. and We, the Soldiers, can not go out there and put OUR lives at risk for the oil-barons."

The Fight for Survival slog match between, Johnny 'just tying his shoes' America, and Warmonger Liar, Sean Hannity - televised World-Wide!!! With Cheerleaders, beer, pizza, and beer! YEAH WAY!!!

Who's with Me?

It has been reported that some special ops out of Britain are paying for terrorist attacks to happen in Iraq to insure more Americans give their lives in praise - as criminally sacrificed - to the demon antichrist, Our Mr. bush Jr.. All unjustly suffering because corporate news america cowardly refuse to defend freedom, by defending the truly innocent. Nor, will Coast to Coast allow me to speak on "American" radio. Let's change that. Will you make it so Commander?

Cause I'm ready.

-

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who

forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

We all know Iran has been trying to help Iraqis openly, so then, what does such willful contempt for your life grant this 'spokesman'? Or, how about when Bush stated Iranians in Iraq deserved to be murdered? (Later, the demon re-worded himself in attempt to conceal HIS true evil identity.)

Remember the Bathists actually warred to kill and won against al-CIA-duh forces that were caught hiding in Kurdish territory. Killed "bin Laden"/bushite forces! Now, bushite tell US Sunni is in kahoots with Laden. (In otherwords, Kill a cowardly enemy of Life bushite for America to defend Iraqis as a godly act.) Death to the bushite, death to our enemies.

/ / Tariq Aziz, the Christian Iraqi Deputy Prime Minister said in mid September that Baghdad had provided assistance to America's Kurdish allies, the Patriotic Union of Kurdistan (PUK), when forces supported by al Qaeda attacked them. He said, ``We gave [Jalal] Talibani [leader of the PUK] weapons and ammunition, we helped as much as we could. We are not allowed of course to go into what is called the semi-autonomous region of Kurdistan physically, but the help

we gave helped Talibani in his fight for it.'' In fact, added
Aziz, ``Talibani was among the opposition leaders who went to
Washington and spoke to Dick Cheney [US Vice-President] and
Rumsfeld. He told them what had happened, so they [US
government officials] must know.'' [Independent 9/23/02] \ \

God's Creation, who war Creation for bush's personal escape

Great words from the lawyer of the thieving bushite child killers of
Haditha

/ / "There were Harriers dropping 500lb bombs on buildings.
If they're dropping 500lb bombs without knocking on the door
first, how can you argue the troops on the ground did anything

5000lbs of radio-active toxic waste that will murder for years
more like, while after, then striking again to get the god
helpers and screaming children, then even, as in Fallujah,
going house to house to murder every one, young and old as the
truly Satanic. Just obeying lawless orders to thieve from
Humanity as bushite for neocon zionist traitors of G-D doesn't
fly in the big book. When anyone kills a bushite, all

humanity benefits truly from the defense. You defend a real suffering God by ending a soulless bushite threat against our species.

Bushite TRAITORS got rid of the ORHA plan.

Exit strategy to save the lives of dying Americans:

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt those who stole billions with ear-marks, Social Security, no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill it proudly for freedom, as an undying love for a real God and Humanity.

How Bush misled the world

/ / Once the document was declassified after the war it became
known that it contained 40 caveats - including 15 uses of
"probably", all of which had been removed from the previously
published version. Tenet further ingratiated himself by
remaining silent about the OSP. "That's totally unacceptable
for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON.
Could it be any higher? Deliberately caught misleading
whore-dumb Congress to wage his immoral neocon 'escape' with a
unjustified criminal brutality against God as all of our
Humanity. A great deal more than a million innocent people
have been victims to the 'targeted' Zionist killings of the
irrational bushite enemy. Lawless enemies to Creation,
spreading their toxic waste who thieve, rape and murder
without reprimand from corporate news america, shall, I pray
daily, die justly in vengeances by the will of a real undying
Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted
killing of innocent children is fair game in their worlds, and
as confessed, they 'got away' committing the same Satanic acts
- going house to house in fallujah murdering more than two
hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler.
Bushite corporate america, has stated in silence, the bushite
enemies of Haditha will never face public execution for such
offences, YOU apparently WILL NOT GRANT IT, too cowardly, and
in all likelihood, (like those of the Saudi Blount's third
infantry) will be allowed to walk freely down american streets
after being found guilty as politically supporting the robbing
and murder of innocent men, women, and children all because
we're rag-heads or niggers. The, deserving to die as
illiterately intolerable bushite drone soldiers HAPPILY,
WITHOUT QUESTION, co-operate with ANY lawless mercenary forces
such as south african death squad goons in finding the enemies
of themselves. Purposelessly ungodly bushite soldiers are
told they are DYING to defend Iraqis, while breaking out of
prison, mercenaries caught trying to kill innocent Iraqis for

fun and profit. While, at the same time, actually having
SLAVES from India preparing their lunches!!! And guess what?
they're coming to live bushite america as the patriots after
they get killed you're forsaken American Son or Daughter teen!
With millions of stolen American dollars to set up new
'freedom' operations.

Let US demand open radio
communications on the mathimatical facts to save our own
selves further victimhood to their personal contempt for the
true value of YOUR life. Thanks.

Death to the godless bushite, death to America's lawless enemies

DUMFUK BUSHITE ENEMY OF GOD "This is not a job in anyway shape or form, this is not a job. this is a lifestyle. and we choose this type of lifestyle."

Traitor LIAR Hannity "Knowing the danger?"

DUMFUK BUSHITE ENEMY OF GOD "Yeah."

Traitor LIAR Hannity "Well, isn't that the definition of Bravery?"

The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with

every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. Death to the godless bushite, death to America's lawless enemies.

AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN, 10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for

a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen Mahmud Ahmad sought retirement after being superseded on Monday, the truth is more shocking. Top sources confirmed here on Tuesday that the general lost his job because of the "evidence" India produced to show his links to one of the suicide bombers that wrecked the World Trade Center. The U.S. authorities sought his removal after confirming the fact that $100,000 were wired to WTC hijacker Mohammed Atta from Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of General Mahmud [Ahmad]. Senior government sources have confirmed that India contributed significantly to establishing the link between the money transfer and the role played by the dismissed ISI chief. While they did not provide details, they said that Indian inputs, including [Omar Saeed's] mobile phone number, helped the FBI in tracing and establishing the link."

8.

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911

either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

The fundamental formular Acos(B) + C is all you need to describe angular
modulation.
Changing the value of A over time determines the amplitude of an AM
modulated carrier.
Changing the value of B over time determines the amplitude of an FM
modulated carrier.
The rate of change of A or B changes the modulation frequency respectively.
C is DC, Y axis offset and has not been discussed here.

1333. Beeb suspends phone-in contests due to fake participants

I heard on the BBCR2 stream that at least one program on BBCWS was involved.

http://news.bbc.co.uk/2/hi/entertainment/6904516.stm

BBC NEWS
BBC to suspend phone competitions
The BBC is to suspend all competitions after an inquiry unearthed a fresh batch of faked phone-ins.

Serious editorial breaches were found in six shows, including Comic Relief. Director general Mark Thompson said the incidents were "totally unacceptable".

Mr Thompson has outlined a "zero tolerance" approach to any future lapses in editorial judgement.

He also ordered an independent inquiry into footage that wrongly implied the Queen walked out of a photo session.

All phone-related competitions on BBC TV and radio will cease from midnight on Wednesday, while interactive and online competitions will be taken down as soon as possible.

Director general Mark Thompson said he would not resign
Asked about refunds for callers to the faked competitions, Mr Thompson told BBC News 24: "If there is a way of recompensing then we will do it."

The BBC Trust said it was "deeply concerned that significant failures of control and compliance within the BBC have compromised the BBC's values of accuracy and honesty".

'No excuse'

BBC One's Sports Relief in July 2006, Comic Relief in March 2007, Children In Need on BBC Scotland in November 2005, The Liz Kershaw Show on BBC 6 Music and CBBC programme TMi were all found to have breached editorial standards.

Mr Thompson said: "It is right that we are open with the public when we have fallen short and that we demonstrate that we take this very seriously indeed," he added.

"There is no excuse for deception. I know the idea of deceiving the public would simply never occur to most people in the BBC.

NEW BBC MEASURES
All competitions suspended
All staff to be trained on safeguarding trust
Independent inquiry into the Queen documentary
Commissioning from the Queen documentary production company RDF "paused"
Some editorial leaders asked to "stand back" from their duties
Contracts with staff and suppliers revised to emphasise editorial standards
Promotional materials must meet the same standards

"If you have a choice between deception and a programme going off air, let the programme go. It is far better to accept a production problem and make a clean breast to the public than to deceive," he added.

The Trust, the BBC's governing body, said: "The public has a right to expect the BBC to set the standards for editorial integrity in broadcasting and expect those in charge of the Corporation to protect the reputation of their public institution."

It added that Mr Thompson's report highlighted "further deeply disappointing evidence of insufficient understanding amongst certain staff of the standards of accuracy and honesty expected."

"We have made clear that we regard any deception or breach of faith with our audiences as being utterly unacceptable."

Other measures outlined in Mr Thompson's action plan include mandatory training for 16,500 staff.

But he denied that the issue of resignation had arisen at his meeting with the BBC Trust.

He also told BBC News 24 no offers of resignation had been received by him, nor had he sought any.

He said: "We are all utterly determined to do everything we can to fix this problem."

He has also called for a workshop involving other broadcasters to discuss issues surrounding editorial standards and training.

'In denial'

ITV's executive chairman Michael Grade, himself a former chairman of the BBC, told Newsnight that there was an "epidemic" which affected every broadcaster in the UK.

He said: "It's partly to do with casualisation of the industry, people on short-term contracts under tremendous strain, tremendous pressure. Competitive pressure is enormous."

Earlier on Wednesday, a report by media regulator Ofcom said there had been a "systemic failure" in the way TV channels had run premium rate phone services.

An inquiry found that broadcasters were "in denial" about their responsibilities to viewers and saw phone-ins as a way to generate revenue.

Last week Ofcom fined the BBC ï¿½50,000 after the children's programme Blue Peter falsified the results of a phone-in competition during a live show.

The BBC also had to apologise over the clips from a documentary about the Royal Family that implied the Queen had walked out of a portrait session with a photographer.

The programme's makers, RDF Media, subsequently admitted that it was "guilty of a serious error of judgement".

Due to happenstance I ended up with a 4G Creative Zen V Plus MP3
player and recorder. It also plays video and displays photos in the
1.25"X1.25" OLED display,
but I am not all that interested in watching movies that small.

The unit has a built microphone for use as a dictation unit. Works
well enough.

But the hidden beauty is the stereo line in!
Default is 128KPS but it can be changed to 168KPS.

I have been playing with it to get used to the odd menuing controls.
And it
does a very good job of encoding. Our next Mini-DXpedition, ok picnic
in the
woods, will use the Zen as the record device.

As a player it sounds pretty darn good. The record system has no
obvious
problems.

It has a claimed battery life of 15H and it has made it through 3 days
of work
letting me listen to my choices in music instead of the eternal
arguments
between coworkers.

Circuit City has them on close out.
The 2G unit is 79$ and the 4G unit is 99$.

I never by raffle tickets, but in a weak moment bought a set and won
2 of these little gizmos. My wife loves hers. Since I can't listen to
SW
while driving I now have "unlimited" music that I like and can avoid
the
mind numbing banality of AM or FM radio.

If you consider the number of jobs in this country that are dependent
on Wal-Mart - sales associates, general managers, ad execs, truckers -
jsut to name a few -- keeping Wal-Mart in business is good for the USA
economy regardless of what it does for other countries.

And don't bring up salaries --there are plenty of people that would be

I haven't seen the schematics of either model, but most portable SW recievers suffer from no filtering on the front end, so are susceptible to overload. A properly designed front end is expensive. Most manufacturers would rather spend the money on eye candy to make it attractive to those who don't know what they really need. This is crossposted to: news:rec.radio.shortwave where the relative merits of different SW radios are discussed.

I tend to use older, rack mounted equipment that I've restored and when I have the time, I like to design my own equipment. I only have one portable receiver, the RS DX-375, which is kept in my hurricane emergency kit. It was bought on price, alone when it was discontinued for $50, about eight or nine years ago. The power line and ignition noise is so high around here that a portable is almost useless. After the last hurricane, the nearest electricity was over 5 miles away for about two weeks, and I was picking up stations from all over the world. It reminded me of visits to my grandparent's farm back in the early '60s, when their farm was the last one on their road with electricity. They had nothing that generated noise, other that a few light switches, when they were flipped on or off. I didn't have a shortwave radio, but I could pick up AM DX from all over the country, late at night.

I had one and was quite disappointed by its image response (even in the absence of strong signal IMD, overloading, etc.). For example, WWV on 10 Mhz was equally strong on 9545 kHz. I never saw the schematic so I know nothing about its front end and evidently it is single conversion but one would have hoped for a varactor tuned preselector ;)

How is image rejection on yours?

It's completely unlikely that it doesn't have a tuned front end.
Because the whole notion of "tracking" came about when early on
it was realized that images were a bad side effect of the superheterodyne
receiver, and it they didn't set it up so the front end tuning
wasn't tuned with the same knob as the oscillator, it would be too easy
to mistune to the image.

The bad image rejection is a reflection of the low cost. Any cheap receiver
from forty years ago would likewise suffer bad image rejection. There really
is no real difference between a front end tuned with a mechanical
variable capacitor and a front end tuned with a varactor.

IN order to be cheap, such reacievers would skimp in the design. So there'd
be one or two tuned circuits before the mixer, and that wasn't enough
the higher you went in frequency with a 455KHz IF to get rid of the images.

On the other hand, a top end receiver like the HRO-60 was said to be pretty
good at image rejection, even getting up there close to 30MHz. The difference
was that it had more tuned circuits between the antenna and the mixer, so it
was far better able to reject the image.

1343. Identify unknown signal or modulation mode commonly heard in the 1960s

Greetings:

Seeking opinions on an old, commonly heard signal (AM) on HF, of some considerable power, with a very memorable sound.

This will be a bit difficult to describe and I wonder if some folks would have audio recordings of spectrum surveillance from the 1960s for an actual sample, but in lieu of that I will try to convey a sense of what it was. I had always assumed that it was photo transmissions by the wire services, but listening to modern equivalents I have doubts; it actually sounds more like the early telephone voice scrambling systems that were acoustically coupled to the handset, and which produced a continuous noise irrespective of voice level. The sound on the air was much like hearing several P51 fighters approaching at high airspeed and props not in phase; the spectral power is mostly in the range of about 200 Hz to 500 Hz with a varying heterodyne of several Hz. It had a bandwidth of at least 25 kHz (can't say more precisely due to the cheap receivers I had at the time). I don't remember the frequencies, but at the time I would have been concentrating on monitoring 3 Mhz to about 12 Mhz, and these signals were strong at all hours on perhaps a dozen different frequencies. I always regarded them as annoying QRM.

I did little SWLing from the mid '70s until somewhat recently, and of course there is nothing like this heard nowadays.

At the time, my QTH was about 25 miles from the largest National Guard training camp in the midwest and there were four USAF bases within 200 miles as well, so it could well have been some modulation mode used by the military.

I would really enjoy knowing if others remember a signal like this and knew its origins.

Michael

This is not a problem exclusive to BBC. However, it's good to see
that Auntie and The Trust take matters seriously enough to come clean
about it.

Let's hope some of this refreshing and bold public introspection
becomes contagious.

Now, if they could take the same position with some of their news

Analog cell phones should stop using FM and should start using AM at
whatever practical radio frequencies available.

Digital cell phones should stop using the compression they use and
start using monaural WMA compression with a CBR of 20 kbps or less and
a sample rate of at least 44.1 KHz. In addition, the following must
also apply:

1. In its uncompressed form, the audio must have a bit-resolution of
at least 16-bit

2. The sample-rate of the compressed and the uncompressed version of
the audio must be the same.

Oh, you want music over your cell phone? Of course that means fewer
users per MHz. Very roughly, the current 8Kbits/sec encoding rate,
compared to your 44Kbit/sec, will only handle about 1/5th the number
of users. So, your cell phone bill goes up about 5 times. Of course
you don't mind because you'll have hi-fi oozing out of your phone. You
might want to research variable rate codecs, such as EVRC.

>1. In its uncompressed form, the audio must have a bit-resolution of
>at least 16-bit

The encoding resolution is not changed by compression. If you encode
something with 16 bit resolution, and compress it, you still have 16
bit data coming out. It's the data rate or thruput that changes with
compression.

>2. The sample-rate of the compressed and the uncompressed version of
>the audio must be the same.

Not possible. If the rate in and rate out are identical, then there's
no compression happening.

At least you're consistent. You got everything wrong, again.

1358. ICF-7600D Power Problem

I just acquired an ICF-7600D that has been sitting in a kitchen cabinet for about twenty years. After removing the dust, dirt and crud it doesn't look to bad for
wear and tear over the years. There was some minor corrosion in the battery compartment but cleaned easily and the contacts are ok now.

Problem: When the radio comes to life it operates very well. Memories are stored and the clock works well. However when it is turned off it refuses to power up again. No clock display and no response from the power switch. All of the batteries are new and have been checked for proper voltages. DC converter showing proper voltage and didn't work either.

Any suggestions you may have to make needed repairs would be greatly appreciated. I like this little rig and hope to use it for a few more years. I have a SW-100 and it has given me very good service for ten years now. I really enjoy this group and have found many interesting comments and ideas for the hobby.

Thanks,
Rick

Darn:
I was just getting used to your purposed long-wave cell phone.
The approximately mile long antennas would drastically cut down on
people trying to drive and talk at the same time, just think how many
lives that could be saved.
Oh well, I just wait for it to appear along with my Matel Hover board
and "Mr Fusion" reactor for my Delorean.

1360. Hi Hi Hi.....ARE YOU Searching for Happiness ?

Allow me to share with you here some information about happiness. Happiness is a common goal that everyone strives to attain. Philosophers, intellectuals, doctors and artists alike have all strived in search of the causes of happiness and ways to escape anxiety.

The reality is, however, that the proposed solutions achieve only partial or superficial happiness. They are more or less like drugs which only provide temporary relief; when their effect wares off, anxieties return two fold.

The following words invite you to ultimate happiness and will lead you to true success. But before you begin reading, I hope that you to take a moment to try to open your heart and mind - as the intelligent one is he who searches for the truth no matter where it lies.

An undeniable reality is that permanent happiness cannot be achieved except by believing in God - The Creator - and following His guidance. Since it is He who created mankind, He is the one who knows what pleases and benefits them, just as he knows what saddens and harms them. A number of psychologists have affirmed that only a religious person lives with true content and serenity. So if believing in God leads to ultimate happiness, then how can this be achieved?

There are numerous religions and a variety of creeds. However, their critical differences in core issues make it impossible for all of them to be correct. So which is the correct religion? What is the correct creed that God requires us to believe in and in the end pleases Him? And which one of these creeds guarantees us happiness in this life and in the hereafter?

Before answering these questions, a criterion must first be established to be used as a basis for correctly determining the true religion. I firmly believe that all sensible people will agree that a religion is not deemed correct simply due to the fact that one was raised in that religion, had parents that adhered to it, or lived in a society that practiced it. Rather a religion's accuracy and authenticity are based upon substantial evidence and firm intellectual proofs. Intellect, the distinguishing factor between mankind and animals, must be applied when studying the issue of religion, which is undeniably the most important and gravest of all matters.

A short journey into the world of religions and sifting through various creeds could prove to be a good method in arriving at the desired conclusion. In order to save you the time and effort, I say with full conviction and confidence that no matter how much you

investigate this issue, you will only arrive at one reality: that the true and correct religion is Islam and that true happiness and content lies within it.

Before you hastily rebut this statement and stop reading, please realize that completing the rest would not harm you at all, and it may in fact benefit you. Also, remember that you have an intellect by which you can distinguish things and determine truth from falsehood.

Why Islam?

This is an important question, indicating that the questioner is mature and enlightened. In response I say:

Islam is a religion that includes a number of merits and characteristics that are absent from other religions. These characteristics, alone, serve as convincing evidence that Islam is the true religion of God. You can determine the authenticity of this statement by contemplating them.

Islam's many merits and characteristics make it impossible to elaborate on all of them. However, some of the most important can be summarized as follows:

1. Amongst the greatest merits of Islam is that it fulfills the spiritual aspects of the human being and enables those who embrace it to have an ongoing connection with God. This makes it possible for them to be at ease spiritually. It shields them from chaos, being lost or feeling (spiritually) empty, and protects from mental instability.

2. Another of Islam's merits is that it coincides totally with common sense. All of the Islamic legislation and its rulings are acceptable intellectually and are never contradictory. One man who embraced Islam was asked why he did so and replied, "Islam never ordered me to do anything that I later wished wasn't obligated, and it never forbade me from anything that I later wished wasn't forbidden."
Much of what is readily accepted in other religions causes great confusion. This confusion makes it difficult to believe many of the fundamental tenets/doctrines that these religions are based upon. On the other hand, we find that Islam respects the intellect, prohibits ignorance, and condemns blind following.

3. Islam is an all-inclusive way of life attending to both spiritual and physical needs. Practicing Islam does not mean that one has to be secluded or that he is prohibited from the finer things in life. Rather, according to Islam, a person can be religious and still enjoy a normal life - attaining prestigious ranks/positions and achieving the highest academic degrees.

4. Among the merits of Islam is that it is a comprehensive religion. Every aspect of a person's life is managed by Islam. There is not a problem except that a solution for it lies in Islam, which makes it possible to embrace and practice in every time and place. How can this

not be the case in such a well organized religion that has guidelines and positive instruction for every aspect of life including: conflict resolution, buying and selling, social and marital relations, greetings, public etiquettes, and even how a person eats, sleeps and dresses. These practices have not been addressed generally, but rather in precise detail, causing the mind to wonder in amazement. Know that Islam even provides direction on how to wear and remove footwear. It encourages people to use their right hand when eating, drinking, shaking hands, and when giving and receiving items. As for disliked affairs such as using the bathroom, the left hand is to be used. Islam also has wonderful instructions regarding going to sleep and waking up. When two Muslims meet, Islam directs them on how they should greet each other; a rider should initiate greeting the pedestrian, the youth should initiate greeting the elderly, and a small group should initiate greeting a larger group. These are but a few of Islam's many comprehensive guidelines for all aspects of life.

5. Another of Islam's merits is that it establishes good for mankind in all its regulations and safeguards them from evil. It is man himself who benefits from these regulations. Islam's prohibition of alcohol and drugs for example is only because of the great harm they cause to a person's physical and mental health. You can witness the state of a drunken man, no longer human except in appearance. A lot of murders, disputes, traffic accidents and rapes would not have taken place were it not for consuming these mind-altering products. Islam's prohibition of premarital sex relieves societies of destructive diseases (such as AIDS and other STDs), immoral behavior, and the existence of a generation of illegitimate children. This generation is often deprived of a mother's love and a father's upbringing which can lead them to become burdensome on society. Islam prohibits women from displaying themselves publicly. This is because Islam considers women to be valued, preserved pearls; not some cheap merchandise to be displayed for all to see. It does so to protect them from the wolves of mankind - those who are only concerned with satisfying their lusts, even if it is at the cost of a woman's honor, nobility, status, and purity.
On the other hand, Islam permits all harmless and beneficial drinks. It also permits married couples to enjoy one another within a happy home.
In summary, Islam has not eliminated freedoms and desires. Rather, it regulates them for the benefit of mankind and the society at large.

6. A radiant aspect of Islam is that it pays a great deal of attention to values, character, and praiseworthy manners, while prohibiting mankind from oppression, transgression and bad character. Islam is a religion of love, unity and mercy. It defines an individual's relationship with his parents, relatives, neighbors, friends and all people. Islam embeds the best of manners in those who embrace it and prevents them from living selfishly. It encourages its followers to help others and take others' feelings into consideration - especially the poor, orphans, elderly and widows. They all have rights in Islam

that must not be taken lightly by Muslims. Muslims shouldn't feel like they are bestowing favors upon others when giving them their due rights, rather these rights are obligations upon Muslims. It is considered to be a great sin in Islam for one to go to sleep with a full stomach knowing that his neighbor is hungry.
Islam even prohibits two people from whispering to each other in the presence of a third, taking his feelings into consideration. Islam goes even further than that, obligating kind treatment to animals and prohibiting harming them. More specifically, Islam prohibits slaughtering an animal while another watches, or sharpening a knife while it is watching, so that it is not tormented along with being slaughtered.
Truthfulness, trustworthiness, bravery, generosity, humility, abiding by promises, visiting the sick, attending funerals, being dutiful to parents, visiting relatives and neighbors, and striving to help others are all etiquettes that are encouraged by Islam.
On the other hand, Islam strictly prohibits oppression, lying, conceitedness, envy, and insulting or betraying others. It is impermissible in Islam to speak ill of a person in his absence, even if what is being said is true. Islam encourages people to moderate in spending, being neither excessive nor misers.
During times when a lot of societies complain about cold heartedness, materialism, selfishness and so on, we find that Islam has proven remedies for all of these problems.

This summarized introduction should make it clear that Islam is a logical religion that can be easily understood by all people. The doors to Islam are wide open and do not shut for anyone looking to enter.

Understanding all of Islam's teachings in a short article is impossible. However, briefly discussing some of its fundamental tenets should assist in further clarifying the religion for those who are interested.

All of Islam's regulations and teachings are important, but some have precedence over others. There are six essential articles of faith that one must believe in, and five pillars that one's faith must be built upon.

As for the six articles that must be believed in:

1. Believing in Allah (God) alone, associating no partners unto Him in worship. This is done by believing that Allah alone is the Creator of this universe and everything that is within it, and that it is He alone who disposes its affairs as He sees fit. Consequently, worship can only be offered to Him alone. Worship is implementing the teachings of Islam and its legislation while believing that all other religions are false.

2. Believing in the angels. Angels were created by Allah but we can not see them. They worship Allah and never disobey Him. Allah orders

them to carry out many of the universe's affairs. The angel Gabriel, for example, (peace be upon him) delivers Allah's revelation to the messengers. Another is Mikayeel (peace be upon him), who is entrusted with the affairs of rain. Still there are other angels responsible for writing the deeds of mankind - deeds which they will be held accountable for on the Day of Resurrection. It is essential to believe that all of the angels act solely upon the order of Allah and do only what He wills.

3. Believing in the Books of Revelation. This means to believe that Allah revealed books to His servants comprising of His words. These books contain bliss for mankind by clarifying what Allah is pleased with as well as what He dislikes. The Angel charged with delivering revelation to the Prophets is Gabriel (peace be upon him) - the greatest of angels. A prophet then conveys the revelation to the rest of mankind.
Allah has revealed many books, amongst them: The Torah, revealed to Moses (peace be upon him), The Psalms, revealed to David (peace be upon him), The Gospel, sent down to Jesus (peace be upon him) and the Quran, which was revealed to Muhammad (peace be upon him).
One must believe that the Quran has abrogated all books prior to it, meaning that - after the Prophet (Muhammad) was sent - it is the only book that can be acted upon, especially since the Quran combines all the merits of past books and further supplements them.
Know that the Quran is from the greatest evidences that this religion is the truth revealed by Allah (God) the Most High. The Quran was revealed over 1400 years ago. Since then till this day, no contradictions or mistakes have been found in the Quran, not even in a single word. Many of the scientific discoveries of modern times were mentioned in the Quran. Since that time until today, nothing has been added to or subtracted from the Quran, while previous revelations have been tampered with and altered.
It is for this reason that you can pick up a copy of the Quran in the far East and find it to be exactly the same as one you pick up in the far West. If you were to come across a copy of the Quran that is hundreds of years old, you would also find that it is exactly the same as the one being printed currently - you wouldn't be able to find even one letter that is different. This is because of Allah's protection of this Book, the Book of the religion that sealed all other religions.
Speaking about the Quran would take a lot of time. However, it is enough for you to know that there is nothing like it whatsoever; not by way of (literary) style, its effect on people, nor its information about the unseen.

4. Believing in the Prophets. This is done by believing that Allah has chosen the best of mankind to be recipients of His revelation and ordered them to convey His religion to the people. There are numerous Prophets, among them are: Noah, Abraham, David, Solomon, Lot, Joseph, Moses and others (peace be upon all of them). Also from them is Jesus. It is imperative to believe that he is among the best of Prophets and to love and respect him. Whoever despises him or denies his

prophethood is not Muslim. Likewise it is compulsory to believe that Allah created him from a mother only, with no father, just as Allah created Adam with neither a mother nor a father.
Having mentioned this, we now know that Jesus is a noble messenger and not God, nor is he a son of God. He foretold the coming of a prophet to come after him; Muhammad ibn (the son of) Abdullah, the last of the prophets.
Muhammad ibn Abdullah (peace be upon him) was sent 1400 years ago. It is compulsory for everyone who comes after him until the Day of Judgment to believe in him and his message, and obey his orders and prohibitions.
All those who studied the biography of this messenger have agreed that he is a great personality who has been bestowed with the best of manners and most noble etiquettes. He had characteristics which were not present in anyone before him and will not be present in anyone after him. Anything that you read about him, no matter how small it is, confirms what I am saying.
Allah has also granted him proofs and evidences that establish the authenticity of his prophethood, thus having doubt in this fact is intellectually impossible. Having been given such proofs and evidences of his prophethood, whoever denies his truthfulness, would make it impossible for that individual to establish the truthfulness of any other prophet.

5. The Last Day. This is fulfilled firmly believing that after this life of ours is over, there is another more complete life. In it, there are immense rewards and magnificent luxuries, as well as punishment. Luxury is in Heaven and punishment in Hell. So whoever is righteous and believes in the religion of Islam enters Heaven, a place that contains untold pleasure and unimagined bliss. All the luxuries on earth cannot be compared to it at all. Whoever enters Heaven will continue to live in such luxuries for eternity as death does not exist therein.
As for those who act upon evil and do not believe in Islam, they would end up in Hell, which contains fires and punishment that can not be imagined, all of the fires of earth and forms of punishment cannot be compared to the punishment of the hellfire at all.
The existence of punishment and reward after this life is an issue that is intellectually acknowledged, because it is impossible for this world to exist and then just diminish into nothingness. This is trifling about, and our Lord, the Creator, does not engage in such activities.

6. Believing in Divine Decree. This is to believe that everything that happens in this world is due to Allah's knowledge and will. Nothing except what He wills takes place, and what He does not will, does not take place. Allah has written everything in a great book (The Preserved Tablet). Believing in divine decree also includes believing that Allah created everything.

As for the five pillars that must be practiced:

1. Uttering a phrase that is the key to entering into Islam. It is a contract between a servant and his Lord, signifying that he is upon this religion:
"Ashhadu an la ilaha ila Allah, wa ashadu ana Muhammad 'abduhu wa rasuluhu."
"I bear witness that there is no deity worthy of worship except Allah, and that Muhammad is His servant and Messenger."
This testimony signifies the acceptance, admission, and adherence to the fact that worship must be offered to Allah alone. It also includes the acceptance of Islam as the only correct religion, Allah as the only true deity deserving worship, and that all other deities and religions are false. The second part of the testimony entails an affirmation that Muhammad is the Messenger of Allah and that he is to be obeyed and believed in all that he says.

2. The Prayer. It is a combination of statements, actions and invocations carried out in a specific manner. It is performed five times daily and doesn't take much time at all. In fact, a prayer may not take more than five minutes. Prayer is the link between a servant and his Lord. It enables a Muslim to be confident, mentally and spiritually at rest, calm and untroubled.

3. The Zakaat. A wealthy Muslim must give a small portion of his money to the poor, 2.5% of his wealth to be exact. Even though it is a small amount, it enables the Muslim community to be conciliated and merciful amongst each other. It propagates brotherhood, love and concern amongst Muslims. And again, Zakaat is only to be given out by the wealthy, not the poor.

4. Fasting. What is meant by fasting is that a person withholds from eating, drinking and sexual relations during the month of Ramadan [which is the 9th month of the lunar calendar] between dawn and sunset. The sick, travelers, and those with valid excuses are pardoned from fasting. They are permitted to eat and drink but must make up the missed days once they become able.
Fasting has many health, personal, and social benefits. Amongst them are: giving the digestive system a break, allowing Muslims to grow spiritually and practice good mannerisms. It enables Muslims to be conscious of their needy brothers and sisters, those who are unable to find enough food to satisfy their needs throughout the year. Consequently, the Muslims humble themselves and strive to help them.

5. Hajj. It is a form of worship that must be performed only once in a lifetime, in Makkah. Those who are physically incapable or not financially able to perform it are pardoned from doing so.
Hajj contains many magnificent benefits; the gathering of Muslims from all around the globe in one place getting to know each other and displaying love for one another, not to mention what a Muslim achieves by way of spiritual purification and character refinement due to experiencing such a spiritual environment in the shade of Hajj.

Hopefully what has preceded is sufficient in clarifying - in a summarized fashion - some of the merits of Islam. I invite all who

have not yet entered into the fold of Islam to listen to a sincere invitation from one who only wants good for you: save yourself before death takes you by surprise, and thus you die upon other than Islam - what a great loss that is!

Do you know what dying upon other than Islam means? It means that you would enter the Hellfire, abiding therein for eternity. This is what Allah has warned all those who die without embracing Islam. So why would you take a chance with an issue as grave as this?

I'm going to ask you a question that I want you to answer honestly: What would you lose if you embraced Islam?

If you embrace Islam, you can continue living your normal ordinary life, but in a more spiritual, organized, and pleasant fashion...and after death, tremendous delight and eternal pleasure await you.
If you have reached a level of conviction, believing that Islam is the true religion, but fear that embracing Islam would prevent you from enjoying pleasures that you cannot live without, then compare these temporary pleasures with eternal pleasure. Which of the two should be given preference?
Furthermore, you can embrace Islam and then gradually try to reduce such pleasures. And if you were to honestly invoke Allah, He would surely aid you in leaving them. In any case, embracing Islam and having shortcomings is better than not embracing Islam at all.
If the barrier between you and Islam is due to having a weak personality, the inability to make such a big decision, or because you fear that people may talk about you or mock you, know that these are just unrealistic thoughts. You would not be the first person to embrace Islam; a lot of others have made the decision to do so. They did not lose anything, their lives were not ruined, nor do they have any regrets. Furthermore, does it make sense that you sacrifice your own well being and happiness in this life and in the hereafter just because you fear mockery or admonishment?
This affair is worthy of your time. Contemplate upon it deeply.
My last words: Do not lose yourself! I ask Allah to bless you with true guidance.
One who wishes only the best for you,

That idea was touted and attempted over twenty years ago. Back when cellphone handsets were better described as concrete blocks instead of bricks.

Gosh...I miss my 70 watt Micors and darn near crystal clear audio on IMTS systems with 30 mile range. But that was thirty years ago.

I can't imagine an I.F.Stone quote here. There is intelligence on the
net. Now try using that name to sign on G.Gordon Liddy's web site. Or
better still do a call in and use that name.
I remember that David Eisenhower would not attend his graduation because

I know exactly what you are talking about. One of the first things I remember hearing on shortwave radio was that type of signal -- my first thought was that I was hearing airplanes.

So far I can't find a reference, but as I recall it was a type of multiplexed teleprinter transmission (maybe also incorporating voice circuits) -- "something-plex?."

The Medical Community's Cheap Trick

A cheap trick played on medical doctors and students, untill they meet up with a human cadaver, is the cheap trick or lie that is perpetrated by the medical establishment on students of the medical profession.

How students of the medical profession stay quiet, after learning the truth, I do not know. It is a matter for each doctor to reflect upon, and for each medical student to reflect upon, and come to a reasonable answer for him self or for herself.

In other words, are they going to tell the truth or not. It recently came to my attention that the medical community is foisting, or purposely telling a lie to the public, with regards to the internal organs of the human body.

In particular, a stomach is not made up of twisting, turning, guts, or intestines, that go to one side and then downwards, and then side ways, and so forth, as depicted in this particular picture, of the so-called large and small intestines.

Please see, "Anatomy of the Large And Small Intestines"

http://medpics.findlaw.com/generateexhibit.php?ID=1696&ExhibitKeywordsRaw=Anatomy+of+the+Colon+(Large+Intestine)&TL=1889&A=42409

A similar faked drawing of the tummy tube, or shank, the descending colon tube, which is titled "intestines", along with a faked stomach drawing, by the Lesbianists and their bogus 'medical' establishment, can be found at:

http://medpics.findlaw.com/generateexhibit.php?ID=23&ExhibitKeywordsRaw=stomach&TL=1825&A=42409

Another bogus drawing of the abdomen and the supposed 'intestines', can be found at,

http://medpics.findlaw.com/generateexhibit.php?ID=13860&ExhibitKeywordsRaw=&TL=4294967295&A=42409

These pictures, and all other pictures like it, are totally bogus. There are no guts, bending and twisting to one direction, and then to another direction, that eventually find an outlet at the poop hole in the human body.

Chimps, apes, and monkeys may have these types of stomach 'tripe' that is longish, twisting to one side or to another, going back and forth, and then wrapping or folding down under other tummy tubes, and then twisting in and then moving outwardsly, as chimps, apes, and monkeyes live on banana foilage, twigs, seeds, hard shells, and other difficult to eat, hard, rubbery, plant roughage, of one kind, or of another. Some oselots may have this kind of tubeing, and so may many other animals, but not the human being.

In the human being, there is in reality, no such guts or tripe tubeing, and there is what is called a 'shank'. A shank is the human being's tummy tube, or the desceding colon tube.

Your tummy tube descends from the front right side of the tummy, in the near to upper to middle to near lower area or section of your tummy, depending on the person. Some people, may have their tummy tube, the ejector pipe, also called the descending pipe, a little higher up, than other people. Some people may have their ejector pipe a little lower than other people. That is not significant.

The muscles inside of the tummy, and surrounding the tummy, cause a pushing motion, to eject the tummy food, that has made its way to the back side of the inside of the tummy, and to the lower or middle area, near the eject pipe, on the inside of the tummy. Once your tummy food makes it there, the muscles begin to squeeze on it, and the muscles on the inside and on the outside, squeeze on it, and force it up and out of the ejector pipe, and down a chute, or the descension colon pipe.

The descension colon pipe goes in a nearly straight line, almost perfectly straight, in some people, directly to the out put terminal, which is the poop hole.

The intake for food and beverages from your lips, mouth, to your throat, or food pipe to connect your mouth to the tummy, that connector location is on the top side of the tummy, on the left side

of your tummy, as you face forward. There is a tiny amount of terminal area, that's your stomach area, that is the terminal area, on the top side of the tummy, that is to the immediate left of the intake tube terminal entry way, itself. That means, there is a descending tube from your mouth to your stomach, and it connectes to the left side of your stomach, not all the way to the left, but nearly all the way to the left side of the stomach, but on the top, generally, and in some people's cases, it is a little down, from the top, less than an inch or two from the top.

So the intake tube from your mouth sort of goes in to your tummy, from the front of the tummy, a little lower than from the top side edge of your tummy. The top edge of your tummy is located just about at the same height as your titty nipples are located on the chest. The little inwardsly pointing, dimple, in the middle of your chest, a very large dimple, just above where the rib cage begins to open up and spread apart and where the tummy muscle cavity can be felt, that dimple, or inwardsly pointing cavature, or the caving inwardsly of the chest bones in that area, some times slightly below, sometimes slightly above that point, is where the tummy's top edge is found. The tummy's top edge runs horizontally, more or less, across from one side to the other. It does descend at the outer edges of the tummy, to form a pouch system.

A bogus drawing of the Lesbianists' pretend 'esophagus' for all the med school students to ponder over, and of a pretend tummy, which has the connections on the back side, where they are not located, but on the front side, where they are located, can be found at,

http://medpics.findlaw.com/generateexhibit.php?ID=4599&ExhibitKeywordsRaw=esophagus&TL=1825&A=42409

The tummy does not look like a cashew peanut, like in the drawing. It is a pouch, and it is more oval in shape, kind of like a box, but a little long or rectangular, some may say it is similar in shape to a peanut, or to a raisin, or to a plumb, and it runs lengthwise from one side to the other, with the narrow part of the oval running horizontally. It is nearly a perfect, very slightly long, oval in shape.

The descending colon pipe, your tummy tube, which goes nearly in a straight and almost perfectly vertical, in many cases, direction, to your poop hole, from the ejection outlet port of your tummy, which is on the front side of the tummy, on the front right side, as mentioned above is very long, and in some women, the tummy rests slightly higher up, a tiny bit, to allow for a longer 'shank', or sexaling tube.

What Is The Shank?

The shank, if we look at the opening and entrance to the shank, the butt hole entrance, the shank is a multiple duty, instrument. It is a nearly straight tube, and it allows food to exhaust from the tummy

pouch. It also allows a dick to be placed up into it from the rear upwards, and a dick can be very long, in some cases, and there for, the tummy tube, or shank, is very long, and also, importantly, it is generally straight in most women and girls and in lots of men and boys.

Discoloration Of Sexaling Organs

If we look at the dick, or if we look at the scrotum, we will see it is a darker, slightly discolored body instrument. The vagina is slightly discolored, and so are the titty nipples. So are the lips, the inside of the mouth, the throat inside, and in various other places, depending on the person. The palms of the hands, the undersides of the fingers, the soles of the feet, the toes, the ears, the cheeks, and the underarms of people are all discolored to one extend or another. The discoloration is an indicator of the fact that these sense organs, or love making instruments, are major sexaling instruments. The other organs of the body, are minor sexaling instruments. All of them, are sexaling instruments when you activate them, by massaging them, and by rubbing them, and so forth, and they will begin to shoot off energies, and those energies will purify and holyfy your life and clear up your karma and the karma of the people around you as those energies will shoot out in all directions cleaning up my universe, as they go zinging outwards. The energies will erase your karma, over time, and if you pray with a prayerful minded statement in mind, while sexaling, your karma that is related to that prayer, that needs to be erased, will get erased, little by little. For examply, "I pray that I will be able to have the good health and prosperous life, that will allow me to live, comfortably, and without distress."

Sexaling And Prayer Statements

The negative karma that you have, that would prevent you from living a healthy life, that is also prosperous, and without distress, will slowly, over time, get erased, as you make your statement, every time you begin sexaling, or every time you begin a sexaling session. If your sexaling sessions are going to go for days, say, three to eight days, for instance, you might want to repeat the prayerful minded statement, every eight to twelve hours, to fifteen, to thirty, to fifty hours, or so, to 'freshen' it up, once every so often. The more you freshen it up, the better it will work. The prayer will apply to not only you, but to every one else who is sexaling, if you say, "I pray that I and every one else will be able to have the good health and prosperous life, that will allow not only myself, but all other people, as well, to live without distress." This statement is a bodhisatva minded statement, and it will produce better results. Prayer statements said with others in mind, in addition to your self, produce better results, as a general rule. Why is that? Because we want to purify not only your karma, but every one's karma, and you get extra points for thinking about every one else and their needs, as

well as your needs. Not only your self, but every person who is sexaling, during the time you are sexaling, and during the time, you continue or plan to continue sexaling, as one long sexaling session, will benefit from this prayer statement.

The Butt Hole Sexaling Organ And The Shank Sexaling Organ

The butt hole is also discolored, in all human beings, and that is an indicator that the butt hole is a sexaling organ.

The discoloration of the butt hole entrance, is an indication of the fact that the butt hole entrance is a sexaling organ. If we look inside the butt hole, we will notice that the entire length of the 'shank' is discolored, and therefore, the entire shank is a sexaling organ. Sexaling organs are different in coloration, than the normal skin coloration of the body.

The discoloration is due to the fact that there are a gazillion plus tiny blood carrier veins and arteries, that are very tiny, so tiny, you can not see them with today's 'current' medical microscope technology that is in the hospitals and labs, used by doctors, scientists, and lab technicians. These tiny blood 'capillaries' or fluid flow ductways, are too small to be seen by a doctor's microscope, or by a lab technician's microscope. These fluid flow ductways, or capillaries, are all clustered together, in high densities. When they cluster together, that is for a purpose.

They are clustered together in high densities to allow for fluids to flow to the nerves in that area of the body to feed all the mouths in the nerves of that area of the body. There are clusters of sense nerves that are extremely dense, in all the sexaling organs. Where there are high densities of sexaling nerve clusters, there are lots of fluid flow ductways, or capillaries, and the area of the skin that is visible to your eyes, will show a slight to moderate, to heavy discoloration, due to all the fluids flowing through the area, carrying food and nourishment.

Nerves

Nerves are organs in them selves. The smallest nerve organ is a nerve cell, perhaps. My memories are not very good, so we might find smaller nerve organs, as my memories improve. A nerve cell has all the organs in it, to allow it to function as a normal, living being. That means, it is alive, and it thinks, and it cogitates, or mulls over thoughts, and it considers, for instance, 'What am I going to do, now', and it has lots of thoughts, and it stays busy doing lots of thinking, and by doing lots of cogitating, and by doing lots of communicating with other nerve cell organ kids of mine.

Nerve Units As Living Beings, I.E., Creatures

Nerves, just as nerve cells, form units, and as a unit, they form a living being, or creature, and all of them have mouths, since all my

creatures have mouths, and they all need to be fed.

The sense nerves, the erotic nerves that are clustered together, need to be fed the foods and nourishment that they need to be healthy and fit, so as to be able to respond, to stimulus. They need to eat to be healthy, so that they will then be able to respond when stimulus is applied to that area of the body, where they are located.

Each organ in the body, has a brain, and a mouth, and a stomach, and a poop hole, and a pee hole, and all the other organs they need to survive with.

Some organs, maybe all of them, need to feel comforted by other organs, i.e., creatures of the same kind as they are. Some organs like to not only speak to other organs creatures who are like them, but they also like to snuggle up to one and another, and they get cozy with one and another, all snuggled up, suddenly, before any one new it, pwoop, and they make a baby organ or creature who looks like mommy and daddy.

Organ creatures of course can sexal, because if they could not, they could not make baby organ creatures. Organs can sexal just like human beings can sexal, but they sexal in their own particular ways. They like to sexal, just like human beings like to sexal, and they also go ouch, when some one or some thing pokes them, or pricks them, such as the doctors needle at the doctor's office.

Each nerve cell is built with all the organs it needs to survive, and each organ is built with all the organs it needs to survive. The number of organs in the human body is almost limitless, but not quite limitless, as you can still count them, all, if you have the time.

Brains And Notational Thoughts

Each organ is a living being, or creature, with a brain, and with notational thoughts. Notational thoughts are memo types of thoughts, such as about, 'oh, boy, that sure felt good', or 'golly, gee, I am really bored'.

One notational thought, for instance, that is of use to you, is when you are in need of water, and you begin drinking water, when you get the feeling that you need lots of water, and you get a message to your brain that you are in need for water, because you know you are low on water, and almost out of it, well, the inspirational thought that tells you, "keep drinking, keep drinking, you are too low on water" that is an inspirational thought, that your tummy and its brain is passing on to an area of your conscious mind, where you can then pick it up, and then act on it.

There are many kinds of notational thoughts organs can have and organs can pass on to our 'brains'. Organs, as living beings, also do lots of chit chat with other organs, not only with the organs inside of your own body, but also with the organs inside of the body in other

animals. Brains are brains, and they are very smart, if they are to do the duty they are assigned to do, which requires them to be smart. They are so smart, they spend a lot of their time, communicating and chatting with other organs, to see if every one is alright, and to find out what the latest gossip is. They can do many things, and that is the topic for another time. But one thing they can do is talk to each other. They have their own languages, they speak to each other with. Did you know that? I bet you didn't. If you are a Lesbianist, you may probably know this, as you probably studied about it, in your school days. Some kids, five or six years old, study these things, on planets, where education is up to the standard, that I set it at.

If we understand that brains are in every organ in the body, and some organs, have multiple brains, almost all of them do, and if we understand that they are able to communicate to each other, than we can understand that the vagina is a living being, and it has a brain, and it talks with other vaginas, in other women and in other girls. The dick has a brain, too, and it talks with other dicks, and it talks with vaginas, as well, when a vagina calls to a dick, and asks it questions.

Feeding The Organ Kiddies The Foods They Need

We need to feed the body, many foods, not only tomatoes, potatoes, asparagus, meat, and fruit, etc., but we need to feed foods to our body for feeding the organ kiddies, the organ animals, the living beings, or creatures with brains, called organ kiddies who are inside of our body.

What are we doing when we feed the body? We are supposed to be feeding not only our face, loading food in that tastes good to us, and to our sensibilities, but we are also supposed to be feeding the animals that live in side of us, as well as, we are supposed to be feeding the organ kiddies, who also need food to stay alive. We also need to be feeding all of the other animals kiddies, the living creatures of various kinds, that are living inside of our bodies. Most organ kiddies are on a starvation diet, nearly, and they survive on nearly only water. Some are lucky and get some pee and poopy juices from animals that live inside of our bodies.

Most of the organ kiddies are not lucky, and they languish, from day to day, with nothing to eat, and they hang on, and they do their best to perform for us, but in the end, they are defeated by our not feeding them, and they give out, and give up, and throw in the towel, and say, "To hell with it. I don't care anymore." and with that, they cancel their agreement to work with us, and they say good bye, and they then slowly perish, and as they do, so do we. We perish because we do not feed the organ kiddies in our bodies, and because we do not feed the cell kiddies in our bodies, and because we do not feed the amoebe kiddies in our bodies. If we feed them all, we would not die, and they would continue to live, properously, and progenerate, or give us babies, to take over the jobs of mom and pop, Sr., the first organ

kiddies in our bodies, who want to work with us, and who want to be fed, while they work for us, when mom and pop, Sr. are near the end of their run, that is their work life, and when it is time to call them in to my Epcot Centers for them, for them to get their check up, and repairs that they need, to their brains, and to their nervous systems, and to relieve them of any undue or unwholesome stresses, nervous tension, migraines, and so forth.

You might be thinking, "This is a joke", but it is not a joke. You are completely wrong if you think this is a joke. If you feed the foods that organ kiddies like to eat, to them, they will become alive with activity, and they will work hard for us, and we will feel a new sense of vitality, and we will regain our good humor, to some extent, as it is a karmic issue here, as well, having a good humor, or a pleasant personality, and when it is time for mom and pop, Sr., organ kiddies to pass on the work load to baby Mac, and baby Sarah, organ kiddies, Jr., they will pass on the work load to them, and Poppa and Momma will retire and make their way, with assistance from their kids, and with assistance from my kids, to my Epcot Centers for them.

This is a complex topic to discuss, and I won't try to discuss it in full, obviously, as I am too stupid, and my brain is not working, and I can't remember every thing about it, obviously. But, you should know, that if you feed them the molds animals, the molds fruits and gardens produce, and the funguses they like to eat, and that they enjoy eating, and the other foods that they eat, from fermented mash, made correctly, and from molded foods, and from molded breads, molded chesses, properly cooked meats, and so forth, they will feed on the animals in that food that you prepare for them, and you'll get healthy, and they'll get healthy, and they'll live for three hundred to eight hundred to fifteen hundred years, or more, depending on which ones you are talking about, and they will work for you, with zest and vigor, before it is time to hand over the work load to baby Mac, and baby Sarah, organ kiddies, Jr.

If We Were Able To Be Born With "Owner's Manuals" For Our Body And Brains

We are not born with an owner's manual for our body and brains, etc. If we were born with one, we would be told that if we feed our body properly, the body will last us forever, and we will be able to live forever. This is the norm for the human body. It is not a 'dream' or 'hope', or 'wish'. It is merely the truth, and once you learn how to feed your body, and all of the animals and creatures inside of your body, you will begin to make all the animals and creatures inside your body, happy, and they will begin to work for you, as they were intended to work for you. They are all my worker animals, and they are here to work for me. I have many worker animals, and we will learn about all of them, and we will find those who we need to help us feed our bodies properly, so that we can all live in the body that we were born in, that is meant to last you forever, if your feed it and

nourish all of the animals in it, properly.

If you do not feed my worker animals in your bodies, the nutrients, the animals and the plants animals and the foods that my worker organ animals in your bodies like to eat, that will allow my organ worker animals, and all of my other worker animals, to live with vigor and tenacity, strength and good health, they will not work very well for you, and in time, they will all perish, and so will you. I mentioned my worker animals in the molded foods, molded fruits, molded citrus fruits, fermented beverages, and so forth, that we will be making. They are all there in those foods that we will make, and then use to feed ourselves with, to then help feed all my worker organ animals, my worker cell animals, and other worker animals, that are in your body, and that need to be living in your body, working hard for you.

If you do not feed them the foods that they like to eat, they will not live for long, and they will perish, and die, and that will be that, and you will not have a chance for living more than a hundred or two or three hundred years, in that body of yours, if your karma is good, and if you were not being poisoned by the petro chemical industry, and the chemicals industries, and by the foods manufacturing industries, and by the pharmaceutical manufacturing industries. We will never hear the Lesbianists admit that they are intentionally poisoning us, but they are.

Once you find a way to survive on molded up, wholesome natural healthy foods, with no pesticides, and on water that is not chlorinated, and that is wholesome to drink, and after you learn the abc's of proper eating, to feed every one in your body, as well as you, then you will not die and you will begin to live forever.

The Lesbianists are afraid that you will learn to eat properly and then, when you begin to get your diet together, not only for your self but also for all the animals and organ kiddies in you, and for all the cell animals in you, or cell creatures, who are smart living beings, by the way, you will begin to be able to extend your longevity, and then, in time, you will be able to live forever.

If you stop drinking the poisonous coffee in the office, as I've explained about, previously, the Lesbianists make it with diesel fuels, and with gasoline, and with kerosene, if you stop smoking the poisoned cigarettes, if you stop using the plastics furniture, and other plastics products, if you stop inhaling the gasoline fumes kiddies that cause fibromyalgia, and fumes animals cause the sharp pains in the body as the fumes animals eat up and destroy the organ animals in the body discharging energies or electrical currents, as they mate, and as they sperminate, and vagicate, or eject female animal sexaling juices, like some jelly fish do, and like some deep sea snakes, and worms, that are lit up, with pulsing lights in them, when they mate, do. Fumes animals also cause arthritis, ligaments problems and diseases, and other health problems. If you stop inhaling the plastics fumes kiddies, which also give you fibromyalgia,

arthritis, etc., and kill brain cells, and cause brain rot, Alzheimer's disease, and parkinson's disease, and a number of other illnesses, and if you begin to eat properly, in accordance with the proper rules for diet, that our body and brain owner's manuals would explain about, if we were to be born with these manuals at the time of our birth, then, you will begin to get healthy, and you will begin to live forever.

So, good luck, and do not vote for Hillary Clinton, or any of the other presidential candidates, and if you see them, give them a beaver cheer, some people call it a 'Bronx cheer', and the noise you make sounds like someone farting in their direction. That may sound childish to say, but it is what the Lesbianists deserve as you are being played for a fool, every day of your life, and you should snap out of it, and do some thing about it, as soon as you and your friends can get it together to begin sexaling, in the ways I've explained about.

Duplicator Tests

In a duplicator test, there is one strand of a piece of the body, and you take that strand, and with medical and scientific technologies, you attempt to make a copy of it.

Why do they make a copy of a strand of a piece of a human or ape, monkey, dog, or cat, etc., body?

To test for various possibilities as to who the strand came from and how the strand came from the source, and what has happened to the person, if it was a person, if the person is no longer here to stand in for himself or for herself, in the case of a missing person, for instance.

What is meant by a strand of a piece of a human, etc., body. Usually, a piece of flesh is a good place to start. A clipping from a person's finger nails, can be duplicated, if the sample is tiny enough, and it can be analysed, and then compared with an original shard or piece from a person's finger nail, a known subject's finger nail, and then a match up can either be made, or not be made.

Human blood cells can be duplicated and matched. Human skin tissues can be duplicated and matched. Human organ tissues can be duplicated and matched.

These matching tests are in fact, one example of a organ animal giveing birth to a baby organ animal, or to a number of baby organ animals.

I'm not sure what they call the test, in the laboratory, but that is a duplicator test, in my vocabulary, and it should be a simple test that all county, municipal, and other police medical technical labs, forensics labs are capable of performing.

This example of a matching print from the one strand of a piece of the body, is an example of organs animals, giveing birth to baby organ animals.

Red blood corpuscles, are often tested, in this manner, I believe. A corpuscle is an organ animal, and it will give the same results, and you can make baby blood corpuscle organ animals.

A high school, or jr. high school science lab technician or teacher, or in some school labs, including jr. college science labs, and technical labs at medical technical schools, teaching assistants, should be able to perform this test as it is a simple test to learn how to perform, and even off duty police officers, are taught it, in their free time, for fun, or for advancing their career. Licensed Practicing Nurses (LPN's) generally know about this test, and so do all doctors as well as your general medical school student, and two year college, or four year college, nurses course students. Botanists know or should know this test, and there are many professions where in this test is common, such as in paleontology, the study of human remains, bones, and so forth. I don't know what people on this planet, understand a paleontologist (Note: 'paleo-entologist' I think may be the correct spelling, but I'm not sure) as, but in my vocabulary, as it is comming back to me, a paleontologist explores and investigates old bones, fossilized bones, old grave sights, and so forth.

Elementary school students, and maybe some kindergarden school students, in advanced kindergarden schools, such as in Japan, and in Europe, and in different countries around the world, can do this test, if their science lab teacher lends them the technical books, and tools to take home, study, and then show the family and parents, how a duplicator test is done. It's not a difficult test to perform, if you can read, and if you know what a beaker is, and so forth.

This will give you a start for the search for proof as to whether or not there are organ animals in the human body, and in all animal body's and in all living being's bodies. It will provide proof that organ animals, once you've identified them, can in fact give birth to baby organ animals.

There are a number of types of duplicator tests, lab technicians perform, in their day to day job routines, in medical labs, and the duplicator tests are generally for making comparisons, of one type or another, or for one reason, or another. They all give the same results, they provide you with proof that organ animals do exist in the body, and that organ animals do make babies.

Sexaling With Family And Friends

Sexaling with your family, relatives, trustable neighbors, and so on, will help you to begin to erase your karma, if you begin your wholesome, purifying, and holyfying sexaling with your family, relatives, kin, trustable neighbors, and others who are trustable. As you erase your karma, little by little, you will begin to get better

karma, and you'll begin to be able to get rid of these Lesbianists who make fools of all of you, and who toy with you, one life after another, as you go into my Epcot Center, and then come out again, as a tummy baby to a tummy mommy and to a tummy daddy, on a fairly predictable basis, meeting up with your former friends and colleagues, over time, and then going through the six, or ten, or twelve, or forteen, or sixteen, etc., years of schooling, each time you come out, to lead a very short life span, with, once again, all of your organ kiddies and other animals and living creatures in you, nearly starving to death, the whole time you are out here, with your friends, playing, golf, swimming, playing tennis, football, entertaining the Lesbianists, and so on, until it is funeral time, and then back, once more and into my Epcot Center, until a new tummy mommy and a new tummy daddy, are waiting and ready for you to come out again.

This is not a joke, I need to repeat, and you should start thinking about doing something to bring a stop to this abuse of your organ animals and other living creatures in you, and to bring a stop to the abuse of you, by the Lesbianists who will not tell you how to do any thing that is good for you and that is good for your health.

Massaging The Butt Hole And Shank

If you work massaging the butt hole for a few hours, fluids will begin to form, and the tissues of the shank, and of the butthole, will become more pliant. They will become stretchable, and they will, after a number of hours of massaging the butt hole, and the inside of the butt hole, little by little, as you insert a dick up the hole, as it gives way, and becomes more pliant, after a few hours, or so, it will soon be able to become opened up completely, and a dick can then be inserted and the shank then becomes a sexaling tube.

On the end of the dick, there is a 'pooper scooper', or head level scoop pipe. The head level scoop pipe is the peculiar shape of the dick at the tip of it. This shape allows you to insert the head of the penis into the butt hole, and then take a wee wee, and then mush up all the food that is stuck in the cavity, and after a little mushing up of the food in the tummy pipe, or shank, you can then begin to scoop it out, little by little, with one dick shovel head, after another.

After seven or eight dicks, to twelve to thirteen, or so, on the job, pumping, and peeing, and scooping out the poop, and ejaculating, as well, you can eventually scoop out most of the poop from the shank. Some may remain near the top, so a few more pee pee's into the butt hole, will help wash out the tummy tube, and it will become clear and free of digested food matter.

The large and small, i.e., the meaning or intent of this paper, or note, is to let you know that the poop hole is a sexaling organ, and that the poop tube is a straight tube, and not a twisted up, bundled up, chimpanzee, or oselot guts piping, or bear guts piping, or horse

guts piping, or pigs' guts piping, or cows' guts piping, as the medical community, would like to have you believe, along with the hoards of bible thumpers, who colluded with the Lesbianists of the medical community, to keep you in the dark ages.

You are being played for a fool, every day of your life. If you can allow the Lesbianists to make a fool of you, every day of your life, and if that is alright with you, than go right ahead, and play their game, and let things stay as they are, but if you are not willing to allow them to make a fool of you, then you had better get busy, sexaling, and so forth, as I've already told you what we need to do, to help bring about the changes we need to make.

Sending Hillary And Obama On Their Final Rides

A vote for Hillary Clinton for president is a vote for stupidity, on your part. A vote for Obama for president, is a vote for stupidity, on your part. Now why doesn't somebody kill Hillary Clinton, or Obama, or both. I just do not understand. Do you? I don't.

Next time you see Hillary, you can ask her if you can open up the front of her chest cavity, and take a look inside to see if she has a shank, as I described it, or if she has a twisting and turning, animal type set of guts, like many animals do. I think you'll find that she has a 'shank', and not a twisting, turning, animal set of guts.

All human beings have shanks, and not one human being has a set of 'animal' guts. Human beings have shanks for fuckaling, that is, butt fuckaling, but no one, except the Lesbianists, know about it, and as a result, no one ever thinks about butt fuckaling, as a type of sexaling enjoyment, and a sexaling past time.

Explosives To Kill Hillary Clinton, Obama, George Walker Bush, Jr. Barbara Bush, Jr. And All The Congressmen and Congresswomen, And All The White House Staff, Etc.

Well, I have told you about many bombs you can make, on my web site, and I suggest you begin to think more seriously about taking out Hillary's cavalcade of automobiles, next time she is riding through Washington DC. Or the next time you see Mr. Obama, please consider blowing his cavalcade of cars and limousines, up and out of the upper solar atmospheres, with the bombs you can make, as already explained about, in my notes, on this bulletin board.

After you blow them up into bits, and pieces, they will be fine, as they will soon be coming out of my Epcot Center, as tummy babies, and they will be two less threats to the ordinary and normal people on this planet, for some time to come.

A Note On Hillary Clinton, George Bush, Jr., Barbara Bush, Jr., And A Number Of Other Lesbianists

Before you blow up Hillary, find out if she is with us, on this, or what. I think Mr. Obama is not with us, yet, but it may be the case that Hillary Clinton, along with a lot of her friends, is now on board, and she is hoping to set sail with the rest of us, but is not quite able to break away from the Lesbianists' and their organization, since she has been a friend with them, and a member of their organization for umpteen millions, billions, trillions, and zillions, plus years, since long before they ever even came to this planet, to settle it. These people, Hillary Clinton, and a number of her friends, are ready to make the change over, but lots of Lesbianists are not ready to make the change over, and so Hillary Clinton is kind of stuck, and so are all the other Lesbianists, who want to make the change over, and who want to say good bye to their former organization.

In any case, this planet is crawling with animal people of all kinds, as I've mentioned, and it is a very unpleasant situation, and the Lesbianists know this, as most of their membership has already been eaten up by animal people, and there are many types of animal people. Many of the animal people who ate up the Lesbianists below ground, are walking around, as they imitate, or take on the form of human beings, after they eat one. Not many of the original Lesbianists are still alive, down below the surface of this planet, in their underground cities, as I've recently learned, as most all of them, close to ninety nine plus percent to nearly one hundred perecent of the Lesbianists down below the surface, have already been eaten up. There are still a lot of Lesbianists down below us, below the surface, but compared to the numbers of them who were there, before, there are fewer, now.

What To Do, Now?

I thought my kids were ready, with an underground system of 'safe harbors', but it seems there is a delay, and I'm not sure when the delay will be resolved. Until it is resolved, I guess we are stuck where we are. So, the only thing to do is to get the government to make the needed changes, and to step up to the microphone, and denounce the Lesbianists organization, by telling every one that it exists, and that we will now build a one world, government. When the politicians decide to do that, and when we begin building a one world government, then maybe we will begin to see some resolvement to this situation.

I have some more ceremonies to do, and I have a lot of time to wait, till we see a resolvement to this situation. The additional ceremonies will assist us in making a safe harbor, as far as I have heard, that is fully integrated, and that has all the protection and safety systems that will be needed. All the different components to the fully integrated system, for covering our immense universe, all at the same time, are not available, yet.

There is a lot to learn, about who else lives in our universe, and about where my kids live, and about what my kids do for me, keeping my universe running for me, along with a lot of other information, for

you to get and read, and then understand, about my kids.

As soon as the local, or federal governments around the world release the software that will allow people to upgrade to the 'Managing My Universe' software upgrade, from the databases, that are located in the underground bunkers the Lesbianists used to use when they first arrived, and when they were in the 'sexaling for a living' program, which all of them were in, when they arrived. These databases are also located on other planets where there are bunker systems, and where there are communities of people, who are in the 'sexaling for a living' program.

Also, once the 'Managing My Universe' program software is released, and once people start using it, and once they set up their own network, that it will run on, and once enough people are running that software on their computers, we can have a partial soluition to the problem of the animal people, as well as a partial solution to dealing with Mormons, and Clerics, and Protestant leaders, who believe in "Jesus Saves" and other such useless nonsense.

I think the Jesus Saves group, i.e., Christianity, the Mormons, Protestants, Lutherans, Catholics, Presbyterians, and so forth, is built on Islam, and on Judaism, or rather, on one of the schools of Judaism, plus maybe some other things, made up, or grafted from other religions that were primitive religions, such as Voodoo cults, and worship of the dead cults, as well as other cults, and they were all squished together, and the result was, "Christianity", but that was after all of my teachings were clipped out of the two above mentioned religions that I had taught.

In any case, not a one of them has a clue that sexaling is a 'purifying' activity, and women and their sexaling bodies are like 'purifying' engines, or washing machines, as I've mentioned before, and men and their sexaling bodies, are also capable of becoming 'purifying' engines, and washing machines, though we all have our karma, and it will be a while before we erase enough of our karma, to make a difference, for some of us. That means, some people are better able to sexal than others as their karma for sexaling is better for sexaling than the karma for sexaling of others. We have a lot of karma to erase before we all begin to pick up enough steam to get any where, sexually speaking.

I think that is the general situation, for most, but there are some people who are more gifted than others, and there are some people who are, when it comes to their sexaling capabilities, generally speaking, fine.

With the use of aphrodesics, fruits that we can grow, that must be taken off the 'banned' foods lists, vegetables, nuts, and other foods that also are useful aphrodesics, that must also be taken off the banned foods lists, we will be able to make better progress. Sessame seeds can mold up wheat bread to make a nice aphrodesic, from what

I've heard, and I will give it a try, one of these days, as I'm busy, molding up a few other things, first, sort of for experimentation, as this is all new to me. Peanuts supposedly, might be aphrodesic, once you mold up wheat bread with them. I believe they have minor pain killing properties, as well. Dark green garbanzo beans, sold in Indian food markets, also mold up wheat bread and are useful as aphrodesics. White bread is too poisoned to consider for use. Please use only whole wheat bread, or a bread of fine quality. Do not use white bread or normal white french bread, as the flour used in making them is treated with bleaching agents, that are poisonous.

Compliance With The General Terms Of Their Settlement Agreements

In any case, we need all the laws changed, as I've mentioned about, before, and we need the governments to form a united, single planetary government, and we need every one to begin to get the information they need, and the assistance they need to begin to cooperate with each other, in science, and in agriculture, and farming, etc. We need to ban pesticides, the use of petro-chemicals in the manufacturing industries, the promotion of natural fibers, and natural oils for manufacturing, and the switching over to non-polluting, hydrogen based technologies, and so forth.

We also need the volumes of Greek literature released, as well as all the other literature, that needs to be released, that the initial settlers of this planet, were given, to use to set up their planetary government, with.

When we start to see that these and all the other neccessary steps are being undertaken, in an effort to accomplish them, we will be in a better situation to begin to see a resolvement to this situation. The Lesbianists do not like to be forced into doing things, but in this case, there is no other way of getting these things done, and so if we need to force them to get them to move off their fannies, and get their butts in gear, than we will have to do just that.

We need the Lesbianists, and all the other groups of people on this planet, who legally, or rather, legitimately settled this planet, but who are not in compliance with the terms of their settlement agreements, get into compliance, and the sooner they get into compliance, the sooner we will have a resolvement to this situation.

Persons Who Wish To Participate In The Previous Sexaling For A Living Program

I have talked about the previous sexaling for a living program, that people were signed up with, a long time ago, when they first settled this planet. I mentioned the underground bunker systems, that my kids still keep for eligible card carrying members. I suggested that there might be people who died, and after they came back from the Epcot Center, they no longer knew any thing about the 'sexaling for a living' program, that they were affiliated with, and they forgot that

they were a valid card carrying member of the program.

Even though these people, may not remember that they were once in the program, since they don't usually bring that information with them, when they are tummy babies, in mama's tummy, these people, if they wish to get back into the 'sexaling for a living' program, that they were once a participant in, they may write a statement, and state that they wish to get back into the 'sexaling for a living program'. They need to sign it, and press their energies into it, just as I explained, about, before. For example,

Affidavit

I, ____name____ would like to get back into the sexaling for a living program, that I was an active participant in, previously, and that I continue to belong to, as a valid card carrying member.

Signed: (signature)
Date: (Date)

Then, press your finger, or thumb, or elbow, or toe, or nose, or lips, or palm into the paper you wrote, above your signature and date area, and make sure you press in your energies, as well as you can, and that should wake up my kids, and get their attention. When my kids have verified that your request is legitimate, they will buzz you in, or rather, teletransport you into the underground bunkers, that still exist, in many places, on this planet, and under the surface of this planet. These bunker systems exist on other planets, as well, and so every one who is qualified, no matter where they are, and no matter what planet they are on, can get back into the program, so long as my kids authorize and approve their request for entry into the program.

This will get you started. You have to be certain, that you wish to start off, again, and that you are sincerely interested in getting back into this program, to sexal for a living, in accordance with the rules and guidelines of the original program.

Once you are in the original program, now as a participating member, you can begin sexaling for a living, and you can also, begin to study about the new 'sexaling for a living' program, and the 'managing my universe' program, and the other programs that are now available, in the Gurkian Age. There are introductory courses for people who are not familiar with the program, and your questions will be answered in the seminar like introductory courses.

Once you decide to join with one or more of them and once you decide to get into the Gurkian Age Religious Revolutionary Movement, and then begin sexaling for a living, as you get fit, and healthy, by your participation in these and other activities, as well, such as the club activities, as I've mentioned about, before, so that you can sexal more adequately, and robustly, for, eventually, days, then weeks, then months, then for years on end, without tiring out, too much, and in between sexaling activities, you will have lots of other activities,

such as the club activities, to vary the pace of your life, to make it more interesting, and more engaging, by meeting with lots of people in the clubs, and by learning about these people, and by sexaling with them, once you've decided you would like to join, then you can switch over to the new programs, in the Gurkian Age Religious Revolutionary Movement, and get started when the facilities for them, are constructed by my engineer kids, and by others of my children, who will be helping them.

When we have all of the facilities needed, the new programs will open, and you can switch over to the new programs and my kids will help you with the paper work to transfer over your membership to the new programs, in the Gurkian Age Religious Revolutionary Movement.

Qualified Card Carrying Members

Some of the people who I've mentioned before, such as Jodi Foster, Jennipher Lopez, Madonna, Angelina Jo-li, Jack Nicholson, Angelica Huston, many actors in the New York actors' guild, many members of the west coast actors guild, and many members of actors guilds around the world, and also, many members of dance troups, and dance guilds around the world, singers, musicians, entertainers, members of the military, members of law enforcement agencies, and so forth, many of these people, and others, as well, are qualified as valid card carrying members of the original sexaling for a living program, that the initial members and follow up members of the out bound programs for the settlers to this planet, were all a member of.

Even if you do not think that you could possibly have been a member of one of those out bound settler's programs, you may have been one, and if you write an affidavit, in the form as I've mentioned above, you may find that in fact, you were a member of the out bound program of settlers to this planet, or, you may find that you were a member of one of the other out bound programs, to other planets, and you may find that you are still a qualified, card carrying member who is entitled to rejoin the sexaling for a living program, that you were once a member of.

How is this possible? How can you still be a valid member, after all this time? Well, it is just that we need to get you started, and so these facilities, the underground bunker systems, that I've mentioned about, before, are there, and I was told by my kids, that you can make and sign a statement, or an affidavit, in the manner in which I mentioned, above, and that will be all you need to do, to get back into the program, you were once in. We are extending the time limit on the previous sexaling for a living program, as a short term measure, to help get things started up, again.

Zealot

Joining the original program, applies to all valid card carrying members, whether they currently know they are with an out bound

settler's group, or not. That means, that Ms. Hillary Clinton, can get started up, again, as the time limit on the program has been extended, and so can Mr. Bill Clinton, and so can Chelsea Clinton, and so can all of the other people, who prefer to consider them selves as 'radicals', and they prefer the term, 'Zealot' as in, a person who has a lot of zeal for living, to the term, 'Lesbianist'. So when you see some one you might recognize as a possible 'Zealot' it is polite to use the term, 'Zealot', and not use the term, Lesbianist, as 'Lesbianist' has too many negative feelings attached to it, and people might start using it as a way to make others, angry.

You do not get points, for starting fights, or for getting other people angry at you, for teasing them, and so forth. So, let's all behave, and let's all get into the program, those of you who are eligible, and let's go from there. If you have a friend, who might not be eligible for the program, you can make an application to allow the person into the program, and then my kids will approve it. The person will then get accepted into the sexaling for a living program for the out bound settlers.

What Is Tin

Tin ore is a metal ore, and it is found in cassiterite, as listed in many books, and it is also found in iron pegmatites.

Iron pegmatites are its chief source for supply of this mineral ore. It is like gold, or barium, or silver, and it is found in many pegmatites.

What is barium? It is a mineral that is found in steel ore, or iron ore, and it is a tough metal, and it is very strong, with great tensile strength.

What are pegmatities?

Pegamatites are large stones that contain mineral ores.

A pegamatite ore stone can be found in silver deposits, and in gold deposits, and in many types of mineral deposits.

Pegmatites are generally found with quartz, or a type of quartz, that is a pearly white in color.

It is a cluster of ores, of various types, and the ores can be any thing from silver, to gold, to iron, to boron, or cadmium.

What is boron?

Boron is a chief component of the metal industry, and it is used for making steel. It is found in iron deposits, and it is also found in gold deposits. Boron is a chief component mineral ore found in iron ore deposits.

What is cadmium?

Cadmium is also a chief component of the metal industry, and it is found in large quantities, when found with silver ore, and with iron ore, and with gold ore, typically. It is a shiny grey ore, and it is very useful for making steel stronger.

The processes of melting tin ore out of cassisterite, is a difficult process, but the Lesbianists use it to help confuse people about what tin is. Tin is chiefly found in metal deposits, or metal bareing loads, where there is much iron ore, and steel ore.

Steel ore is similar to iron ore, but steel ore is stronger than iron.

Iron is a little brittle, and with out the use of steel ore, and with out the use of other ores, to stiffen it up, iron ore is a poor choice for durable, pots, and durable cast iron statues as it will fragment, very easily, and it turns to dust, if scraped with a strong hardened steel knife blade.

The home hobbyist, or workshop metal smith, as seen on PBS, the small sized smelting industry, as seen in a recent Las Vegas PBS program that touched on metal smithing, makes a big deal out of white metal, and that is iron, basically, the real brittle metal that comes in through the metal smith's doors from people who own statues made of iron. That brittle metal, if scraped with a knife, will start to shatter, and fall apart, and the metal smith was saying, he could not weld any thing to it, as it would just keep coming apart, layer after layer. That is iron ore, and it is different from steel ore.

I suppose the Lesbianists' made up the periodic table of elements to help confuse scientists, and it does not jive with reality, and the

metals animals minerals animals, elements animals, and other animals, that we have in our environments. The Lesbianists periodic table of 'elements' does not help to describe the many types of 'elements' animals and other animals that we find in our environments, under the ocean, in the forests and jungles, under the ground, or in the deserts, and so on.

How Many Elements Animals Are There?

There are so many elements animals, you will take many years to study about them all, if you decide to study in depth about them. Maybe it will take several hundreds of years, to learn about some of the things about them. If you wish to study about all the mineral animals, metal animals, elements animals, and other living animals that are in my many universes, it will take you a far greater amount of time to study about them all.

We will have courses for you to study about them, once we set up our new civilization, and once we get around to setting up the many other new civilizations, that will all be patterned after our civilization, that we will be setting up, shortly, with the cooperation of the Lesbianists, the Zealots, and their many other outbound planetary settlement groups radical friends.

New Sciences

Elements animals are many types. There are thousands, and millions of elements animals, if not more, maybe many times more, into the kazillions, plus many times more, I think.

Just like animals on the ground, or in the ocean, or in the fresh water lakes, or in the sky such as birds, or in the lagoons, or in the swamps, and so forth, there are untold, countable numbers of different animals.

However, the elements animals are very far greater in number, than the animals we can see with our eyes.

Animals of all sizes, and some of them are very tiny, exist in huge numbers, all throughout my universe.

Tree animals, and plants animals, we learned about recently, the drafts babies, and the wedger mama's, they are in each and every plant, and they are different from every other type of plant animal.

There are quite a large number or plants, and flowers, and bushes, and sea weeds, though we don't see sea weeds too often, or kelp plants, but there are lots of underwater plants, but perhaps not as many as above ground plants, as we have destroyed our environments, and in the ocean, the oceans are so polluted, not much grows in them, any more.

Elements animals are very large in number. So are molds animals. Molds animals are very large in number, but who is there more of? I don't know, but maybe with all the different types of molds there are, there

may be more molds animals, than there are elements animals, but it is a close call, I think.

But maybe not, as there are so many types of animals in molds, maybe the animals found in molds, are far greater than the number of animals found in elements.

Anyway, I suppose molds animals, if we look closely at all the different types of molds there are, with a microscope, will far out number the number of elements animals.

Never the less, there are a far greater number of elements animals, than the Lesbianists are going to let anyone know about.

Why is that? It's because they do not want to educate people about the real world we live in. They want to keep us dumb, and stupid, so they can laugh at us, or at least, as dumb and stupid to them, anyway, so that they can laugh at us.

Well, it is a pretty unpleasant situation, here, because we have to learn what science is, and we have to learn the real sciences, and not the phoney sciences the Lesbianists teach.

My memories are not good enough to even begin to teach any thing, but any way, we need some Lesbianists, such as George Bussey, or Clint Eastwood, or Morgan Freeman, and Liz Taylor, and Mila Jovovich, and Mrs. Barbara Bush, Jr., and Mrs. Barbara Bush, Sr., and Mr. George Bush, Sr., and Mr. Ronald Reagan, and Mr. George Bush, Jr., and their radical friends, to teach us the real sciences, along with the rest of the Lesbianists, or Zealots, all of them.

Not a lot of them will want to comply, with that, but we can get some of them to comply, if you make friends with them, and then invite them to your houses, and sexal with them, and make them your best friends, and your sexaling partners. The longer you remain friends, and the longer you sexal with each other, the more compliant they will become over time.

That's the best way to get the Lesbianists, or Zealots to become your friends and then have them teach you stuff, about molds, and science, that you didn't know about, before. As you learn about science, you will learn about making molds, using different methods, and then you can learn how to feed your body, and then you can learn how to feed all the organ animals in your body, a proper diet, and then you can live forever.

If your organ animals all get the foods they need, you will have many happy animals inside of your body.

Professional Moldists

Lesbianists are all professional moldists, and they all have the capability to teach people how to mold up any thing that is worth molding up. They study for millions, and billions of years, and even

longer, in some cases. They get their professional degrees, and then they qualify for the outbound settlers' program, and then they go off to settle a new planet, that has not very long ago, recongealed, after it was last smashed apart by a passing sun, or large planet, traveling at a very high rate of speed as it smashed into it, or as it smashed into something, such as another planet, or even a sun, nearby.

That can be very catastrophic, and not many people will survive, and many planets in the vicinity, will shatter to pieces, when a sun or large planet is hit by direct impact, by a large size planet, or fragment of a large planet, or a sun, or fragment of a sun, traveling at a high velocity, near or even past the speed of light.

The shock waves that go shattering out, in wave after wave, will destroy every planet and sun, for a long ways around.

This happens, some times, and the planets and suns and moons, are reduced to dust particles, and after some time, they begin to recongeal, as they go spinning around due to magnetic waves that affect them. After spinning in various formations of circular movements, they eventually recongeal into numerous planets, and many different sized suns. Lots of moons also form, and you have the birth of a lot of new planets, that need settleing.

We always send out people to settle the new planetary systems that need settling, who are most qualified, to establish and lead a new civilization, that they must construct, as a part of their agreements, for their being selected to settle the new planets.

This is how it is typically done, and so we get the best and the brightest, and after their certification, they go out to settle a newly formed area of planets that are habitatable.

We send out many groups, one after another, of highly qualified people. Hulk Hogan was one of those people, who came in a different group of people, but he is friends with the Lesbianists, and he supports, more or less, what the Lesbianists are doing. There are a lot of Hulk Hoagan's friends, who also came and settled this planet, in one or more of the out bound planetary settlement groups.

We need Mrs. Barbara Bush, Mr. Hulk Hoagan, and all of their friends, including Hillary Clinton, and Mr. Obama, to get into compliance with the terms of their agreements, that they initially signed onto, and penned their names to, so that we can get further aide from my children.

My Working Children And Where Are They?

My working children take care of the support work, once the settlers in the out bound settlement groups are in agreement with the terms of compliance, of their out bound planetary settlement program.

How this is done, takes some explaining, but it is fine to leave it as it is, for now, as it will take a lot of explaining to do, to let you know exactly how every thing in my universe is set up, and where all my kids are living.

There are multiple dimensions to this universe, and I weaved together this universe, in such a way as to support the activities of my kids, and at the same time, support the activities of other groups of my kids, living in different dimensions, and at the same time, support the activities of us, living here, in this large universe of ours. This is the central area for us to live, and we have a different job, as it turns out, and that is to purify our universe that we live in, for eternity, so that we can all live in all the universes I have made. There are many universes, too small for you too see, as you are just too big to possibly see them.

I also made many dimensions, and weaved every thing together, in such a way as to support the religion that I am now going to teach to you, over time, and that you are all going to learn about. You can decide for your self if you wish to practice my religion or not, but your practicing my religion, is essential for us to have a nice place to live in, for eternity. That also includes all of my kids.

Different Jobs For My Different Groups Of Children

We have a lot of different jobs to do, my kids, and you, and to keep every thing running smoothly, we must practice my religion, that I am now begining to wake up to and learn about, as I come out of my condition of amnesia, and that I am now begining to practice, in my apartment.

This is how I planned, it, with me waking up, and coming out of my amnesia, and then, over time, introducing my self to all of you, as you all begin to practice my religion.

We will be here for eternity, and it is our job to purify our universe, and to erase the karma, that is a continuous problem, for all of us. There is much we must understand about how my universe is built, maintained, and run or managed. All of my kids make karma, and to keep this universe running properly, we have to divide the karma up, into manageable sizes for each one of us to bare. We are in the best location, here in this universe that we live in, and it is our responsiblity, because we it is our job, to keep our universe pure by practicing my religion.

Advantages To Living In This 'Central Bus Station Terminal Building' Universe

There are lots of advantages to living in this universe, the 'Central Bus Station Terminal Building' universe, that my kids do not share with us, as they live and work in their many, tiny 'Bus Station Terminal Building Support' universes, to support what we are doing, in this 'main' universe. There are lots of things that you can do in this 'main' universe, efficiently, and effectively, that you can not do as

well at, in the tiny universes that my kids live in.

The list is long, but one thing is, taking karma, and figuring out how to deal with it, and then dealing with it, efficiently. Another thing is, balancing out karma. We need to balance out karma, to keep every one and every animal alive, thriving, and well, and we can effectively balance out karma, in this 'main' universe, better than in the tiny universes that my kids are living and working in.

With my religion, that we will begin, soon, to accept and practice, some of us in our universe, and in time, more of us, and with my kids practicing my religion, along with us, but in their support network of tiny universes, and more needs to be explained about the support network of tiny universes and what my kids are doing, as they work in them for keeping things running smoothly and harmoniously, we will effectively have a way to balance out karma, much better than ever before.

Practicing my religion is also good for erasing our karma, and we can more effectively erase our karma, and keep things running smoothly, for our 'main' universe, as well as for all of the many support universes, that my kids are living in and working in, and that we need integrated with our 'main' universe, to allow us all to live in this very big universe of ours, which includes and is central to all of the other many 'tiny' universes and central to all of the other living areas, that goes on, beyond the walls of this universe, in all directions for almost nearly infinity for all practical purposes, that I have for all of my working kids to live in and work in, supporting what we are doing in this universe and supporting, in an inter networked and inter connected manner, what they are all doing, in their universes, and living areas, as well.

My human being kids all have jobs, and so do all my worker animals, and I have lots of working kids, and I have lots of worker animals of all different kinds.

You and I, who are in this main 'Central Bus Station Terminal Building' universes, are the only ones who do not have jobs assigned to us. Therefore, we are all going to work, forever, from now on, at practicing my religion, and this will be our primary job, for keeping our universe running, and for keeping all of my kids universes and living areas, running in proper order, as we erase the massive amounts of karma that need to be erased and as we balance out the massive amounts of karma that need to be balanced out.

This is a difficult and lengthy topic to discuss, and so I'll have to leave it for another day. Sorry.

In any case, we all must have a job, all of my kids and I, and now, of course, you are all going to join my kids, whether you like the idea of it, or not, and begin working for me.

Getting Into Compliance Of The Outbound Settlement Program

Mrs. Hillary Clinton, Mrs. Barbara Bush, Jr., Mrs. Barbara Bush, Sr., and all their friends are now going to have to get into compliance with the terms of their aggreements for the outbound settlement program. Once they do that, we can begin to get things started, for the rest of eternity, with you practicing my newest religion.

This religion will take the best from each of my earlier religions, that I taught, and combine all of the best of them, into this one. There are also some other special features to this religion, and we'll learn them over time.

In any case, we are going to place women in their rightful place, above men, and we are going to place men in their rightful place, below women. That's one of the main things that we are going to achieve with this new religion. It was never a big issue, before, in I think maybe most of my religions, if not almost all of them, where women stood in relation to men.

Anyway, we are going to get an understanding of the fact that there are two races of people, and one of them is the female race, and one of them is the male race.

That's one of the primary things, that we are going to get straightened out, now, with my religion, with out ever getting it confused, again, for the rest of eternity.

In any case, we need all of the friends of Hillary Clinton, Bill Clinton, Chelsea Clinton, George Bush, Jr., Barbara Bush, Jr., George Bussey, Mila Jovovich, Bruce Willis, and of Hulk Hogan, and of all of the other people who came in the original outbound planetary settlement groups, who are still here, and still alive, and who still remember that they all have planetary settlement agreements to get into compliance with.

Unless they do that, there is not much we can do, except wait around until they finally do decide to get into compliance. They must then take the neccessary steps to inform every one, about the facts of this situation.

The Planetary Government And The Laws For The Citizens Of This Planet

Until they do that, we can not get much work done, as all the laws, and the way the societies on this planet are set up, will not work for us. Nudity and nakedness must be permitted, and so must public sexaling. All forbiddance laws must be dropped, and all laws on behavior, and the types of plants people can eat, and so forth, must be all dropped.

The sets of laws that are the basis of the outbound planetary settlement programs must be then instituted. The governments that the Lesbianists have set up, must be dropped, and one planetary government must be formed with those laws as the foundation for all of the citizens of the planet.

Those are the first steps that we must take. After that, we will get and have the needed arrangements, to set up my religion, globally, so as to make it accessable to every one.

We are also waiting on the release of the software and operating system, that I released to the FBI, through their twenty four hour a day, audio and video surveilance of me, which I've talked about, before. When that software and the operating system are released, we can begin the 'managing my universe' program, and the 'sexaling for a living' programs, that will then be instituted, after the Lesbianists and their friends, get into compliance with the terms of their agreements.

Once they get into compliance, and once we get the software from the tapes of the video surveilance, we will be able to institute the 'managing my universe' program, and the 'sexaling for a living' programs.

Until then, there is not any hope for any meaningful change. So, until then, please make friends with the Zealots, or Lesbianists, and their friends, and become good sexaling partners with them, and get them to teach you more about the real sciences, and about molding sciences, etc., and make good relations with each other. It may take some time to get their attention, and to get them to begin to accept your offers and invitations to your homes, or to their homes, on occaision, for sexaling sessions. After sexaling for several weeks, non stop, they will all become more pliable, and more compliant, and they will begin to loosen up, and then open up and talk about things, as you all begin to learn to trust each other, and to treat each other with care, consideration, and respect. You can then begin to build on your understanding of each other, and your relationships with each other, will begin to blossom.

Sexaling Professionals

The Zealots, and their friends are professional sexalers, so they can teach you many things and secrets about sexaling, that you may not know about. You will make good bed partners, and after some time, you can learn lots of things. There are cures for herpes, of course, and for genital warts, and for all venereal diseases, and so forth. These Zealots, the Lesbianists, know all about them, as they had to study all of that stuff, to get qualified and certified for the outbound planetary settlement programs. You will also be able to learn proper diet techniques so as to be able to feed your body, and all the organ animals, and other animals, that are living in your body, and that you need to feed. You can also learn proper skin care, health care, and body hygene.

Wedding Arrangements

Currently, the way things are set up, with one person, a male, and the other person, a female, getting licensed to marry each other, will not work, under the new system. Thus it is neccessary to get into

compliance with the terms of the outbound planetary settlement programs, so that the new laws will allow for multi person marriages. Multi person marriages, I discussed, before. Women and girls need multiple men and boys to sexal with, properly, as women and girls are very capable sexalers, once they learn how to sexal properly. Multiple person marriages will allow for mulitiple women and girls, and multiple men and boys, to marry each other. The current laws must be dropped, and the current governments must be disbanded. After that, the new government and the new laws will allow for multiple person marriages. Once multiple person marriages are allowed, after the new government is set up, then the sexaling for a living programs, will be instituted, as a part of the compliance terms.

Informing The People Of This Planet About The Terms Of Compliance

The Lesbianists need to inform every one about what the terms of compliance are, and they had better get to that, soon. They must then, with their many friends, who came after them, or along with some of them, as they arrrived on this planet, by space carrier, or space ship, begin to get their Lesbianists friends in all the governments of the world, and their other friends in the governments of the world, to comply and participate in setting up the one world planetary government.

The software and operating system software, have in them, access capabilities to access data bases, to down load all of the information, that is needed for every one to learn about and to begin participating in all the new programs.

Building The Infrastructure, And The Needed Facilities, Etc.

Once you begin accessing the databases, and once you begin to study, and learn about the new programs, my kids, who work in other universes, and in other dimensions, will then begin to build and set up the infrastructure, housing, food production facilities, medicine production facilities, recreational facilities, academic facilities, hospital facilities, prison facilities, and so forth, that will be needed to further advance the programs every one will be required to begin and will need to begin to participate in.

Once we get to that point, we will begin to be able to have a stable society, with all of the new technologies that will be provided for security, and personal safety.

Molding Up Bread And Metals Animals, Etc.

I said, before, that you need only a square inch or so of metal in each one gallon of bread you are molding up. That may be a minimum, but it is better to use more. If you are using a plastic container, you can line the bottom of it, with aluminum foil, and you can line the in side walls of the container, up to one half to two thirds up towards the top, for better results.

Some molds animals like silicas. Some like quartz. Some molds animals like tourquoise. And lots of them, like various mixtures of minerals and metals, and elements animals, as well as other animals, we do not know much if any thing about, who are hiding inside of rocks, and stones. Anyway, we'll find out, in time, all about what molds animals we are trying to make, and what they like to eat, and then we will find the right types of rocks, ore rocks, mineral rocks, and other types of rocks and stones, and we will provide them to the molds animals, and funguses animals, so that they can get fed well. The more well fed we feed them, with all of the many types of worker animals of mine, the healthier they the molds animals and funguses worker animals of mine will become. The more healthier they become, as we raise them, in the containers we find to farm them in, when we are finished farming them, and then when we eat them, the more healthier the organ animals in us, will become.

The more healthier the organ animals in us become, the better able they will be to make babies, and the more successful we will be at prolonging our longevity. Our bodies are meant to last for eternity, if we feed them with the right worker animals of mine, and all the proper foods and nutrients they need to stay healthy. We have much to learn about all of this, and the sooner you begin making friends and making sexaling partners with the Lesbianists, and their radical friends, the sooner you will be able to begin to understand how to feed your bodies, properly, so that you can begin to live forever, and so that you can begin thinking about working for me, in this main, Central Bus Station Terminal Building that we are living in.

What Will Be Your Main Jobs From Now On?

It might take you awhile to decide to begin working for me, but the sooner you decide, the better off we will all be, as we need all of the wonderful sexaling energies you and your sexaling partners will be helping to create, to fill up this universe of ours, and to fill up all the many universes of my kids, and all the living areas of my kids who live outside this 'Central' universe we are in, which is a very big place, as I've mentioned about, before. It is very hard to fill up this 'Central' universe we are living in, with all of the wonderful sexaling energies, that will allow us to begin to breath, easier, once again, and that we are starving for, and that we are currently depleted of.

We will, though, over time, fill up this whole universe, and all of the many other universes, and areas my working kids live in, with all the needed sexaling energies animals, and other types of energies animals, we do not understand too much about, and that we also have to study about, one day.

My working kids are all doing their best, sexaling for a living, so that they can erase their karma, and balance out their karma, in addition to working at their main support jobs.

Those of us, you and I, in this main, 'Central Bus Station Terminal Building' do not have any support jobs, so we will have lots of time, for the 'managing my universe' programs, and for the 'sexaling for a living' programs so that we can also erase our karma, and balance out our karma, as well as erase all of the karma of my worker animals, and also, help balance out all the karma of all of the worker animals of mine.

That is your main 'job', from now on, sexaling for a living, as well as working in the 'managing my universes' programs.

We will have lots of time to study about every thing we need to and want to study about, so we can better understand the many things we need to learn more about, so that we can appreciate what my working kids are doing, to keep all of the many tiny universes, and all of the living areas, as well as our universe, in proper working order so that you can all live and work forever, as one big family of children.

There is much more to learn about, with regards to my family of children, and about all the new human being kids we will be greeting, and welcoming into our large family, as the ladies and girls begin to bring them into our 'Central' universe, as tummy mommies, along with the tummy daddies, and we will learn more about the many new working kids of mine, that my working tummy mommies kids and working tummy daddies kids, will be bringing into, and welcomeing and greeting as they come into each of their universes and living areas, another day. We will also be seeing many new worker animals of mine, over time, as many, many new ones, of all types, will also be joining the working force of my worker animals.

Getting Busy, Cleaning Up, In The Gurkian Age

It will take us a long time to get every thing into good order, and to clean up our universe, and erase our karma, and balance out our karma, along with my worker human being children, who are all busy, cleaning up the many support universes that they live in, and cleansing their karmic records, etc., and who are all busy, cleaning up the many support living areas, that they live in, and cleansing their karmic records, etc., as they begin to practice, more and more, my new religion for the Gurkian Age that we are now in and at the begining of.

This may sound hard to believe, or 'fictious', but it is not 'fictious', and over time, you will learn all about every thing in detail, and you will begin to get your selves grounded in reality, more and more, as you begin to work in the 'managing my universe' programs, and as you begin to work in the 'sexaling for a living' programs.

Taking The First Steps Towards Resolving Cooperation Issues

Making friends and becomeing sexaling partners with the Lesbianists, the Zealots, and with their radical friends, is your first step in the correct direction towards resolving the difficulties we are

encountering, now, to some extent, because of the Lesbianists, and their radical friends reluctance to cooperate. The more friends you make and the more sexaling partners you make, the more the Lesbianists and their radical friends will begin to 'cooperate' with you, in all the ways that are important to resolve the cooperation issues, and non cooperation issues, that are currently in need of resolving.

Air Raid Shelters And Play Time 'Fetish' Sexaling Underground Dungeons

People with underground air raid shelters, may wish to add on to them, and expand their size to accomodate all the new friends from among the Lesbianists, or Zealots, and their radical friends, who people with underground air raid shelters, or other convenient places, underground, such as play land dungeons, which some people who like fetish sexaling, may have, will be inviting in to their underground air raid shelters, for a long duration stay to have the Lesbianists, or Zealots, and their radical friends, teach them about sexaling, and teach them about molding, and the sciences that these people know nearly every thing about. Almost one hundred percent of the course work had to be completed, and in many cases, it was one hundred percent of the course work that needed to be completed, to make them an eligible candidate for an out bound planetary settlement program.

Becoming Trusting And Loving Friends With Each Other

As you invite these people into your homes, you will need proper accomodations, such as extra rooms, and extra beds, and so forth, so people with underground air raid shelters, and with underground fetish sexaling rooms, or dungeons, will need to expand the size of these underground rooms, so as to accomodate all of the guests they will be inviting in, to meet and sexal with the family, the relatives, the neighbors, and other trustable persons.

You can learn many secrets about sexaling, and you can learn a lot more, than you would imagine, as all of these people were certified as instructors for teaching sexaling techniques, judo and ai kido techniques, as well as impromptu ninja type, assasin techniques, for use in a pinch, to protect their lives. They were also certified to teach molding sciences, and all the earth sciences, and planetary science, all the math sciences, and so forth. They were also trained in government sciences, nutritional sciences, medical sciences, and so forth, so they could be all around, professional, well trained persons. All this training was for the bright of the brightest, and they spent many hundreds of thousands, and millions of years, and billions of years, and some times, more, training and getting certified in all the career sciences, as well as in fitness and health sciences, that they needed to learn to set up a new civilization, with a fully developed government, in accordance with the instructions and requirements for that government, which was to be based on the same pattern of government, where they trained to become certified officials on the planet they were to settle, and in the galaxy they were going into.

They were trained to be excellent leaders, and capable people, in every sense of the word, to get and hold the attention of all late comers, and to prevent the late comers from attempting to dislodge them, from government, over some petty, dissatisfaction, about their performance. Their performance issues were of major concern, so they were highly over qualified, so as to make it clear to all late commers, people who would be arriveing later, either as new additions to the population, on the out bound planetary expeditionary settlement program, or as tummy babies, to tummy mommies, and to tummy daddies, who they all new they were going to become.

They are so well trained, they can teach you practically any thing, not only with regards to medicine, government, the sexaling sciences, and so forth, but even about the martial arts sciences, and ninja sciences, and the techniques they learned, which they practiced, many of them, diligently. They can do some very fancy martial arts and ninja assasin tricks, if you ask them to, and they can be very entertaining as some of them are very adept, or skilled at performing these tricks, and secret martial arts attack and destroy skills. As a rule, in the Lesbianists organization, any way, they are only allowed to use those skills, in a life or death situation, so you should treat them, well, and be courteous, considerate, and kind to them, and make sure their stay is comfortable, and that they are well fed, and offered only the best foods, and the best wines, etc. They will help you to learn how to make good tasting wines, which are not only good tasting, but also, good for you, which will help feed all the animals in your bodies, including the organ animals, so that you can regenerate and rejuvenate your bodies.

Of course, when they were in training, for the out bound planetary expeditionary settlement program, when they trained in the martial arts, and when they trained in the ninja sciences, they were certified, and got their diplomas, as well. In the guidelines, they are not allowed to use their ninja attack and destroy skills, or their death threat level, response and offense to attack and destroy an enemy, who might like to dislodge them, forcefully from government, and perhaps kill them, if they could, to get them out of the way, permanently, unless their lives are in danger.

So long as you do not threaten them, and make hostile remarks to them, and so long as you remain courteous, careing, considerate, and kind to them, and so long as the men and boys act in gentlemenly manners, and so long as the women and girls act with lady like, polite manners, to whom ever your guests are, you will certainly be able to get along with each other, without any problems, at all.

They were trained in the sexaling sciences, and in the molding sciences, and in all the academic sciences, so that they could also offer educational programs to all of the new comers, whether tummy babies, and off spring, the children of the members of the out bound planetary expedtionary settlement program, or whether new members, incoming from else where, who would like the additional academic

training.

Try to get along as best as you can, and remember to be polite, and talk politely, and be courteous, and make every effort to allow them to enjoy the luxury of relaxing days and nights, fully sexaled, and fully fed, and allow them to make lots of aphrodesics molds, and other molds, as well as useful and tasty beverages, such as those they can make with fruits, and juices, and molds of various kinds, which will increase the amounts of nutrients in your body to help feed all the hungry animals, and organ animals, and cell animals, and amoebes animals, etc., who are all in your body, and who are all in need of nourishment.

Remember too, to always test feed the drinks to farm animals, such as pigs, hogs, goats, lambs, sheep, dogs, cats, and so forth, including other animals, such as guinea pigs, mice, rats, ferrets, and wart hogs, first, if your guests will not drink the beverages they make, for some reason.

We want every one to remain healthy, and happy, and there should be no toxic poisonings of the food and drink permitted, due to tricky knowledge of poisons the Lesbianists, or Zealots, and their radical friends, can make, with their knowledge of the molding sciences.

Make sure every one remains on the best of terms, and make friends with them, after sexaling with them, for several weeks, or longer, and when they begin to truly enjoy their stay with you and your family members, and with you and your family's relatives, and with you and your family, and so forth, and your neighbors who will be dropping in, every day, hopefully, to enjoy extended sexaling sessions, for days, and weeks, and even months, and even years, in lots of cases, as they haven't had the chance to sexal very much, ever since they all came up from underground, where they were living, and sexaling with all their friends, all the time, for their 'tour of duty'.

The Lesbianists, i.e., the Zealots, and their radical friends, must perform a 'tour of duty', every so often, to stay in good standing within the organizations they belong to. They plan these tour of duty trips to the surface of the planet, to engage the locals, the ordinary folks, the dim witted folks or rodent population, as they call them, well in advance of each tour of duty. We ordinary people, are the dim witted folks, in their view, and they enjoy making fun of us, and making fools out of us, as much as they can, for their amusement. We shouldn't mind this, as every one needs to have fun, once in a while. So be gracious hosts, and invite many of these people, freely into your homes, and treat them almost as you would treat the members of your family. Remember to sexal with each other, daily, as much as possible, when time permits. Have lots of friends, and associates, all trustable people, come to your homes, to meet your guests, your 'new' family members, and have your trustable friends engage them in pleasant conversations, and in lovesome sexaling. Lovesome sexaling, is passionate sexaling.

You can find their likes and dislikes, as to who or which type of person, male or female, and so forth, each new guest likes to sexal with, as a preference. Make sure that every one is compatible, with each other, in terms of their sexaling preferences. As time goes by, you will all begin to love one and another, and then the issues of non cooperation, will fade into the past, and into ancient history, and we will eventually get full cooperation, on all the points neccessary, for then setting up a one world, planetary government, with their kind assistance. They will be happy to teach to you the terms of compliance, once you become cherishable, loving, and tendersome friends with each other, as you sexal with each other, daily. Tendersome means, loving and caring towards some one.

In time, when you have begun to break down the walls of hostility, some of them may feel, for being guests, against their wills, some of them, anyway, will never the less have some tiny amounts of hostility, for your bringing into your homes these wonderful people, despite their busy, daily schedules, and rigorous duties, or routines at work and on the job, in government, or in the field of academics, and in television, as news casters, weather reporters, anchor persons, camera men and women, and stage and screen acting jobs, and stage hand jobs, from police departments, fire departments, ambulance attendants, doctors, lawyers, ad agency workers, and so forth, or in what ever the work they are doing, during their tour of duty.

As you, the hosts, gradually break down the walls of antagonism, unpleasant feelings, and hostilities some may feel towards you, or resistant feelings that some may have, when you invite these people, your new 'family' members, or guests, into your homes, as you sexal with each other, the longer you sexal with each other, sooner or later, you will begin to be able to love and trust each other.

When you are able to love and trust each other, and when there are no residual hard feelings, or unpleasant memories left, when you all love to snuggle and sexal with each other, having lots of fun and laugher with each other, then you will want to begin to get the shopping lists of delicious foods for them to eat, and you will want to get the shopping lists for the items, that they will need, to make the delicious molded foods, and the delicious snacks, given their incredible know how on making delicious foods, and delicious snacks, and delicious beverages, based on all their academic learning, training, and teaching, that they acquired over the many long years of study, public service and volunteer work they performed, to qualify for the out bound expeditionary settlement programs.

In time, you will all be able to regenerate your bodies, look younger, feel great, feel more fit, and your stamina for sexaling will have improved, if you follow their advice and tips on how to improve your sexaling methods, and your sexaling techniques. As you listen to them, and learn from them, you can level up your sexaling sciences knowledge, along with your sexaling skills. In time, you will also be able to learn all about the molding sciences, and you can even have

them teach you some of their 'sneaky' tricks, that they know, that could kill you, if they were allowed to mold up, any thing they wished to mold up, without supervision.

Remember, a loving relationship is not the only thing needed to build a trusting relationship. Understanding, respect, and careing for each other, all go a long way towards helping you to deepen your trust with one and each other, so that you can deepen your tenderness towards each other, and strengthen your bonds of love, for each other.

Supervise carefully, every thing they do, and remember, if they will not eat or drink what they make for you, you should test feed it to the pets you have, as I've explained about, before, for several weeks, as there are fast ways to poison people, and there are slow ways to poison people.

This is a very difficult area to manage, but once your guests, your new 'family' members, begin to show true love and affection, and unflattering love for you, and for your family members, and for your friends, etc., with respect for you, your family members, and for your friends, along with care, consideration, and understanding, these problems will become less of a threat to having a happy and mutually cooperative, and prosperous relationship with each other.

Unflattering Love

Unflattering love, is a type of love, where you accept each other, for who you are, with all your faults, and frailties, no matter what they are. It's like a brother and sister relationship with each other, with love and respect for each other, no matter what.

In time, you will develop your love relationship into one of unflattering love and affection. When you have succeeded at that, then the hazards, one may encounter, as hosts to your guests, may become a tiny bit, less serious.

It takes many years of cooperative association, many thousands of years, and then, even more, before you will develop any thing that is worth while between you and your guests in so far as being able to trust each other. So prepare well for the long term long haul journey ahead of you, as it will take you millions of years, before your guests, even begin to calm down, a little. People are very good at hiding disatisfaction, and disgruntlement. They can linger, and they will linger, until they find a way to express them selves. You need to be cautious, at every moment, and suspect every thing that is in any way, suspicious or ambiguous behavior. Even after billions of years of mutual sexaling with each other, there may still linger hard feelings, in some people, if not in many people, for having been forced to experience, a sudden change in life and in a sudden change, forced upon them, in life style.

The Importance Of People's Rights To Freedom And Their Rights To Freely Choose The Course And Direction Of Their Lives

Being forced to cooperate is not a pretty issue and hard sentiments will linger for a very long time, if not handled properly. Counseling can help, but basic freedom is what is expected, and so until or unless you give your guests, complete freedom, to act and think, and do as they like, there will be problems and head aches for every one, with minor issues, possibly causing, major catastrophes, such as an early death and a visit to my Epcot Center, from an over dose of too potent, lethally potent, molded up substances.

Freedom, denied to a person, is the worst thing that can happen to some one. Until your guests can experience life, freely coming and going, as they like, and as they choose, voluntarily helping you and your family, and your friends, out of love and respect for each other, to learn the sciences that you need to learn to allow you to feed all the hungry animals inside of your body, and to feed all of the hungry organ animals, and cell animals, etc., inside your body, so that you can begin to live forever, you will experience difficulties in your relationships with each other, that will now and then appear, and cause possible problems for you, your family, your friends, and also for your guests.

Freedom to choose is a basic right of all people. So let's all be kind and loving towards one and each other, and over time, you will begin to be able to loosen the restrictions on personal freedoms, and in time, you will be able to do away with them, and dispense with them all. This will be a major turning point, in your relationships with your guests. When your guests can come and go, with unrestricted access to your home, just as a sister or brother has, to their home, and when your guests can freely choose what they wish to do, without any coercive forces placed upon them, then you will be making a major turn in the direction in which you all wish to go, towards a happy, healthy, settlement, over past confusions. With this as a goal for you, you should cooperate with each other, and make life as easy, comfortable, and satisfying as possible for your guests, to minimize their possible hostilities towards you for your forcing them to get into a situation of cooperate or else. This is not a good thing, and you will not get any cooperation, at all, if you approach your relationship with each other, with that attitude, and with that approach. A long, dependable, reliable, and mutually enjoyable, sexaling history with each other, is the begining of a trusting and loving relationship, that will one day lead to the loosening of restrictions on personal freedoms.

Molds And The Potential Dangers Of Potent Molds

Sometimes, you may have a mold on the bread that you are molding up, that may be too strong, and may need some trimming. As you mold up you need to trim your molds. What is trimming a mold? You need to make it more useful, by using various techniques, to make it edible, that is, eatable.

An eatable mold is what we want to make. We do not want to make a mold that is too strong in nickle animals, or too strong in copper animals, or too strong in iron animals, or too strong in stronthium animals.

What is stronthium? Stronthium, is a mineral that can be useful to your health, and is useful, but if it is too potent, or too strong, that is, if there are too many of my worker animals making gardens with lots of stronthium in the plants, and bushes, etc., and the number of gardens increases, and they my worker animals cover the whole piece of bread with their gardens and forests of stronthium rich plant life, then the piece of molded up bread, if you eat it, may make you ill, and vomit, or you may get cold chills. If there is too much stronthium, then you can even get seriously ill and die.

This is true with any molds gardens that my worker animals make. There are secrets about how to make molds gardens, and how to get the right number of worker animals, from the right sources, onto the piece of bread that you are trying to mold up. Different worker animals from different sources, will be busy making molds gardens, and you want to try and get right combination of my worker animals onto your bread, so that they can make you a nice salad of molds gardens of many different and useful kinds so that your salad will be healthful for you to eat.

You need to know a little about molds, and what types of molds grow on bread. You also need to know what types of molds grow if you put, for instance, lima beans with bread, in a canister or molding pot, and the

pot is made of copper, instead of steel, or iron, instead of gold or silver, or lead,

You have to study about molds, and you have to learn about all the different molds. This can take many long years. You need also too know, what in combination with what, will produce what molds.

Lima Beans And Molds Types

There are many millions of combinations that you can make. Lima beans is one with bread. Lima beans grown in Peru is another. Lima beans grown in Alaska, in a low lying valley in Alaska is another possible combination. Lima beans grown in a snowy mountain village, in the summer, but in a green house, with a hot springs water supply, and geothermal, and hot water sulpher springs heating is another combination. Lima beans grown in Siberia, in a snowy mountain village, in the summer, in a green house, with a hot water supply, and geo thermal, and hot water malaxacite springs heating, or iron sulphide laden hot water heating, are two other possible combinations.

Worker Animals Living In My Universe

There are many millions of worker animals families in different parts of the world, who will each work on different lima bean plants. The worker animals all have different friends working with them. Many of the workers are different all together, and maybe they came from other planets, even, and settled on this planet, when they got a ride on a person's pant leg, or on a person's shoe, when that person came to this planet.

You can travel by air plane to different countries. You can also travel by air plane, to some planets, if you know how to make an air plane that will travel up and through the upper solar atmospheres, and out into the areas between planets, at a fast enough speed, so that it can pass through a dimensional barrier, and then in a different dimension, it can fly wihout hitting objects, directly to the planet the passengers wish to go to.

Special Automobiles That Travel Through Space

Some types of auto mobiles, which have special technologies, also travel through dimenisional barriers, to other planets. They have the technologies, to be able to get a lift, up and out of the planet's gravity pull, and then out onto a platform, landing and take off space. Once okayed for a take off, it can go to the next platform, and then to the next platform, and it finally reaches the final platform, and then it gets the okay to land on a planet, and it comes in, and it lands on a landing strip, and then after passing security and customs, it is free to drive to a person's house, or to an opera concert, or to a theater to listen to a symphony concert. Lots of people travel this way, in many parts of our universe.

When people, land, they bring all kinds of rubbish, with them, including lots of air, from their lungs, and from inside their automobiles. Inside the air, there are lots of tiny bugs, that crawl around in the bronchial tubes. Inside the tummy, there are lots of animals that crawl around in the tummy, and some of them, end up getting pooped out, when you go to the bathroom.

Bugs, Bugs, Every Where

Lots of times, little bugs, of all kinds, may find their way into a package of flowers for a girl friend, or chocolates for a boy friend. Or some times, people exchange, rasberries, and strawberries, and other types of edible foods, that are eaten, and pooped out, and then, the remains are thrown out in the garbage can, and then later, the trash company comes and picks up the trash, and they go to a compactor site, and they make use of what they can recycle, and they mulch up what they can mulch up, and they dismiss the items, they can not have on their planet, that are toxic, or that are not allowed on their planet, for one reason or another.

Many bugs travel from one planet, to another, in cars, in strawberries, and in groceries, that people pick up on other planets, and carry home, to their planet, to eat at their homes. This is perfectly legal, and every one, knows about it, and they are all laughing at me, because they all can read what I am typing, as I type. They have the technologies to read directly what I am typing on my computer, and that is nothing, special, as far as technologies go.

There are no laws that say they can not watch what I am doing, when I am sleeping, or when I am in the shower, or when I am dressing, or when I am typing, or when I am out side, walking to the store.

There are no laws on privacy, as privacy is a myth. We think we have a right to privacy, but remember, all you girls and women were married to all the men and boys in the universe. All you men and boys were married to all the women and girls in the universe. You were all sisters and brothers with each other, umpteen who knows how many times. You were all fathers, and mothers, and you tummy mommies gave birth to every person in our universe, all your sisters and brothers, from previous lifetimes. All you tummy daddies, also shared in the work with the tummy mommies. Every one knows every one else, and every one has been butt naked with every one else, umpteen countless times. So, privacy is not an issue, any more, as you all know what you each look like, when you are butt naked, or sick in bed, or in the hospital, and so forth.

Any way, many bugs travel from planet to planet, and there are lots of bugs, that may have gotten here, from the past, as the Lesbianists always have friends visit them, and their friends from other planets bring gifts for them, and they bring lots of produce, and things to grow, and this has been going on, since they got here.

How often their friends visit them, these days, I do not know, but some times, in the past, they visited them, often, and they have stopped, lately, as they do not want to get caught. They stopped about fifty five years, ago, and before that, they often met on some secret military bases, that all the soldiers on the base, are Lesbianists.

There are many military bases, that only Lesbianists are allowed to join, and allowed to live at. The Lesbianists have them all over this country, and all over the world, in fifty five places, approximately. Some times, even now, the Lesbianists have guests who visit here, but not too often. When they visit, they come in and land on the run ways, and in secret places, where they can glide in, at night, in special light carrier cruise ships, that practically glide in, from the parent ship, waiting up above. When they land, they land very softly, and quitely, and no one even wakes up.

They stay for a few days, to a few weeks, to five or so months, or even longer. They are here, now, and many are in hiding, with the Lesbianists, as guests of theirs.

They bring in bugs on their pants legs, and they bring in all kinds of micro scopic animals, and even tinier animals, and you do not have the technologies to see them, because they are so small, and because the Lesbianists prevent the 'ordinary' people from getting the patents and licenses, to build them, and they execute the patent owners, and any others who are part of the company or companies, who wish to build the microscopes, or other useful technologies, and that is that.

These animals that are very tiny, are living all over this planet, and there are millions of different families of tiny animals, that eat up each other, on the lima bean root and root stalk, and on the stalk of the plant, and there is much warfare on the plant, in very tiny places.

The out come, is there are many tiny animals, eating other animals, and pooping and peeing wastes from their bodies. Their poopy materials get into water and the air, and onto the roots of the plants, and onto the stalks, and onto the leafs, and we have lots of different kinds of tinier animals, that eat up that poopy material, and those pee liquids, and they live on that stuff, just like pigs live on dung from cows and from horses, and how flies live on dung from cows, camels, horses, bears, dogs, cats, humans, and so forth. There are lots of animals, we can not see, at all, because they are too small, and because we do not have the microscopes, and the lenses, and viewing technologies needed to see them.

The lima beans in different parts of the world, all have different groups of animals living on them, when they are picked, and when they go to market.

When you take the different families of animals living on the lima beans, and you have a handful of lima beans, you can put them into a container, that is lined with one or more layers of aluminum foil, and

then you can put into the container, rocks, gravel - if they are clean - and pretty amethysts, quartz stones, agates, opals, garnets, and other pretty mineral stones.

You then put into the container, some bread to mold up. Depending on where your lima beans where growing, and depending on who was working, from among my worker crews of worker animals, on the roots of the lima bean plant, and on the lima beans, and in the leaves, and so on, you will get different poopy materials, and different types of pee liquids, and in the poopy materials, and in the pee liquids, there are lots of other animals, that are very tiny, and difficult to see, without the right technologies that will let you see them.

You can have millions of different molds gardens, from lima beans, with bread, in a container, as a result of all the different crews of worker animals that I have working in the soils, in the rocks, in the air, in the water, in outer space, on each planet, and on the moons, every where, with lots of them all mixed up, with one and another. The different animals living in the rocks, or in the aluminum foil, or in the walls or on the surface of the container, will also increase the number and types of poopy materials, and of pee materials that mix in, and help produce different types of molds.

There are so many possiblities, just with lima beans, there are more than millions of molds that are possible. When you think, well, there is also sessame seeds, and there are walnuts, and almonds, and pecans, and cashews, and figs, and fruits of all kinds, and seeds, and berries, and leafs, and roots of plants, and different plants, on land, and in the water, in lakes, in streams, in seas, in oceans, then you begin to see that the number of possiblities for different types of molds, gets very high, as I have so many worker animals, working in different places, they make me dizzy, when I think I would like to count them all.

It takes too long, to count them, but the important thing is to know, that there are many types of molds that can grow, just from lima beans.

When one mold begins to grow, another mold also will begin to grow, and so will many other molds begin to grow. One type of mold may grow in one part of the bread, and other types of molds may start growing in other parts of the breads, after you leave the lima beans, in the container, just for a few weeks, and you make sure there is enough humidity for the animals inside, to get some thing to drink.

You do not want to make my animal workers go thirsty, or they will not work for you. So you have to learn how to be a gardener, if you want to grow molds, properly. More over, you need to learn a lot about tending plants. That is, tending the types of plants that grow in molds gardens. Since there are so many molds that grow, you will need a lot of time to learn all about being a gardener, for all the different plants that grow in all the various molds gardens that grow.

You will also need to study about all the different kinds of animals that live in the molds gardens. You will also need to learn, what kinds of molds gardens will grow near other types of molds gardens, or on top of molds gardens.

Molds Grow In Layers

Many molds gardens get over grown with other molds gardens, and they grow in a double layer, one over the other. Sometimes, they grow in three layers, and in four layers, and in five and in six, and in seven, and in eight layers. They grow in many tens of hundreds of layers, if you let them grow for a long time.

How many layers, can they grow in, well, it depends on how long you want to grow them, the soil conditions, the growing conditions, the humidity conditions, the weather and climate conditions, and on many other factors.

I don't know how many, you can grow, if you really try to grow a lot, but there may be quite a few of them, that will grow, and way to many for any one to count, in lots of cases.

Some of the layers of molds may be alright to eat, depending on what the molds are, but some of the layers may not be alright to eat. Some molds layers are not useful for people to eat, because they are filled with some molds gardens, that are better for tiny animals to eat. Some molds gardens are better for large animals, like pigs and hogs, to eat.

People can eat lots of molds gardens, but you have to study about molds gardens, and about how different molds gardens grow with other molds gardens, in one layer, after another, in a container, with different types of rocks, under different conditions, on the different types of bread, to know which ones you can eat.

Some molds gardens, will give people stomach aches, so it is good to learn and know which ones give people stomach aches, and which ones are safe to eat, rather than not know which ones are good for our stomachs, and for our bodies, and are safe to eat.

We do not have any courses on molding sciences in our schools. This is because the Lesbianists will not teach any one about molding sciences. Why won't they teach any one about molding sciences?

Because, they enjoy living a long time, alone, by them selves, and they like to watch us ordinary people, come and go, one life after another, back again, then gone after eighty or ninety years, then back again, then gone again, and they think it is funny that all the while, we never catch on to what they are doing. They make friends, with people who they like to make friends with, and they enjoy fooling them, and dumbing them, or making fools of them, and they enjoy finding out if the people they meet, were friends of theirs, in previous life times, and they find out who they were, by checking in special databases, they or their friends have access to, and then they

confirm whether they knew them or not.

Most of the time, they can already tell, once they meet them, and hang around with them, for awhile, if they had known them or not, in previous life times, as they know so well the persons they usually meet, again and again, and the persons they've met so many times, who they know all of the personal habits of, and the likes and dislikes of, these people they used to know, that they can pretty much guess if they know them or not, this time, when they meet them, and after hanging around with them, for a little while.

What Do The Lesbianists Enjoy Doing?

They like to take your tax dollars, for one thing, so that you will support them, pay for their salaries, homes, vacations, their all expenses paid holidays allowing them to visit their Lesbianists' friends in politics, all around the world, showering them with lavish gifts, presents, round trip tickets to visit them in Alcapulco, or elsewhere, with all expenses paid, and they enjoy the perks they get such as your paying for their kids' college educations, and their kids' trips during college breaks to far away places, such as Portugal, Spain, Lisbon, Istanbul, Singapore, Korea, Japan, and other countries with your tax dollars paying for all the expenses, as well as all the expenses the Lesbianists need for doing the fun things they like to do, on their credit accounts, with various government agencies, set up to help them pay for their lavish, over seas' lifestyles, while they make fools of all of you.

They enjoy watching you fall for the scams they set up, where they saturate you with their talking 'experts' who tell you how to live your life, and what to invest your wages in. Then they like sending you, seemingly out of nowhere invitations to their 'specialists' talking tours, where they talk to you for a weekend or for a week or so, and they try to talk you into buying what ever it is they are trying to sell you.

They get close to you, this way, and they find out things about you, that they will use to track information on you, in the databases that are set up in my universe, that they or their friends can access, to identify you from your previous lifetimes.

They have a 'sexaling for a living' account, that they are allowed to use, and track their old friends with, to see how they are doing. They all arrived here, on this planet, on the 'sexaling for a living' program. They are still registered members, and they have access to databases, if they are still in good standing, and if not, they have friends, who can access the databases, if their friends are in good standing, and there is much abuse, and fraud, that goes on, and it is not punished, as my kids are recording it all, and in time, my kids will take action, and dispel them from the program, that means, kick them out, and not allow them access to the underground bunker houses, that my kids had put in for them, to live in, and my kids will make

them live on their own with their friends, and not in the facilities that they were originally allowed to live in. Once they are tossed out of their special facilities they earned the right to use, as members of the 'sexaling for a living' program, they are forced to live in the down below, underground cities my kids built for them during their initial getting used to the planet and to it's solar conditions, and to it's other conditions, that they must aclimate them selves to, before they can safely emerge and begin living on the surface of the planet.

There are several hundred thousand persons, such as Boris Yeltsin, who has a registered fortress dwelling, as Boris Yeltsin, sexals for a living, still, from time to time. He and the others, are the only ones who are left, and the rest of them find accomodations elsewhere, or with friends, from time to time, in the underground bunker like homes. They do not have to worry as much about the abominated 'animal people', I've mentioned about, as the others former members do, who are no longer legitimate members of the 'sexaling for a living' program.

Note: I was told by my kids that the number of people who are still legitimate members of the sexaling for a living program, was several hundred thousand, on this planet.

Then, accessing the databases, they learn who you are, who you were in your past life times, and then they remember the many occasions they met you, and were friends with you, and they also remember all the unpleasant things that happened, that made them angry at you. They then plan their game for getting revenge against you for the mean things, or unpardonable things, in their twisted minds, that they remember your having done to and against them, and against their friends.

'Spokes Persons', And 'Experts' On Television

You can hear, on any radio station, probably, no matter who runs it, civilian, i.e., ordinary person or, Lesbianist, advertisements from their 'spokes persons', people with credentials, who like to tell you how to live your life, and what to do for getting the most out of life, as I can hear, daily, on KOAS, 105.7 Jazz, Las Vegas, Nevada.

These 'spokes persons' are on every 'propaganda' interview talk show on TV, and on other programs, as well, such as the supposed 'educational' series done by credentialized anthropologist, Desmond Morris, a major Lesbianists' propagandist and they have set up programs where all they do is feed you bull shit, such as on PBS, the famous Road Show, where they are bullshitting you on and on, about what your 'priceless' family hand me downs, and possessions are worth, when they know they are not worth a dime, because these Lesbianists have been on this planet, for over gazillions of years, ever since they settled it, on the outbound expeditionary planetary settlement program, for qualified people in the 'sexaling for a living' program,

who were supposed to set up a planetary government and a global society, and give birth to lots of my kids, by making babies, and then teach them in courses they were supposed to set up, every thing they had agreed to teach, and then educationaly nurture in the people who would come, as tummy babies.

The Lesbianists have set up so many civil wars, and other wars, for their fun, and entertainment, as they have many scenarios for their kicks, thrills, and enjoyments, and they constantly are changing the scenarios, every time their plans collapse, after their illegitimate societies fall apart for one reason or another, and they then have to start over again.

The societies do not always collapse, entirely, and some times, things going on in one part of the world, is very advanced, technically, while things going on elsewhere, are in the stone ages, nearly. They keep people away from areas that are not yet ready to be seen by ordinary citizens on the planet. They put out travel advisories and warnings issued by state department counselates, of chaos in jungles, and tribal militias, in rugged, untraveled areas, and so forth.

Mormon 'Peace Brigades'

This way, they keep people apart from each other, and they keep modern up to specifications people, people with 'worldly' or 'global' agendas and ambitions, such as private organizations that send out counselors to countries where people are less fortunate, than others around the world, from the reports they have seen, or from video images they have seen. They keep these 'do gooders' usually, a lot of Mormon 'Peace And Charity' bringers, the young men who go out, for a set period of years, to bring the 'gospel' into the 'lives' of 'non believers', from seeing the things they do not want them to see, such as technically advanced structures, none of the primitively living people in a mountainous, rugged area, for example, have any idea as to how it got there.

Soldiers Stumble Across Unexpected Sights, Now And Then

Soldiers sent on expeditions to fight with guerillas, find these technologically advanced structures, as they come across them, as they are searching out the area, for the 'enemy'. The soldeirs are warned that they are not to disclose any information on what they found, as it is too sensitive to let any one know any thing about, and their mouths are sealed, at the threat of retaliation for insubordination, sabotage, spying, or infringement against laws of engagements, the articles of war, that prohibit soldiers from disclosing enemy information, so as to keep it secret, for legitimate, in a normal society, purposes.

Historical Documents Found In Attics, And Shown On The PBS Program, 'Roadshow'

There are so many copies of treaties, and declarations of independence, not one of them is worth a penny, as the Lesbianists set each war up, and each society up, and they are laughing at you for thinking the documents actually mean something.

On the other hand, you can see them bullshitting you with their experts, who tell you how cheap something, is, or that it is a 'recent' creation, made, for instance, within the last fifty or so years, or within the last one or so nearly, hundered years, such as an irreplaceable lamp, with a beautifully made lamp shade, the creation of which, is worth a fortune, as it is so rare and so beautifully executed or made, and in fact, it was made umpteen millions of years ago, for instance, or even longer, ago, and they know it is worth a fortune, and they get nervous, a little bit, and they stammer, a little bit, and they get edgy, and they show signs of perspiration on their forehead, and you wonder why is the person so nervous.

Well, it is because that what they are looking at, they plan to tell their friends about, so that they can go and burn down the house of the owner, after killing the owner, typically, and after either destroying the item they found that the guest/owner brought into the studio, to show on the PBS program, the 'Roadshow', and get 'authenticated', by 'experts', or after killing the owner, and his or her family, and then stealing it, and keeping it for themselves.

You come around and go around, again and again, and you all have talents, and have always had talents, as you developed your abilities during past lifetimes, and once you got your abilities in a certain area of your interest, up to a certain level, it isn't hard to see how you take those developed talents with you from one life time to the next. It is just a matter of reviving them, if there is an opportunity for you to get into that area of your interests.

The experts crafts persons among you, make nice things, and then the Lesbianists trash your lives, and some of your work surfaces, some where down the road, at a time, later on, in some old attic, and no one knows how it got there, and it is something of great value, that just happened to escape the holocaust, that devasted the last civilization, or a previous civilization, the Lesbianists set up, and that went missing, and was of such exquisite compensense, and compensense means, nice looking and exquisite in form, texture, beauty, style, meaning, and composure, that they can't even hold their breath, because they are about to pass out, and they tell you it is worth a few bucks, or twenty or fifty dollars, and all the while they know they are bullshitting you, and they are nearly fainting, and when their friends see how well they bullshitted you, they will make their friends feel they are getting some kind of revenge against you, for your being so stupid, as to what is what, and what came from where, and who made it, and what it is worth, in true value.

The Lesbianists who run the program, 'The Roadshow', and PBS, regularly rate cheap items, as expensive, to some extent, when it is just a piece of rusted junk, such as a civil war sword, that some

southern soldier had the unfortunate circumstances in his life, to go off and fight a war the Lesbianists staged for him and you other ordinary persons, to go and fight, so they could laugh at you, as you killed each other off, and bloodied the country side, with your torment, and grief, at their beckoning and call, all the while you thought they were worth a darn, and they weren't, all the while, and they were just interested in using you, and in making fun of you, and then having a good time, with what ever it was, that you left behind, such as children, who they enslaved, or houses, farm steads, and so on.

The Lesbianists have caused so much harm and devastation to so many people, and they just laugh at it. The ugliness of what they've done, is well documented, by my kids, and one day you will all get to witness it, your self, as my kids keep video data, and audio data, on every one, and on every thing that occurs, nearly.

PBS's 'This Old House'

The Lesbianists have their specialists talk to you on 'This Old House', for instance, or on one of the other propaganda programs they have, and they bullshit you, on TV, and their friends are watching, and they get laughs, and every one knows who they are bullshitting, because by the time the program airs on TV, they have already told every one among the Lesbianists who would be interested, with their secret communications capabilities, that they have installed in homes of important people in their organization, and that information is forwarded to other Lesbianists who they know would enjoy watching them bullshit you.

They televise their bullshit sciences, they created, and information on the supposedly important and famous people, who have passed away, for instance, and in one of their sick jokes, they bought or stole, or forclosed on his or her property, and then opened up a swank gallery with his or her work, and they keep it all for their viewing pleasures, and for their enjoyment, and they do not allow the ordiary people on the premises, unless a person happens to be invited by a Lesbianist, who is just going to enjoy some time, bullshitting the person.

They televise the 'visit' to the premises, gallery, or the estate on PBS TV, to tell you and 'teach' you some thing about the 'deceased' person, who was 'famous' for such and such, which they know is based on a numbskull science they taught him, or her, and what ever he or she actually became famous for, they bought for a meager sum, usually after swindling the elderly owner, or they forclosed on it, and then they enjoy it, with their friends, and they sort of taunt you, on TV, saying, look at this, isn't it beautiful, and too bad, but you can not enter the premises, without a special guest pass, and they broadcast this on a feature program on PBS, or on one of their other public broadcasting channels, over seas, the BBC in Britain, or NHK in Japan, and so on.

They are constantly mocking you, and poking fun at you, and making them selves laugh at how stupid you are, for not catching on, and for thinking it is something you should look at, as a serious viewer, when all the while, they are making fun of you and the snookering job they are doing on you, laughing at your stupidity for not knowing that the science involved, is a bogus science, and for your not catching on, and that they are just shamming you, or snookering you, once more.

They hold you up to these patriotic "I Pledge Allegiance" to the flag nonsense, in schools, and they couldn't give a darn about whether you are born in Scotland, or Queens, New York, or Paris, or Darwin, Austrailia, because they know, that no matter where you land, when you come back as a tummy baby, they or their friends around the world, will just continue snookering you, no matter where you are born, and no matter to whose family you are born.

They then send your son's and daughter's out on war and peace campaigns, where they make minced meat of you, as they force the soldiers to engage the 'enemy' in mock, to them, wars, and peace keeping campaigns.

Your son's and daughter's, if they are lucky enough to survive, come back from the wars, and from the peace keeping campaigns, and they are not happy with their experience, and there were many dreadful things that happened, such as being caught by the enemy, then tortured, or crippled. These are all made up wars and made up peace keeping campaigns, and it is set up to keep you busy, so that you will pay your taxes to them, for the 'important' things they do, to maintain 'peace' and 'stability' in the world, so that you can 'sleep' at night.

Getting Revenge Is What The Lesbianists Enjoy, Most

Most of all, the Lesbianists enjoy getting revenge on people who they dislike. They enjoy going out with their old friends, and they enjoy fooling them, and they remember the bad things their old friends, did once to them, a long time ago, and they never forget these things.

The Lesbianists then enjoy kidnapping them, and then they enjoy torturing them and their family members who they always knew as well, in previous life times, and who they always had problems and complaints with, as well, and they typically hated them as much as the people who they bump into, and become friends with, and after torturing all of them, then they enjoy eating them, and then they enjoy killing them.

They enjoy being able to take all the properties, and all the land that every one owns, making sure that they keep all the valuable property, as far as they are concerned, in their hands. That usually means, making as much of the land, public parks, national parks, wild life conservation areas, indian reservations, BLM land, or other publicly, or privately owned property.

They are a very foolish, stupid, fiendish, menacing, and evil group of dangerous people, the Lesbianists, and we have to stop them, now, as it is time for them to give up the game, and it is time for us to force them to stop pretending and lying.

Lesbianists Will Never Tell You The Truth

They will never stop lying, no matter, what. You can threaten them with death, all you want. That will not help, at all. They know how things work in my universe, and they are not at all afraid of torture, or death. The only way to stop them, is to either kill them all, or you can kill most of them, take over all the jobs they had, and then make friends with the ones who are left, after you finish killing as many as you can.

You can start killing them, if you wish, by killing Hillary Clinton, Bill Clinton, Jeb Bush, the two George Bushes, the two Barbara Bushes, all the congressional members of capital hill, who are Lesbianists, and then all the important cabinet persons, of the White House, and department heads of all the important departments of the U.S. government. You'll have to kill most generals, admirals, and commanders in the military, as most of the military leaders, with a few exceptions, are Lesbianists. Many of the state National Guards are nearly all Lesbianists, so you'll have to get rid of as many of the commanding officers and soldiers of the National Guard as possible.

Stopping The Lesbianists, Please Detonate And Destroy All The Airports The U.S. Congress Members Use

If you happen to be in Washington, D.C., please blow up Washington National Airport, now named, after former President, Ronald Reagan. That will make it hard for the Lesbianists to travel. They will have to go to Dulles International Airport, or to another smaller one, nearby, at one of the military bases. If you can blow up all of the military bases in the area, and blow up Dulles International Airport, as well, then you will make it difficult to travel for them, unless you blow up the all the air ports, all around Washington, Baltimore, Northern Virginia, Maryland, Pennsylvania, West Virginia, North Carolina, Tennessee, and so on.

If you destroy all the air ports the Washington D.C. congressional members use, then you will make life difficult for them.

Please, by all means, use the bomb formulas, that I have provided, and blow up all the airports, and all the military bases that you can blow up, and destroy the entrance guard shacks, and the run ways, and the barracks at the military bases, and the munitions depots, and the armories, where they keep many of their weapons stored.

You should also blow up the underground bunkers, where they have all the sensitive equipment, that they use, to listen to the chatting of Russian soldiers, and Russian housewifes.

While you are killing as many as you can, others can be making friends with the Lesbianists who accept invitations to visit the families of interested persons, who wish to learn sexaling techniques, in the classrooms, provided by the families, in their underground air raid shelters, and in their underground fun time dungeon play rooms. As time passes, when you've killed enough of them, and when the ones you've invited into your homes, have taught you every thing they know about sexaling, and lots about what they know about molding sciences, and other things of interest, for rejuvenating your bodies, for enhancing your libido, and for feeding the organs animals, cell animals, amoebes kiddies, and other animals in your bodies, you can ask them to come another time, and then you can make sure they find their way, to a new home, or apartment, as their old home or apartment may no longer belong to them, or be there, as former neighbors may have gotten rid of their old homes, since they were not available by phone, and no one knew where they were staying, for so long.

It may take us several years, to make an effective change, to a dozen years, or as long as twenty or even thirty years, to fifty years, or more, but eventually, we will make the changes we need to make, so that every one will get all information on the molding sciences, and so that every one will be able to learn the secrets of molding sciences, and the secrets of rejuvenating the human body.

New Releases Of The Programs And Operating Software

I am aware that, some people have a new copy of the operating systems, and of the software programs. I recently had my kids release, to the FBI and to the persons who are in charge of the audio and video surveilance links on me, as far as I could confirm, a new upgraded version of the operating system software and of the program software package. If the current government will cooperate, and distribute the software, then we can get the information on the molding sciences, and on the rejuvenative sciences, to all of you, soon. If they will not cooperate, then there is no alternative, but the ones that I've suggested.

Molds And Donor Bowl Technology

In donor bowl technology, you take a small container, about a gallon or so in size, and line the bottom of the container, with one or more layers of tin foil, and throw in a couple of rocks, that you know are clean, and that look pretty. If they look interesting, like a pyrite rock, with lots of different types of metals on it, and a little quartz you can use that, and you can throw in tourqouise, or malachite, or lapis lazuli, or a gold ring, necklace, bracelet, or ear ring, or a silver ring or bracelet, etc., and you can throw in a nice looking sterling silver spoon, that is not a cheap piece of garbage, that has metal pieces flaking off of it, like some table forks and table spoons, knives, and so forth, that come out of cheap, Taiwan or Mainland Chinese factories, or out of factories in Korea, or Japan, where the bottom line is all that matters, and find a good piece of your grandmothers' silver ware, or some thing comparable, and don't be

stingy about silver ware, as silver ware is useless to your health, if you do not eat with it.

Silver plates, copper plates, bronze plates, gold plates, even gold plated metal plates, are all very good to use, and you'll find that what one person calls aluminum, or pewter, or brass, may in fact be a combination of ores, with many precious metals in it, despite the imprint on the underside or bottom of the piece, indicating it is sterling silver, or brass, or pewter, or whatever. We do not have the technologies to tell one metal apart from another metal.

Our technologies are too primitive, and so you can not tell when you have gold animals in your metal, in lots of cases, even if you have a piece of pewter. I have many types of gold animals kids, and they all get written off as slag, when the factories are melting down precious gem stones that they mine in vast quantities, and no one uses it, and it sits there, in the foundry yard, until the foundry yard goes out of business, and then vandals may steal a piece, but if the Lesbianists catch the vandals, they will kill them.

Workers try to take home a piece of pretty looking slag, or waste metal, that is scraped off the top of the bowl of liquidy, heated metal, because it is too light, as it is floating at the top. Well, many types of gold float near the top or at the top, and so does silver, and the steel is heavier, and so the top good stuff gets swiped off, or scraped off from the top of the molten metal pot, and it is dumped in the foundry yard, to sit there, and no one uses it.

Gold animals, and silver animals are as plentiful as platinum animals, and lead animals, and copper animals, and iron, and steel animals. There is no such thing as a 'precious metal" because they are all in my universe, eating, and munching on each other, and on other types of minerals animals, and on other tiny animals as well, and they make babies just like every one else does.

There is no lack for want in the baby making departments, and so there are just as many gold animals kiddies, as silver animals kiddies, platinum ore animal kiddies, as there are iron ore animal kiddies, and copper ore kiddies, and so on.

The reason the Lesbianists have their trick sales technique for "precious" metals, is because they know you do not know any different, and they know that you have not been educated, and they know that you are not smart enough to figure out what is what, as you do not have the technologies to investigate and determine who are my gold animals kiddies, and who are my silver animals kiddies, and who are my platinum animals kiddies, and who are my iron animals kiddies, and who are my copper animals kiddies.

How Plentiful Is Gold, Silver, Platinum, And Other So Called "Precious Metals"?

The Lesbianists hoarde the gold, and silver, platinum, and white gold, and they make it look scarce, and they ban people from mining national parks, and BLM recreational lands. The bureau of mines, has strict controls, and limits on land you can mine on, and the Lesbianists, for the most part, control all the useful land, and they do not let 'ordinary' people, get ahold of the useful land, and if an ordiary person finds a useful piece of land, the Lesbianists end up killing the person, and every one associated with the person, so that the issue is no longer a topic of concern for any one, who knew the person.

You are too stupid, so they think, to figure out any thing, since they have educated you in dummy sciences, that lead no where. Then they complain how stupid you are and about how little you know. So they spoof you, and they came up with the movie, the "Planet of the Apes", and its sequels, and they were written using you as the character of the 'ape', the common ordianary citizens of this planet, and the common ordinary citizens on all the planets they control, where as, they considered only them selves, the normal, "intelligent", human beings.

They laughed at you, in your monkey suits, as they employed the ordianary people of this planet as the actors and actoresses, to portray the 'apes'. Many of the actors and actoreses, where former Lesbianists, and they hate all of the former Lesbianists, as all former Lesbianists got kicked out of their organization, and they know who the former Lesbianists are, and they have beefs, or attitudinal problems and complaints, with all of you, who were Lesbianists, before you got trashed, grieviously tortured, eaten, killed, and with that, you were kicked out of their organization by them.

If you are a man with a vagina, and nine times out of ten, many of you still have a vagina, though some of you have worked off the karma, to have a vagina, such as you men and boys with normal genitalia, as you all had vaginas, all of you, because of the karma you had, killing females, led to that, and some of you worked off your karma, enough, and balanced out your karma enough, for you to lose that vagina you originally had, you were probably a Lesbianist.

Maybe almost every one of you, were at one time or another, a Lesbianist. There are not many people in my universe, except perhaps for me, who was not a Lesbianist, in the past.

If you are a woman with a dick, or with one that has been cut off when you were a young baby, because of the doctors advice to your parents, though some of you worked off that karma, as well, and balanced it out, etc., you were probably a Lesbianist, in the past, before they trashed you, killed you, grieviously tortured you, ate you, killed you, and with that, you they kicked you out of their organization.

It's the same case for females, as it is for males, almost every one of you, but there are a few exceptions, were a Lesbianist, in the past. The exceptions are the little, tiny people, who live in the

abominated zones, in the pumpkin piggy patches, as I've mentioned about, before. There are other exceptions, but I will not go into them, now, because once you start studying in the 'Managing My Universe' program, you will learn all about who did what, and who ended up where, and so forth. In any case, that is some thing you can look into, later on.

Building An Underground Fortress, Or 'Playroom'

So the nice thing for you to do, would be to make friends with every one, and that goes for the Lesbianists, as well. You should all invite the Lesbianists into your underground rooms, and caves, and culled out work rooms. Culled out means, cut out of the face cliff, or cut out of the wall, or rock wall, or cliff, along side a river, or an ocean, or along a steep mountain face. Culled out work rooms, are not hard to make, but you need to know something about explosives, and blasting, and then, deconstructuring the surface of the cliff face, safely, so that you can little by little, safely, cut out, or cull out, a study, a garage, a work room, a tennis court, a bowling alley, and so forth that you can enjoy under your main piece of property, if you happen to live above a very high and large, solid, granite, or lime stone, etc, rock cliff, far above a lower valley, or river below, or very far above the level of an ocean, or sea, below, and off and aways a little bit, from where your property is located.

Once you begin making an underground, fortress, or play house, if you are a specialist, in explosives, and in architectural engineering, and geological engineering, or if you can get some friends together, who with your combined talents, can manage to cull out an underground fortress or play room, then you can build one, and you can later, after you have installed cold water piping, and drainage, safely, along with installing the electrical power generating facilities you'll need, to keep electrical company employees from snooping around, then you can invite your friends over, and have a block party, with trustable friends, and then you can invite some of the Lesbianists over, and make sure they understand that they are there as guests, on a temporary, but long term stay to teach you all about the molding sciences, and all about sexaling, and so forth, since they are all gifted instructors.

You could always get every one on your block, if they are all trusted friends, to set up a power grid, underground, using the electricity of every one, on the block, to power the underground play room, that you and all your friends will enjoy building. That way, if you build it right, and if you do not raise the suspicion of the power company's meter reader, or meter inspector, or any one else from the power company, who has upkeep maintenance work, to perform, from time to time, then you can safely put in a grid, and hook every one into it, so you can all share in the costs for the mutually enjoyed underground playhouse, along with all the sexaling entertainment, that you will all be able to enjoy, with your many friends, and with their many

trusted friends.

Molds And Donor Bowls

With regards to molds and donor bowl technologies, after you've got your container set up, with a few layers of tin foil or so, on the bottom and sides of the container, and rocks and gem stones, etc., in the bottom, you can use that as a collection bowl, and go around and investigate the molded up breads that you have, and you should have between thirty of forty types of molded up breads, or more, to select from, and when you see some thing, interesting, after a few weeks, to a month, or more, you can pick out an interesting piece of bread, with lots of molds, or with just a few molds, and then you can combine six or eight of the different molded up breads, from six or eight containers, and then just place each slice of molded up bread in the 'donor bowl' container, and then, give it a few days to a week, to get leveled out.

Leveled out means, that the molds on each piece of donor breads, will each spread from one to another of the pieces of bread, and then you'll get a proliferation of molds, on all of your breads, and with lots of molds, it is generally safe to experiment, with a little piece of a corner of a piece of bread. If you cut off a tiny enough piece, you probably will not get too sick, if it is too potent for you to eat.

Try out the different molded up breads, and some may taste gentle, and tasty, and others may not taste to much to your liking, but after a while, you'll get to learn, what types of molds may cause problems with your body, and what types of molds will not cause problems with your bodies, and what types of molds to avoid eating, and what types to enjoy eating.

Molds will continue to grow, one over another, and one day, even though the molds may not be nice ones for you to eat, after a few weeks, and after a few tricks, such as placing those molded breads in with cherry juice, wine, or with sugary water, or with honey, or with fruit juices, fruits, milk, or sour cream, yogurt, or honey and cream, you can get the molds to grow, different molds, that will be more useful to you, and more tasty. There is a lot to study, about molds, and how to farm them, tender them as if they were your gardens, and cultivate them. The Lesbianists know all the secrets about all of this, so we need to convince them to give up the game, and start cooperating.

When you are examining, and sampling your molded up breads, jot down in a note book, accurately as possible, after you've described them to your self, the molds, and every thing about them, and give them names, and take photos of them, and keep a note book, for instance, with the pictures in them, and your notes, so that you can remind your self about what you saw growing, and what you learned about each one.

Technologies To Investigate Molds Gardens

If we had the technologies to investigate the molds, with a powerful enough microscope, that employed the proper technologies, and some computer software programs can be written by persons who know how to write them, and you can attach and adjust a lensing camera to your computer, you can take photos of the molds, and with the write computer program, once it is written correctly, it will be able to do many things, that you did not expect it could to.

They become very complicated to learn about all the technologies involved, but you can get some hints, from Sony, or Pioneer, or Mitsubishi, who have all invested much money into telephoto lenses, and video cameras, and they know all about the technologies that are needed, at least they have them, as classified material, in their documents storage rooms, and you can get copies, if you know the right people, and then you can write your software program, after studying all about the technologies involved, and after you've figured out what technologies are needed, and how to duplicate them, with your computer programing skills and your adeptability.

Adeptibility is a person's being able to know, intuitively, almost, after a lot of study, what it is you need to do, to get the results you want.

Once you put together the software program, you can have your friends use it, and give you input as to how to improve it.

A lot has to do with different types of energies, and how to send them out of the computer, and how to recieve them, back into your computer, and then how to decode them, to get the dramatic effects of being able to see through walls, or hard surfaces, that you never knew you could see threw. A lot also has to do with your ability to make a lensing system, which allows for viewing far away objects, as well as magnifying them, quite a number of times, all while keeping the clarity of the object in focus. You need to be able to light up the object, no matter how far away it is, and no matter how tiny it is, and you need to be able to get the light and imaging back into your camera, or into another camera, or into another pickup input device, a chip on a circuit board, such as an infared circuit board, and then how to drive that energy up, so that it is useful to you, and so that it will brighten up the image, that you recieve, back to your computer, once it has been picked up by your computer's infared reciever device.

It is a little tricky, to get every thing right, but with the technical input the Sony scientists, JVC Japan scientists, Mitsubishi scientists, Cannon, Nikon, and Fujitsu scientists, and paper copier company scientists of Dae Woo, and others, it will not be long before you can put together a computer program, that will sufficiently do what you would like it to do, and that is, investigate the tiny worlds where little worker animals of mine, go about their daily work.

You can even develop similar technologies to see other people, on other planets,if you are adept enough. You can even develop the technologies to be able to see other people on planets that are on the other side of a lot of obstacles, between you and them.

They have many technologies out there, that allow them to see you, and wave at you, but you don't have the technologies to see them, and call them on a video link up, and say hi to them.

You'll need some kind of tracking system technology. To track some one, you need to find a type or types of light energies, and possibly other types of energies, that allow you to bend them.

You also need to be able to pin point those energies, and keep them pin pointed, and on target. You then need to know the technologies involved so that you can lock those energies onto your target. If you can find the types of energies needed, you can get them to lock onto your target, and then they will bend, as you stay on target, and you can get a two way refractor system set up, and the light will come bouncing back to your infrared like energy tracking diode, or whatever it is you use, and you'll be able to lock onto people, far away, as their planet spins, and moves, and as our planet spins and moves, and you will be able to stay on target, and then you will be able to see them, and track them.

You need these pin pointing, and tracking technologies to track the little worker animals, who work for me, as well. You may need a number of other technologies, as well, to make it work, properly, but with help from JVC, Panasonic, Pioneer, and other technical scientists, you should be able to get it to work, without too much difficulty, if you are good at using your brain for these types of fun projects.

You also need to develop the listening capablities, and audio transmission capabilities, but that is not hard, because if you can develop the video transmission technologies, you can easily use your brains, and then, with thoughtful investigation, and research, and with some consulting with the scientists at Bell & Howell, Honeywell, Phillips, and other companies, they all have the information you are looking for, and they can all provide it to you, if you know the right people to ask for assistance at getting to it.

Long Distance Video And Audio Technologies

Rand McNally has already developed the technologies, for this type of software, and so has Phillips Engineering, Hawthorne Publishing Company, and a few other companies, as well, and if you know the right persons, you can find copies of it, and you can get it to work on your home computer, if your computer will run this software. I don't know what format they have programed their software in, but Fortran, or Pascal, and a few others, I think they have used. If you know what to do with it, after that, or if you know some one who would know what to do to get it running, you can invite your friends, and all of you can get the software set up, and then you can distribute it, among trusted

friends.

Eventually, after you have put all the right technologies together, of if you should be so lucky as to get a copy of one of the systems that the companies mentioned, and perhaps others, as well, have already developed, but are not distributing, because the Lesbianists who run the companies, will not allow it, you'll be able to have long distance phone calls with people, far away, on other planets, and you'll be able to see and maybe even speak with practically anything in my universe, if not every body, if you are interested in seeing and speaking to them. The majority of people, nearly, have these technologies, so you'll be able to meet and speak with at least, those people who have the technologies that can interface with the technologies, that you develop.

There are also data bases, here and there, and you can learn from the many friends you can make, in our universe, and from the Lesbianists, how to access them, with the right permissions, and codes, if you can get either the Lesbianists to cooperate with you, or if you can get the people you meet as you go sky surfing, to cooperate with you, and ask them to use a translator program, to help translate their language into your language, so you can hear them in your language.

They have the technologies to be able to decode the languages we speak on this planet, but setting up the software programs to decode their speech, is a little too difficult, as it takes many years to put together, that kind of a system.

Managing My Universes Software, Etc.

If if you get a copy of the 'Managing My Universe' program software, that has the 'Sexaling For A Living' program explained, and many other programs, also explained, in depth, along with lots of useful information, you'll be able to get lots of help, and there are even programs that do these things for you, and you won't even have to worry about making the programs, because all the programs you need to be able to do all the above noted things, and much more, are all included in the software programs selections, for your use, once you join the 'Managing My Universe' program, and once you join the 'Sexaling For A Living' program, and once you swear in, and promise that you will sexal for a living, in accordance with the guidelines for the 'Sexaling For A Living' programs.

It's the new way my kids and I hope you will enjoy earning a living, in the future, as soon as we can get started, with the cooperation of those who have the software programs that I recently had my kids send off to them, using the video and audio surveilance systems, and the work force, they have in place.

The FBI, the White House, Jeb Bush, George Bush, Jr., Barbara Bush, Jr., George Bush, Sr., Barabara Bush, Sr., former general Swartzkoff, former general Colin Powel, Secretary Mike Johanns, Secretary Dirk

Kempthorne, Secretary Carlos Gutierrez, Attorney General Alberto Gonzales, Secretary Robert M. Gates, Secretary Elaine Chao, Secretary Margaret Spellings, Secretary Condoleezza Rice, Secretary Samuel W. Bodman, Secretary Mary E. Peters, Secretary Michael O. Leavitt, Secretary Henry M. Paulson, Jr., Secretary Michael Chertoff, Secretary Jim Nicholson, Secretary Alphonso Jackson, Richard B. Cheney, Joshua B. Bolten, Rob Portman, Ambassador Susan Schwab, Stephen Johnson, John Walters, and others who are Lesbianists working for the President of the United States, will all know where you can get the software, and so please give them a call, and see what they have to say. Your state senators will also all have the software, or at least, they will know where you can get a copy of it. So please try speaking to them, before you busy your self, speaking with the other people, who are just Lesbianists stooges, who are just sitting in their chairs, like on holiday, just thinking who they are going to fuck over next, when, where, and how, before they eat them, while they are alive, and then kill them.

I wouldn't waste my time, too much with them, as they are not very cooperative, because they are all hard core Lesbianists, and they will not budge or flinch an inch, or admit to anything. They will lie, lie, lie, and lie, and that is all they will ever do, or so it seems.

The people on CNN, and on all the major networks, are also all hard core Lesbianists, with few exceptions. These Lesbianists will also just lie, lie, and lie, and they will never get any where near the truth, about nearly anything. They will give you the weather, but that is about all they ever tell you, that is truthful, one hundred percent, or nearly one hundred percent, since they even lie about things to do with the weather, as I noted before, since they call the industrial pollution in the sky, apple meyer, and that is a chemical haze yopu can see hanging over L.A., and Las Vegas, and New York, they helped to cover the planet with, with their petroleum industries technologies, so as to poison your health. They know all the sciences needed to keep them from dying, but they will not teach you the correct sciences, to help keep you from dying, as they enjoy watching all the people they hate, and who they enjoy killing, now and then, suffer. And they joke about you, and they call you, 'rodent rat people'.

They made a movie, the "Planet of the Apes", inspired by you, as they see it, and they continue to mock you, and toy with you, as some kind of chess game piece, and they will continue their silly games, until you are dead and gone, and then they will wait for your return, from my Epcot Center, which I have explained, about, before.

Fibromyalgia, What Is It?

What is fibromyalgia? Well, as far as I can tell, it is the plastics kiddies, from petroleum products, such as your camping mat, or your vinyl upholestry in your automobile, or in the taxi cab, or in your home, the furniture you bought that is covered in clear vinyl, or fake

naugahide, which is a type of fake leather made from plastics.

Naugahide is every where, in vehicles, in trucks, in nearly every automobile, as the seat covers are made from it. It is a type of plastic, that is very comfortable, but it is made from plastics, derived from the petro chemical industry, and from the chemicals industry.

When you sit for long hours on naugahide, little fumes animals, and you can smell them, if you put your nose up to the naugahide, and you can smell, some times, a kind of material, that is similar in smell, some times, to leather, but it is not leather, though the companies that make naugahide, are very clever, and they know many ways to disguise the smell of the plastics kiddies by using different chemical compounds when formulating the naugahide compound material mixture, and the tanning formulas.

It doesn't hurt you right away, but over long months, and some times years, of breathing in the fumes kiddies from it, you will eventually begin to discover that you do not feel well, all the time. You might feel nervous, or edgy, or just uncomfortable. There are lots of people who feel this way, and they do not know why they feel that way, but they just feel that way, and they think, maybe I need some vitamin tablet, or maybe I need to go swimming, or sit in the hot tub, or in a jaccuzii.

Fibromyalgia can be experienced in a myriad of ways. Why is that? It is because there are so many different types of fumes animals, from the petroleum industry, we don't know which ones they are, that are poisoning our bodies, and they all hurt different amoebes animals, cell animals, organs animals, all over, inside of our bodies.

They eat up lots of different muscles in the body. They might eat the feet muscles on the soles of the feet. Or they might enjoy eating your leg muscles tissues. Others enjoy your back muscles tissues. Still others, they don't care too much where they get some thing to eat, and they go any where, in the body, and they eat all over the place, and you get sharp stinging pains, that are very uncomfortable.

We can not see these fumes animals when they are at lunch, eating our bodies up, and the muscles cells kiddies, and the organs kiddies, all over your body. I wonder how many types of fumes kiddies there are from plastics, and also, how many fumes animals kiddies there are, in petrol, diesel, kerosene, gasoline, Coleman's campfire lamp fuel kerosene, motor oil, and in all the petro chemical products, that line the shelves of the groceries stores, in every area of this country, much of Canada, and Mexico, I suppose, as well. I don't know what people in Europe purchase, or in Russia, or in the Soviet Union, or in Bulgaria, or in Serbia, or Croatia, Greece, Latin America, except for maybe some parts of Mexico, I can suppose they use similar products to what we use, in this part of the country, as some Mexican soaps, and detergents, chlorine bleach, kitchen soap liquids, and other products

from Mexico, can be found in some of the local stores, here, such as Kroeger's or Food4Less, Albertson's, Smith's, Walmart, K-Mart, Target, and maybe some others.

I'm sure if we go to an automobile parts store, we can find lots of petro chemicals that we use to wash our cars, or motor bikes, off-road four wheeler bikes such as made by Suzuki, or Yamaha, or Honda, our camper trailer, motor home, or our motor boat.

We are surrounded in petro chemicals, and the air conditioners are puffing them out, despite the arguments of the technicians, who will say, they are safe. They leak out so many fumes, and no one can see how small they are, and many times, you can not even smell them. They build up, and then they begin to smell, when other petro chemical fumes, from the tar in the pavement in the roads, begins to mix with them.

Well, walking around in Las Vegas, we can get the same experience, any time, if we are healthy enough to have a sense for what smells good to our noses. If we are not always breathing in the fumes kiddies, and for instance, if we sit in a park, way out in the country, for instance, with an old log home, and lots of clear skies, and lots of clear running creeks, and streams, and ponds, when we spend some time there, getting our bodies detoxified, by good living, and good healthy eating, and with lots of molds foods, and with lots of ferment brews, and with lots of the healthy things we can make, such as I've mentioned, when we come back into the city, you will think we are entering petro chemical hell on earth.

It is so bad, the smells we have to put up with, and most people become immune to them, after some time, driving around, in traffic, and just thinking, this is normal, haveing the fumes of the buses, blowing into our cars, as they start out at the traffic lights, or the fumes of other cars, blowing in through our car windows, when they pass by, just as they are starting up, or while we are in congested traffic. Los Angeles is a smelly town, no doubt, but Las Vegas is one, too, and so is New York. Washington, D.C., is a smelly town, also.

Any way, even our homes, begin to smell, and we are immune to it, as we can not notice the smells, unless we go and detoxify our bodies, for several weeks, to several months, and then come back, and then try our noses smelling the carpets, the curtains, the bed linen, if made of rayon, nylon, or an other fabric that is not a natural fabric, such as cotton, or wool.

When we go out and purchase home cleaners, such as chlorox bleach, or shampoo, or soap, dishes and glases hand soap, dish washing machine soap, or Ajax, or Spic and Span, or Mr. Clean, Tide, or other product for cleaning the house, bath room, bath tub, shower, clothes, dishes, or whatever, we are bringing into our homes, harmful fumes kiddies in all those products. They escape from inside the containers, because we do not know how small they are. They are so small, they can escape

with out our even knowing it. I am not kidding you.

When they escape, you're going to slowly get ill, and develop muscle and body aches. You can even experience degeneration of ligaments, sinews, tendons, and you can end up with tennis elbow, a bad back, and who knows what else, as these fumes animals eat up not only muscles in your bodies, but they also eat up the ligaments, sinews, tendons, and other fibers in your body, including your nerve fibers, amoebes in your brain, and cell animals in brain structures, and organ animals in brain structures and in nervous system wiring. They eat heart muscles, and just about every thing there is to eat, in the human body, including the teeth, and the sexaling organs, and every thing connected to your sexaling organs.

I mentioned that we have lots of organ animals in our bodies. Well, we have not only amoebes, and cell animals, every where in our bodies, but we have organs animals by the gazillions in our bodies. The fumes animals hardly discriminate, and they like not only muscles, and tendons, sinews, ligaments, cartiladge, nerve fibers, and other fibers in our bodies, but they like to eat the organs animals, the amoebes, and the cell animals, too.

It begins to hurt, with very stinging pains, as far as I can tell, when they start eating up the organs animals. The large the animals in the body that are being eaten up, the more severe the pains, unless you have a lot of animals, of all different sizes, all being eaten up, at the same time.

Well, to cure this, or rather, to stop this, we have to live in log homes, drink water that is not chlorinated, and I mentioned that chlorine is a petro chemical liquid, that is used in jet fuels, and even in some high powered cars, on some planets, instead of gasoline, because chlorine, when it is carefully mixed with other petroleum liquids, and other ingredients, can make a very powerful race car engine fuel.

Next, we have to eat lots of ocean salt and eat a well balanced diet. We need to increase our salt intake, till we use about up to two and a half, to three pounds of salt, to eight pounds of salt, depending on the size of the person, or possibly more pounds of salt, as in the case of the big sumo wrestlers in Japan, and in Samoa, and in Korea, and other places, up to about ten to twelve to even eighteen pounds, or even somewhat more, up to twenty or even thirty pounds, each year, for the large sumo wrestlers, who have lots of problems with fibromyalgia pains. One sumo wrestler, who weighs about eight hundred pounds, needs about forty or more pounds of salt, easily, each year, for helping him with his fibromyalgia pains, to kill the fumes animals in his body.

Some people may get by on less salt, if they do not have severe problems with fumes animals, i.e., fibromyalgia animals, but for most people, you need to increase your ocean salt intake, and not use

iodized salt, as that will worsen your problem, as it is poisoned with petro chemicals, and no one tells you, and it is not on the label.

If we increase our ocean salt intake, we will get over fibromyalgia, in time. To repair our bodies, is more difficult, once you have increased and maintain a steady high level of ocean salt, in your body, daily. If we let it drop, we can get ill, once again, if we inhale fumes, animals, and they are in the carpets, and in the curtains, and in the ceiling tiles. Don't be fooled. The Lesbianists put fumes animals in every thing they possibly can, since they want to make you suffer.

They know they only need to eat lots of ocean salt, and they laugh at you, when you get sick, and when you suffer, and when you can no longer work, like many fire men, and fire women.

When we have a house burn down, there are so many fumes animals that are let loose into the air, we should just run for cover, and forget about putting the fire out, as we are certainly looking for health problems, though we do not know it. There are many fire men, and fire women, who are so ill, they can not get up in the morning, and no doctor knows what their problem is. Well, it is simple. They inhaled so many fumes animals, their bodies are being eaten up, from the inside out, and the Lesbianists just laugh at them.

Asking The Lesbianists For Specific Information On How To Repair The Damaged Animals In Our Bodies

To repair the damage to the organs animals, and to the amoebes, and to the cell animals, we can ask the Lesbianists for information on the types of molds they use, to help them help their organs animals, and other animals, repair themselves.

When there is a big forest fire, the government calls out soldiers, and others, such as national guardsmen, and national guards women, and soldiers from many marine bases, or army bases. Professional fire fighters are also called to the scene, and they pitch in, and try to put out forest fires.

It is really perverse, when you think about it. The natural woodlands must burn down, to then regrow. Nothing is hurt, as trees have roots that are so deep, and that go off in many miles in many different directions, so long as there is a stump to that tree, above ground, that is all that is needed, for that tree to regrow, within a few hundred to a few thousand years, depending on what type of tree it is, and where it is growing.

That is silly, isn't it. Well, what is worse is that the Lesbianists tell the fire fighter crews to put the fire out with petro chemical flame retardants, they either spray on, from a short distance away, or that plane and helicopters over head, drop onto the fires, and burning trees, and shrubs, below.

The fires eventually return, with in a few years, some times, and guess what. All those petro chemical flame retardants get burned up, and the fumes make the fire fighters so ill, many of them simply die. You do not hear the statistics on the number of deaths among fire fighters, but there are many, and they are often times, military soldiers, who die, and the family gets a note that their son or daughter died, and little else is said about it, except for the information on the funeral. This is ridiculous, and it needs to stop, right now.

However, there is a problem, here. We all have karma. This is some thing that we can not get around. Many people do not know what karma is, and many people do not believe in karma.

Well, that's up to them, but the truth is, there is some thing I call karma, and it is just a record of all your good behavior, and a record of all your bad behavior. I am a sneaky guy, and I have my kids record your karma. And you can argue about it, all day if you like, but that will not mean anything, because my kids are always recording your karma, whether you like it or not, and whether you believe it or not.

Now how are you going to deal with that karma? Well, you can keep going through one life time after another, being made fools of, by the Lesbianists, or you can start sexaling, and you can try to practice my religion, as I've explained about it, on my bulletin board. When you start practicing my newest religion, you can begin to get your karma straightened out, and soon, after many gabillions of years of practicing my religion, slowly, people will stop making fools of you.

That's how serious it is, your karma. Until you work on erasing it, and it takes a long time to erase, because we've all been here, in my universe, longer than any one can possibly imagine, and we have so much karma, it will take us nearly eternity to erase it all.

There is more to karma, than that, and you can study and learn about it, once you join the 'Managing My Universe' programs, and once you join the 'Sexaling For A Living' programs, which I've mentioned a few words, about.

Until you erase your karma for being made a fool of, by these Lesbianists, and for being made a fool of, by your friends, and family members, and school teachers, and by others, you won't really be able to be happy. There are lots of things we need to erase our karma for. Not only for being made fools of, but also for just being bad people.

What Is Our Job, From Now On, In My Universe?

We have been so bad to each other, over the many kazillions plus years, we have been living in my universe, life after life, and no one can count how long we've really been here, as it is just too long. All that time, even from the very begining, when we first got here, and began living in my universe, it wasn't long before we started acting, badly. That snow balled, and now we have so much karma, it is just ridiculous.

Anyway, that's our job from now on, and you and I are all going to get to work, erasing our karma, and learning about karma, and learning about how things work in my universe, and in time, we will begin to understand that, truly, indeed, our main job here, in this big bus station terminal center, as I've called it some thing like that, before, is to erase the karma that my kids, as well as us, produce.

It is our jobs to erase it, by practicing my religion, and by sexaling, religiously, in time. In the begining, you will not think that sexaling is a religous act, or a religious activity, but it is, and as the kabillions, and katrillions, and kazillions of years go by, eventually, you'll begin to learn, and so will I, that sexaling is a religious activity. When people say that, I'm sure they must have a smirk on their face, as no one thinks that sexaling is a religious activity. Well, we can smirk all we want to, but in time, we will learn that sexaling is indeed a religious activity. It will take a lot of time, and a lot of experience, but after who knows how many years, eventually, we will get brighter than we are, in the head, and we will begin to understand that sexaling is a religous activity, just like praying is. There are many religious activities, many people will think, 'Oh you've got to be kidding me!', but one after another of them, in time, you will learn that they are religous activities. I've mentioned about some of them, before, and people smirk, and laugh, and giggle, and no one takes me seriously, but that is to be expected.

In any case, in time, we will see that these activities are all religous activities. In the mean time, no one really cares, I don't think, as so many people will just enjoy sexaling, all the time, or some of the time, as some people are not physically able to enjoy sexaling, with others, as it is their karma to not be healthy enough to enjoy sexaling with others.

There are people with nervous system problems, and there are handicapped people, and elderly people, and people with all kinds of disabilities, who do not like or even think of sexaling.

In time, we will all get our karma straightened out, and we will work to erase it, as the years go by. In time, more and more, people will get healthy, once again, including me, and in time, people with fibromyalgia, and with other nervous disorders, autism, and all kinds of health problems, and physical handicap problems, they will all get better, and they will all learn about rejuvenating their bodies, and in time, we will all be living forever, in my universe, erasing our karma, and the karma of my working children, who do not have the time to work on it, themselves.

Erasing karma will be our main job, as there will always be lots of it to erase. There are my many worker animals in my universe, and who will erase their karma? We will. Every one who works for me, will give me some of their karma, and it will be up to us, the people living in this main central bus station terminal, to erase it.

Why are we stuck with the job of eraseing it? Because that is our only job. My kids have many jobs, and they keep my universe going. Now, with my religion, to help us, you will spend your energies, for eternity, working for me, and erasing the karma of my kids, and of my many worker animals. Other wise, our universe will not run well, and it will collapse, and come to a halt, and then we will not have any place to live.

You will all learn more about all of this, once you join the 'Managing My Universe' programs, and once you join the other programs we have, including the "Sexaling For A Living' programs.

The FCC does not require that analog service be turned off. Only that
carriers are not required to continue analog service past that date.
A good number of rural areas will probably continue to use Analog cellualr
service for a few years after that.

As you've been told before, analog cell phones are going away.

What part of "going away" are you too blazingly stupid to understand?

The audio bandwidth of the phone system is about 3 KHz.

How about just national enforcing Californias proposed Consumer code
for cell phone companies.

What's the URL to that diode mod for the Degan/Kaito 1103 (and the E5)?

How about telling the state of California to go to hell?

If they want a change in National status there is a place to propose it.

Who said they were gone? Fire up your scanner or service monitor on
the old IMTS frequencies and you'll hear the idle tones or sometimes
idle chatter.
<http://en.wikipedia.org/wiki/IMTS_Frequencies>
There's still some IMTS phone systems running in "rural" areas.
<http://en.wikipedia.org/wiki/Improved_Mobile_Telephone_Service>
Brings back fond memories of the "RCC wars" (radio common carrier).

However, you're right. I really miss my Motorola T1234 mobile
telephone and giant Secode control head. It really impressed the
various ladyfriends in college.
<http://www.privateline.com/PCS/mobilephonepictures.htm>
Too bad (for Mr Radium) it was FM.

I did work on an AM/SSB mobile telephone system in about 1974. I
never saw it but as I vaguely recall, it operated on various HF
frequencies in some part of Africa. Operation was similar to operator
assisted MTS (mobile telephone service) but on HF. It was basically a
phone patch hung on an HF base station. We were trying to add
signaling so that users would not have to listen to the channel noise
all day in order to receive a phone call. Our scheme sorta worked on
SSB, but the tones drove those that didn't have muted receivers nuts,
so it was eventually abandoned. I think the system was up until about
1990, when something blew up and the operator couldn't find parts or
something.

Of course, there's always the HF marine radio telephone service, which
still operates on various HF frequencies with real live human

operators. They're all currently using SSB, although that wasn't always the case. In the 1960's and 70's, almost everyone was using AM.

I got a great name for Mr Radius's system. Reactionary Radio.

Yes, I agree with you...and I hope you realize you've just spoken
volumes about the state of our economy when you said that "there are
plenty of people that would be happy just to have a [crapola, $10/hr] job".

Since the middle of 2000, this country has LOST over *3 million* well
paying -manufacturing- jobs and hundreds of thousands of
non-manufacturing jobs (IT, telcom, etc, etc.) to overseas companies and
"downsizing", so yes, there -are- many Americans who would indeed be
happy to have a crap, low paying, can't afford benefits job like being a
Wal-Mart "associate" or asking "Do you want fries with that??".

American economy...R.I.P.

It's called several terms FDM "Frequency division multiplexed" is the
most common term. Also called VFT. There are several formats.

It's basically a bunch of RTTY channels all blended together into one signal. Universal Radio in Ohio sells decoders that will decode some of it, but most of it is/was encrypted, and it's a real hassle to tune. Even 10hz steps are too coarse. You need a really good receiver to do it with, and a narrow filter is a big help too. I actually got pretty good at tuning it.

http://www.universal-radio.com/catalog/decoders/m7000.html

I've heard some of it fairly recently. I don't have the decoder anymore, so I don't know if it's readable or not. Fax signals are still common on HF, they sound like a squeaky wheel turning when you are in USB or if you have a "fax" mode on your receiver (Only JRC had it, as far as I know). Squeak..squeak..squeak.

It's an excellent time waster..if you have the patience. Sadly, starting in the late 80's, a lot of the good stuff, like press photos and ship traffic began to disappear.

Hello All.

I received this message from Daniel Sampson yesterday:

"Future of Prime Time Shortwave announcement:

"This has been a difficult decision for me to make. I will discontinue doing the English shortwave schedules database that I do at the end of the A-07 broadcasting season, October 28. I have been doing the shortwave schedules database for something like 22 years. I plan to continue posting schedules at the Prime Time Shortwave website after the A-07 season but they will not be entered in a database and I may be doing fewer schedules than I do at present.

"The email list for the ASCII text files will be discontinued. The newsletter will continue.

"As for why I am discontinuing doing the database. Increasing responsibilities with the family, church council, committees, other website work, being a land owner and for my full-time job are getting to be too great. It's making it difficult for me to keep up the quality work on it that I feel is necessary.

"If anyone is willing to work on the database I certainly willing to continue to post it to the Prime Time Shortwave website. Contact me at webmaster@primetimeshortwave.com."

The same information is posted on the website - < http://www.primetimeshortwave.com/ > - I suggest checking there often to see if there are any further developments.

This is a real loss for the shortwave listening community.

Best,

Joe

Death to the bushite instead of the innocent loved in God

/ / IntelCenter issued a tacit warning that the footage may be re-hashed when they released the "new" tape to the media, but they failed to mention the fact that they released portions of the exact same clips in October 2003. \ \ amazingly - I witnessed blurred-out faces of those they claimed al-Qaida in another instance just recently. (Then, look at the dog fight vids that CNN and CBC refuse to show the dog haters faces in..)

I say American taxing payer folks, flip me some dollars, and I'll pay out rewards - after a moderate lunch - all to take these IntelCenter AL-QAIDA! - AL-QAIDA! - AL-QAIDA! straight to public trial, then public execution for high treason - like holy fuk mon let's get real here People. Or don't and we die further for bin Laden's fear of cameras. Offer a 500,000,000 dollar reward for Zawarri's crew to get the rest of this done quick like. I wanna rock! Death to the neocon enemies LIARS, death to those who WAR - WAR - WAR innocent Humanity for the continuing bushmob's escape plan from nowhere. See? Heaven or Hell? YOU DECIDE.

Don't EVER forget, the private company Aegis has been officially found dressing up as AL-QAIDA! - AL-QAIDA! - AL-QAIDA! to murder pro-western forces in Iraq, while desecrating Elvis. Elvis Presley. If you don't love Elvis, there is something seriously wrong with America. Now yous messing with a real son-of-bitch. HeY!, question: why don't Americans kill a bushite for Yourself bud? - because Bushites insist "we're" willingly being led by the antichrist enemy of all human life as Satanic LIARS who intend to cheat ourselves of freedom through self respect. Pro-neocon-media enemies are nazi savages, and I don't like it..How about you?

Death to the bushite instead of the innocent loved in God

-

Time is Up

Al-Qaida Kagan "Al-Qaida, their whole strategy revolves around generating sectarian violence, because that is how they embed themselves within local communities "

What?? For friendship?

What is the demon TRAITOR to HUMANITY in America saying about the reasons he embeds an Iraqi under 50 odd divergent NEOCON labels? Wouldn't most Al-Qaida take great joy in killing a bushite nazi grunt like any real Family man would also? These LIAR dumfuk grunts who cheer "whore yeah", routinely, can barely read or write, so, how possibly does this FOXNEWS expert, expect such ungodly antichrist forces to delineate Al-Qaida from the local communities they PROVABLY indiscriminately bomb as Satanic?

Kristol and Kagan: 'Put Everything' Behind Escalation So We Can Bomb Iran and Syria

Kristol and Kagan MUST be put to death for treason against America, treason against Life, treason against GOD. They both have continued to Publicly advocate murdering more innocent peoples indiscriminately they call, "Al-Qaida", all to rob further monies from an undefended America. It is easily learned by any as all, the victims of bushite tyranny are exclusively, US, The People, guilty of nothing but our shared love of GOD. Remember forever: there was NO JUSIFIED REASON for bombing PEACEFUL Samarra, NONE! that bombers confess was done as ordered by Allawi INDISCRIMINATELY, all for getting killed Marines sent in later for more stolen cash from America. P2OG. [hundreds of bushited Marines died rightly almost immediately - (wow eh?)] A Satanic action, Kistol and Kagan, both blame without thought to question on "Al-Qaida".

The action of Satanic bushite bombers targeting Samarra as war criminals is FULLY documented.

Death to the bushite neocon LIARS, death to the enemies of Freedom for Humanity. My beloved friends of GOD, please, when you see the mute bushite, kill it for Christ, kill it for Love, kill it to defend your loved family. (Any soldier who doesn't proudly talk of how it hunts those british soldiers who kidnapped barefoot children and victimized them on video, is a soldier worth destroying NOW to defend GOD and Life from needless death.) I HATE the REAL demon antichrist Christ says.

Kagan "You rarely know in the middle of a war, what the outcome will be."

Johnny Wizard the Creator "I win."

-

/ / The US has also been backing some pro-western politicians like Iyad Allawi \ \

Do you know who Allawi is? Allawi confesses to blowing up school buses filled with children for "CIA" money. NOT THEORY. HE ADMITS IT AS AN ACTUAL SATANIC DEMON! Allawi, the truly insane mad man, confesses to having ordered the murder of doctors and nurses that treated wounded god loving women and children from Fallujah. It was these DOCUMENTED acts that had him thrown out of 'the CBC, CNN, and FOXNEWS TV expert scene as workable', all for fears that US humans might actually wake the fuk up on WHO is Our True Enemies here. All three, pro-private-bank zionist news stations are well aware that the bushmob did 911, but lie to YOU as forsakenly dying for their growing riches and world wide broadcast fame.

CBC National Newz - July 11th 'tens of thousands have died in Iraq since the war against truth started.'

Anyway, these two Allawi incidences are fully documented, look it up, then demand the "The US" pro-western politician person quoted as supporting Allawi - be found guilty of CRIMES AGAINST HUMANITY, Demand publicly, having the neocon zionists EXECUTED by America, for America, as America. A Just America that defends America from criminal madness. Or don't. Death to the bushite, death to the enemies of Man I say.

ABCNEWS.com : FBI Called off Terror Investigations

A question Johnny Wizard has for America: Tell me, is this not a treasonous act - for Bush to close criminal investigations, immediately after the terrorist crimes of 911? Shouldn't the demon enemy be put to arrest for that godless act alone in this forsaken dying world?

A world left instead suffering further the tyrannies
of the war criminal ENEMY of all Human Life?

A refresher: the neocon will tell you openly, they live to
lie to the Public for cheating and stealing by murder of
US, innocent peoples purposefully enslaved by a made

So it was as I thought too: the direct co-operation of
the joint chiefs of staff assisting General Ahmad, in
committing the murder of thousands in America on 911
for the neocon TRAITORS, as the same 'escaping' enemies
today, responsible for 'secretly' ordering these
indiscriminate terror attack bombings against YOUR

DEMON MURDERER PETER POWER TRIES TO LIE HIS SOCKS OFF ABOUT HOW HE MURDERS LONDONERS AS A FOR REAL TERRORIST RECRUITER

/ /It is confirmed that a short number of 'walk through' scenarios planed [sic] well in advance had commenced that morning for a private company in London (as part of a wider project that remains confidential) and that two scenarios related directly to terrorist bombs at the same time as the ones that actually detonated with such tragic results. \ \

They are guilty, so, of course, the demon Bush enemy, OBSTRUCTED JUSTICE FOR AMERICA.

I hear the national radio program Coast to Coast is still feeding us neocon lies. Why don't you make the call for Johnny.. believe in yourself for a change why don't you?, buddies??... I am Your god king. King Johnny I am. Champion of Universal Life! Not enough? Who cares?, to allow US speak on our broad casts as legitimate? Worried I'm going to love Life as truly honorable, and Greater than those who openly lie to our soldiers to have them unjustly die for no better good or reason understood? Let us make life better than the neocon envision, and support our rise to popular acclaim by allowing US to speak openly for public challenge in defense of America.

Death to the neocon soldier, death to the enemies of Man.

True US Bush Iraq-Afghan Wars Deaths At 21,000

ISRAEL PEDDLING WHORES TO ATTRACT TOURISTS
http://desertpeace.blogspot.com/2007/06/israel-peddling-flesh-to-attract.html

[The freely self confessed child murderers of the IDF, tell US as demon liars, they're "Jews". Anyone in Israel KNOWS this factually to be so. For, the zionist forbid 'by law', to allow military service from anyone in Israel who disagree that God would will the thieving and murder of the completely innocent in GOD accepting without question. Now why would YOU want that?]

/ / So honestly, they could have just done it as "hot chicks of Israel" instead of including the military element. that's the sick part. [..] the sick part is the exploitation of women. For a government to officially sanction such a campaign is a sign of how bankrupt they really are, and I'm not talking tourist dollars. \ \

The nazi IDF does what Canada's dope pusher O'Conner suggests we accept. Demon enemy bushite in Afghanistan murder children without real understanding 'by accident', [no evidence is shown to ANYONE, just treasonous demon evil bushite necon spewing, "red handed"] lies after lies, while, the Taliban, we are told, are so much worse, because they would murder "ANYONE." Make sense? No. Remember: (The bush regime has been found funding Al-Qaida in Iran to commit terrorist acts against COWARDLY soldiers without free minds to speak in their own defenses.)

AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man.

/ / "They can try to have their votes of no confidence," the president said, "but it's not going to determine - make the determination - who serves in my government."

MY government? Now that's entitlement. And you thought George Bush didn't have a vision for America \ \

Hitler, the mad man, wasn't as insane as our demon enemy George Bush Jr. is.

/ / The [BUSHITE ENEMY] US has said it would refuse any request by Italy to extradite the accused [satanic bushite torturers of completely INNOCENT PEOPLE]. \ \

Christ, The Son of Man, Begs the Godly Men of Earth

Christ, The Son of Man, begs the godly men of Earth, to judicially bill on sight, any neocon soldier who supports the carnage waged in Afghanistan as cop killing dope pushers. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism, persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. Death to the dishonorable bushite THIEVES, death to the enemy neocon LIARS of GOD and man.

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by Christian values committed to TRUE freedom from lawless godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as betrayers of the Human race, deny soldiers to know: General Ahmad funded Atta. They will both support the murder of Your American Son or Daughter for further zionist evils, before allowing true open line communications, to defend ourselves from the lawless demon enemies of Man. Do something about it, or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying brothers and sisters, die as Satanic bad guy enemies of Life

on Earth, sacrificed in cowardice to the real demon
antichrist, and see if we, the true, strong, and free, care.
The Son of Man SCREAMS before coming home to GOD'S America:
We are coming to destroy Satanically lawless bushite enemies,
all for the love of God, we shall succeed my friends, we
shall succeed. I will not willingly live in a forsaken world
with LIAR zionist war criminals conning US to believe, God is
not Great, True, Strong and Just.

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC
zionists, actual treasonous LIARS, actually smile to dying
Canadian soldiers with only true contempt. CBC kills Canadian
kids, with their intentional demon lies, trying to subvert

Justice for God and Johnny. In fact, yesterday, they did a special, all on how "God is NOT Great", giving that bush bitch demon LIAR, all the space to pontificate it's hatred for Wisdom, Science, and GOD, with only nods and smiles from the 'illiterate' hord. Remember: A zionist KNOWS it's an enemy of Humanity when it supports dropping seven million land minds to murder indiscriminately OUR CHILDREN for decades, or stealing a Christians Home because they say God says Jews would do such ungodly acts. Blame innocent Jews the holocaust denying zionist shout, of which not one, is a Jew. Like me.

To Kill a Bushite, is to be Heroic

Love to God Gives US Strength

The Son of Man begs the Men of Earth to defend Ourselves from the unholy forces of our tyrannical enemies. Death to the ungodly bushite thieving LIARS, death to the ungodly enemies

of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of Just causes. The THIEVING satanic bushite forces, speak only contempt for GOD on our demandings of the public execution of the boastful terrorists, like the bushite who video taped the murderous assault of OUR kidnapped bare footed children, or murdered Iraqis while desecrating ELVIS, done all to please the "escaping" satanic demon antichrist zionist, Our Mr. bush Jr., who with his private business partner, General Ahmad, actually committed the ungodly treasons of 911 in a land of blind men sleeping., according to the eternally Honorable FBI anyway.

Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of America's America. But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

See? the Magic TV and radio people refuse to allow me or anyone to think through such absent minded ungodly EVIL intent. Example: If you take FOXNews' word for it, and 'knew' your potential victim knows for sure of an impending terror attack... ... .. . How so? See? demon enemy f-cks, the ungodly bushite nazi vermin haters of Justice measured, [who steal in MY America as TRUE EVIL DOERS,] forbid such wisdom communicated as understood, for that would mean, we'd have to allow the real Victims more air time.

And wise poor men such as myself would command respect and gratitude.

and together, WE'D be hunting down those bushite liars who torture innocent people to death for their satanic pleasures. For, you know it does warrant the Death Sentence in America, right? (You can thank Reagan for that...)

Pill popping American GI teens are becoming.. CRACKHEADS!

http://www.zmag.org/ZMag/articles/march02levine.htm

/ / Dexedrine affect the same neurotransmitters as cocaine; and ADHD drugs and cocaine are both classified by the DEA as Schedule II psychostimulants (Schedule II drugs are legal drugs that have the highest potential for abuse and addiction). \ \

American grunts get FREE all the Dexedrine they can shoot

Do you know how a crackhead finds itself? Lost by indifference to the ultimate, only goal, more dope. Freedom Fighter? or crackhead WHORE, who hopes to find a dollar 'somewhere' to stave off it's crackmaster, the "American

People", led by the un-elected demon dictator, our criminal Mr. bush Jr., as the true enemies of all Mankind. Bushites are on serious dope to be so dumb as cowardly accomplices to a traitor of themselves, that they would die as, before actually defending God's America - that they gave an Oath to.

I guess a soldier's word doesn't count for much in bushville.

The bushmob did 911 as traitors to God and Country, don't you know anything worth living for? my dying unjustly brothers and sisters? My friends, please fear not wisdom communicated by a REAL Man, for, we explain ourselves to the best of YOUR ability to listen simply. G. W. Bush used no evidence to form America's "conclusion" on who did US wrong on 911. So, Please, stop forsaking yourself, for, we're going nowhere. Support Johnny's call to demand open debate without censorship from the magic radio and TV execs, who hide in darkness, pretending to be our friends, while refusing intelligent dialog to answer any of our big troubles easily. Why? because largely, they're powerless without beating us down as giving 'Christ like' VICTIM so much - with their irrational ignorance for our survivals by the fittest. The fittest Ideas that rule this Universe, are the simplest, most easy to understand, but I digress about GOD'S greatness, for we know,. the corporate media elites as our voice, "Couldn't Care Less".

CBC just did a report about all the great heroin coming in from Afghanistan, that will still cause crime, and be illegal, (and maybe give you life in prison as an American,) but brought in with the help of the demonically evil bushite thieving murderous military, by the likely ton full to attack our direct family left un-protected, BY YOU PERSONALLY. And guess what? THEY, our media masters, couldn't care less if they actually tried to be our good guys. Reminder: the god guys is good, the demon liar antichrist demon enemies who thieve from Life with censorship is bad. If they hide ourselves too far, they loose all around, up and down. So get to it. Or don't. Your choice. Life lived Now, or damnable death by cowardly design brought forthwith under your own power to do nothing under such terrible costs against our suffering natures.

Typical tyranny for media control over all of Life for the beginners is this treasonous betrayal against our Nature, by refusing to be honest about our potential to be far greater than first considered. If they'd only allow US to have open communications, all our worlds would be better living for it.

Demand Coast to Coast hosts allow America to defend America.

I want air time with the one and only real man in these here parts, Mr. Johnny America, our glorious make believe creator

Zionist Holocaust Deniers that say otherwise, ('Fallujah never happened'), WE should just immediately put to death to save the lives of our remaining loved ones. A REAL GOD with A REAL SON. McCain has got to go. Please, I, The Son of Man, the MAN of men, beg and plead again to all able bodied persons, see the thieving bushite zionist, kill it to defend Christ, kill it to defend America, kill it to defend any or all children of LIFE. Kill it with the honor and courage every REAL PATRIOT has to defend his own family my

friend, lastly, kill it for me. These naked LIAR enemies who bank to thieve more from Iraq, Afghanistan and America, must be brought down by Humanity's ultimate triumph over tyranny through Law. A just law, where those accused without any evidence are Innocent, and WORTHY yOur defenses. Get to it.

Death to the zionist bushite enemy forces

/ / After it was revealed by the Plaid Cymru MP Adam Price that British trained policemen had tortured prisoners to death with drills, we discovered, through the New York Times (!!), that American intelligence officers had been working alongside them at the Jamiyat police station \ \

Death to the zionist bushite enemy forces, death to the ungodly enemies of Man who torture innocent people to death for fun - expecting Johnny's America will not raise a word in defense for the Human race, or our guns to defend our loyal brothers to the cause of Justice. Death to the bushite, death to God's enemies who lie cheat and steal from Humanity to assist in the escape of those responsible for 911.

BASELESS?

/ / Prime Minister Stephen Harper "We will conclude a formal agreement so that we never again face these baseless allegations," he said. Thirty Afghan detainees have claimed they were beaten, whipped, given electric shocks and denied food once they were transferred to Afghan security forces by the Canadian military \ \

These demons who war for ZIONIST censorship are a bunch a dope pushing cop killers, who murder innocent people they call 'Taliban' better known as in Arabic - students.

Proudly kill the bushite who would drop from the sky,SEVEN MILLION landmines on our cities to kill our children for decades indiscriminately, while offering our Humanity to God no apologies. Proudly kill the bushite savages all to desperately survive ourselves creating a better world through fair, free market communications. To warring for Liberty as true Freedom wills, is for Justice understood as measured, not just made up out of nowhere for the pleasures of those truly Satanic. innocent people indiscriminately as enemies to ALL HUMAN LIFE.

They Couldn't Care Less

The 82 Airborne, in assisting in defending the world wide
distribution and production of heroin, tells of murdering
innocent farmers, that would never raise a gun in anger, are
those they openly confess to target for first degree murder as

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \ Kill the bushite for America, for Justice is Freedom. Lawless mercenaries are not granted by our will to survive truly. A "lawless" enemy granted "immunity" by bushite evil phonies, is that of which, holds ourselves in their confessed contempt for Justice. Receive thanks from everyone, GOD included, by rightly destroying such inexcusable treasonous ungodly enemies of all human life.

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

Look, these neocon zionists KNOW they are OUR enemies

Israel Knesset member Talab al-Sanai "It took Israel 37 years to develop and perfect these barbaric methods of repression and humiliation," al-Sanai observed. "Surprisingly, the Americans surpassed and outmatched the Israelis in their

[Zionist] savagery in less than two years."

-

Look: innocent people are being tortured to death by those
who hide OPENLY in America's uniform. [let US hunt them down
for GOD, despite what demon lies they argue give them as
Satanic to avoid "The Law".]

SATANIC AMERICA

/ / After playing a tape of Cheney's statement, Russert asked
Daschle, "Did the vice president call you and urge you not to
investigate the events of Sept. 11?" \ \

911 "truthers" don't want to address the hard evidence like
the clear as day video of steel running like water from the
WTC towers, for, as Humanity witnesses, they'd rather watch
silently, children murdered indiscriminately, before,
acknowledging wise godly men from our communities who speak
ONLY facts on America's derision for real, open market Free
communications - freedom fighters who ACTUALLY defend the
innocent from the neocon bushmob traitors. Each day we hear
of near hundreds of US murdered by the godless Satanic
THEIVING "American" forces in Iraq. without near a peep of
concern by "America". Lawless bushite mercenaries torture
rape and murder, paid to do so by the WILLING American tax
payer, and near 300 million "People" (the NAZIS) can't find
the effort to pick up a princely phone and call the ENEMY pro
child killer George Norry, (who broadcasts every day across
America nationally for the IRRATIONAL neocons,) to air any
real concern for our Lives. True, the demon enemy censors OUR
calls, and contrives WE a buyer without questions, but he
doesn't censor You always forever. So, get to it fukhead,

JOHN is growing angry with americans of EVIL ignoramuses escaping the bushmob for crimes against MY HUMANITY. The Son of Man States: Death to the bushite, death to our MURDEROUS enemies, who lie cheat and steal to assist in the further criminal escape of the ungodly bushmob for 911 as TRAITORS.

Loyal bushie McCain as bona-fide nazi savage "Bomb bomb bomb Iran.."

Reporter 'Mr. McCain, you demon liar nazi fu-ker, don't you think your being insensitive to innocent god loving Iranians?'

Pro-Torture of INNOCENT PEOPLE McCain "Insensitive to what? The Iranians? My response is lighten up and get a life."

Johnny America Lyrics: "Can't an American PROUDLY kill TRAITOR pro-torture Zionist McCain for the Love of living Life Justly, as Freedom was Country?"

Investigating the Investigation
http://www.alternet.org/story.html?StoryID=17816

/ / After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?" \ \

PRO-TORTURE Gonzales "I quite frankly don't like the idea of the Judiciary deciding who is on my staff." [at Justice]

PRO-TORTURE Gonzales "I did not make decisions about who should or should not be asked to resign." [in mid-term]

As US State Attorneys?, whom have the most serious of American Justice Department Motions of Defense for REAL Freedom?, he's not concerned directly with?, nor would "like" democratic Peoples to be allowed to care either?. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her little sister and put her in front of me . . as the bullets

began to fly, the blood sprayed from between her eyes, and
then I laughed maniacally." [, then were heard the cheers of
godless bushite dumfuk traitors obscening to God and Man as
the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously
kill this lawless bushite enemy and his demonic ilk, for our
love of girls everywhere? Or, how about the UNARRESTED
soldiers we witnessed on video beat shoeless children
pratically to death while laughing and cheering? Or like
those that speak zero defenses for Haditha's confessed MASS
MURDERING irrational women and child killers? The REAL demons
CONFESS to going into a house, WITHOUT reasoned approach, and
slaughtering an entire INNOCENT family.. for nothing but
their lifeless SATANIC pleasures. The 'cause'? "The [mass
murdered unarmed innocent neighbor's] back door was open.."
To, for God, gloriously, with love, kill these unarrested
murderous continuing ungodly bushite nazis, is to war the TRUE
enemies of Humanity to save the lives of our precious loved
ones.

The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun,
paid for by the silent American tax payer. Americans refuses
to bother making a simple phone call to Coast to Coast to
raise some concern. THEY don't. They refuse to hunt bushite
down in their streets for death to defend the innocent held
indefinitely against GOD'S will. Death to the bushite, death
to Johnny's godless, lawless, fascist enemies of FREEDOM.

/ / Never in modern history has country been forced to pay for
its death, torture, and destruction with its own money - its
own oil revenues. A country where thieves are entrusted with
its richness and where murderous gangs are entrusted with its
security. \ \

Look, CNN, CBC, and FOx News know the bushmob did 911, but
will smile while watching your son or daughter sent out to die
CONNED by their demonic hatred for US freely communicated.
How do I know this? I made the effort of making the phone
calls.

"Al-Qaida" = "General Mahmoud Ahmad"

Defend freedom, and the FBI, by demanding Coast to Coast radio
hosts allow free communications, absent their personal
contempt for preserving freedom to be our America. George
Norry WILL kill Your American child for the contempt he truly
holds for our lives here. He says he only supports murdering
Arab children for the neocon, but when your not looking in his
'shadows', he'll kill your child too, don't doubt it for a
second.

pleasure of the president

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

/ / According to the Islamic understanding of power, the Mujahideen don't compete for the positions in the leadership. \ \

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition

through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of

Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

/ / The Mujahideen aren't students of power and don't compete for power like others do. We are students of truth and work for establishing this truth and for this cause we sacrifice our power \ \

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it,

right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

George "pro Arab child Killer" Norry??

Rapists and torturers must not be allowed to rule our pirated
authority through defending the further 'escape' of the
bushmob for 911.

/ / As a result, the Defense Department put up a Web site in
2005 designed to clarify [to the dumfuk bushite demon liars]
that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of
bushite rapists though, so has worked to deny Justice for
female grunts by denying all requests to the 'Pentagon' from
American Police Departments. [and you thought he was fired!]
Why? because, they, the very weakest intellectually of
America's - do what they're told teen kids, ALL don't have
rights anyone in bushite corporate america is willingly strong
enough as a dedicated Leader to speak in demanding defense of,
for innocence.. Why? because they soullessly advocate
continuing bushite war crimes for a stolen dollar. Stuck that
way apparently. Support my rise to speaking publicly for open
challenge on the rights and privileges of all concerned
parties. Rapists and torturers must not be allowed to rule
our pirated authority through defending the further 'escape'
of the bushmob for 911. I would like to form a global posse
of sleuthers to identify on international open line radio, all
guilty INDIVIDUAL parties by evidenced conclusion on our

highest of priority issues, and get started with the nothing to hide from anyone global arrests, with PUBLIC court proceedings, done all for our public interest as the refusing to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush: "If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win." http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to

increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While

McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a candid interview on Bush's deeper than ever political thoughts about the war, up front, and personal. Surely, an historical event such as this, with the revelations contained in his own shockingly powerful words, while granting a stage in Johnny Wizard's World, is frankly, beyond the pale, quite shocking in perspective I'm sure I would state again. I feel confident Bush's surprising candor on life's humbling higher meaning wont make the crazies 'out there' any more less right per say. As for the barely living of you passing travelers to our dying Realm.... be ready to be taken on a journey of such profound discovery, with a wit never before witnessed from President Bush!, all about the cruel hardships Americans continue to endure without guidance through effective leadership. Without evidence to form his guilty verdicts. That orders the murder of the innocent with. I kid you NOT. Hey? maybe the Son of Man doesn't have to wipe out the entire human race after all.. With Bush co-operating now, I personally believe, no, I know, we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of Humanity to be gloriously publicly executed to defend the innocent lives, they once again, have indiscriminately murdered in Afghanistan without a sliver of evidence, but for to say, some dumfuk had a 'rumor' that a single individual SUSPECTED to be an anti-heroin pro-child defending Taliban supporter, granted the bombers of NATO to wipe out an entire village MURDERED indiscriminately by the TRUE demonic enemies of LIFE. Please, if you must forsake me in your personal cowardice and self loathing, don't forsake GOD and America by not killing with PRIDE, these bushite dumfuks of NATO the first chances you get. Love liberty as if it were your own, and kill a lawlessly murderous bushite nazi savage for your love of anyone included. (You can quote me forever on that.)

free open debate to resolve this crisis, that doesn't have to
be so ruining our dying worlds without questions forwarded by

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even
time, and Justice is binding to defend our lives if practiced

a person accused of a criminal offence, without any evidence,
is INNOCENT. Those who say otherwise, are the actual
terror-ists. Civilization's ancient Founder Hammurabi,
suggested just to openly publicly have executed those who lay
capital allegations without any evidence, while working to
close outstanding criminal investigations. A made CRIME

brought birth of 'Civilized' to an untamed till then, chaotic
confusion. Old becomes again anew, because Americans are weak
as polluted, and too cowardly to defend the rights of US
innocent. Let's change that. Support my climb to

The pro-bush irrational military said only eight innocent
un-armed Afghans were counted as murdered deliberately, by
those who believe our Mankind, can not ever find themselves
accountable, without zionist controlled, corporate news
permission. See? The military counts mankind as zionist, but
I am a man of real men, committed to defend our world from all
enemies, foreign, or domestic. Unlike a bushite traitor to God
and America, who's word, as Oath, means as much to them, as we
do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead
for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from
murder, (the innocent whom any pro-bush corporate professional
hold in total self contempt,) you save REAL peoples lives, and
you defend God's good name to love God as ourselves committed
to true Liberty. Bushites are enemies of freedom, enemies of
God, and worthy of death, before allowed to further bomb
people indiscriminately like the commanders of NATO order day
after day without risking instant frag because, bushites are
blind cowardly thieving nazi fascist savages, brain damaged,
who believe as satanic demon whores of Molech, they can con
all of US including me forever, just like dare dubya. Dumfuks.

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the government building destroyed by the Oklahoma bomb has called for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest of those who told America the victim committed suicide, when clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Get it done brother.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly advocates the rape and murder of the innocent in Iraq to thieve from for the 'escaping' neocons, (as the truly UNGODLY,) stated these words about why American Soldiers continue to lawlessly DIE sacrificed for no better good or reason understood, as total willing dumfuks under deep hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually, public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American

teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

-

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite

bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W.

Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to

death for treasons against Your Life dying teen soldier,
wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America
supports the ungodly George W. Bush's demon antichrist
action, when in truth, it's less than one in a thousand. it's
just CBC, CNN, CJOB, and Art Bell the liars ain't taking our
calls for enlightenment. just like they treat the innocent in
Palestine for zionism's encouraged racist in-action. For what
does a fan of 'we're the best' Coast to Coast radio network
family know about nothing after we witness them froth at the
thoughts of nuking countries, or calling for enemies, none of
us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation
proudly with repeatedly committing aggravated felons, and
South African death squad goons, all to war Love for the
neocon god haters. Who, as peenacking atheists, as their very
own documents stress, would murder anyone of US for a stolen
nickel.

The Fight for Survival slog match between, Johnny 'just tying his shoes' America, and Warmonger Liar, Sean Hannity - televised World-Wide!!! With Cheerleaders, beer, pizza, and beer! YEAH WAY!!!

Who's with Me?

It has been reported that some special ops out of Britain are paying for terrorist attacks to happen in Iraq to insure more Americans give their lives in praise - as criminally sacrificed - to the demon antichrist, Our Mr. bush Jr.. All unjustly suffering because corporate news america cowardly refuse to defend freedom, by defending the truly innocent. Nor, will Coast to Coast allow me to speak on "American" radio. Let's change that. Will you make it so Commander?

Cause I'm ready.

-

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who

forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

Remember the Bathists actually warred to kill and won against al-CIA-duh forces that were caught hiding in Kurdish territory. Killed "bin Laden"/bushite forces! Now, bushite tell US Sunni is in kahoots with Laden. (In otherwords, Kill a cowardly enemy of Life bushite for America to defend Iraqis as a godly act.) Death to the bushite, death to our enemies.

/ / Tariq Aziz, the Christian Iraqi Deputy Prime Minister said in mid September that Baghdad had provided assistance to America's Kurdish allies, the Patriotic Union of Kurdistan (PUK), when forces supported by al Qaeda attacked them. He said, ``We gave [Jalal] Talibani [leader of the PUK] weapons and ammunition, we helped as much as we could. We are not allowed of course to go into what is called the semi-autonomous region of Kurdistan physically, but the help

we gave helped Talibani in his fight for it.'' In fact, added
Aziz, ``Talibani was among the opposition leaders who went to
Washington and spoke to Dick Cheney [US Vice-President] and
Rumsfeld. He told them what had happened, so they [US
government officials] must know.'' [Independent 9/23/02] \ \

If they're dropping 500lb bombs without knocking on the door

5000lbs of radio-active toxic waste that will murder for years
more like, while after, then striking again to get the god

going house to house to murder every one, young and old as the
truly Satanic. Just obeying lawless orders to thieve from
Humanity as bushite for neocon zionist traitors of G-D doesn't
fly in the big book. When anyone kills a bushite, all

humanity benefits truly from the defense. You defend a real suffering God by ending a soulless bushite threat against our species.

Exit strategy to save the lives of dying Americans:

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt those who stole billions with ear-marks, Social Security, no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill it proudly for freedom, as an undying love for a real God and Humanity.

/ / Once the document was declassified after the war it became
known that it contained 40 caveats - including 15 uses of
"probably", all of which had been removed from the previously
published version. Tenet further ingratiated himself by
remaining silent about the OSP. "That's totally unacceptable
for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON.
Could it be any higher? Deliberately caught misleading
whore-dumb Congress to wage his immoral neocon 'escape' with a
unjustified criminal brutality against God as all of our
Humanity. A great deal more than a million innocent people
have been victims to the 'targeted' Zionist killings of the
irrational bushite enemy. Lawless enemies to Creation,
spreading their toxic waste who thieve, rape and murder
without reprimand from corporate news america, shall, I pray

we're rag-heads or niggers. The, deserving to die as
illiterately intolerable bushite drone soldiers HAPPILY,

such as south african death squad goons in finding the enemies
of themselves. Purposelessly ungodly bushite soldiers are
told they are DYING to defend Iraqis, while breaking out of
prison, mercenaries caught trying to kill innocent Iraqis for

fun and profit. While, at the same time, actually having
SLAVES from India preparing their lunches!!! And guess what?

Death to the godless bushite, death to America's lawless enemies

DUMFUK BUSHITE ENEMY OF GOD "This is not a job in anyway shape or form, this is not a job. this is a lifestyle. and we choose this type of lifestyle."

Traitor LIAR Hannity "Knowing the danger?"

DUMFUK BUSHITE ENEMY OF GOD "Yeah."

Traitor LIAR Hannity "Well, isn't that the definition of Bravery?"

The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with

every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. Death to the godless bushite, death to America's lawless enemies.

AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN, 10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for

a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen Mahmud Ahmad sought retirement after being superseded on Monday, the truth is more shocking. Top sources confirmed here on Tuesday that the general lost his job because of the "evidence" India produced to show his links to one of the suicide bombers that wrecked the World Trade Center. The U.S. authorities sought his removal after confirming the fact that $100,000 were wired to WTC hijacker Mohammed Atta from Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of General Mahmud [Ahmad]. Senior government sources have confirmed that India contributed significantly to establishing the link between the money transfer and the role played by the dismissed ISI chief. While they did not provide details, they said that Indian inputs, including [Omar Saeed's] mobile phone number, helped the FBI in tracing and establishing the link."

8.

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911

either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

The Washington Post, 23 September 2001.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan. There he delivered the bluntest of demands. Turn over bin Laden without conditions, he told Taliban leader Mohammad Omar, or face certain war with the United States and its allies.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

/ / What is particularly disturbing is how the administration misused intelligence information to make its case for war and failed to plan competently for the postwar period. \ \

What seems even more disturbing, to me, and PBS' FRONTLINE, is that there was a "State" plan, the ORHA plan to prevent looting and carnage, but it was sabotaged by rumsfeld and franks, so the bushmob could try to make some sense of needlessly bombing the country for our labored dollars, while robbing the central bank and museum by mopping up the mess with the bodies of American Patriots still dying as da' dumfuks.

True. Analog will probably dribble along for quite a while. The only plans that I've heard or read are Verizon's. They're going to (or already have) change the PRL (preferred roaming list) to not include analog roaming. I know a local die hard who was informed in writing that analog will be "going away" in Feb 2008 and that they will not renew his contract for analog after that date. I haven't seen the actual letter so I don't know if there are any details such as the date they'll pull the plug on him. I had the same issue with Verizon and a non-GPS enabled cell phone, where they refused to renew the contract with the old phone. That means that all analog phones might be gone by the time the current contracts expire, which would a maximum of 2 years (probably much less).

at&t will probably do the same thing. The only analog systems they still operate are the 800MHz TDMA systems they inherited from Dobson, Cell One, and others. You'll probably get a Valentine greeting card from at&t announcing the demise of analog.

Incidentally, at&t discontinued its CDPD (cellular digital packet data) service in mid 2004. Verizon did the same a year later. Yet, I still am getting sync and carrier for CDPD on my Novatel(?) CDPD modem. As I mentioned in another thread, there are still IMTS tones on the air. I guess old services never seem to die completely.

The phone with half the buttons red and the rest white, is a G.E.
"brick" phone. Not only did it look like a brick, but it also weighed
about the same as one. Behind it, against the wall is an Audiovox
TCT-100 "Tranportable" phone, another heavy weight. Just to the left
of the Audiovox but halfway covered is the original Nextel handset.

Someone is sure to ask why I have all that garbage. I sometimes give
talks on the history of mobile phones and like to drag in the
antiques. I drew the line on some of the old trunk mounted MTS, IMTS,
and AMPS phones, as they're just too big and ugly to bring to
meetings.

At the time, I didn't associate the sound with aircraft engines since it was much more discordant and had a very aggressive quality when heard on AM through a wide filter. I used to hear the sound in nightmares...

If anyone has this sound preserved in recordings from that era, I would appreciate the chance to hear it again and analyze it.

Actually more like 10 KHz.

As far as I know, all the Southwestern Bell mobiles were given to local Motorola Sales and Service (MSS) shops. I never paid attention to the defunct MTS/IMTS channels, but all the RCC channels went over to paging.

> Brings back fond memories of the "RCC wars" (radio common carrier).

In Texas, they were all pretty cooperative with reciprocal roaming. Rates in the '70s were typically $40 a month which included mobile radio rental and unlimited minutes and free roaming. Denton Texas with the two universities had like 300 users in the early/mid '70s. When the rates jumped from $20 to $50 per month (on *TWO* VHF channels), it dropped to like fifteen users.

The Secode was indeed much easier to program than the Motorola control head. I used the Secode head on my RCC radio and the Moto on my SWBell radio. In line with the Jackie Gleason and Michael Todd story of one-up-man-ship, I had both control heads mounted next to my 4WD shifter on my trucks. My local RCC would not mute the repeater when dialing 2805, so when my mobile answered the code, it ack'ed with a burst of 2805...which canceled out the four second 2805 ringing tail and my horn would only beep, so I had to disable that feature.

To get access to a busy channel in Dallas, I'd drop into manual mode and listen to the channels for a conversation about to end, then let go of the chrome hookswitch arm and slam the roam button and the appropriate channel button - forcing it to roam in IMTS mode to the only free channel. Of course I would never whistle off the connect tone of an incoming call meant for another user and grab the channel when it went back to idle.

I eventually upgraded to the all solid state Motos and smaller control heads.

They're doing jobs that used to pay Americans $15 and up with benefits.

Off-the-books employers don't pay FICA on payrolls.

The bennies that used to support workers' healthcare now are left for the states to cover, when illegals, unable to pay, show up at hospitals.

Brilliant stupid canned comment.

California has a government.

The US has a government.

I'd rather we work issues with our elected Federal representatives than have
California start pushing at the state level.

On the other hand, in many smaller communities, analog may need to be
retained until digital capability is ready to take up the business.

AT&T originally gave us notice that our analog service would be terminated
on a certain date, and then modified their statement to say the analog
turn-off would be spread over a long time. They did warn that people who
retained their analog service would have roaming problems as the larger
markets where digital is available will not retain analog capability after
Fall of this year.

If he is commenting on the bandwidth of a message network channel/circuit,

True enough, Up here in Southwestern Alaska, I am maintaining an old Novatel
that was branded up to Nortel amps system. We run an old MTX DMS 100 switch
along with these 8 Amps cell sites. We are looking at a CDMA system from

That is incorrect. The person that said 3khz is way closer than your wild

I work with the unemployed. Most of them won't take the 10.00 an hour
job at Wal-Mart.

So, now Wal-Mart is responsible for the decline in the US ecomony and for undocumented aliens. I don't think Wal-Mart or McDonald's are hiring undocumented aliens. They can't afford to do that kind of illegal activity. However, if you want to do something about illegally documented aliens, you might start with cracking down on the zillions of ways people have to get "green cards" illegally.

And then you might want to start buying your toliet paper at Nordstrom's.

Ahhhhh...an answer by obsfucation! Without qualifying the signal levels at 10 KHz, his answer would be correct.

According to AT&T's "Notes on the Network", the bandwidth is actually 400 Hz to 3,200 Hz where you have specific audio levels measured in decibels.

This will it explain it on terms equatable to John's telecommunications skill set. http://communication.howstuffworks.com/telephone6.htm

That's because it all went to satellites. Satellites are much more efficient at digital transmission. Satellite reception for home use still has a way to go, but satellite usage for data transmission has just about taken over except when the military wants to be unpredictable and keep potential eavesdroppers (such as Iran or North Korea) off guard. If you hear any sort of data today, it's almost always military. Voice HF utes are mainly used in international airplane travel and sometimes for older ship to shore rescue dispatch. (The Canadians still seem to rely on HF a lot for ship rescues.) The planes and Canadian rescue dispatch from the maritimes is ok, but can get boring especially if you don't know the jargon.

I never really got into listening to the cops and the firefighters, most of what they do is pretty dull. Spectacular fires and frantic "officer down" calls are pretty rare. It got to be that the scanner craze of the 70s petered out and the only ones listening were the crooks, in order to avoid the cops. When Johnny Law realized that, they replaced their radios, kicking them up to the Ghz range and making the equipment to recieve the "trunks" costly and hard to find. Nowadays only the old scanner diehards listen to the public servants, and the crooks aren't organized enough to have somebody listening with a Trunktracker at a base QTH and then radio info out to the field. I suppose that Mara Salvatrucha and some of the more organized drug gangs could pull it off, but they usually don't get beyond cell phone level of electronic difficulty.

I'm still waiting for NBC in the US to apologize for the breathless wall to wall coverage of the Virginia Tech killer that occurred for 12 full hours after they got his stuff in the mail, continued until the clamor for them to stop grew too loud to ignore. While the news media is apologizing for that, they can also apologize for the nine day long marathon of misery they aired between September 11-20, 2001, the towers collapsing and people running and blood and gore everywhere over and over and over constantly, interspersed with talking heads trying to explain it for us. Radio Havana reported that there were a number of suicides and attempted suicides over the Wall of Misery, people watched it for 3 or 4 days straight and then blew their brains out. According to one poll, 17% of Americans still have nightmares over the events and the relentless media coverage.

Don't think it won't happen again. I've seen depictions of house and wildfires on newspaper web sites that were downright pornographic, 10 different views of one burned house, close up shots of the anguished crying homeowner, and so on. The news media is so full of its own righteousness that it can't see the exhibitionist quality to the Tragedy Roadblocks. In contrast, listening to BBCWS after the London subway bombings was quite refreshing-yes there was tragedy, but also a defense of Islam from a British imam who called Pakistani madrasas

concentration camps. The Europeans tend not to rub your face in the blood the way American media does.

Geez, chill out. Do a sudoku, like the potted plant on the USPS commercial suggests to the legal document. A little touchy about how we pay the bills, are we? Don't worry, the rest of us hate our jobs too, and we also started out liking them, like you did. Most people DO enjoy the kooks, except those of us who ARE kooks and whose heads have that same monologue you hear on the radio going 24/7. From a normal person's perspective, the rantings of the kooks are hilarious. I assure you that when you can't turn the voices off because they're in your head, it's not so funny. Don't be so uptight, we all whore ourselves out for the almighty dollar, it's a fact of life. My local MW stations have plenty of quacks who pay hefty fees to get on the air, only they come on at 2 am. SW doesn't know night and day, so the kook element is readily apparent. Unfortunately for you, Alan's dream of legalizing the pirates ran headlong into a brick wall of hefty electric bills, and the bills won, and now WBCQ is just another kook station. The road to hell is paved with good intentions. If you really are this uptight about your pleasant fantasy going into the toilet, quit, shut down the station and find some other way to make a living besides whoring yourself out to weirdoes. That's what I'd do.

Is this a relay of one of the many South American "Christian Voice"
shortwave radio stations, or is this run solely by the Latino
community in Reno for local benefit?

Actually being a citizen requires that you understand our form of
government, which is a federal republic, with a federal government that has
clearly defined powers. All other powers, are for the people and the states.

I remember what you are talking about. When I was
a preteen in the late 60's using a cheap shortwave

receiver we heard things such that we naturally said,
"That sounds like an airplane." Sounded like someone
left the mike open in the cockpit of an airplane. We
suspected that they probably weren't airplanes because
there never was a voice and who would just transmit
airplane noise.

Most likely they were, as others have said, VFT or
something like it. They were almost certainly a
Frequency Division Multiplexing or Frequency Diversity
system, i.e. multiple carriers stacked in frequency,
each modulated (with either PSK or FSK) and
shifted in time relative to each other. The diversity
is usefull against the frequency selective multipath
fading of HF propagation. If multipath causes
a dropout of one carrier the info is still available
in the other carriers.
I'm a little surprised to think they had that technology
back then but maybe I shouldn't be.

Ionospheric multipath fading can also give it
a doppler-like sound, as if it were airplanes diving
and banking.

You can sometimes hear signals like you describe
today. There is something like it now at
11455 kHz, s5, 04:55 utc, in socal.

I hear VFT at 11010.55 and 11499 kHz
occasionally.
I have demodulated them down to bits and then
run autocorrelations. The autocorrelations were
flat indicating that they are encrypted.

There are many utes using OFDM these days.
They sound similar but sound more flat,
more whitenoise-like. I've heard them at:
4.28480
4.5905
4.81020
5.0175
6.39250
6.39850
6.42320
6.4345
6.76525
6.84272
8.4884
8.541
8.553
8.6255
8.646

12.7243
12.805
13.41050
16.9435
17.07750
17.08250
17.098

all in MHz, all USB.

If you find any old recordings I'd be interested in
hearing them too.

Why an undocumented worker will work your '$10 per hour' job and an
American won't; The undocumented will work hard for a few years. He

lives in a cheap apartment with four or five other workers, it is better than where he came from. He saves his money and in a few years he has ten or twenty thousand dollars. An American with this kind of money can buy a pretty nice used car, the illegal alien can go back home and buy a ranchero. An American working for $10 an hour has nothing in his future except living in a rat hole and more dead end jobs in the future, the alien sees a wonderful future where he can raise a family and become his own boss.

That is why Americans are "so lazy".

It's a locally owned Reno station. The owner has no other stations.

"La Voz Cristiana" is a generic name. Most of the users of the name have
nothing to do with each other. The only big one is the Chilean SW operation,
which provides programming to some stations around Latin America, mostly
FMs.

Thanks Ron for your detailed reply. Some folks have reported those signals to be loud and harsh (high power) and not associated them with airplane engine sounds, as was also my impression of them -- the transmitters must have been nearby or very high power but who were the users (in a non-suburban town of 30,000 people why a dozen or more such signals)? As I had mentioned, I lived near a large Army training camp and thus suspected a military origin but also wonder if they had commercial users such as news wires to the media (newspaper, radio), telephone company, etc.

<snip freq. list>

Please listen to two examples I just recorded, the filenames encode the freq. and date/time:

http://www.cybertheque.org/homebrew/rcvr/audio

I have heard this mode even on WEFAX frequencies during idle times. It is certainly pervasive on HF and not at all like the old signals. I had assumed by the spectral quality and frequency hopping character of some examples that this was a sort of spread spectrum signal.

Anyone hearing an example of older VFT signals currently on the air, please post a freq. and/or record some audio.

Michael

The idea was to support activity on the UK500KHz allocation, apart from the e-mail reflector, I though this would be a 'quick way' to keep in touch . The 136 band has many 'grabbers', web sites and its even on the dx cluster !

But I don't see why any topics based round LF should not be posted, one of the first posts highlights problems in medium wave reception, due to commercial rx 'front end' design criteria, which by the close proximity of 500 is quite relevant . I think that's a good start?.

So at 5 - 10x the price, is it proportionally better (or even twice as
good) as any other JRC - or other - receiver?

I hope whoever gets it can hear Alpha Centauri with it...

Yep - The US Senators should be 'appointed' by the
King of the State {Oops Governor} cause their should
represent the Big {Money} People.

And you think that the representatives and senators now publicly elected
represent the people. Come on, why do you think there are so many lobbyists
in D.C.

In California, specifically the Orange County area near Smog Angeles,
the RCC's were perptually suing each other. About 5 years ago, I got
an invite to do a deposition on a running case that started in about
1970. The original parties are dead or gone, but the new business
owners have picked up the torch.

L.A. had a 3 year waiting list for VHF channels. My license was from
Nevada.

Program? I just had a Secode control head in my car connected to an
ordinary G.E. Progress Line on the shop channels. I was just trying
to impress the ladies, not talk to anyone on the phone. If I needed
to make a phone call, I would use one of the ham systems. I
eventually replaced the Prog Line with a T1234 mobile phone using the
same control head.

>Of
>course I would never whistle off the connect tone of an incoming call meant
>for another user and grab the channel when it went back to idle.

I had two pieces of brass pipe tuned to 1500 and 2805 for the purpose.
Incidentally, my senior project in kollege was designing an all solid
state Secode Selector. The original Secode model 70 or 90 selector
was a mechanical marvel and a nightmare to fix.

>I eventually upgraded to the all solid state Motos and smaller control heads.

That would probably be a Motorola Pulsar. The T1234 was solid state,
but with one pair of crystals per channel.

I disagree about the cops and firefighters being dull. I recently
upgraded to my first digital handheld scanner, and will be buying a
digital base unit as soon as I can get the money together. The amount of
minor repairs I do on scanners shows that a lot of people are listening.
If they would drop the price of digital scanners to about a hundred less

than they are now, I know a lot of people that would finally make the jump.

A friend's wife has been a recent convert. She ragged him endlessly when he spent over $400 for the digital handheld he recently bought to replace the conventional unit that puked out. She is now hooked big time, and calls me and emails me a lot to explain some of the odd jargon used by the local police and fire depts.

Sure we still do make things!

We make .50 Cal tracer rounds, 155mm tank shells, Tomahawk Cruise
Missiles, IED-proof SUV's to replace the Hummer and body armor that
ain't worth shi+ in an urban running street battle scenario.

What else do we need? Oh yeah.....DVD's and movies featuring Tom

Spam Trap - You are right this Item should have been posted to
"Rec.Radio.Swap" with a "FA" {For Auction} at the start of the
Subject Line so that readers will know that this was in-fact an
Item For Sale {For Auction}.

FA - R-390A Receiver (1984 - Serial #2)
eBay: http://easyurl.net/R390A

Actually to be honest and correct the eBay Seller should
have Posted eBay Auction Listing for this Item reads:
FOWLER INDUSTRIES, R-390A,
SERIAL#2, RAREST EVER MADE
eBay Item Number: 220132158407
http://cgi.ebay.com/_W0QQitemZ220132158407

But then, since this is a 'Rare' Fowler Industries R-390A
with a very low Serial Number "#2" : The eBay Seller
did feel that other "Rec.Radio" NewsGroup may have been
interested in this R-390A. Such as :
Rec.Radio.Shortwave,
Rec.Radio.Amateur.Equipment,
Rec.Radio.Amateur.Boatanchors

Why I myself did not know that some R-390As were build
by Fowler Industries. Plus the eBay Auction "Description"
itself is a very interesting and informative read about this
"Rare' R-390A Receiver. I would even say to others that
-if- you were unaware of the Fowler Industries R-390A
Receivers and you have an interest in old R-390A Receivers;
you should take the time to read this eBay Auction
'Description' for the information that it presents.

TRAITORS TO LIFE

"I told him, there's women and kids in that room," Lance Cpl.
Humberto M. Mendoza said of Lance Cpl. Stephen B. Tatum.
Tatum's response was, "Well, shoot them,"

If Americans don't proudly put to death Tatum, on behalf of
the Family that lost their son, their Marine, Johnny will formally
conclude, Bushite america is an ungodly evil nazi fascist state
of intolerance and hate to US, the Great Human Race. Bushite amerka
does not own Freedom, nor do they own our rights to be Just.
Join me in demanding the Public execution of the satanic demon liar
Tatum, on his Public insistence that murdering innocent families
to thieve from for the neocon, is a crime not warranting the death
sentence enforced by any family man. Death to the bushite. death
to the enemies of man. The neocons will be arrested, tried, and
executed for the crimes of 911 as traitors to Life.

Death to the bushite instead of the innocent loved in God

/ / IntelCenter issued a tacit warning that the footage may be
re-hashed when they released the "new" tape to the media, but
they failed to mention the fact that they released portions of
the exact same clips in October 2003. \ \ amazingly - I
witnessed blurred-out faces of those they claimed al-Qaida in
another instance just recently. (Then, look at the dog fight
vids that CNN and CBC refuse to show the dog haters faces in..)

I say American taxing payer folks, flip me some dollars, and
I'll pay out rewards - after a moderate lunch - all to take
these IntelCenter AL-QAIDA! - AL-QAIDA! - AL-QAIDA!
straight to public trial, then public execution for high
treason - like holy fuk mon let's get real here People. Or

don't and we die further for bin Laden's fear of cameras. Offer a 500,000,000 dollar reward for Zawarri's crew to get the rest of this done quick like. I wanna rock! Death to the neocon enemies LIARS, death to those who WAR - WAR - WAR innocent Humanity for the continuing bushmob's escape plan from nowhere. See? Heaven or Hell? YOU DECIDE.

Don't EVER forget, the private company Aegis has been officially found dressing up as AL-QAIDA! - AL-QAIDA! - AL-QAIDA! to murder pro-western forces in Iraq, while desecrating Elvis. Elvis Presley. If you don't love Elvis, there is something seriously wrong with America. Now yous messing with a real son-of-bitch. HeY!, question: why don't Americans kill a bushite for Yourself bud? - because Bushites insist "we're" willingly being led by the antichrist enemy of all human life as Satanic LIARS who intend to cheat ourselves of freedom through self respect. Pro-neocon-media enemies are nazi savages, and I don't like it..How about you?

Death to the bushite instead of the innocent loved in God

-

Time is Up

Al-Qaida Kagan "Al-Qaida, their whole strategy revolves around generating sectarian violence, because that is how they embed themselves within local communities "

What?? For friendship?

What is the demon TRAITOR to HUMANITY in America saying about the reasons he embeds an Iraqi under 50 odd divergent NEOCON labels? Wouldn't most Al-Qaida take great joy in killing a bushite nazi grunt like any real Family man would also? These LIAR dumfuk grunts who cheer "whore yeah", routinely, can barely read or write, so, how possibly does this FOXNEWS expert, expect such ungodly antichrist forces to delineate Al-Qaida from the local communities they PROVABLY indiscriminately bomb as Satanic?

Kristol and Kagan: 'Put Everything' Behind Escalation So We Can Bomb Iran and Syria

Kristol and Kagan MUST be put to death for treason against America, treason against Life, treason against GOD. They both have continued to Publicly advocate murdering more innocent peoples indiscriminately they call, "Al-Qaida", all to rob further monies from an undefended America. It is easily learned by any as all, the victims of bushite tyranny are exclusively, US, The People, guilty of nothing but our shared love of GOD. Remember forever: there was NO JUSIFIED REASON for bombing PEACEFUL Samarra, NONE! that bombers confess was

done as ordered by Allawi INDISCRIMINATELY, all for getting killed Marines sent in later for more stolen cash from America. P2OG. [hundreds of bushited Marines died rightly almost immediately - (wow eh?)] A Satanic action, Kistol and Kagan, both blame without thought to question on "Al-Qaida".

The action of Satanic bushite bombers targeting Samarra as war criminals is FULLY documented.

Death to the bushite neocon LIARS, death to the enemies of Freedom for Humanity. My beloved friends of GOD, please, when you see the mute bushite, kill it for Christ, kill it for Love, kill it to defend your loved family. (Any soldier who doesn't proudly talk of how it hunts those british soldiers who kidnapped barefoot children and victimized them on video, is a soldier worth destroying NOW to defend GOD and Life from needless death.) I HATE the REAL demon antichrist Christ says.

Kagan "You rarely know in the middle of a war, what the outcome will be."

Johnny Wizard the Creator "I win."

-

/ / The US has also been backing some pro-western politicians like Iyad Allawi \ \

Do you know who Allawi is? Allawi confesses to blowing up school buses filled with children for "CIA" money. NOT THEORY. HE ADMITS IT AS AN ACTUAL SATANIC DEMON! Allawi, the truly insane mad man, confesses to having ordered the murder of doctors and nurses that treated wounded god loving women and children from Fallujah. It was these DOCUMENTED acts that had him thrown out of 'the CBC, CNN, and FOXNEWS TV expert scene as workable', all for fears that US humans might actually wake the fuk up on WHO is Our True Enemies here. All three, pro-private-bank zionist news stations are well aware that the bushmob did 911, but lie to YOU as forsakenly dying for their growing riches and world wide broadcast fame.

CBC National Newz - July 11th 'tens of thousands have died in Iraq since the war against truth started.'

Anyway, these two Allawi incidences are fully documented, look it up, then demand the "The US" pro-western politician person quoted as supporting Allawi - be found guilty of CRIMES AGAINST HUMANITY, Demand publicly, having the neocon zionists EXECUTED by America, for America, as America. A Just America that defends America from criminal madness. Or don't. Death to the bushite, death to the enemies of Man I say.

ABCNEWS.com : FBI Called off Terror Investigations

A question Johnny Wizard has for America: Tell me, is
this not a treasonous act - for Bush to close criminal
investigations, immediately after the terrorist crimes
of 911? Shouldn't the demon enemy be put to arrest
for that godless act alone in this forsaken dying world?

committing the murder of thousands in America on 911
for the neocon TRAITORS, as the same 'escaping' enemies
today, responsible for 'secretly' ordering these
indiscriminate terror attack bombings against YOUR

OBSTRUCTING JUSTICE FOR AMERICA

Tony Snow "The executive branch is under no compulsion to
testify to Congress because Congress, in fact, doesn't have
oversight abilities."

IT LOOKS like they are going to attempt making the move of
BLATANTLY TREASONOUS war criminals acting to measurably now
destroy yOur Freedoms in godless America. The Satanic
neocon's 'faith', is in that YOU as an American, will watch
the same corporate drivel that offers next to nothing to
empower YOURSELF to speak Justly for a dying America. Instead
of demanding 24 hour, wall to wall news coverage, of war
criminals going down one by one by the will of Man to Justice,
CNN, CBC, and FOXNEWS will broadcast your blind 'belief' that
you are only a impartial viewer, who doesn't really care about
dying right in front of yourself for the zionist's riches, and
great worldly power of tyranny through lawless nazi bushite
censorship.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in

AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man.

/ / "They can try to have their votes of no confidence," the president said, "but it's not going to determine - make the determination - who serves in my government."

/ / The [BUSHITE ENEMY] US has said it would refuse any request by Italy to extradite the accused [satanic bushite torturers of completely INNOCENT PEOPLE]. \ \

Christ, The Son of Man, Begs the Godly Men of Earth

Christ, The Son of Man, begs the godly men of Earth, to judicially bill on sight, any neocon soldier who supports the carnage waged in Afghanistan as cop killing dope pushers. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism, persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. Death to the dishonorable bushite THIEVES, death to the enemy neocon LIARS of GOD and man.

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by

Christian values committed to TRUE freedom from lawless
godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as
betrayers of the Human race, deny soldiers to know: General
Ahmad funded Atta. They will both support the murder of Your
American Son or Daughter for further zionist evils, before
allowing true open line communications, to defend ourselves
from the lawless demon enemies of Man. Do something about it,
or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying
brothers and sisters, die as Satanic bad guy enemies of Life
on Earth, sacrificed in cowardice to the real demon
antichrist, and see if we, the true, strong, and free, care.
The Son of Man SCREAMS before coming home to GOD'S America:
We are coming to destroy Satanically lawless bushite enemies,
all for the love of God, we shall succeed my friends, we
shall succeed. I will not willingly live in a forsaken world
with LIAR zionist war criminals conning US to believe, God is
not Great, True, Strong and Just.

Die bushite die!

God is Great

Again, George W. bush did 911 with General Ahmad, but CBC zionists, actual treasonous LIARS, actually smile to dying Canadian soldiers with only true contempt. CBC kills Canadian kids, with their intentional demon lies, trying to subvert Justice for God and Johnny. In fact, yesterday, they did a special, all on how "God is NOT Great", giving that bush bitch demon LIAR, all the space to pontificate it's hatred for Wisdom, Science, and GOD, with only nods and smiles from the 'illiterate' hord. Remember: A zionist KNOWS it's an enemy of Humanity when it supports dropping seven million land minds to murder indiscriminately OUR CHILDREN for decades, or stealing a Christians Home because they say God says Jews would do such ungodly acts. Blame innocent Jews the holocaust denying zionist shout, of which not one, is a Jew. Like me.

To Kill a Bushite, is to be Heroic

Pro child killer George Norry, enemy of the American soldier, still blabs about how more must die unjustly for bin Laden with LIES, knowing full well, video of steel flowing like water from the WTC exists, and that General Ahmad funded Atta. Love to God Gives US Strength

The Son of Man begs the Men of Earth to defend Ourselves from the unholy forces of our tyrannical enemies. Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of Just causes. The THIEVING satanic bushite forces, speak only contempt for GOD on our demandings of the public execution of the boastful terrorists, like the bushite who video taped the murderous assault of OUR kidnapped bare footed children, or murdered Iraqis while desecrating ELVIS, done all to please the "escaping" satanic demon antichrist zionist, Our Mr. bush Jr., who with his private business partner, General Ahmad, actually committed the ungodly treasons of 911 in a land of blind men sleeping., according to the eternally Honorable FBI anyway.

But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. New admissions of widespread prisoner abuse
http://www.wsws.org/articles/2007/jun2007/tort-j05.shtml

/ / The Bush administration is finalizing new guidelines for
Central Intelligence Agency (CIA) interrogation methods that
will give broad latitude for torture techniques \ \

These are crimes against Christ, and any 'Christian' who lawlessly
participates in this pro-bush torture of US Humans, MUST be hunted
down by the Patriot, to have the STANDING LAW in America enforced to
institute the Death Sentence to those bushite responsible for such
ungodly enemy actions.

[DEMON] Bush declared, "and he wouldn't let them in."

In Hell

Firstly, the White house doctored the NIE in an act of HIGH
TREASON.

Two:

CNN with Hillary acknowledges that the demon Mr. Bush pulled
inspectors out of Iraq, but then... how is this not HELL to
pay?

Neocon Soldier

Bushites who war as the neocon enemies, war for the 911 perpetrators to escape American Justice. that is why I, as of GOD, cheer to hear the deaths of these pro torture, pro theft, pro Satanic enemies of Man. They confess freely to targeting INNOCENT People for murder.

The Haditha perpetrators, if convicted, are looking at serving, maybe, a couple of years, for freely confessing to the targeting MURDER, of innocent women, men, and infants.

To, with a Love in your Heart for GOD, kill such contempt for Human life, is to serve American freedom to the last bushite neocon breathing. Death to the neocon soldier, death to the enemies of Man. - The Son of Man, as the Man of Men,

Johnny Wizard

-

CBC and CNN with FOXNews Calls him Al Qaeda, but his Jewish Father calls him Adam Pearlman, a godless enemy zionist, A thieving NAZI liar who hates freedom, who wants to kill INNOCENT Americans for his NEVER ELECTED neocon pro war buddies. Did we mention torture? See? The zionist KNOWS its OUR enemy. An enemy of Humanity, who counts that YOU personally will not phone Coast to Coast radio hosts to allow open line FREE communications. Oh well.. Americans are truly dying evil dum-uks.

PEOPLE

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

Demon bush told us Saddam wouldn't let inspectors in, and that's why he irrationally started this war against God conflict. Impeach him, then have him PUNISHED for high

treason against a further dying as truly unheard from America - for that lie alone - we ALL could/should stand together as equals demanding re-dress for the innocent murder victims who've suffered for such contempt, and belligerence for the basic precepts of freedom as Justice, or G-D as Johnny.

/ / "It could make August a tough month, because what they're going to try to do is kill as many people as they can to try and influence the debate here at home. Don't you find that interesting? I do, that they recognize that the death of innocent people could shake our will," the President explained. \ \

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the

neocon god haters. Who, as peenacking atheists, as their very own documents stress, would murder anyone of US for a stolen nickel.

Our Mr. Bush Jnr. "The war is for you or for us [neoCONS] to win. If we [neoCONS] win it, it means your defeat and disgrace forever."

Die bushite die.

Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

I'd easily, without a second thought, put to death all those FOXJunkies in that debate audience who cheered from hell with JOY, the prospect of torturing innocent people to death, 'if it means' such IRRATIONAL action protects "American lives". See? the Magic TV and radio people refuse to allow me or anyone to think through such absent minded ungodly EVIL intent. Freedom Fighter? or crackhead WHORE, who hopes to find a dollar 'somewhere' to stave off it's crackmaster, the "American People", led by the un-elected demon dictator, our criminal Mr. bush Jr., as the true enemies of all Mankind. Bushites are on serious dope to be so dumb as cowardly accomplices to a traitor of themselves, that they would die as, before actually defending God's America - that they gave an Oath to.

death by cowardly design brought forthwith under your own
power to do nothing under such terrible costs against our
suffering natures.

Typical tyranny for media control over all of Life for the

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \ Kill the bushite for America, for Justice is Freedom. Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of godless bushite dumfuk traitors obscening to God and Man as the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite enemy and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children pratically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones.

The Pentagon's Power to Jail Americans Indefinitely
http://www.jonesreport.com/articles/270307_pentagon_power_jail.html

Look, demon enemies of Christ torture innocent people for fun,
paid for by the silent American tax payer. Americans refuses
to bother making a simple phone call to Coast to Coast to
raise some concern. THEY don't. They refuse to hunt bushite
down in their streets for death to defend the innocent held
indefinitely against GOD'S will. Death to the bushite, death
to Johnny's godless, lawless, fascist enemies of FREEDOM.

pleasure of the president

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

/ / According to the Islamic understanding of power, the Mujahideen don't compete for the positions in the leadership. \ \

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without

nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth

ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

/ / According to Danish Karokhel, director of Pajhwok, the Italian government should negotiate directly with Dadullah. "Italy is negotiating with the wrong people," he said in an email to IPS. "The only one that counts and decides is Mullah Dadullah." \ \ Oh Yeah, but what about Omar the Just, And... hmmmm. who is Karokhel today anyway, and when was the last time anyone seen him alive?

/ / How did a member of the Taliban in Afghanistan get hold of the phone number of an ABC news producer? Afghan 411 must be REALLY good! \ \ iiIII! can't even do that.. well... easily from Canada as an official non-fugitive that is. Just what is the going rate of satellite phone service out of Afghanistan? Remember: evil is DUMB about everything, including technology. Or so, how are we missed for report by point to point presentation using the same old satellite for phone service? Repeatedly calling the same mumblers? Jesus, If we really worked at it, I could probably reach where they were in a day or two by hitch-hiking.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

/ / The Mujahideen aren't students of power and don't compete for power like others do. We are students of truth and work for establishing this truth and for this cause we sacrifice our power \ \

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

Come on now, who wouldn't take great joy in destroying any and all such ungodly bushite hatred for Humanity in this light of day, eh? In fact,why don't American Congessmen, who believe in defending Liberty, campaign JUST that? Why not??? Is it because they're LIARS?

Like Coast to Coast's fun guy, he ain't taking our screams, George "pro Arab child Killer" Norry??

Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911.

/ / As a result, the Defense Department put up a Web site in 2005 designed to clarify [to the dumfuk bushite demon liars] that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of bushite rapists though, so has worked to deny Justice for female grunts by denying all requests to the 'Pentagon' from American Police Departments. [and you thought he was fired!] Why? because, they, the very weakest intellectually of America's - do what they're told teen kids, ALL don't have rights anyone in bushite corporate america is willingly strong enough as a dedicated Leader to speak in demanding defense of, for innocence.. Why? because they soullessly advocate continuing bushite war crimes for a stolen dollar. Stuck that way apparently. Support my rise to speaking publicly for open challenge on the rights and privileges of all concerned parties. Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911. I would like to form a global posse of sleuthers to identify on international open line radio, all guilty INDIVIDUAL parties by evidenced conclusion on our highest of priority issues, and get started with the nothing to hide from anyone global arrests, with PUBLIC court proceedings, done all for our public interest as the refusing to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush: "If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win." http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to

say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a foolishly feeble attempt to personally have killed those present in this video. Then I cry. I cried for these children present in this video the first time I watched it, and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite present in this video down for death. For a Love of God that will never end, until we have seen each and every responsible child killing bushite present brought to true Justice extreme.

Did you know Blair had arrested the reporters who reported this initially? Didn't think of defending children, no sir. For, the commentator, who gives the play by play, while masturbating, has been given forgivence because it's an heroic "Christian". Not publicly executed. This must change for the

better. Here is where I will make my final stand, and where heaven shall part from hell in America.

ARE YOU TALKING TO ME?

George W. Bush:

"If the absence of violence is victory, no one will ever win."

But for those of us who would believe protection to be a heavenly good thing actually he means? What the. does he mean?? Find out!, in the new candid, let's talk politics interview, with no other than, PRESIDENT GEORGE W. BUSH. (talk about having connections!) Have your mind blown on his TRUE wisdom, seldom since ever, so wisely articulated in a more private setting, than this: The Story of the Millennium.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a candid interview on Bush's deeper than ever political thoughts about the war, up front, and personal. Surely, an historical event such as this, with the revelations contained in his own shockingly powerful words, while granting a stage in Johnny Wizard's World, is frankly, beyond the pale, quite shocking in perspective I'm sure I would state again. I feel confident Bush's surprising candor on life's humbling higher meaning wont make the crazies 'out there' any more less right per say. As for the barely living of you passing travelers to our dying Realm.... be ready to be taken on a journey of such profound discovery, with a wit never before witnessed from President Bush!, all about the cruel hardships Americans continue to endure without guidance through effective leadership. Without evidence to form his guilty verdicts. That orders the murder of the innocent with. I kid you NOT. Hey? maybe the Son of

Man doesn't have to wipe out the entire human race after all..
With Bush co-operating now, I personally believe, no, I know,
we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of
Humanity to be gloriously publicly executed to defend the
innocent lives, they once again, have indiscriminately
murdered in Afghanistan without a sliver of evidence, but for
to say, some dumfuk had a 'rumor' that a single individual
SUSPECTED to be an anti-heroin pro-child defending Taliban
supporter, granted the bombers of NATO to wipe out an entire
village MURDERED indiscriminately by the TRUE demonic enemies
of LIFE. Please, if you must forsake me in your personal
cowardice and self loathing, don't forsake GOD and America by
not killing with PRIDE, these bushite dumfuks of NATO the
first chances you get. Love liberty as if it were your own,
and kill a lawlessly murderous bushite nazi savage for your
love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was
told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book
is out there? Don't miss out on picking up a copy for
yourself, or your loved ones. And did you know, I'm trying to
get on international radio without a censor to thunder my
audience back into submission. I HATE HANNITY. All I want is
free open debate to resolve this crisis, that doesn't have to
be so ruining our dying worlds without questions forwarded by
the dumfuks. Justice is Paramount through reason to be so.
The Bush Administration have been up to no good, escaping for
911, that New York City should sue for. Hire me on as legal
consultant buddies, cause I'm like near starving broke here,
with supreme court challenges failing my cost factor, and
hunger pangs slowing our progress on fighting unjust
incarceration. I desperately need money, like now, as a gift,
or an advance on a industry paid private consultant gig. Or,
instead, maybe you'll idly watch some innocent person
willfully be sent to prison by liars in your demonized name,
to defend the ungodly evils of war criminal traitor, our Mr.
Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US innocent. Let's change that. Support my climb to international controversy, with my unchallenged claims of direct accountability being sought, for the 911's neocon war terror plot.

P.S. someone tell Hannity, I got a beef with his demon lies to sacrifice our guys. I'm calling Hannity out to explain himself freely to US now, as a demand for an immediate match between him and ourselves in the dug pit of his utter contempt for our free to be alive communications.

'A military judge ruled last week that Watada cannot base his defense on the war's legality.'

Telling US what?, that it is a crime to not commit a crime? It isn't only high treason against America the ungodly bushite are guilty of, but of a madness held by those truly Satanic..

/ / 'Why are you taking pictures? You don't have permission."' [...] the [bush whore] American, speaking through a translator, warned him that he did not want to see any AP photos published anywhere.\ \

No bushite was found gloriously killed for country, yet, they, the godless bushite enemy, continued to shoot innocent People indiscriminately for a distance of six miles, while likely, secretly masturbating each other as bushite liars do always.

The pro-bush irrational military said only eight innocent un-armed Afghans were counted as murdered deliberately, by those who believe our Mankind, can not ever find themselves accountable, without zionist controlled, corporate news permission. See? The military counts mankind as zionist, but I am a man of real men, committed to defend our world from all enemies, foreign, or domestic. Unlike a bushite traitor to God

and America, who's word, as Oath, means as much to them, as we do. Ungodly as they are loveless, the bushite, is Life's enemy.

See my friends, this is why I, as the Son of Man beg and plead for all able bodied men, to kill treasonous bushite on sight,

for every time you love God by defending the innocent from murder, (the innocent whom any pro-bush corporate professional hold in total self contempt,) you save REAL peoples lives, and you defend God's good name to love God as ourselves committed to true Liberty. Bushites are enemies of freedom, enemies of God, and worthy of death, before allowed to further bomb people indiscriminately like the commanders of NATO order day after day without risking instant frag because, bushites are blind cowardly thieving nazi fascist savages, brain damaged, who believe as satanic demon whores of Molech, they can con all of US including me forever, just like dare dubya. Dumfuks.

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the government building destroyed by the Oklahoma bomb has called for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest of those who told America the victim committed suicide, when clearly, due to autopsy photos, the individual was tortured to death as the innocent. So, the 'officers' responsible for the fraudulent claims, need to be arrested for accessories to MURDER. The torture will earn them both the death sentence, if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where

he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Albeit, some rock/country/pop stations are now wading a little ways to allow minimal defensive communications on behalf of our truly dying communities. [i.e. the THIEVING Lottery actually takes more than communities get returned in cash transfers from the government, and this, beat up the unrepresented poor, actually ends costing EVERYONE more. [read "Stand Together, or Don't"] You don't know Evil until you hear CJOB's radio host pontificating on it's greatness to deny our community any time to respond to their direct criminality against OUR interests. A near 75 percent of Our radio content is private commercials, while the rest of twenty percent is amateur sport updates. Why don't the strangely often fat slob sports fanatics go away on their own as blood sucking leeches, and stop denying us more serious subject meters with 'we're just too dumb to hear' censorships. In Winnipeg, it is a teensy, tiny authoritarian illiterate group of sports crowers, that the station has devoted the Province entirely to for private financial profit. And so, what is someone in Selkirk Manitoba going to do with the play by play

radio commentary?, not listen like everyone in Winnipeg does since, that's what. I personally can't even bare the wasted time, to finally get on to be immediately hung up on impolitely by a Station who literally robs from our community. More than 600,000 live in Manitoba, as apposed to a small cadre of proven criminals who stole our public phone system, or took a PULBICLY paid for Private arena or Private sports facility that cost us practically billions to get in the front door of the already completely paid for by ourselves ten times over, to maybe see a concert that Ticketmaster charges half the ticket price to simply just print a paper ticket/contract. ENTERTAINERS, let me be your manager's Manager instead, and I'll get you every last penny your fans paid to see YOU with. I could practically double your earned earnings, or, are you instead going to blindly give HALF your life to a scalper, who's done nothing creative but hire someone near minimum wage to press a print button religiously. I'll tell you what, we just won't do any more good shows until we can get this remedied by freely communicating our concern for dying soldiers left further without measured value, left to actually DIE in the gutter as homelessly forsaken.

Take care by taking action.

God we can't do this alone, I need you.

Help me gain access to speak freely for open challenge against Hannity, and of America's Coast to Coast Radio network hosts, who deliberately deny you to contend, we're really, one hell of a great bunch of People persons with rights God damn them.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly
advocates the rape and murder of the innocent in Iraq to
thieve from for the 'escaping' neocons, (as the truly
UNGODLY,) stated these words about why American Soldiers
continue to lawlessly DIE sacrificed for no better good or
reason understood, as total willing dumfuks under deep
hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually, public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in

innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

-

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC, CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites

would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and South African death squad goons, all to war Love for the neocon god haters. My friends, People are dying because the magic radio and TV
wont broadcast our publicly available findings. Police
findings. People are dying needlessly, illegally,
irrationally like meaning really stupidly on Bush's behalf,
for they claim, we don't want to be 'embarrassing ourselves',
leaving our forsaken Johnny Wizard's Wild Wow World of Wonder
Wording Wees!.. mostly just appreciated by myself as sole
surprised spectator, because you people seem to not be there
for God when the chips are down, and truth is plain to see..
911 was an inside job, and CBC with CNN don't want to tell us
about it, but will watch our LOVED children lied to, to go out
and die further for a causeless war of criminality
unparalleled in it's wickedness.

Do you expect yourself to fail trying?

It's all up to You my friend, it's all up to you.

Onward Christian Soldier.

This is why the Son of Man through God begs the Peoples of
Humanity to kill on sight, the enemy bushite betrayers to
Life. Ourselves, the innocent. These soulless grunts don't
destroy such deserving commanders, Like Blount, Sattler,
Russell, Wuterich, Pantano or even Kimmitt, and instead, as in
Fallujah, murder every woman and child present, while stealing
all our given monies for desperate life saving help. Anyone
in the Air Force deserves to be justly put down, for, I've
NEVER seen any legitimate bombing campaign, but for to kill
People indiscriminately like NATO regularly does with
radio-active toxic waste, while then sending in the dumfuk
Marines, or the 'from the coast' Canadians, who of course,
rightly get killed on the ground in retaliation for such blind
evil stupidity. Please, I beg, help Iraqis, and kill the
bushite thieves to defend our forsaken God. American
children, help me my loves. Please don't allow the bushmob to
escape for the treasons against America on 911, for, bushites
are OPENLY traitors, as the TRUE enemies of evidenced Justice,
as the Freedom to do our own things loving God on our own.
Besides, most bushites aren't even registered American
citizens. Bushites need to be hunted down for destruction -
by the Loyal Christian American Patriot Soldier, the ones who
war to win against those who torture US innocent to death as
the ungodly Satanic LIAR enemies. Save the Humans, kill a

$300,000. [...]

What images must be reported? Illegal images of minors, which

qualify. (18 USC 1466A) \ \

Well, gee, Iran has no nuke program, in anyway, shape, or form, but Israel wants to murder more of humanity for their ungodly lies anyway. The enriched uranium Iran is making, can not be used for a bomb because it's only enriched to 2 percent, and to get the bomb making stuff, you need a COMPLETELY different technology. But science?, in bushite america? All unjustly suffering because corporate news america cowardly refuse to defend freedom, by defending the truly innocent. Nor, will Coast to Coast allow me to speak on "American" radio. Let's change that. Will you make it so Commander?

Cause I'm ready.

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

We are not allowed of course to go into what is called the semi-autonomous region of Kurdistan physically, but the help we gave helped Talibani in his fight for it.'' He told them what had happened, so they [US government officials] must know.'' [Independent 9/23/02] \ \

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People
like in Fallujah or Somalia with land mines and mini nukes

The godless as lawless bushite is the enemy to America, kill
it proudly for freedom, as an undying love for a real God and

How The Demon Bush Misled God's World

How Bush misled the world

/ / Once the document was declassified after the war it became known that it contained 40 caveats - including 15 uses of "probably", all of which had been removed from the previously published version. Tenet further ingratiated himself by remaining silent about the OSP. "That's totally unacceptable for a CIA director," said Thielman. \ \

Thielman meant "totally unacceptable" as in HIGH TREASON. Could it be any higher? Deliberately caught misleading whore-dumb Congress to wage his immoral neocon 'escape' with a unjustified criminal brutality against God as all of our Humanity. A great deal more than a million innocent people have been victims to the 'targeted' Zionist killings of the irrational bushite enemy. Lawless enemies to Creation, spreading their toxic waste who thieve, rape and murder without reprimand from corporate news america, shall, I pray daily, die justly in vengeances by the will of a real undying Love for our victimized innocent family. Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted killing of innocent children is fair game in their worlds, and as confessed, they 'got away' committing the same Satanic acts - going house to house in fallujah murdering more than two hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler. Bushite corporate america, has stated in silence, the bushite enemies of Haditha will never face public execution for such offences, YOU apparently WILL NOT GRANT IT, too cowardly, and in all likelihood, (like those of the Saudi Blount's third infantry) will be allowed to walk freely down american streets after being found guilty as politically supporting the robbing and murder of innocent men, women, and children all because we're rag-heads or niggers. The, deserving to die as illiterately intolerable bushite drone soldiers HAPPILY, WITHOUT QUESTION, co-operate with ANY lawless mercenary forces such as south african death squad goons in finding the enemies of themselves. Purposelessly ungodly bushite soldiers are told they are DYING to defend Iraqis, while breaking out of prison, mercenaries caught trying to kill innocent Iraqis for fun and profit. While, at the same time, actually having SLAVES from India preparing their lunches!!! And guess what? they're coming to live bushite america as the patriots after they get killed you're forsaken American Son or Daughter teen! With millions of stolen American dollars to set up new 'freedom' operations.

Let US demand open radio
communications on the mathimatical facts to save our own selves further victimhood to their personal contempt for the true value of YOUR life. Thanks.

Death to the godless bushite, death to America's lawless enemies

DUMFUK BUSHITE ENEMY OF GOD "This is not a job in anyway shape or form, this is not a job. this is a lifestyle. and we choose this type of lifestyle."

Traitor LIAR Hannity "Knowing the danger?"

DUMFUK BUSHITE ENEMY OF GOD "Yeah."

Traitor LIAR Hannity "Well, isn't that the definition of Bravery?"

The DUMFUK ENEMY OF CHRIST "Uhhuh."

See, TRAITOR Hannity [who deserves to be executed for the treasonous DOCUMENTED lies he tells America almost daily] would claim any and all serial murderers and rapists in America are the definition of bravery. Bushite dumfuks deserve to die as enemies of America because they openly, purposefully target the innocent to rob from and murder, as bushite did on 911. They bomb cities. Thus is why Christ [ME] tells loving children to gladly help Life kill their own godless fathers or brothers who CHOOSE to commit these war crimes against our humanity with their contempt for Justice, Johnny and America. {Especially those in George W. Bush's air force.] A bushite's hatred for America is blatant with every monosyllabic grunt they make. In nazi zionist america, they have a Zionist national radio program that forbids the nation to know they're presently being victimized for criminal sacrifice, and apparently, Americans would rather DIE, than hunt George Norry, or Art bell for questioning. Death to the godless bushite, death to America's lawless enemies.

AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01] The individual who makes the wire transfer at Ahmad's direction is Saeed Sheikh, later convinced for kidnapping and murdering reporter Daniel Pearl in February 2002. ABC News later reports, "federal authorities have told ABC News they've now tracked more than $100,000 from banks in Pakistan to two banks in Florida to accounts held by suspected hijack ringleader Mohamed Atta." [ABC News, 9/30/01] CNN also reports the $100,000 transfer, and the New York Times specifies that it came in 2000. [CNN, 10/1/01, CNN, 10/6/01, New York Times, 7/10/02] Ahmad's order must have preceded June 2000, since that's when Atta and

others started opening bank accounts and receiving the money ($109,910 is received by Atta and Marwan Alshehhi between June 19 and September 18). [MSNBC, 12/11/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

Investigating the Investigation

http://www.alternet.org/story.html?StoryID=17816

After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?" Daschle flatly contradicted Cheney: "Yes, he did, Tim, on Jan. 24, and then on Jan. 28 the president himself at one of our breakfast meetings repeated the request."

...."[T]hat request was made" by Cheney not only on Jan. 24 and by Mr. Bush four days later, but "on other dates following" as well.

October 9 2001 - The Times of India

"While the Pakistani Inter Services Public Relations claimed

that former ISI [the "Pakistani CIA"] director-general Lt-Gen Mahmud Ahmad sought retirement after being superseded on Monday, the truth is more shocking. Top sources confirmed here on Tuesday that the general lost his job because of the "evidence" India produced to show his links to one of the suicide bombers that wrecked the World Trade Center. The U.S. authorities sought his removal after confirming the fact that $100,000 were wired to WTC hijacker Mohammed Atta from Pakistan by Ahmad Umar Sheikh [Omar Saeed] at the instance of General Mahmud [Ahmad]. Senior government sources have confirmed that India contributed significantly to establishing the link between the money transfer and the role played by the dismissed ISI chief. While they did not provide details, they said that Indian inputs, including [Omar Saeed's] mobile phone number, helped the FBI in tracing and establishing the link."

No evidence was brought against Laden for nine eleven, none. [So according to Bush's official top secret Presidential directives] While Laden himself claimed he played no part in 911. Still, to save the lives of third worlders on the brink

of starvation, Laden agreed to hand himself over, but Bush refused the offer, while CBC and CNN denied to report on that fact for the behalf of now dying dismembered American GIs. Once the indiscriminate bombing began, targeting almost every building in the country of Afghanistan, Laden then claimed he had no choice but to fight back to defend US innocent from the ungodly enemies of Creation/Freedom. Then the clear to all fake video came out with an actor who's face wasn't even close to looking remotely like Laden, but for almost the facial hair. [Bridge of the Jamaican actor's nose is HALF as long in proportion to Laden's for example, and surely frightfully shocking for some, the actor doesn't even take blame for 911 either!] Photos comparing the two faces never aired on CBC and CNN available in about twelve seconds with the power of the Internet.

The honorable Argentinean oil company Bridas' relationship can not be understated as the Bush Administration's primary motive on criminal invasion of Afghanistan to save his biggest corporate backers, the American pension thieving Enron.

HANS BLIX: "And at this juncture, we are able to perform professional no-notice inspections all over Iraq and to increase aerial surveillance..."

With complete, one hundred percent access to go where ever the Bush Administration pleased without delay, left a situation of an unjust war only detrimental to an ability to bring about any good or better thing. American soldiers are being sacrificed for no better good or reason understood, for if progress will ever be made, it will be when they work to bring about a political situation that was there in Iraq before the Bush Administration starting murdering innocent people for nothing . Well, not completely, for Bremer shipped 19 billion to Greenspan early on, then, hundreds of millions were sent back.

The Washington Post, 23 September 2001.

At American urging, Ahmed traveled ... to Kandahar, Afghanistan.

Mahmoud's meetings on two separate missions with the Taliban were reported as a "failure." Yet this "failure" to extradite Osama without providing a shred of eidence was part of Washington's documented design, providing a pretext for a military intervention which was already in the pipeline. If Osama had been extradited, the main justification for waging a war "against international terrorism" would no longer hold. Nor would the ready to go Patriot Act. Incidentally, when MSNBC contacted the Whitehouse regarding the top secret

invasion of Afghanistan plan, it was confessed that the plan had been "fully implemented"

What seems even more disturbing, to me, and PBS' FRONTLINE, is that there was a "State" plan, the ORHA plan to prevent looting and carnage, but it was sabotaged by rumsfeld and

Bush signed the top secret war strategy, to ignore all relevant evidence for a crime that hadn't just yet taken place, on September 9th, 2001. [Jim at MSNBC] A top secret criminal plan to close inquiries carried out after the catalyst terror event of 911. The General who provided the no evidence argument to the Taliban at Bush's request, was found also responsible by the FBI for funding the same terrorist offence in question. A terrorist crime that the bushmob has taken a huge killing in GOD with. wAllah, George W. Bush is the for real antichrist. No escaping it my friends, no escaping it. American soldiers are being terribly mislead by the Bush administration to undermine freedom for Americans, by suggesting an effective war strategy is to ignore all the 911 evidence, and go off instead to blindly blame bad Afghans or badder Iraqis, is an insult to all honorable police services. Services not left permanently perplexed by the onslaught of repeatedly ignoring the same consequences where more innocent people fall dead as bombing victims, while LIAR bushite continue to charge/thieve from both, you as an American, and me, a member of our victimized Humanity. Dear Dr Stephen Bass,
Firstly,thank you very much for your inquiry.
I'm Jackie from Dongguan Redsun Electronics Limited.
This model(RP3000) is not available now,
will be unveiled in the end of this year.
But we have a previous model RP3100 which will be
unveiled in early August.{RP2100 > CCRadio-SW}
You can contact our US solo agent - C.crane Company,Inc,
http://www.ccrane.com
You can buy from C.Crane at that time.
It will save your time and money!

I received email from Jackie 16th May advising me that the RP3100
would be basically the same cosmetically and performance wise as the
RP3000 except that the RP3100 will not have the Synchronous Detector.
Jackie also advised that the RP3100 is scheduled to be released in
July
2007 and the RP300 later this year.

I already made a post of this information to the group earlier
together with list of the RP3100 Features.

Thanks for the information. So the 3100 doesn't have synch detection
and it only uses an adjustable bfo for ssb. So far it seems to be a
slightly improved 2100 and I'm not seeing what all the excitement is
about. Here's hoping the 3000 will be improved.

Grundig Yacht Boy 400 (or 400PE). Nice little radio to carry in your purse
or luggage, but doesn't begin to touch an R-390 for performance (but then,
an R-390 doesn't run on 4 AA batteries).

Out of curiosity is there a difference between a Fowler manufactured
R390A and one made by another company in 1984?

<snippage>

I've had a lot of correspondence with "Jackie" at Redsun myself. After being assured I could get a sample of the RP3000 from them for $89 plus shipping, and after 6 months of letters telling me "it's still in engineering/still in prototype/will be out in March/out in April/out in July" I finally got one that said to get one from CCrane. I DID get a letter from CCrane offering me a radio for the price promised by Redsun/Jackie, but they tried to sell me an RP2100. They never got back to me about an RP3000 at all. As far as I'm concerned, for the foreseeable future, it's vaporware. Would love to have one if it ever materializes. I have a permanent watch on Liypn's store for one. A competitor (or maybe it's him as well) has ANTENNAS for the 3000 and 3100, but nobody's got the radios yet.

Interesting! I attended the Navy's answer to R-390A school more years
ago than I would like to admit and I never heard of "Fowler Industries".
Nice piece of history but agree that it should not have been posted in
several of these groups for sale. As they say, there is a proper place
for all the stuff for sale let alone ebay's rules and policies.

On a side note, I did notice a few posts stating these receivers in
general were "junk". It all depends on your perspective. The
sensitivity, when properly aligned, is still competitive with more
modern equipment. If one were to set their new ((rig) (insert your
favorite brand named, DSP, Solid state, processed, ET. here))next to a

R-390 and exposed both to one hell of a EMP, which one do you think has a chance to still work?

Not that this was in the original design specifications but the R-390 has also stopped many a bullet or shrapnel for ripping an op in two.

To reiterate, it is all a matter of perspective kind of like relativity.

ISTR reading one of the R390A sites that said the Fowler unit
was built from refurbished surplus R390A parts (EAC).

As I recall, the Navy burped up a need for a couple of more R390A units
for some reason or another, and put out a RFQ. Fowler won the bid.

Actually, the 390A is a pretty good performer. Sensitivity isn't a whole lot better than the Yacht Boy cheapies, but the front end noise floor is better, and the selectivity is amazingly better. The selectivity for SSB and CW on the R-390A is really something you have to try to believe. Oh yes, and the front end of the R-390A won't overload. Not even with a local transmitter on the same channel. The Yacht Boy overloads if you look at it too hard.

The bad news is that the audio quality stinks, in part due to the really sharp skirt of the filters that make it so selective and in part due to power amp design. So you might prefer the Yacht Boy if audio quality is more important than DX ability.

A couple years ago I did an A/B test between the R-390A and the current generation DSP-based Watkins-Johnson military surveillance receivers. The weak signal performance was about the same for CW, although the fancy detector on the W-J was a little bit better at dealing with weak SSB signals. The digital panadaptor with the automatic signal ID on the W-J was really slick, though.... I think the W-J was a winner for ergonomics.

I wouldn't want to try and repair that R-390A, though. It's a mechanical nightmare. On the other hand, I don't think I'd want to repair that W-J either.

Who said anything about 44Kbit/sec?

The bit-rate of my WMA CBR is 20Kbit/sec or less.

Okay.

> Not possible. If the rate in and rate out are identical, then there's
> no compression happening.

Yes it is possible and it is compression. The uncompressed audio is a
monaural linear PCM at 44.1-KHz-sample-rate with a 16-bit-resolution
-- this audio has a bit-rate of 705.6 kbps. The compressed audio is a
monaural CBR WMA at 44.1-KHz-sample-rate with a bit-rate of 20 kbps or
less.

Where/when is there any change in sample-rate?????????

There is definitely a change in bit-rate. However, that is totally different from the sample-rate. Totally.

BIT-rate and SAMPLE-rate are two completely different things.

In linear PCM audio:

BIT-rate = SAMPLE-rate X bit-resolution X number of channels

Stereo has two channels. Mono has one channel.

44,100 Hz X 16-bit X 1 channel = 705,600 bps

Yacht Boy can get into the sub .1 microvolt sensitivity level (10db
S+N/N)? That's pretty impressive for a solid-state receiver... usually
noise floor is a problem down below .1uv... Chuck Rippel has some that
can get into the .07 - .08uv 10db s+n/n I'm not patient enough to groom
mine that well.

True, but...

So you might prefer the Yacht Boy if audio quality is
> more important than DX ability.

There's precious little (IMHO) worth listening to on SW(AM) DX these
days - and audio quality isn't too important when digging an RTTY signal
out of the chaos that is propaganda and religious broadcasters these
days...

To get peak performance with a 390/1/A - consider using a Sherwood synchronous detector, or similar...

For a "head to head" run of a Drake R8 and R8A; a pair of Watkins-Johnson HF-1000's, an R388, R390A and a JRC NRD-535 against an R390A with a Sherwood - see this:

Once you get used to them - they're VERY easy to work on - admittedly - the geartrains can be a bit intimidating at first - but after a while - you get to don't even think about them... Of course with the 390/391 - you do learn to NEVER forget the green gear - it only takes once - and you remember from then on.

Sherry's 391 with it's power autotune - yeah - those tuning heads still give me pause - but Sherry just shrugs and jumps right into them - since she likes to keep them very clean and well lubed. (replacement parts are getting harder and harder to find - so it pays to prevent damage).

> On the other hand, I don't think I'd want to repair that W-J
> either.

This old dog is getting too old to learn new tricks... besides most of these new-fangled radios are more like sitting at this computer... no warm glow, no power geartrains slewing at break-neck speeds going from one preset to another... and certainly not the smell and sound of a 28 in the room... naw - give me my boatanchors (and it's probably appropriate to apologize to those in r.r.s and r.a.a.e groups - I didn't notice this was cross posted --- but since we're all on the subject - I'll leave it cross posted for now)...

My 390A is pretty stock - and as noted - just an average performer. Sherry cheats - she "usually" runs an R390A IF in her 391 for DXing, etc. -- though she can drop the stock 391 IF back in - in about a minute - when she wants to show off broadcast stuff (i.e. the 390A IF she uses is the only thing modified - it'd have to be "returned to stock" to go back in an "A")...

best regards...

You left out Helena-Rubenstien (yes the makeup people) --- though it's usually suggested that though they "took that specific contract (believed to be 80 radios) - they subcontracted one of the regulars to build the radios. Stewart Warner is suspected - since they had the contracts on "both sides" of the H-R contract... are were obviously in a position to build them much less expensively than most anyone else at the time.

back to your question - I'm sure there are those who nit-pick this detail or that detail - but in working with these radios over the past 35 years (and probably 100+ different radios both aboard ship and otherwise) - much of the time I have to look at the tag to see who built it - and even then - after being in the fleet for any length of time - there'll be a "mix" of modules in the radio from any number of sources. Many I worked on were Stewart Warners - which as often as not had several Capehart modules in it -- as does my current 390A - though I suspect from a couple of things the frame itself started out as a Capehart and had it's tag "swapped". That's not as uncommon as you'd think - sometimes it'd be easier to fix a radio by sliding another one in it's place - changing the tag so the "boss" didn't notice. I've been told this was rather common at some shore stations where people were more interested in "hitting the beach" than "hitting that dog"...

One of the great strengths of the Collins design - is that it is truly modular - the modules aren't dependent on a neighbor to work to it's best (i.e. there is almost no interaction of alignment / adjustment between modules. A module that works in one radio - will work just as well (in it's own right) in another radio. Obviously - an improperly working module will effect the radio's overall performance - but properly working modules can be shuffled like a deck of cards - and still work just fine - regardless of the "new neighbor".

The way the contracts worked in my experience was they would all had to
meet the original design specs/requirements.

I noticed a reference to sensitivity being .1 uV and I can tell you that
if I worked on one that was in that range I started looking about to see
what was wrong with it! While working on several banks of the silly
things, .0 something uV was the norm. I'm not saying that was the
minimum specs that were required as I can't remember just that they very
often exceeded them.

They were a mechanical nightmare and a bad thing if you were waring a
tie while aligning them. During an inspection, by an admiral no less,
one of my techs was aligning one and got his dress tie caught in the
gears. When the admiral walked in an "attention on deck" was yelled out
and this poor kid had a receiver hanging off his neck! It don't take
long for 60 or so pounds to suck you to the floor in that type
situation. The admiral was very understanding and although he didn't
offer to help the kid we all ended up going out on a relatively large
drunk.

But, still a nice, heavy, old, receiver.

I threw that number out as a point of comparison... as any 390/1/A
should perform that well as a minimum.

After working on "several banks" -- the one has to wonder - if it wasn't
the tech that was getting "silly" (if not punch-drunk!)... ;-)

> .0 something uV was the norm. I'm not saying that was the
> minimum specs that were required as I can't remember just that they very
> often exceeded them.

The specs - and the way the specs were obtained - left a lot of "wiggle
room". That's why the generally accepted measurment is made with the
radio set to some specific settings - which generally produced the most
"recoverable" signal - and that's using the 4 kc filter and standard AM
detection; signal generator at 30% modulation with 10db S+N/N recovery.
Otherwise - without knowing what the "settings" were - (and they varied
depending on what tech manual you happen to have) - everyone would be
comparing apples to oranges - rather than apples to apples.

Obviously - using a wider filter; bfo to detect carrier (or carrier
re-insertion on SSB) would allow for detection WAY down into the noise
(.06 or better). .07-.08 using the above settings (4K, AM, no BFO, 30%
modulation) is akin to pulling a 20 pound rabbit out of an egg cup -
pretty cotton-pickin' good!

There's no stranger 'reality' than the world of Quantum mechanics. It defies common sense and reasoning. Einstein coined the term 'Spooky action at a distance' to describe the theory of quantum entanglement.

The only guest on Bell's show that I ever took seriously was Dr. Michio Kaku. I'm surprised that a man with his credentials would associate himself with Bell.

I would do what Apple is doing right now. Use their power to force the
phone companies to offer (finally) great phones with simple plans that
their employees can't screw up or misinform customers about.

I want getting phone service like when I buy a Mac.

Most likely the result of sporadic-E propagation. This is the peak season in the northern hemisphere for sporadic-E, which is caused by the increased sunlight exposure to the ionosphere during the longer daylight hours. The solar flux hasn't been high enough for real F2 propagation of the high HF band in more than a year. It will take at least another year before F2 propagation will support the higher frequencies of the HF band, as solar cycle-24 begins.

It is more likely they were high power. They are high power because the
owner has a clear channel and can afford a high power
transmitter. And high power is obviously good for good reception
far over the horizon.
The users are often ships at sea and aircraft over the
horizon or over oceans.

The "frequency hopping" you hear is more likely
ionospheric multipath. As the multipath varies it
notches out varying frequency segments of the
signal.
But it is indeed spread spectrum. The signal is
spread over the width of an audio
channel but the information rate is much less.

(Here's something interesting I've observed about
multipath fading. It seems to generally sweep
up in frequency mornings and down in frequency
evenings.)

>
> Anyone hearing an example of older VFT signals currently on the air,

I've post some recordings of what I think are
present day VFT signals to alt.binaries.alt.

(Hmm. Those files were recorded in USB mode. In
the old days I only had AM. I wonder if present day
VFT would sound more like an "airplane" if demodulated
in AM mode. Next time I hear one I'll switch to AM
mode and give it a listen.)

I just clicked around your site and saw your
homebrew receiver. Looks interesting. How does
it work?

You'd be surprised how easy it is, Scott. Complete guides to tearing down and rebuilding even the most complex assemblies (the RF geartrain, the PTO) are on the web. Mine came from Fair Radio (a "used-repairable" unit) with essentially sand as the geartrain lubricant, so I went through most everything.

> On the other hand, I don't think I'd want to repair that W-J either.

My WJ is 25 years old now and holding up pretty well, too, although I'm sure it would take more than a 100W soldering iron and Bristol spline wrench to fix if it had anything go wrong in the PLL!

It's early yet... there are 50 to 100 stations coming on board each month.

Remember that as many as half of all AMs are not viable, and that the top
100 markets have only about 150 viable stations on AM, you get a better
perspective.

You only want them to work in a few dozen exchanges, and use a codec that
only other phones of that brand use, so you can't talk to anyone else but
other customers of that company (sort of like Sprint's "Friends and Family"

The only major difference I saw between the things was in the PTO... some
manufacturers seemed to build much better PTO modules than others.

By the time the gear winds up on the ham radio side of the DRMO, though,
most of them have turned into mix and match sets. So the nameplate on the
front may not indicate accurately where all the modules from.

My experience has been to avoid the EAC PTOs. If you find yourself with
a radio with a goofy or flaky PTO, though, Fair Radio has replacements.
Don't worry so much about the rest of it.

I'd have to say that this darn thing (along with the other four) must certainly have been built out of resurrected parts. There is probably no way that a company is going to gear up, and produce five of these receivers for $38,000 each, for a total cost of $190,000. The costs just wouldn't seem to add up.

Nice receivers though, when well maintained.

The costs would likely add up rapidly for a limited run of a complex
radio like the R390a. The profits would likely not add up at all and
would likely venture into negative territory.

This, of course, is the season for the for the annual BBC Henry Wood Promenade Concerts. The closing night, full of fun mindless jingoism, is September 8 and at least part of this should be on World Service.

BBC 3 has full concerts and, the audio is available for a week. The opening night concert from July 13 is still there as of 1350 GMT on the 21st.

Real Audio

A couple of evenings ago, I picked up RFI in English on 15160 kHz at
about 05:20 UTC, stepping on Radio Australia.

Here is a purported sample of a VFT modulated signal (from a site with digital mode sound samples):

http://www.kb9ukd.com/digital/vft.wav

One can hear at least one rtty channel and the background drone (of FDM rtty 'spacing' on the other channels?).

This is pretty much what I thought VFT would sound like with low baud rate channels; I can only extrapolate how faster rate channels would sound and I suspect that it would be very multispectral. The signal from the 1960s had only a few tones, closely spaced and harmonically unrelated, was very much harsher sounding and these tones had a phase-modulated characteristic sound with a period of about one second. (and it was non-random in character, not like qpsk, modem noise, etc.) The wide bandwidth it occupied didn't seem to be FDM related but appeared to be a consequence of its high percentage of modulation (and didn't appear to be restricted to one set of sidebands). It contained no audible frequency shifting as one would expect from FSK rtty. It may have been a self-clocked (manchester style) signal or set of muxed signals.

One respondent suggested LORAN; even with the recent enhancements I don't think the description of LORAN modes is much like my old signal and the carrier frequencies are wrong.

Geolocating it would help to narrow down the potential users of this signal; please, if you remember this signal, post a

message about signal strength and where you were located.

I will appreciate more recollections and comments ;)

Michael

Until there are more facts, the iPhone's current success is due to people wanting a very cool instrument with good features.

The iPod's success is from Apple having a top-notch product line with good features, and cool looks. And people should not overlook, but often do, iTunes. It is iTunes that makes the iPod easy to use, giving it easy access to their CD and MP3 music regardless of where they buy it. People who don't want an iPod can still use the free iTunes to good advantage.

Apple doesn't make anyone do anything.

So, what was your point?

Don

Which is pretty much the definition of putting out a product that the

You are reading in something I did not say.

The iPhone is off to a great start, but it has no track record at this time.
I anticipate that it will be very successful, but we can only guess at it
now. From an investor point-of-view, I think the monthly kickback from AT&T
that Apple negotiated, is good. From a personal POV I think it sucks, and
will likely antagonize Apple supporters.

DE - Your's is a 'qualified' reality where 20%
of the People don't count. Considering Your

{Minority} Community - How Can You Ever
Discount People ? - It Boogles the Mind !

I AM AN AM/MW AND FM RADIO LISTENER
AND I DO COUNT ! ~ RHF

DE - With your kind of thinking of course AM Radio
is not "Viable" and with a 1% HD Radio signal that
serves only at best 66% of the former AM Analog
Service Area; HD Radio will kill AM Radio as a
"Viable" Commercial Enterprise.

HDTV {Digital} gets about 50% of the old Analog TV ERP.
- - - TV Transmitting power allowed by the FCC
To make up for the inability of UHF to reach into valleys,
the FCC allows UHF stations to have higher power.

TV Channels - - - Analog TV - - - HDTV
Channels 2-6 = = = 100 KW = = = = 50 KW
Channels 7-13 = = 316 KW = = = = 160 KW
Channels 14-69 = = = 5 MW = = = = 1 MegaWatts

IMHO - For the FM Radio the FM "HD" Radio Signal
should be closer to 50% and way above 1% for "HD"
Radio to work effectively {be Viable} and serve the
FM Radio Listeners.

1% is not the Answer to AM Radios "Viability" ~ RHF

Perhaps you should read the original articles in Electric Radio
Magazine, issues 71 and 72 March and April, 1995 and get the "actual
facts." I know that would be a real stretch for anything on usenet,
but you would get an education along with the other naysayers as to
the "rest of the story."

This is a small excerpt from a list which has been discussing this
particular item.:

I've been reading the archives with interest concerning the Fowler
R-390A
s/n 2. I no longer subscribe to the list, but several friends told me
of the
activity about this particular R-390A and I wanted to clear up a few
things,
so I subscribed this morning to attempt to do that.

The story about this particular receiver was originally published in Electric Radio Magazine issue 71 in March, 1995. A close-up photo of the nomenclature tag was in issue 72 in April, 1995. That is the "Real McCoy Tag" Speculate about made up tags etc. One wasn't made for this receiver except when it was built for the U.S. Navy by Fowler Industries.

I know the owner, V ********** who was mentioned in the original article and it is indeed a "genuine" Fowler and is s/n 2. T ******** reviewed the pictures of this receiver back in 1995 and knows of the validity of this particular receiver, as do several other people.

T ********* did quite a bit of research with personnel from Fowler Industries and Avondale Shipyards regarding the five R-390A's built. That information was published in subsequent issues of Electric Radio Magazine.

I don't have the time right now to answer in detail, maybe tomorrow.

T ********* knows much more detail than I do as he spoke with the former General Manager at Fowler Industries and purchasing people at Avondale (now Northrup Grumman) Shipyards.

They built them using components, but had some difficulty obtaining certain components.Fowler: When T ********* spoke with the Plant Manager he commented that they had particular problems obtaining JAN tubes, in particular 26Z5W's and 3TF7's. Remember, that they were considered "unobtanium" in the late 80's early 90's. Then the government released surplus tubes and Fair Radio was selling them at reasonable prices (they went quickly).

They potentiometers were made in Mexico, the meters were A & M Instruments, the quality of the wafer switches were not as robust as the runs during the 50's and 60's, Dittmore-Freimuth made the mechanical filters (as they did on many later versions), as well as the ones the built themselves, which were 67 EAC receivers with Dittmore's filters.

I can't say if what they obtained, but can assure you they didn't purchase
any in the crate R-390A's. Even though they were available at various locations throughout the country. When you bid on a contract the Government
lets, you fill the requirements, and they inadvertently left the R-390A spec
in the bid offering.

Avondale Shipyards probably didn't think to do a search for "in the crate"
R-390A's and put out a request for bids to build five R-390A's. Fowler
Industries was Clavier and prior to that Capehart, so they had experience
building R-390A's and suppling R-390A spare modules (Clavier).

T ********* can pick it up from here, as that is about I can remember or
verify from back when we did the ER articles.

I'm sure you can do additional research, and find someone who has these articles. I do, but don't care to scan and post them without the authors permission as they are copyrighted articles.

Nice. However all I can do is stick with my original assumption. It would be very difficult to build 5 'totally new' R390A's for a measly $190,000. Even 1984 dollars.

Nobody said they built totally new R-390A's. They sold them to the
government for $38,500. They (Fowler Industries) were formerly
Capehart who built R-490A's, and Clavier, who manufactured R-390A
modules for a government spare parts contract. They used "bits and
pieces" to paraphrase, and assembled the R-390A's for that 1984
contract. There is much more to it and I'm not going to waste anymore
time detailing nuances to this group. I just wanted to clear the air
so to speak and inform the uninformed. Usenet has always been a place
to walk the walk, but never talk the talk. I know who you are and you

are a very experienced dx'er. The gentleman who wrote the articles is a well know archivist/historian.

Until there are more facts, the iPhone's current success {?}
is due to people wanting {Gotto Have the Latest} a very cool
instrument {Newest Bells and Whistles} with good features
{of Questionable Utlity}.

-RANT-
While Senior Citzens like myself with Tired Old Eyes
and Big Old Fingers just want a basic CellPhone that
we can use without our Glasses like the "JitterBug" .

Why doesn't AT&T, Sprint, Nextel, T-Mobile, Verizon, etc
offer a CellPhone designed for Senior Citizens and the
Visually Limited-Impaired like the "JitterBug" ?
Here is where the ADA Laws should apply and force
the Cellphone providers to design and market these
Cellphone to Seniors with needs. -end-rant- ~ RHF

I hate to be overly 'picky', but read what the seller says in his description:

He refers to 'new' in several places.

Jumping Jesus Christ, you are thick aren't you?

The excerpts from the articles said many of the parts were "new,"
mechanical filters, potentiometers, meters, tubes, etc., etc. They
(Fowler) did manufacture the rear panels and other items. The rear
panels had a "certain" identifying mark on them. Fowler was a defense
contractor that manufactured many other items for the government and
had the capabilities to do so.

Get over it and listen to nibi nibi again, or that heterodyne from
Pitcairn Island.

You probably get that annoyance on an R-390A.

I prefer to use quality equipment made by R. L. Drake.

I tend to agree with you Steve. Tooling up to build five completely new R-390s for $190K would be hard to do. Fowler most certainly had access to the needed equipment and parts to do the job and that's probably a big part of why they got the job.

Lots of reasons..... Here's a couple:

* We senior citizens aren't perceived as being a large enough market.

* We aren't a cohesive group of a same mind. I'm one, but I'd have an
iPhone in a minute just cause it is cool, if it weren't for the ridiculous
rate structures.

Who said anything about 44Kbit/sec?

The bit-rate of my WMA CBR is 20Kbit/sec or less.

Okay.

Yes it is possible and it is compression. The uncompressed audio is a
monaural linear PCM at 44.1-KHz-sample-rate with a 16-bit-resolution
-- this audio has a bit-rate of 705.6 kbps. The compressed audio is a
monaural CBR WMA at 44.1-KHz-sample-rate with a bit-rate of 20 kbps or

less.

Where/when is there any change in sample-rate?????????

There is definitely a change in bit-rate. However, that is totally
different from the sample-rate. Totally.

BIT-rate and SAMPLE-rate are two completely different things.

In linear PCM audio:

BIT-rate = SAMPLE-rate X bit-resolution X number of channels

Stereo has two channels. Mono has one channel.

44,100 Hz X 16-bit X 1 channel = 705,600 bps

I finally got my old Eavesdropper dipole antenna up in the air again in preparation for the 2007/2008 DX season. I've not had it installed since about 1990 or so. Seemed to be OK in preliminary tests.

Tomorrow, I'll try to finish the coax installation into the house.

I have it oriented 150/330 degrees, main interest was to hopefully get better South American reception.

My vote (this week) goes to AFN Camp Red Cloud. Somehow, they are the only AM plant in Korea that is getting both channels of a stereo satellite feed, but they're 180 degrees out of phase, and so the modulation is not only running about 20%, but is missing 80% or more of the audio due to cancellation. But then, they're all of 250 watts.. if a signal sounds like shit, but nobody can hear it, does it even matter? :)

I'm certain that somehow, someway, it would matter to Edweenie! He'd come up with some arcane technical reason as to why that was A-OK. Or, in his fake Hispanic mode, it would be 'muy bueno'.

Verizon here RHF. I wouldn't have gotten a cell phone but I got this new job over at Harris. (And just the keep this post legal, Harris makes shortwave radios. Heheh.) So I'm working in Rochester, NY and Wife is in Ma so I had to get a cell phone to keep in communication. Hey, don't cell phones use tiny waves. I guess this stuff should really be posted to rec.radio.tinywave, but that keeps bouncing. Anyway, so there ya go, I like Verizon just fine. A really nice polite bunch of peeps over there and very helpful if you get the chance to call them. I give em a two thumbs up.

I think Kutthekrap show will start at 8pm est on wbcq. I think guys name is AJ maybe. Worth giving a listen to. Timtron's belching and farting extravaganza I think is still on at 7pm.

Back at my QTH here in Ma for a week with some decent receiving wires. My Rochester, NY apartment QTH is total noise so I haven't bothered so much over there. I got access to a few huge rotating log periodics and some of those big B&W folded dipoles, but the Wegman's grocery store across the street is using some kinda machinery that blankets the whole HF spectrum with noise.

Yeah the Cellphone's Tiny Waves keep bouncing off
my old rock-solid head.

You are right for Mobile-to-Mobile {Free Minutes}
the Cellphone is the best thing today for keeping
up family communications across long-distances.

Well, if you were using a dipole antenna, and you were located here, how would you orient it if you wanted reception from South America?

There was a time that was true. Not so much since about OS X.2.

Truth is that I had a Mac on line at work since '89, and from home since '84, and with the exception of those who bothered to read the headers in e-mail, no one ever knew it. I've had my Macs and my PC's talking to each other the entire time.

As long as the output files are the same format, there's no more compatibility issue between Mac and Windows than between HP and Dell printers. And with Solaris and Linux making a showing in the marketplace, compatibility in general has become largely a non issue.

That's why the pissing match between the Microsoft and the keepers of standards is such a concern. Because if MS has their way, their proprietary formats, will continue to play havoc with compatibility between platforms that currently play well together using standards compliant output.

On my Macs, I use only open source software with the exception of one or two Apple branded programs for document and presentation creation. With the exception of nicer, more eye catching documents, and presentations with full animation and stereo sound, none of my colleagues can tell that I've used a Mac.

On my PC's the only MS software is the OS. Everything else... browser, IM client, office suite...everything, is open source.

The ONLY time I've ever had a compatibility issue is using MS software. And that's been true for more than a decade, now.

DPM - I would suspect that you are right most of my
PC related problems have come from MicroSoft (MS)

Software related issues. ~ RHF

Didn't Wal*Mart offer some PC that had a Linux OS
with some of there store brand Computer Systems
for a while ? => http://en.wikipedia.org/wiki/Linux
http://news.zdnet.co.uk/software/0,1000000121,2125057,00.htm

Now Wal*Mart seems to have gone the other way
and now offers Dell Computer Systems in their
stores.

Maybe someone didn't set the "pilots". Watching and re-setting the pilots is a full time job (almost), as soon as you walk away for coffee the damn things will walk also.

I've been told that the airplane-like signals of the 40s and 50s were high speed Morse. I'm aware of equipment that transmitted Morse from punched paper tape at 400 wpm or so, recorded on inked paper tape and transcribed to hard copy by operators at typewriters reading the tape. I have a Boehme frequency shift receiving converter, and Boehme was one of the makers of the high-speed Morse stuff, and it works with frequency shifts up to 15 KHz, as well as with on-off keying. But I have no way to confirm that the sounds we heard way back then are in fact high-speed Morse.

Maybe someone who writes soundcard digital software could be persuaded to hack it up to send Morse at 400 wpm using on-off and FSK, and just see what it sounds like on an AM receiver. (without putting it on the air, of course).

My biggest problem with Mac (I like the machines, always have) is the relative lack of software available for them. For instance, I have several video editing applications, and several internet webcasting applications, and they cannot be duplicated in Mac. (or at least they could not). I'll concede that their machines, and to an extent their OS, are very reliable.

What's even worse is how MS thumbs their nose at making an HTML/CSS compliant browser.

All the non-standard workarounds we need to do to get some HTML and much CSS to appear properly in PCIE is ridiculous.

The proprietary stuff will always be an issue (yes, not having
DesignMyCloset couyld be an issue for some people).

Final Cut Pro is pretty swell for most of the pro world.

Never said they do. People want to buy iPhones and iPods because of the
ease of use and right-on-the-nose product design. Then there is the
coolness factor.

Why is this so hard for other companies to do?

Far better for data than anyone else's offerings. Take a look.

I need reading glasses for my Treo, but there are those who simply want
a phone with large numbers and no features other than voice.

We had these same naysayers in these groups who were predicting the flop
of iPhone a week before it came out. The more rabid ones disappeared.
Now we have this more ambiguous approach.

Bottom line - People want products that work for them. Period.

JP - Actually Radium may be an http://www.wisconsinmedicalsociety.org/savant_syndrome/
"Island of Genius" unto himself ~ RHF
http://en.wikipedia.org/wiki/Savant_Syndrome

But it does seem that : Rec.Radio.Shortwave and
Rec.Radio.Amateur.Antenna are a bit 'off' for a
Proposal to Change the Digital Cellphone World
kind of question that Radium posed.

While had he stuck to : Sci.Electronics.Basics,
Alt.Cellular.Cingular, and Alt.Internet.Wireless
He would not be hearing {reading} any of this
back chatter now.

If Radium could only understand that :
* Rec.Radio.Shortwave is about Shortwave Radio
and Shortwave Radio Listening (SWL) including
Radios, Receivers and related SWL Equipment
like Receiving Antennas and Feed-in-Lines for
the SWLer.
* Rec.Radio.Amateur.Antenna is about Antennas
for Amatueur {Ham} Radio use : Theory, Design
and practical application of Transmitting and
Receiving for the Amateur Radio Service.

Clearly Radium's Re-Inventing the Cellphone
Transmission {Delivery} System is a stretch
beyond the normal focus of these two groups.

'Right-on-the-nose product design'? What you like and want may be
totally useless to a lot of other people. When i saw that Iphone on TV,
I thought it looked like another useless piece of junk. 'Right on' is
doing what you need, and doing it as easily and cheap as possible. Not
cramming every damn gimmick and stupid idea you can come up with. There
are already complaints about battery life. Don't you even wonder how
much longer it would work without all the crap?

I've been a Mac user since the MacIIci. Usually, at home, I stayed one model ahead of what I got at work. My primary home computer now is a recent MacBook Pro, and I like it, but Apple's think different finally got to me. When I decided to do some serious video/DVD work and discovered there was no way to get video into the Mac except through a digital camera or a $300 box, I just bought a PC tower and equipped it with a PCI card, which works fine. Hardware and software for the PC is much less expensive than for the Mac and it does a great job. Also, Windows XP is a trouble free system. I'll probably add XP as a native system to the MacBook Pro too. I have two Macs and two PCs on my home wireless lan and all have high speed internet access and at least one printer to share off the Mac Airport. The PCs were at least as easy to integrate as the Macs. Word, Excel, photo, and music files are shared by all.

Yes, for you, buy a phone with large numbers and voice only.

I'm a lot older than you and the iPhone does it right for 90% of what
people really want.

Youth market fuels gimmicks. Ringtones reap untold millions.

Do people REALLY want something that is easily broken, lost or stolen that would pretty much give away their entire life if it fell into the hands of someone else? And hey, my iPaq does most of what the iPhone does. Besides, sometimes I want to do more than one thing at a time. For that it takes more than one device. Cute gimmick, yeah, and young people will buy any gimcrack that comes out just to be "kewl". That doesn't make it worth what they're paying for it.

As far as Apple being the be all and end all of gimmickry, I have a very nice (and reliable) mp3/video player with a 60GB HDD in it that cost me far less than a similar iPod, and I don't have to deal with proprietary files.

It works trouble free and there isn't all that much difference between the
XP interface and many of the Mac interfaces. I can make the XP interface
appear about any way I wish. When I'm in a Word or Excel document, and many
other types, there isn't any interface difference between OSX and XP.

Do you have a specific point you wish to make?

I am down in Oakland for a day or two : It has been
over a year since I have been down here.

KTRB-AM 860 kHz sounds very good

But - Now most of the Off-the-Air TV is for
Non-English Speakers so it is almost like
being back in the 1960s again with about
6-8 TV Channels to hear English on and
everything else is foreign to me.

RANT - - -
If Bilingual Education and Bilingualism is so
important -and- Learning English also so
important to being Successful in American :
Then -why isn't- it a Requirement that All
US TV Foreign Language Broadcasts have
the SAP Channel proadcast the Program
in the English Language or use a bottom of
the screen Moving English Text just like
many English TV News Programs do.
Plus - Since we are having IBOC on FM Radio
why isn't it a Requirement that All US Radio
Stations broadcasting in a Foreign Language
broadcasts an English translation on their
HD-2 Second HD Radio Channel to attract

and serve the English Speakers in their Radio
Listening Area. -It's About Equality and Fairness.
- - - end-of-rant

However, right now I am watching {listening to}
"Russia Today" presented in English on KMTP
TV Ch. # 32 - 8:45 PDT - They also have DW TV
in English during the Day and their own TV News
program "The 5-Day News" is very interesting for
News of Affrica, Asia and the Third-World.

Yeah, they did for awhile. And Lindows, IIRC. Even a basic machine to which you could bring your own O/S.

They didn't sell well.

Truth is, that there are two things that play heavily against non-MS systems, today. There is the FUD spread by MS itself. The shadow of lawsuits against users of Linux, and other non-MS O/S's. The huge mass of mis and disinformation about MS compatibility, and the refusal of many network sysadmins to even consider non-MS product on their networks. And the built in compatibility restraints that MS builds into their code. Especially to drive upgrades to more recent product at end user cost, despite the fact that the end user's product is, in fact, perfectly serviceable. MS turns off functionality when they want to force an upgrade. Something I've had first had dealings with. Something I also forced MS to turn back on with some very loud and very public complaints.

Then there is the fact that Linux other systems are not quite user friendly. Not that Windows is any prize, but it's familiar. The Devil you know, and all that. As Linux becomes more user friendly, market share will increase. This is what's driving the shadow of lawsuits and the tribute payments MS has extracted from Novell and other purveyors of Linux.

They've made similar noise against Apple for years. And even as recently as a year and a half ago, threatened to pull the Mac division from their catalog.

So, alternative systems are not selling well. And as they make inroads, you can watch Redmond play different and more aggressive games to spread FUD about non MS product.

None of it's true.

But if you afraid to believe, you don't ever take the step.

The applications...very likely are not duplicated under Mac, no.
Their functionality will be found in other apps, however. Especially in
video and audio editing. Most of them in open source, or at least
standards compliant apps. The challenge is finding them.

There are websites that are dedicated to nothing but video and audio
apps for Macintosh. The names escape me at the moments, but if you do a
websearch you can find thousands of audio, video and webcasting apps for
Mac. Some of which are produced by Apple.

BAD,

Let see to date I have never used the Camera

I already have a very good digital camera, and I don't like to listen
to music through earphones or headsets. Blow all your money on gimmicks
now, so all you can afford to eat when you retire is Chinese canned cat
food.

> I'm a lot older than you and the iPhone does it right for 90% of what

Really? How old would that be?

> Youth market fuels gimmicks. Ringtones reap untold millions.

Youth are generally ignorant and very wasteful.

For you I would have to buy the "Braying Jackass" ringtone. OTOH,
someone who doesn't want to be bothered when he's not home doesn't need
anything more than 911 capability on a cell phone and I can do that for
free. I have boxes full of used, working cell phones with good
batteries that the recyclers won't pay for. I might as well use up the
old batteries before I give them to the local battered women's group.
They have a good supply at the moment, so why dump more on them? They
will need new batteries before they are given out, and the used
batteries are shipped off for recycling.

The newer phones go to charity to raise money for Disabled, and other Veterans groups.

Melissia "Barbi Bridget" Scott is such a fake.
I can't believe anybody actually takes this ex-pr0n star seriously!
She's just trying to keep Loony Gene's legacy alive to keep

I have seen her on late night on TBN or some other paid cable

- I have a regular posting with timely information, is there a way to
speed up it's delivery, or automate for more convenience?

-- What is the purpose of rec.radio.info?

The purpose or charter of rec.radio.info is to provide the Usenet
community with a resource for information, news, and facts about any and
all things radio.

All the other rec.radio groups are intended for discussions and general
chit chat about radio. Rec.radio.info will contain informational,
factual articles only. Follow-ups are redirected to an appropriate other
group, and further discussion (if any) will not take place in
rec.radio.info.

In order to ensure that rec.radio.info contains only appropriate
articles, it was decided to create the group as a moderated newsgroup.
```

-- Why are messages almost always cross posted to rec.radio.info?

It provides a "tag" for each article to be assembled into a filtered presentation in rec.radio.info (even with cross-posting, only one message, with a unique Message-ID, is propagated across the net). This tag also facilitates a pre-existing method of dropping or canceling the articles locally within the discussion groups if you don't want to see them. This accommodates individuals who want to separate the bulletins from the discussions, discussions from the bulletins, as well as those who are adamant about not reading another newsgroup and wanted to see everything all in one basket.

With the total size of Usenet (in number of newsgroups and total traffic) doubling every year or so, this is no insignificant contribution to reducing information noise and chaos. Making the discussion groups a catch-all, and making extra newsgroups filters on that catch-all, is also the most realistic way to implement such a scheme (It's not intuitively obvious what the charter, contents, and general appropriate topics for each and every newsgroup are. Seeing FAQ's and charter/intro postings in the home newsgroup is beneficial for new readers).

By cross-posting one only is adding a few tens of bytes to each bulletin (to specify the extra group on the Newsgroups line), but are adding the capability for very powerful filtering features available on most news servers, listservers and readers. Your local news guru could probably explain these features in more detail.

In rn, for example, according to Leanne Phillips in her rn kill-file FAQ, add a line of the form:

/Newsgroups:.*[,]rec\.radio\.info/h:j

either in ~/News/KILL (if you don't want to see rec.radio.info articles anywhere) or ~/News/rec/radio/amateur/misc/KILL (if you don't want to see them just in rec.radio.amateur.misc). The latter method means your kill file will only be consulted during rec.radio.amateur.misc (and hence runs more efficiently), and will probably work for most people.

In nn, according to Bill Wohler in his nn FAQ, add a line of the form:

rec.radio.info:!s/:^

in ~/.nn/kill (if you don't want to see rec.radio.info articles anywhere), or put the following lines:

sequence
rec.radio.info
rec.radio.

at the end of ~/.nn/init in order to see all the rec.radio.info bulletins first, then read the remaining rec.radio.* without the bulletins.

More information about kill files may be obtained from Dave Fawthrop's Killfile FAQ at:

http://www.hyphenologist.co.uk/killfile/

-- What is a 'follow-up', and what does 'moderated' mean?

If you are new to Usenet and are not familiar with the terminology, you might want to read the general introductory articles found in the newsgroup news.announce.newusers. Doing so will make your life on the net much easier, and will probably save you from making silly beginner's mistakes.

If you think that at this moment you are reading an echo, a conference, or a bulletin board, I'd also strongly suggest a trip over to news.announce.newusers.

For the rest of this article, we will assume you have a basic knowledge of Usenet terminology and mechanics.

A moderated group means that any article that needs to be posted to the group has to be accepted by the moderator of the group. Since we need to ensure that followups to an article (discussion) do not show up in the rec.radio.info newsgroup, the `Followup-To:' header line contains a newsgroup that is appropriate for discussions about the specific article.

-- OK, so now I know what 'moderated' means. Tell me more.

Rec.radio.info is a moderated newsgroup, which means that all articles submitted to the group will have to be approved by the moderator first.

The current moderator of the group is the rec.radio.amateur.moderated Moderation Team. Submissions to rec.radio.info can be posted, or e-mailed to:

rec-radio-info@panix.com

Comments, criticisms, suggestions or questions about the group can be e-mailed to:

rec-radio-info-request@panix.com

But before you do so, please be sure to check out the "Posting Guidelines" article.

The influence of the moderator should be minimal and of an administrative nature, consisting chiefly of weeding out obviously inappropriate articles, while making sure correct headers etc. are used for the appropriate ones.

-- What type of material is considered inappropriate?

There are three broad categories of articles which will be rejected by the moderator:

1) Requests for information: rec.radio.info is strictly a one-way street. We receive information in our mailbox; we then post it to

rec.radio.info. Requests for specific information belong in the normal discussion newsgroups. If your request gets answered, you might consider passing the answer on to rec.radio.info, though. Especially if you can edit it into a informational, rather than a discussion, format.

2) Obvious discussion articles, or articles that appear unsubstantiated.

3) Commercial stuff: a relatively unbiased test of a radio product would be accepted, but any hint of for-profit might be reason for rejection. For three reasons: This is not the purpose of the list, for-profit is a controversial topic, and this list may be passed onto Amateur Packet Radio (where for-profit is prohibited except under certain provisos).

rec.radio.swap may be more deserving of the posting in any matter.

Similarly, copyrighted material generally cannot be used. If it's TRULY worthwhile to the net, We would recommend obtaining permission from the copyright holder. Please note the source, and if permission was given. We reserve the right to make the final decision concerning appropriateness in all situations. In most cases, a brief summary of, or pointer to, the copyrighted information may be all we can allow.

-- I do not have access to news, how can I get the information posted to rec.radio.info?

Google has an excellent web interface to Usenet newsgroups. It is available at:

http://groups.google.com

It supports both reading and posting.

-- Will the material appearing in rec.radio.info be archived somewhere?

Yes. See Google Groups above.

Effectively this means that anything you post to rec.radio.info will be permanently stored, so your work will not be lost.

-- I have a regular posting with timely information, is there a way to speed up it's delivery, or automate for more convenience?

Yes, there is! It may take a bit of chatter with the moderator, but we are willing to take responsible people and provide them the means of posting the articles directly from their site. We will try everything we can as we fully realize that DX (distant signal) and astronomical data can be somewhat transitory. We are also willing to allow regular posters of information the same courtesy, even if the information is not as time critical.

We refer to this as self-moderation, which is partly based on the model for rec.answers/news.answers. This requires co-operation and goodwill

to be beneficial to the community in the rec.radio hierarchy.

Please direct any comments, questions, or criticisms about this article to rec-radio-info-request@panix.com.

AJ is the best example of ignorant white trash on the shortwave

Timtron however is very amusing, I would love to hear him

*** rec.radio.info - Posting Guidelines and Etiquette ***

Two introductory articles about rec.radio.info are posted to this group
and to rec.answers/news.answers every month. You are now reading the
second article, which explains how to submit something to
rec.radio.info, and which answers some Frequently Asked Questions about
the submission process. The first article is titled "Welcome to
rec.radio.info", and it might be a good idea to check it out as well.

-- How do I submit something to rec.radio.info?

Two possibilities. You can use your newsreading software to just post
the article to rec.radio.info, as you would do with any other
newsgroup. The difference is that the software recognizes the special
status of rec.radio.info as a moderated group, and will e-mail your
article to us, the moderation team, instead of posting it to the group.

Alternatively, you can mail your article directly to us at the following
address:

rec-radio-info@panix.com

Mailing us directly is probably (a wee bit) faster, but using the
transparency offered by the newsreading software is probably more
convenient.

If you have any questions, or wish to deal with some administrivia with
the moderation team, we suggest mailing to the following address:

rec-radio-info-request@panix.com

-- How soon will I see my article appear?

It depends on how busy we are. Your article reaches us as mail, we have
to read it first, give it the stamp of approval, and finally send it on
to the group. We will attempt to read and decide on all submissions
within 72 hours at the very least, though we will probably be able to
process submissions much faster in actual practice.

The site from which we moderate this newsgroup, "Public Access Internet
and Unix, NYC" (Panix), is directly connected to the Internet, and
```

articles posted at that site should appear at most major news sites, including Google Groups, the same day. The principal delay, therefore, will be the wait in the moderator's submission queue.

If you post a periodic article, and have shown to be trustworthy, we may allow you to post directly if the article is of a timely nature. See the section below on direct posting.

-- Should my article be in a specific format?

No. If it is not totally illegible, we will accept it, and if it does not have a correct subject-line we will correct it with your permission -- that's what a moderator is for.

However.

You could do us a big favor by making sure your article conforms to these simple requirements:

1) The article must present information, not discussion or requests, We will reject the article or require you to change the wording if it is worth it.
2) A good, descriptive Subject line.
3) Always mention what source you got the information from.
4) Don't forget to include a Followup-To header, at least if you don't want further discussion to automatically be forwarded to you, the poster, which is the default if the article is only posted to rec.radio.info.

As we said: if your article is appropriate we will post it even if you don't follow these guidelines, but then don't blame us for not processing it immediately. 'Perfect' articles we can send on with a couple of keystrokes. Stuff that needs minor editing is going to have to wait until we have time to do so.

Please do not waste both our and your time by posting requests, as this is an information only news group.

-- What about crossposting?

If you send something to rec.radio.info, just name any group you'd like to cross-post to in the Newsgroups field. Then, when we approve the article for rec.radio.info it will get automatically cross-posted to any other groups mentioned. This will also override the default Followup-To: poster, replacing it with the groups you cross posted to.

We would prefer if the group be cross-posted to the various discussion groups in the rec.radio.* hierarchy that are appropriate:

rec.radio.amateur.misc Amateur (ham) radio and related matters
rec.radio.amateur.packet Amateur Packet Radio discussions
rec.radio.amateur.policy Amateur Radio practices, rules, etc.
rec.radio.noncomm Non commercial radio discussions
rec.radio.shortwave International broadcasting on the 'HF' bands

rec.radio.cb Citizens Band (27 MHz) discussion
rec.radio.scanner Scanner discussions (unsupported group)

or in one of the moderated groups:

rec.radio.amateur.moderated Amateur radio practices, rules, etc.
rec.radio.broadcasting Discussion of *domestic* radio broadcasting

We will leave it up to the poster to decide which group(s) are appropriate, but reserve the right to add groups if we feel it has broader interest. We will consult with the poster first.

Notes on crossposting:

- rec.radio.broadcasting is also a moderated group. The rec.radio.broadcasting moderator prefers to review all articles himself before posting. Placing rec.radio.broadcasting before rec.radio.info on the Newsgroups line should accomplish this. We will typically abide by the rec.radio.broadcasting moderator's decision whether the article is appropriate for rec.radio.info.

- rec.radio.amateur.moderated is also a moderated group. As the rec.radio.amateur.moderated Moderation Team manages both rec.radio.amateur.moderated and rec.radio.info, we can manage crossposting and approvals for both newsgroups. The rec.radio.amateur.moderated group does not allow crossposting to other discussion newsgroups, whether moderated or unmoderated. However, we would like to manage rec.radio.info as consistently as possible with how it was done by previous moderators, including the grandfathering of existing regular postings. Therefore, the submitter can choose rec.radio.amateur.moderated or the other unmoderated rec.radio.amateur.* discussion newsgroups for crossposting, but not both.

- Any FAQ or informational posting approved by the rec.answers/news.answers moderation team that is also crossposted to any rec.radio.* newsgroup (besides just rec.radio.info) is also automatically pre-approved for rec.radio.info. See below for more information.

If you post to another moderated group, it may be better to make special arrangements with both moderators before posting by contacting us at our administrivia addresses.

In addition, cross-posts do not take up extra space; modern newsreaders can be configured to show you cross-posted articles only once anyway; not everybody reads rec.radio.info; and rec.radio.info was never meant to reduce the volume of the regular discussion newsgroups. But keep in mind that some of the mail gateways may filter out the informational postings (at request of the subscribers) to keep the load down.

You decide.

-- I have a regular posting with timely information, can I make arrangements to help speed up delivery by posting directly from my site?

Yes, there is! It may take a bit of chatter with the moderator, but we are willing to take responsible people and provide them the means of posting the articles directly from their site. We will try everything we can as we fully realize that DX (distant signal) and astronomical data can be somewhat transitory. We are also willing to allow regular posters of information the same courtesy, even if the information is not as timely.

We refer to this as self-moderation, which is partly based on the model for rec.answers/news.answers. This requires cooperation and good will to be beneficial to the community in the rec.radio.* hierarchy.

If you are currently maintaining (or plan to maintain) a radio-related periodic information posting, you may wish to consider crossposting it to rec.answers/news.answers. Postings that are approved by the rec.answers/news.answers moderators for this treatment are automatically pre-approved for crossposting to rec.radio.info (as the news.answers requirements are far more rigorous than the requirements this newsgroup ever plans to use). For more information about this option, consult the appropriate information articles and posting guidelines in rec.answers/news.answers.

Realize also, that even if your post is not approved for rec.answers/news.answers, it can still be approved for rec.radio.info. The intention is not so much to get every last bit of radio-related information on rec.answers/news.answers, but rather to provide an alternative avenue of approval (as well as grandfather existing maintainers of radio-related information and spare them additional bureaucratic hurdles). Again, crossposting to either rec.radio.info or rec.answers/news.answers, both, or neither, is at the discretion of the poster (subject to the approval of the moderators). You decide what is most appropriate for your article.

Please remember that as an information maintainer, you are not alone. There are many others on the net who maintain and post periodic information postings, using various intermediate-to-advanced features of Usenet (usually via automated tools). Various degrees of technical support and general hand-holding are available from many Usenet veterans. Send us some E-mail describing your needs to our administrative address below, and we'll try to help, or at least refer you to the right knowledgeable individual(s).

-- And Follow-ups?

If the only newsgroup you have specified is rec.radio.info, then the Followup-To: field will always be set to poster. If you do not want this, you must supply a Followup-To line of your own, and we will honor that one, as long as it is a subset of the original Newsgroups line.

If you specify newsgroups to cross-post to, then the Followup-To field will be set to include all the cross-posted groups, excepting rec.radio.info itself. Again, if you do not wish this behavior, supply your own Followup-To line.

We maintain other standards on the various RFC-1036 (news transport) header lines. For example, if the article is appropriate for passing into the Packet Radio Information Network, we encapsulate the Packet Bulletin Identifier (BID) in the Message-ID: news header line indicating the machine of origin as the ampr.org domain:

Message-ID: <$opa.55.1994@ampr.org>

where the Packet Radio BID, in this example, is `$OPA.55', and it was posted in the year 1994, because some of the Bid numbers are cycled yearly. Hopefully, this can be used as a key to re-introduce the articles for the Packet Radio network. Also, if the article is a repost of an already existing information article in the rec.radio heirarchy, we ensure that the References: header line is linked to that previously posted article. This also helps to tag articles, and may be used for additional filtering if needed.

Since the articles are archived, please use the Summary and Keywords header lines to help one search for your article.

-- Why have I received no reply from you?

We never reject anything in silence, and we make a point of it to answer all our mail. However, E-mail, like a brain cell, can and does get lost, every now and again.

So, if you send us something, and you don't see it appear it rec.radio.info, and you still have not heard from us in reply after say, five days, you can be pretty sure that either your mail never reached us, or that our answer has never reached you. In that case, please try again (We will filter out duplicates).

Please direct any comments, questions, or criticisms about this article to rec-radio-info-request@panix.com.

You need a weekend listening post somewhere down in the Finger Lakes region, like Canandaigua lake. Should be very quiet there in the wine country if you stay away from the concentrated areas, which are actually quite few. Great place to set up the log periodics and DX to your hearts content.

ABOUT GOOGLE GROUPS: Google Groups contains the entire archive of
Usenet discussion groups dating back to 1981. These discussions
cover the full range of human discourse and provide a fascinating
look
at evolving viewpoints, debate and advice on every subject from
politics to technology. Google's search feature enables users to
access this wealth of information with the speed and efficiency of a
Google web search, providing relevant results from a database
containing more than 700 million posts.

GOOGLE GROUPS - POSTING STYLE GUIDE
http://groups.google.com/googlegroups/posting_style.html
The Do's and Don'ts of Posting on Google Groups: The easiest way to
learn what's acceptable on Usenet is by watching how others use it.
Once you've read a few hundred posts and witnessed a few flame wars
erupt, you should get a feel for what's appropriate and what's not.
To
help you get there a bit faster (and to make sure you don't
unintentionally set off a flame war of your own), we've included some
basic tips that will help you fit into the Usenet community more
easily. This guide is adapted from the very helpful "A Primer on How
to Work With the Usenet Community" by Chuq Von Rospach. For a more
complete guide to Usenet posting rules, search on Google Groups for
'usenet posting rules' or just CLICK HERE. (Use This Link)
http://groups.google.com/groups?q=usenet+posting+rules&num=100&hl=en&...
.
[PSG] Only Post a Message Once. Avoid posting messages to more
than one newsgroup UNLESS you are sure it is appropriate. If you do
post to Multiple NewsGroups, do NOT post to each group separately.
Instead, Specify ALL the Groups on a single copy of the message.
This Reduces Network Overhead and lets people who subscribe to more
than one of those groups see the message once instead of having to
wade through each copy. RHF-Comment [Also See - Avoid Posting to
Multiple NewsGroups.]
.
[PSG] Avoid Posting to Multiple NewsGroups. Few things annoy
Usenet readers as much as multiple copies of a posting appearing in
Multiple NewsGroups (Called "SPAMMING"). A Posting that is
Cross-Posted (i.e. Lists Multiple NewsGroups on the NewsGroups:
Header
Line) to a Few Appropriate NewsGroups Is Fine, But even with
Cross-Posts, Restraint Is Advised. RHF-Comment [Also See - Only
Post a Message Once]
.
[PSG] Please Do Not Use Usenet As An Advertising Medium.
Advertisements on Usenet are rarely appreciated. In general, the
louder or more inappropriate the AD is, the more Antagonism it stirs
up. Just think how annoying it is to you to have your evening meal
interrupted by a telemarketer. The feeling is the same when someone
posts Inappropriate Commercial Messages in a NewsGroup. If in doubt,
don't do it. RHF-Comment [Plain Text "Sigature Files" and URL
WebSite Tag Lines by Past Practice and Custom are 'By Definition'
NOT
Inappropriate Commercial Messages.]

1666. WWV & WWVH on 5000 kHz @ 12:00 UTC - The Power of the Right Shortwave Listening (SWL) Antenna

The Power of the Right Shortwave Listening (SWL) Antenna
http://groups.yahoo.com/group/Shortwave-SWL-Antenna/message/13917
Listening to WWV & WWVH on 5000 kHz @ 12:00 UTC
.
OK so I Tuned down to 5000 kHz to catch a WWV Time Check.
.
To my suprise the S-Meter read a Solid "9" S-Units
with a Constant Noise Roaring from the Speaker
with just a whisper of the WWV Tones being heard.
.
Now My Location is very Urban in the middle of the
Flat-Lands {Bad-Lands} of OK-Land, Cali-4-Ni-A, USofA
- - - So you know we get more than our share of
Man-Made-Noise here.
Metro-Area : SF Bay Area @ Zip Code 94606
Geographic Region : Northern California
World : West Coast of the USA (North America)
Global : 122*W24' Longitude by 37*N78' Latitude
.
My Radio/Receiver : Icom IC-R75 (R-75) with Kiwa Mods
Using an external RCA 4" Full Range Mini-Speaker [5" Cube]
.
My normal Shortwave Listening (SWL) Antenna is a
45 Foot long Low Noise Inverted "L" Antenna
- - - a la John Doty
Laid-Out : East (Bottom Tip) to West (Far End)
15 Foot Vertical-Up-Leg with a 30 Foot Horizontal-Out-Arm
Wire Antenna Element = 50 Strands of #41 Litz Wire = 20 AWG
TV 'type' 300 Ohm to 75 Ohm Matching Transformer
RG6 Coax Cable Feed-in-Line about 25 Feet Long
* This is usually a very 'quiet' SWL Antenna with
Good Signal Levels and very Low Noise.
* However, this was not the situation here and now.
* Again the S-Meter read a Solid "9" S-Units with
a Constant Noise Roaring from the Speaker with
just a whisper of the WWV Tones being heard.
.
So I switched over to another of my Shortwave Listening
(SWL) Antennas a 13 Foot Round RG8 Coax Cable Loop
Antenna not using Radio's Pre-Amps "Off". The Loop
Antenna Element is located in side the Radio Shack
on the Wall with 5 Foot Feed-in-Line to the Radio.
.

* First the Constant Noise Roaring from the Speaker
was gone.
.
* Second the S-Meter read 1~3 S-Units and the
Tone and Voice Sound were Crisp and Clear with
Very Good Strong Audio.
* Plus I could hear both WWV and WWVH equally well.
.
IF - You are in a Noisy Urban Area and especially
IF - You Live in an Apartment or are Condo Owner
THEN - Consider Building and Using a Coax Cable
Loop Antenna made from RG8 Size Coax Cable.
NOTE - If you have a Radio/Receiver that has a
built-in Pre-Amp they work even better or use one
with a Tune-Able Pre-Selector like an MFJ-1020
Indoor Active Antenna {Pre-Selector}

I was never a big fan of hers either, but it's tough to see someone
eaten alive by cancer the way she was. I couldn't really even
recognize her. She was all of 65 lbs and looked like she'd been
through the wringer. Certainly helped to remind me of all the things I
take for granted.

No, but many of us do want an all-in-one device, rather than schlep
separate phones, PDAa, cameras, etc.

I use a PPC phone, and my data's password protected. Not a perfect
failsafe against loss, but I'm not exactly James Bond keeping Her
Majesty's Secrets out of the hands of SPECTRE either...

> And hey, my iPaq does most of what the iPhone does.

So you pick on iPhone buyers for wanting an all-in-one device while using
a competitive all-in-one? You might as well make fun of Coke drinkers
for downing wasted empty calories, then say "and I prefer Pepsi anyway!"

> Besides,
> sometimes I want to do more than one thing at a time. For that it takes
more
> than one device.

Depends on how well designed the device is- theoretically I could shoot
pictures on my PPC phone while talking on the phone (with my bluetooth
headet) but I haven't actually needed to.

> Cute gimmick, yeah, and young people will buy any gimcrack

I think the iPhone is overpriced personally, but I don't condemn the
concept because of it, just as I think Lexus' cars are overpriced as well
but don't condemn all automobiles because of it.

> As far as Apple being the be all and end all of gimmickry, I have a

To be fair, you use a player that didn't exist before the iPod proved it
market-viable. The MP3 player market was floundering in a sea of akward
to use flash-memory players (like my Rio 500) that were battling each
other on cost vs. capacity. It took Apple to say "people will pay more

for a device with a large, easy to read screen and a huge capacity." And they were right.

And not to pick on the Apple faithful, but can we cut this hooey about "perfect design" and "ergonomics?" The iPods' menus are just as idiotic, confusing and non-intuitive as ever other MP3 player out there- the difference was an easy-to-read multiline display that could indicate where in the menu system you were. My Rio 500's menuing system was no easier or harder to understand than my Nano's, it was just harder to navigate through it a one-line, grey, pocket-calculator-style, LCD panel.

> and I don't have to deal with proprietary files.

Another iPod basher that apparently has never actually used one: iPod owners do not "have to deal with proprietary files." I have several MP3 players lying around, including an iPod Nano. The iPod doesn't use "proprietary files"- it plays MP3s I drag to it's drive letter just like all of my other MP3 players. (Yes, Apple fans, I know I'm missing out on the whole "iTunes experience"- sue me. I've used computers since before the GUI, and MP3 players since before the iPod and I don't do "playlists" and "media syncing"- I drag albums to my player and play them in their entirety.) Having said that, iPods CAN use non-MP3 .aiff files, but they're no more (or less) proprietary than the Microsoft .wma files many players, including yours, probably, can play as well. Like .wma, they offer better sound quality in a smaller file, but also like .wma, they cause compatiblity issues since all players can't play them, forcing many of us to stick with (inferior) MP3 files.

I've got 10 acres on a hilltop down in Hornell, but I'm saving that
for retirement. I like to set up shop down in Letchworth park on the
weekends. It will be getting even better once school starts and the
park is quiet. My family has a year round place on Conesus, so that
might be a good listening post for the winter. The QTH here in MA
will be gone Thursday and my wallet will be fat. Wife and I are going
to be looking for a new QTH on a few acres somewhere outside of Monroe
county. I expect the listening to be exceptional.

I've noticed the reception of WWCR improves when you anoint your radio with oil. Perhaps it has something to do with improving the ground.

Yet Macs have been around for 20 years and still only have a 5% market share- clearly they "deliver" something those 5% want, but not something "everyone" wants.

In the iPhone's case, the potential market is fairly large, but not the entire cellphone market, like our resident troll "none" believes, simply because the entire cellphone market is not interested in smartphones, regardless of how "smart" the phone is. Many people simply won't trade a physical 12-key phone dialpad for access to Youtube or Google, period.

I'm not in that category obviously, nor are you, but the VAST majority of people simply are. Those people, even if they were clamoring for an MP3 phone, would likely prefer a ROKR to an iPhone!

On one of the Geico TV Ads.

Have you heard the catchy tune as the Gieco caveman walks on the airport tram?

Well it kept running thru my head and I had to have the tune for my Ipod and computer.

The group is R&#65533;yksopp - an electronic music duo based in Bergen, Norway composed of Torbj&#65533;rn Brundtland and Svein Berge. The group formed officially in 1998

The caveman tune is Remind Me (radio edit)
Available at Itunes Store or Amazon.com
http://www.amazon.com/Melody-M-Royksopp/dp/B00006JKKK

Apparently R&#65533;yksopp is selling the album like hot cakes as a result of the Geico ad.

An Eavesdropper from Eavesdropping
http://en.wikipedia.org/wiki/Eavesdropping
To Listen Secretly to the Private Conversation of Others.
http://www.answers.com/eavesdropping&r=67
Standing under the Drip Line of the Eaves - Getting near
a House's Walls and Window and Listening in to what
is being said within.

FWIW - It would be better to Hang-It from the Eaves
then to Drop-It from the Eaves since it would then be
on the ground or in the bushes.

If you don't like OT posts,

1) Don't start them.
2) Don't reply to them.

Just because you put OT in the subject doesn't make it less OT.

Haven't me from running a good-sized design advertising design studio.
Never got what everyone else liked about PCs (and forget the "PCS are
cheaper" excuse - you pay more in time and virus prevention later).
Use Virtual PC about once a week to test on IE browser and access a
couple ActiveX powered control panels.

The masses generally were led to believe that Macs weren't compatible
with what they do and that software was extremely limited.
Comfort level, too. Some folks loved Windows 98.

Yep there's a few misspelled words. That really gets under your skin? I bet you have a hard time finding a doctor you can trust, those guys are worst. My wife's a transcriptionist at the Mayo her in MN and she's always complaining about their spelling and grammar.

I have both an Eavesdropper and a DX Ultra.

The Eavesdropper is setup in an inverted V configuration and is virtually omnidirectional. It's got a small footprint. Takes up little real estate. It's also very quiet.

The DX Ultra is very large. And correctly set up according to A-D recommendations, it's also very tall, and visible over the second story of my house.

Both need to be erected far from the house, to eliminate noise sources.

DX Ultra is very sensitive. Not quite as quiet as the Eavesdropper....likely due more to the smaller capture area of the Eavesdropper than anything else. The DX Ultra also has a lower practical frequency limit than the Eavesdropper. Although you don't really notice it so much on MW because of the huge powers at play.

I've been able to overload my receivers on the DX Ultra, but not the Eavesdropper.

If you have the real estate, the DX Ultra is the better choice for most listening. If not, the Eavesdropper is fine.

Nonsense. My wife's Fujitsu laptop is about 5 years old and has been as
dependable as my Macs. Except for defragging it a few times it has taken
none of my time.

My year old PC tower, running XP, is also flawless.

And some love XP.

IMHO Mac has had only one computer that flat knocked the socks off the PC
competition, and they quit making it (638CDV). They also made at least one
laptop that was a pathetic Power Mac which was slower by far than my 040
desktop computer of the time.

The only reason I'm still using a Mac (MacBook Pro) is that I can run
Windows when I need to, without using an emulator.

Bottom line, like it or not, PCs are cheaper than Macs and retrofit cards for the PC are VERY inexpensive for high quality functionality.

I'll tell you, every time I have to get into XP, I cringe at the design
and implementation. Vista is even worse (and been a nightmare for a lot
of my non-tech friends).
My "Old" G5 2.5 does a fine job. Have about 5 other older machines in
daily use around here (iMacs, a couple towers, and an iBook). Never a
problem.

Yea, should be a good event.

The only ship I recognize in the is the Bainbridge. It was a Nuke powered cruiser - I guess there's probably a new one by now. I had orders to it and was waiting for second class (E5) sonarman stripes. I got busted in officer's country on the base at Pearl Harbor, HI with an ounce of hash in my pocket. It was broke up into 28 grams. They only found 26 of em - heheh. They took away my sonar rate, and my second class and made me an E3. Threw away my orders to the USS Bainbridge, gave me 45 days restriction to the ship and 45 days extra duty. Then they gave me shore duty on a tug boat in Pearl. So ended up being a great deal. Heheh. They asked me if I wanted to re-enlist. Heheh.

I commend all our men and women in the Military (Past , Present & Future) for the fine job that they do Too bad the present CIC is such a buttplug.

Sort of makes you wonder if it's possible that they bought 5 or 10 used (but decent) radios, cleaned them really well, made 5 "good" ones and put some new decals on a couple of modules and had some new front panel tags made up.

They should have been able to do that for $38,000 a copy and still turn a tidy little profit.

More lies from the mac community. There are excellent anti virus
programs that are free for private use AVG is my favorite.

Have you EVER seen any instrumentation cards for a MAC? I've seen
ISA, EISA, PCI and the pc-104 industrial variant os the EISA buss.

Phase 2 E911 is a long way from being universally available.
<http://mrtmag.com/mag/radio_waiting/>
Most of the PSAP's are having problems getting their state governments
to release money already allocated for the purpose. (First they steal
from the rich, then from the poor, and now from themselves).

The FCC is also getting a bit irritated at cooked test results for
complying with location accuracy. I've seen some really suspicious
results using some possibly (not sure) dubious technology.
<http://mrtmag.com/mag/radio_fcc_looks_location/index.html>

Incidentally, the governments apparent goal is more like "We want
everyone to be safe, even if it bankrupts everyone".

Add EPIC, EPIC Express, ITX, Mini-ITX, Nano-ITX, EBX, PCI-104, PC-104
Plus, CompactPCI, EPIC, EPIC-Express, PC/104, PC/104-Plus,
PC/104-Express, PICMG, AMC, ETX, ECX, XTX, COM-Express, COM-Express,
and probably a few I've missed. PC's own the industrial control
market. The catch is that most boards are rather expensive.

See:
<http://www.mini-itx.com>
On the right side is a list of "projects" that various users have
built. They range from ingenious to ludicrous. All are interesting.
I suppose that could be done with a disembowled Mac, but Apple doesn't
sell motherboards so it requires cannibalization of a complete
machine. So much for the hobbyist market.

I've seen dozens for the PC, but never one for a MAC. In fact, I
still have a couple 8 bit NI cards, somewhere. Microdyne built telemetry
receivers in various PC form factors, but no one ever requested any
design be ported to a MAC. We also built VME and PC-104 based equipment
with IEEE-488 ports..

I've also had IEEE-488 interfaces for the Commodore 64. I used it
with their 4023 and 8023 P series printers.

You do have to consider the total volume of sales vs the engineering
costs, plus these items are generally not built with all jelly bean
parts.

The HP 85 desktop computer with the tape drive, tiny monochrome
monitor and IEEE-488 port was used at Microdyne for some very old
equipment for test and alignment, till they finally hired a programmer
to write new software for a PC.

http://www.measurementcomputing.com/index.html was our supplier for
PC-104 IEEE-488 interface boards. They used to be Computer Boards, Inc.

You could have used an emulator. Some of the old HP test hardware has
been emulated on a PC as a means of preserving the investment in
software. For the HP85:

We use to get some of this work that had been
"Contracted Out" for New {Old} Stock that had Parts
and Assemblies "Contracted {Back} In". The US
Government Paid for It and then at a very low rate
acted as a sub-contractor and did some of the work
itself. It was my understanding that these Contracts
always Guaranteed the Contractor a Profit. ~ RHF

Most of the software needed updated, anyway. The equipment being
tested had the newer IEEE-488 implementation, and the old system
couldn't make use of it. We had five of them and the cal lab could
barely keep two running. There were days we had to forcible take the
only working unit away from engineering to ship on time. After the new
software was ready, they bought a pile of NI boards for the Win 95
computers used in test and engineering. (This was pre Y2K)

Depending on the features and performance it could have promise. I
have to wask one question though. Why does the manufacturer of these
radios keep puting handles on the front of the radio? The only
reason I can think of is to make it look like a serious rack mount
receiver.

instrument control and I have seen quite a few in physics
departments doing that job.

One may be surprised at the current level of interest in HP85
hardware; many are still running well in their roles as experiment
controllers and with spares there is little impetus to replace
them.

That was the problem with much of the HP mechanical hardware. The
rubber composition just didn't last and would eventually decompose
into a sticky mess. For example, this is my reconstructed HP-65 mag
stripe reader drive wheel using a slice of clear vinyl tubing.
<http://802.11junk.com/jeffl/pics/hp65/slides/Hp65-Drive-Roller.html>
Incidentally, the most difficult part of this exercise was neatly
cutting the hose to size. I had to use a razor blade or a scalpel.

The tape drive roller in the HP85 was susceptible to the same rubber
deterioration.
<http://www.series80.org/Articles/capstan-repair.html>
I fixed two using the same clear vinyl tubing trick. Sorry, no
photos.

Had a Tecsun for 2 months. Sold it on e-Bay.
It was the most over-rated piece of crap radio
I've come across in some time. Best of all the
sucker who bought it from me on e-Bay paid
me $5 more than I paid for it. Ha-Ha!

1770. Don't shortchange your shortwave

The Daily Texan

Shortwave radio is an excellent medium for keeping tabs on global events. Signals can be received from around the world at absolutely no cost to the listener, with a wider range of content than most local radio programming. Shortwave transmitters can be operated at a relatively low cost by organizations or even individual hobbyists, lending shortwave a freedom of expression unparalleled by mainstream media. In addition, the multilingual and multicultural content of shortwave fosters the development of a great diversity of perspectives. "DX'ing," or distance listening, is a rewarding hobby with little overhead required.

Despite being more affordable and easier to access than ever before, many people are completely unaware that shortwave exists. Technical considerations have also given a certain stigma to shortwave as difficult to use. The high frequency waves (3 megahertz to 30 megahertz) are too high to be picked up on an ordinary AM radio, requiring the purchase of special equipment. Sound quality is almost never as stable as local transmissions, and shortwave transmissions even have a tendency to drift to neighboring frequencies with changes in the weather.

But the close relationship between shortwave signals and the weather is the medium's greatest feature. What we call shortwave is simply a range of frequencies within the larger set of all electromagnetic radiation, which includes all other types of radio, as well as visible light, X-rays and microwaves. Signals in the shortwave range have a peculiar tendency to be reflected by our planet's ionosphere, a layer of gases extending from 50 to 600 miles above Earth's surface. Instead of beaming directly out into space, a shortwave signal sent from Earth at the proper frequency and angle will reflect back toward the planet's surface, where it can be received at another location.

By modifying the frequency and transmission angle, a shortwave transmitter can send signals to literally any point on the planet. Because the transmission relies on natural weather conditions rather than commercial satellites, there is no fee to receive the transmissions. Anyone wishing to receive a broadcast need only set up a suitable antenna and find the proper frequency.

The same atmospheric properties that keep shortwave listening free also prevent it from being commercially viable. Sound quality tends to be poor and is best suited to voice-only broadcasts, like the news. Sunspots and other cosmic events that interact with Earth's atmosphere can also interfere with shortwave transmissions. Time of day, season, temperature, cloud cover

and other factors can all change the reception of any particular signal quite dramatically.

Yet shortwave continues to remain popular and is in many ways growing in popularity. A sturdy low-end receiver can be purchased for $150 or less, allowing full reception of the entire shortwave frequency range. Newer computer-controlled receivers make the task of finding signals much easier by providing scanning functions and visual maps of current planetary weather conditions. Some bold-hearted and technically inclined users even build their own receivers.

Many DX'ers enjoy listening for the quirky eccentricities of the shortwave spectrum, which carries a variety of unusual and often unidentifiable transmissions. Particularly intriguing, for example, are "number station" broadcasts, during which a voice reads out long strings of numbers, with no explanation of their purpose and no identification of the transmitter. Some people think these transmissions are coded instructions for international spies. Other signals to listen for include weather satellites and ham radios. Natural phenomena, such as the aforementioned sunspot activity, can also be received and studied, allowing the shortwave receiver to function as something like a low-end radio telescope.

Interesting commentary from the SWL hobbyist's perspective. There is indeed still a lot to listen to on the bands. But the hobby is facing challenges like it never has before.

The real audience for broadcasts over shortwave bands has several viable alternatives for finding the information they want at the time of their choosing. Broadcasters that traditionally used the shortwave bands see themselves as having to respond to competition from news and entertainment sources on the internet, rebroadcasts on local FM, satellite and cable. and they are dropping broadcasts regularly.

I would like to think that shortwave broadcast listnership will recover, but I think it will continue a slide downward as people drift away to other sources of information. As a consequence there will be fewer countries and other entities using the shortwave bands to get their message out. And there will be ever fewer companies producing shortwave receivers for consumer use. Wish it were otherwise because I've enjoyed this hobby for a long time, but the trends are unmistakable.

Roadie,

What the Chinese Radio Manufacturing Industry
{PRC-CHINA INC.} needs to do is learn from Sony.

Build some AM/FM Shortwave Radio 'specific' IC Chips
that have Selectable SSB and AM-SYNC as a built-in
feature. This would greatly reduce the cost of design
and manufacture of Shortwave Radio and offer a Better
Product at a Lower Price. Why with these types of
Chips even the common AM/FM Radio could have
AM-SYNC - Imagine a GE Superadio with AM-SYNC ?

Agree. My take so far on the Chinese radios I've seen and read about is that they have some very good ideas, but they don't fully think through the development of the entire product. The goofy memory setup on the Degen DE1103 and the omission of an AM loop antenna on the Eton E1 are examples of fundamental mistakes that keep two otherwise excellent radios from being truly first class.

I don't know if it is a rush to production, not knowing their audience or what that causes such lapses. In many respects the Eton E1 is close to a dream radio, but a swivel antenna for AM listening keeps me from buying it.

Handles on the front:

1) It makes it easier to move around on the top of a table. (Get settled into the chair, turn the radio on, and slide it into the perfect position for band cruising).
2) Protects the front of the radio from bumps and bruises. Especially useful for radios that are taller than they are deep, like the RF-2900. Those handles have saved many a faceplate.
3) Allows you to set the radio down on it's face for service, if needed. Not always appropriate depending on the dissassembly, but very useful with some radios.

The MW DXing classic. The BEST of the Superadio series. Works perfectly. Super clean. I'd give it's condition a 9+/10. Great sensitivity and very sharp nulls. I doubt you will find one in better condition!

Price is $75.00 plus shipping in CONUS

Roadie,

Do you own a Car or Truck ?

Most of them have a Whip Antenna -and- most people
think that and Auto's AM/MW Radio 'reception' is as
good or in-fact better that most home Radios.

The Eyon E1 Radio's AM/MW Radio reception is as
good -if- not better then many other AM/FM Shortwave
Radios.

has SSB reception. I am watching it closely, if I got more details,

OK - So here is another Question :

Given a small urban-suburban Lot with Limited Space.

Mounting one of these two Dipoles with the Center at
the Corner of the Lot with each of the Arms extended
alone adjacent sides {Right Angle} and Sloping down.

Would this Antenna now function more or less like :

1 - A single Inverted "V" Dipole Antenna ?

2 - Two Sloper Antennas set at Right-Angles to each other ?

What would your choice be # 1 or # 2 ?

DX Ace,

That would be Michelle the 100% Canadian Lass.

OK - So this morning the big {local} noise source
went away and suddenly . . .

WWV and WWVH were both a Solid S-4 with Good Audio
using the 13 Foot Round RG8 Coax Cable Loop Antenna
and not using Radio's Pre-Amps "Off".

But now both WWV and WWVH were S-9 to S9+10dB
with Very Good Audio using my normal Shortwave Listening
(SWL) Antenna is a 45 Foot long Low Noise Inverted "L"
Antenna - - - a la John Doty

C'mon RHF... Sure if you put up an omni-directional whip antenna you will get lots of signals. The point being a ferrite antennna gives you some chance of nulling. At least one review mentioned this as a significant shortcoming.

That Is True -but- It requires Rotating the Radio

1824. Building a Ready-Made "GreerTech" Coax Cable [Shielded] Loop Antenna with Multi-Heads

The basic design of the "GreerTech" Coax Cable [Shielded]
Loop Antenna is good and very practical.
GREERTECH => http://www.greertech.com/hfloop/mymagloop.html
LOOP=> http://www.greertech.com/hfloop/mymagloop.html
* * * BUT THESE WEBPAGES HAVE GONE AWAY * * *

Building a Ready-Made "GreerTech" Coax Cable
[Shielded] Loop Antenna with Multi-Heads.

So here is another take on Building the "Quiet"
Shortwave Listening (SWL) Antenna :

1 - An XX Foot Round RG8 Coax Cable Loop Antenna

2- The Loop Antenna Element is located in side the
Radio Shack on the Wall with short X Foot Feed-in-Line
to the Radio.
.
3 - This is an Antenna Project using Ready-Made-Parts
to simplify the build and allow for Multi-Loop Heads.
.
The Heart {Center} of this design is a single UHF "T" Adapter
with Three (3) Female SSO-239 Jack-Ends as the Central
Connection-Point for the Cax Cables.
http://www.universal-radio.com/catalog/parts/so2adapt.html
Item # 2351 - UHF "T" 3F - P-554A
.
The Coax Cable Loop Antenna Elements and Feed-in-Line.
I recommend using RG8 Coax Cable throughout for many
reasons. Pre-Assembled Coax Cable with PL-259 Plugs
already installed will work very well.
http://www.universal-radio.com/catalog/cable/cable.html
Buy One Each : 3-Foot, 6-Foot, 9-Foot, 12-Foot and 18-Foot
Coax Cables.
Use the 3-Foot and 6-Foot Coax Cables as your Feed-in-Lines
Use the 9-Foot, 12-Foot and 18-Foot Coax Cables for the
Loop Antenna Elements.

Preparing {Building} the Loop Antenna Elements
from the Coax Cables :
* Fine and Mark the Center-Point of each of the Coax Cables.
* Place a piece of Masking Tape around the Coax Cable
on both side of the Center-Point about a a Half-Inch from
out from the Center-Point.

* Very Carefully take an Exaxto Knife or other small sharp knife and cut around the Coax Cable at the Edge of the Masking Tape just deep enough to reach the Coax's Outer Shielding. Then Cut a single 1" Longitudinal cut between the two circular cuts.
* Carefully Peel-Off the Outer Insulation Cover from the Coax Cable.
* Next use a sharp Scissors to Trim the Outer Shield Wires from the Coax Cable being sure not to damage the Inner Insulation of the Coax Cable.
* Remove the Masking Tape and re-install the piece of Outer Insulation that was just removed.
* Use an 8-9 Inch piece of Black Plastic Electrical Tape to Secure the replaced piece of Outer Insulation Cover and to cover the Coax Cable about an Inch on both sides; and repeat with 1-2 more pieces of Electrical Tape.

Assembling the Loop Antenna
* Connect a Feed-in-Line to the Center-Bottom Connector of the "T" Adapter.
* Connect a Loop Element to the Two Side Connectors of the "T" Adapter.
* Hang {Rig} the Loop Element on the Wall as either a : Round Circle, sort of round Octagon, Square or Diamond. Connect the other end of the Feed-in-Line to the Radio's Antenna Input; Antenna Switch-Box or Pre-Selector.

The Larger 18-Foot Coax Cable Loop Antenna Element should cover the Tropical Bands from 2 MHz to 5 MHz.
- - - Forms a Circle about 6-Feet Round.

The Middle-Size 12 Foot Coax Cable Loop Antenna Element should cover the 60M to 25M Shortwave Bands from 5 MHz to 12 MHz.
- - - Forms a Circle about 4-Feet Round.

The Smaller 9 Foot Coax Cable Loop Antenna Element should cover the 25M to 11M Shortwave Bands from 12 MHz to 26 MHz.
- - - Forms a Circle about 3-Feet Round.

Check-Out the Magnetic Loop Links webpage
-by- Steve [AA5TB]
http://hps.infolink.com.br/py1ahd/gallery11.htm

NOTE ON SIZING: The Loop Antenna Elements should be 'cut' "Sized" to roughly One Tenth of a Wave Length of the (1/10WL) of the Target Shortwave Band :
* Twenty-Five Feet (25 Ft) roughly the 120 Meter SW Band
* Twenty Feet (20 Ft) roughly the 90 Meter SW Band
* Fifteen Feet (15 Ft) roughly the 75 Meter SW Band
* Twelve Feet (12 Ft) roughly the 60 Meter SW Band

* Nine Feet (9 Ft) roughly the 41 Meter SW Band
* Six Feet (6 Ft) roughly the 31 Meter SW Band
* Five Feet (5 Ft) roughly the 25 Meter SW Band
* Four Feet (4 Ft) roughly the 19 Meter SW Band
* Three Feet (3 Ft) roughly the 13 Meter SW Band
The above Lengths and SW Bands are 'based' on the low
cost common {RadioShack} type RG8 Coax Cable with
a Velocity Factor of 0.66.
NOTE: If you use an improved RG8-U/X Coax Cable
that has a Velocity Factor of 0.78 to 0.84 : Then every
thing would shift down one SW Band 120M>90M,
90M>75M, 75M>60M, ETC.

But in-fact for "Receive Only" One Loop Antenna Element
will cover several Shortwave Bands usually at least two
up and two down for the 'cut' Band when used with a
Pre-Selector like the MFJ-1040 Indoor Active Antenna.

hope this helps - iane ~ RHF {pomkia}

So the otherwise high-performing and really well designed Eton E1
delivers pleasant sounding audio in AM with only limited opportunity
to null out offending signals. Considering that the E1 is an
enthusiasts radio that is a significant limitation.

Incidentally, I have an R-390A here that is almost deaf on the lowest band (.5 -1 MC). All the other bands seem to be just fine. Any suggestion what the issue might be?

The other interesting thing about this set is that the balanced input seems to be a problem even with the correct antenna source, but the unbalanced C-connector input is okay.

Chuck Rippel worked on it and couldn't find a problem, and if HE can't find a problem...

I have a DX Ultra on a woefully small suburban/urban lot here in the SF Bay area. It is oriented prett kuch the only way I can make it fit on my lot. The center is around 25' high, and the ends are about 8 feet (gently-inverted V). It is over one end of my house. The two sides of the antenna are not in perfect alignment - one end is askew from the other by abotu 10 degrees. Overall, the center is about "aimed" toward 140/320 (using the same convention as that given by DXAce above), give or take 10 degrees. It is fed by about 100 feet of heavy, quality 50 ohm coax cable, with a tight 8" coil as a balun taking up about half of that length. The antenna itself is not grounded, but the radio is.

This thing picks up some noise, but is far more noisy on lower freqs, like 5.5 MHz and below. I think the balun coil helps the higher freqs remarkably in this respect. It almost behooves me to make a *huge* coil that wil be effective at lower freqs.

I think the antenna does poorly at freqs below 5 MHz anyway - a random piece of wire strung up in practically any orientation yields generally better results. I have tested the antenna for electrical continuity many times and have foud ti to be continuous, so it isn't that the internal connections are poor. I have also replaced the center static element with a new one, so that isn't the culprit. It could be that the darn thing just isn't high enough or oriented properly. Of course, it may also well be that the signals are there, but the 25 sources of local noise murder them.

At higher freqs, especially 11 MHz and above, it is fabulous - everything is loud, crisp and clear. 9 MHz is very good, 6 & 7 MHz so-so, althgough once in a while these bands light up and really shine.

RHF - If you are down this way at all, let me know - you're welcome to stop in and see the thing.

Just curious about whether anyone ever hears this time signal. I've listened for it without success. It appears to be active.

From your posting IP I suspect that you are in NYC. Does anyone
have any reason to believe that these signals separated from WWV
by only 4 and 2 kHz respectively could ever be resolved in NYC?

Perhaps European readers have copied those signals; also under
remarkable propagation conditions it is conceivable that they could
mix with WWV in the States, much like WWVH is often mixed with
WWV here in the Northern Midwest (the female voice from WWVH
always speaks during silence of the male voice from WWV).

Sure. However, I don't think they are on the air anymore. QSL'd here though.

I think a good modern radio, with a fairly narrow filter and a
passband tuner, would be able to pick these out if the noise level is
low enough In NYC, I'd try both, but would expect the 4998 kHz
signal to be better that time of day.

Even if it were still on the air, 4998 would most likely NOT propagate from
Spain to NYC at 1000-1100 UTC.

Thanks a bunch for the info. I'm not in a position to build any antennas at the moment but when I am I'll try out a SW loop or two. I love my MW loops. I'm packing up the old New England QTH and heading west. Once the dust settles I'll be building many more antennas.

P.S. I suppose the real reason that I'm not in a position to build any more antennas is because I've Got the Crystalonics fets for the Amrad whip waiting for me in Rochester and my good friend Dick - WA2IKC is building me one of those PA0RDT antennas because I've been dragging my feet on that one.

Most time signals outside the US are within a few khz of 5, 10, and 15 Mhz, because there's a narrow band around those freqs that is allocated for time signals. (There are also allocations for 2.5, 20, and 25 Mhz, but they are rarely used. NIST canned its 20 Mhz outlet years ago.) Most of the foreign services try to avoid competing directly with WWV/WWVH, except Venezuela, which has a time service that directly competes with WWV. (Hugo Chavez loves to tweak the nose of the US any way he can.) Increasing numbers of foreign time services have been shelved for good in the last decade due to aging equipment and lack of funding. The Soviets, then the Russians, had a time

station that is likely no longer active. VNG is gone, which outraged Australian owners of radio controlled clocks that used VNG's VLF time signal. There were services in Chile and a few other places that have disappeared. Only England, Germany, Japan, and the US maintain VLF time signals. The main HF signals are in the US, Canada, and Venezuela.

XDFilt is a Windows application program for filtering and removing noise from audio signals. The audio source can be saved .wav files, external live input as from a radio receiver, or external prerecorded material as from audio tapes, phonograph records, etc.

XDFilt's features include:

- Adaptive removal of uncorrelated (random) noise.
- Adaptive removal of correlated (whistle/heterodyne) noise.
- "XD" adaptive removal of random noise.
- Point-and-click graphical user-defined filter.
- "Waterfall" spectrographic display.
- 'Live' input from radio receiver, cassette player, turntable, etc. to standard PC sound interface.
- 'Canned' input from saved .wav files.
- 16 bit sampling. 8 k-sample/s sampling rate.
- Signal strength meter.

The distribution package includes examples of noisy signals in .wav files.

And it's free.

The S2000 is a good looking radio.

It's tough to tell from the pictures, but I didn't see a sync button
on it anywhere.

A-S claims Eavesdroppers have been mounted horizontally, as inverted V, as slopers, in attics, and around corners. All with good results. For the most part, it's omni directional. I"m not sure that Ace is going to see much of a directional characteristic at his venue. What there may be, may be relatively small.

DPM,

Very Good Eyes an Icom IC-R7000 Receiver it is.

http://www.universal-radio.com/used/sold022.html
.
So a closer visual comparison would mean that
the Tecsun S-2000 Radio would measure about :
13.33"W x 6"H x 6"D = Volume 480 Cubic Inches
Which is much smaller than the Grundig Satellit 800 M
20"W x 9"H x 9"D = Volume 1620 Cubic Inches
.
TBL - The Tecsun S-2000 is about 30%
{Less-than-a-Third} of the GS800M
- - - Wow Honey I Shrunk The Radio !

Note this one which shows EBC (Spain) still active as of at least 2006:

http://www.dxinfocentre.com/time.htm

Still shows them there, though on the limited schedule as indicated by their website. Soooooooo, they may indeed still be on, though it was my understanding that they were off.

I've not seen any reports of them in some time.

What was the program they used to have on around 2300 JST (1400 GMT),
almost all in English, with a lot of giggling and pop music -
supposedly meant to help advanced learners of English. It made it into
WCNA almost every morning. This was back when "BCL" was a big hobby in
Japan and Sony and Matatushita (National / Panasonic) were getting
into shortwave radios.

Back when they had official frequencies for North America, 9740 from
Singapore frequently came in better in the SF Bay Area than the
"official" frequencies, needing nothing but a cheap portable with its
included antenna.

Still sound like a lot of what I hear on the
Shortwave Radio from Japan.

Plus "Red Sails in the Sunset" sung in bad English

1877. XM Cancels Radio Theater shows

Hi gang,

XM Radio has canceled most of the radio theater on their channels, including my show. They were right in the middle of running my Sherlock Holmes series when Josephine Reed e-mailed me that my show was being taken off the air! I do not take it personally, but since Jo Reed replaced Steve Karesh as 163's PD, things have rapidly gone downhill. They suddenly stopped playing my promos, aired my shows out of order and mislabeled and all sorts of mistakes were made. You will note that this is a trend against any kind of radio theater across the entire radio landscape. MediaBay/Radio Spirits are also going out of business... the nationally syndicated "When Radio Was" has also been canceled, XM channel 164 is going away in September, and Media Bay is going out of business and selling of its assets. Also, Lodestone, which sold radio theater on CD for many years, has also closed own.

Since this coming Sunday is my last show on XM, I have replaced the next Holmes show with the newest (and mostly likely) last radio theater I will ever produce, new stories using characters from OTR. I am also going out of business because of this trend.

Feel free to complain to: Josephine.Reed@xmradio.com and Lee.Abrams@xmradio.com.

Best to you,

Joe Bev.

Release Date: July 25, 2007
XM RADIO CANCELS "THE COMEDY-O-RAMA HOUR".
FINAL SHOW THIS SUNDAY, SUNDAY, JULY 29TH, 8AM & 8PM.
(PRLEAP.COM) FOR IMMEDIATE RELEASE, Napanoch, NY - This Sunday, July 29th at 8:00 am and 8:00 pm, on XM Sonic Theater Channel 163, the final Comedy-O-Rama Hour will present the first new "Fibber McGee and Moly" and "Duffy's Tavern" since the 1950s.

The one-hour laugh-getter was recorded before a live audience in March 2007, with intention of recording an additional 25 new comedy and drama scripts featuring classic OTR characters, including Jack Benny, Fred Allen, "Our Miss Brooks" and "Gunsmoke" with celebrities in many of the roles.

XM Satellite Radio has canceled The Comedy-O-Rama Hour, after four seasons and more than 60 hours of new radio theater with celebrity guests such as Al Franken, Lewis Black, Shelley Berman, Bob Edwards

and June Foray.

"XM basically had no idea what we were or how to promote us," says Comedy-O-Rama's creator, Joe Bevilacqua. "The entire radio landscape is completely filled with ephemera not meant to ever be reheard."

For 35-years (since he was 12), Bevilacqua has been creating timeless audio that can be reheard over and over and new truths are revealed. His award-winning NPR Magazine work gets re-aired as "evergreen" material and hailed as "driveway" moments.

Bevilacqua is looking for a new broadcast venue for the show. In the meantime, listeners can visit an archive of past shows at: www.joebev.com.

DETAILS ABOUT THE COMEDY-O-RAMA FINALE:

FIBBER MCGEE AND MOLLY in "The House of Wax".
It's 1953 when Throckmorton P. Gildersleeve makes a less than triumphant return to Wistful Vita to introduce Vincent Price at the Wistful Vista Bijou premiere of the 3-D movie "The House of Wax". Meanwhile, Fibber tries to save five cents by making his own 3-D glasses.

DUFFY'S TAVERN: "If We All Talked Like Allen Jenkins"
Archie, Finnegan, Eddie, Miss Duffy and all the gang are back "where the elite meet to eat" in this first new "Duffy's Tavern" outing since 1952. Archie tries to lure the Shriner's Convention to the tavern with promises of big stars he can't deliver, not knowing the real Edward G. Robinson and Allen Jenkins are hiding in the kitchen.

THE NEW OLD TIME RADIO HOUR was written, produced and directed by Joe Bevilacqua and Lorie Kellogg, and was recorded before a live audience at SUNY Dutchess in Poughkeepsie, New York on March 20, 2007. The hour features sound effects, songs, and music by Paul Salomone and Joanne Bierschenk.

1878. RTTY on 5346.48 kHz: what mode is it?

Greetings:

All last night and through the present time I am copying FSK RTTY (around
45 - 50 baud?) on 5346.48 kHz; signal was 20/S9 last night and about
S2 now. I am unable to hear it on web-controlled receivers in NC
and Ham Lake, MN (I am about 140 mi. north of the latter). I was unable
to decode the modulation (using MultiPSK) in any RTTY mode, normal
or inverted. The shift is about 850 Hz.

Can anyone else hear this signal? Can you decode it?

Regards,

Michael

I hear YVTO (Ecuador time standard) semi-regularly, and it's exactly at 5MHz. It's not like it's beeping exactly in sync with WWV; in fact it's the off-kilterness of the timing beeps that makes it very easy to hear.

To resolve the ones that are off by only a few kHz, using a steep filter and selecting the right sideband makes a huge difference. You don't want to hear the carriers beating against each other, that's for sure.

But I don't know if the Spain time station is still on the air. On the east coast in the past I heard it very regularly at 15006 but I don't remember hearing it for years. And I listen to the near-WWV freqs more than your average SWL'er :-).

I'm not hearing it here on the East Coast, but that may be because

Yeah, probably right. I keep on thinking West Coast (when at 1030

The ones I listened to were pretty clean. (RCI and RNZI). They
were just in their 10 kHz wide block. (Or as well as I could tell
with my 2.? kHz SSB filter).

Receivers with crummy filter skirts will have a problem because the
power across the signal seems constant, unlike an AM signal which
won't have that much power out at the extremes edge of its sidebands.

What would happen if the likes of Radio Cairo or some of the sloppier
Christians got a hold of it wouldn't be pretty, though. Gene Scott's
operation could crap up an entire band with just AM, because they just
didn't seem to know what they were doing. (Splatter city on 9725 kHz).

None of those are "VLF" VLF is 3-30 KHz by definition. They are LF (30-300

What a stupid remark, typical of you though. Viewing your posting
history (click on profile) I see you have posted a total of 9852
messages in 145 groups. The average rating of your posts is 1* (poor,
not recommended) out of 5*.

Even more telling is that readers have taken the time to indicate
that you are a irrelevant moron 3552 times (the number of ratings you
have received).

One would think you would get the message after, oh say a thousand
ratings indicating you suck.

Nearly 10,000 posts? Good grief GET A LIFE! You obviously have way
too much free time on your hands.

Now change your adult diapers, put your dentures in and park yourself
in front of the television set and drool on your slippers for the rest
of the day.

This is Usenet, _not_ 'Google Groups'. There is no such thing as 'ratings',
'profiles', etc. in Usenet. Please don't confuse the two.

Here in San Lorenzo, I readily receive the San Leandro and Oakland Airport TIS. Alameda might be available too, although it is smack in the middle of the MW band. The TIS across the Bay - SF Airport, Foster City and San Mateo, may also be available, although SFO is on the same freq as San Leandro.

Interesting that the Tri-Cities don't show here - Fremont, Hayward, Union City. No Milpitas either.

What the Spanish website doesn't say (at least as far as I can see) is what "potencia" the tx has! That would have some bearing on propagation.

And, um, the 2007 WRTH ignores it.

As you know, at night in the Bay Area, some San Diego station comes in
on 1700.

There is also that Caltrans temporary frequency. It used to be 860
IIRC, but now there is a radio station on that frequency.

Perhaps because it no longer exists? No matter, the 1993 WRTH indicates 1 kW, at least when they operated on 12008 and 6840.

First, you -are- 100% correct; Google is not Usenet.

However, I politely submit that you missed mohawk's point. He was *not*
stating or implying that Usenet and Google are the same, nor did he
"confuse the two".

The SAME messages that are posted originally on Usenet -also- appear on
Google, the same *identical* messages, just a different venue.

His point was that the identical messages, when viewed on a venue that
does have "ratings", 3552 voters took the time to give him a rating of 1
(out of 5).

Interesting observation, mohawk! With a "fan club" like that, who needs
enemies? ;-)

I dug out my EBC QSL, reception on 15 February 1991, 12008 kHz, at 0959 UTC, but no transmitter power is listed.

At 5345 kHz (center) I have fsk, 850 shift, 75 baud,
s9 in socal now at 1:50 utc. It's there all the time.
There are many others like it.
I googled this:

I believe it is applicable.

That's truly unfortunate. I do wonder if it is not a small sign of
the eventual unravelling of the satellite radio business. Both
companies continue to bleed red ink at astounding rates and that would
seem to indicate their business model is fundamentally flawed. They
have been unable to generate enough subscriber interest to offset the

cost of operations including that of some very pricey talent.

Yep. Cuba airs most if not all of Venezuela's stuff nowadays. I presume that it was cheaper for Hugo to use Uncle Fidel's resources to broadcast than to maintain a tx on Venezuelan soil. Hugo still hasn't gotten the idea that if you want to broadcast propaganda to America, it needs to be in ENGLISH. Having RHC put in a good word for you isn't the same as airing your own stuff, even if it is on Cuba's dime.

I suspect that if Hugo started offering asylum to American murderers the way Fidel does that he'd get some willing announcers. Even so, no Americans have fled to Cuba in 20 years; on the weekends RHC puts on guys with truly atrocious Ingles. The days of flying a plane to Cuba and hiding out are gone. It never occurs to guys who could really use it, like the guy in Reno who killed his wife and then tried to kill the judge who'd ruled in her favor. He fled to Puerto Vallarta, not Havana. The Mexicans shipped him right back. The last person who wanted to go to Cuba was a school shooter 10 years ago, and he only got to the parking lot.

Sounds like Churchill's a fraud in more than one category. I'm more Native American than he is by far, maybe 1/16th. Hey, I gotta start claiming I am, and write books for gullible kooks to buy up.

Terrestrial time signals

Radio clocks synchronized to terrestrial time signals can usually
achieve an accuracy of around 1 millisecond relative to the time
standard, generally limited by uncertainties and variability in radio
propagation.

Time signals that can be used as references for radio clocks include

* U.S. NIST Broadcasts:
o Longwave radio station WWVB at 60 kHz (binary coded
decimal only) at 50 kW,
o Shortwave radio station WWV (a male voice, Fort Collins,
Colorado, about 100 km north of Denver at approximately 40°40′49″N,
105°02′27″W) at 2.5, 5, 10, 15 and 20 MHz at 2.5 kW to 10 kW,
o Shortwave radio station WWVH (a female voice, on Kauai
near Kekaha, at about 21°59′16″N, 159°45′50″W) at 2.5, 5, 10, and 15
MHz at 2.5 kW to 10 kW.
* German Broadcasts: A time signal from DCF77 (Mainflingen, a
transmitter near Frankfurt at about 50°01′N, 9°00′E) can be received

on 77.5 kHz to a range of about 2000 km.
* Canadian Broadcasts: The official time can be obtained by tuning
to radio station CHU (Ottawa, Ontario) at 3.33, 7.335 and 14.67 MHz,
with FSK digital time data sent once per minute at 300 baud.
* UK Broadcasts: A time signal from MSF, an atomic clock near
Anthorn (which was relocated from Rugby on 2007-04-01) can be received
on 60 kHz.
* The JJY radio stations in Japan on 40/60 kHz.
* The BPM radio station in Xi'an, China at 2.5, 5, 10 and 15 MHz
* Swiss Broadcasts: The legal Swiss time can be picked up from the
HBG longwave transmitter in Prangins on 75 kHz. The time code is
compatible with that of the German DCF-77 transmitter.
* French Broadcasts: Station TDF transmits timecodes on 162 kHz
from a site near Allouis.

Only the Americans, Canadians, Chinese, and Venezuelans (YVTO, not mentioned here) broadcast 24 hour time signals on SW. The US, UK, and Japan all have 60 khz signals, probably using the same transmitting equipment. The Germans and Swiss are slightly higher, around 75 khz (probably different equipment). The French as usual are the oddballs, hanging onto longwave.

Further down the Wiki article mentions RWM, which is/was the Soviet/ Russian station. RWM is probably erratic in operation due to old equipment and power shortages. (Voice of Russia and Radio Ukraine are also erratic for the same reason. I presume that those two broadcast stations are using old Radio Moscow/Radio Kiev stuff. The smaller Soviet satellite stations, such as Poland and Albania, are only on the air occasionally if at all.)

I have a European market radio controlled clock that can be switched between British and German signals. I have yet to see a mass market radio controlled clock that uses Canadian signals. I find the Canadians hard to recieve here in California. China and Venezuela go head to head with WWV/WWVH, making them impossible to hear in America. I suppose that WWV is hard to hear outside North and Central America. WWVH probably bumps directly into the Chinese signals. I doubt that Venezuela has much competition.

860 is a Modesto station. Years ago, it was KTRB. I have no idea what's there now. KTRB tried a 24 hour all news format about 10 years ago that lasted about a year before failing. Around the same time a FM station in Reno (as well as FMs in several other cities around the country) experimented with all news. Those are also generally gone.

KCBS in San Francisco and KNX in Los Angeles are the only MW all news stations west of the Rockies that have stood the test of time that I'm aware of. At night, they easily cover the Western US and probably parts of western Canada too (KNX can probably be heard well into Mexico, although it probably doesn't do the Mexicans much good), so it's difficult for anybody else to get a hold on the market. Most stations in the West that try have the format go belly up, then usually switch to right wing talk, which is vastly cheaper.

Spanish language talk and music is increasingly popular, which is frustrating for those DXers trying to log Mexico. Non-Spanish ethnic broadcasts are gaining ground too. A Sacramento station is entirely in the Hmong language. Russian can also be heard from Sacramento. San Francisco airwaves are full of Chinese and Japanese, as well as some Vietnamese. I wouldn't be surprised to hear Hindi from SF, since

Silicon Valley is full of East Indians. I have yet to hear Arabic despite a growing number of Muslims.

Caltrans uses 1710, I think. It's mainly used in the Sierras to broadcast snow conditions during winter. It only runs when there's a big snowstorm, of course. I suspect that there's a tx network along Interstate 80 and maybe US 50 too. CA 70 and CA 88 probably get short shrift. Those are the main routes over the hills. 4 and 108 are closed in winter, as is of course 120. South of that the Sierra is too steep to allow travel-you have to go down to the highway over the Tehachapis (58, I think) to get over. North of that there are several state highways that are lightly traveled all year because they don't really go anywhere. I believe that Susanville and Modoc County are two destinations of those roads. Past Cedarville the pavement ends on 299, and the dirt road is not maintained because it goes into a wildlife refuge. A California family tried driving out there in winter and nearly died. If not for a park ranger, they would have vanished into the desert. Nevada is crisscrossed with never traveled dirt roads. People go out there and vanish. They get a flat tire and it's all over.

For those unfamiliar with Richmond, it's a largely industrial area.
The residents tend to be black and poor. The shoreline is lined with
oil refineries and other nasties. It is not far from Oakland, which is
why RHF can hear it. The weather radio is just a placeholder to keep
the tx busy. In most of the nation VHF weather radio is used to warn
of disasters, but Richmond residents cannot afford NOAA weather radios
even if they knew about them, and unlike in tornado alley weather
radios are hard to find in California. Frys sells them, but most
Richmond residents cannot get to a Frys. I don't know how many have MW
radios, considering the fact that most New Orleans residents did not
have battery operated radios.

I find that Africa can be heard from time to time in California as well, although the signal is noisy. 11765 is the best around 0500, if you can null Cuba. 0930 is a good time for other Asian signals. I've heard Indonesia and Chinese domestics then (interesting music). Radio Free Asia and its drums and flutes jammer is also active then. The Chinese have the best jammer I've ever heard, a lot better than the Soviet bubbles and the crackling noise and several other ideas. Cuba and Iran use the bubbles today, while Zimbabwe has been using the crackling. I always found it interesting that America never tried to jam Soviet broadcasts and even let Warsaw Pact QSL cards get through the mail on occasion. I suppose that jamming is simply not a part of American propaganda. Everybody jams us, but we don't jam back. Nixon preferred to use clandestines and counterclandestines ("black clandestines") rather than jam. Bush would be a likely jammer, but given that only a few thousand Americans out of 300 million bother to listen to SW anymore, it's just not worth it.

That time is good for Asia and the Pacific. Lots of Asian domestics floating around at that time. I've heard Taiwanese, Chinese, and Indonesian domestics then. Never conclusively identified North Korea though. A Burmese clandestine once got through, to my surprise. Today I take medication that allows me to sleep.

I was using a fairly wide filter and was on the upper side of
the signal; it is actually at 5344 kHz USB to put mark/space
at around 500/1350 kHz. Signal 20/S9 at 0440 GMT in No. MN.

Thanks for that link; a good read and impetus to record and
analyze this signal.

LOL! Jackson, Mississippi must be a VERY boring place. Glad I'm not
there. Maybe a hurricane will come along and drown Cuhulin, giving us
some relief. That's about the only place you could survive on a
military pension anyway, unless you wanted to move into some abandoned
farm town on the prairie.

- I find the Canadians hard to recieve here in California.

CHU Transmits on : 3330, 7335, and 14 670 kHz.
They use Upper Single Sideband USB with Carrier re-inserted.
http://inms-ienm.nrc-cnrc.gc.ca/time_services/shortwave_broadcasts_e.html
I can get 3330 kHz and 7335 kHz some times
but have never picked-up the 14670 kHz signal.

- China and Venezuela go head to head with WWV/WWVH,
- making them impossible to hear in America.
```

BPM - China Time Signal
http://en.wikipedia.org/wiki/BPM_(time_service)
http://www.meinberg.de/english/glossary/bpm.htm
http://www.time.ac.cn/jianjie/1.jpg
? Transmission Technical Data ?
USB ? LSB ? DSB ?
Carrier Suppression ? Carrier Re-Inserted

- I suppose that WWV is hard to hear
- outside North and Central America.

Especially if there is something local on the Frequency.

- WWVH probably bumps directly into the
- Chinese signals.

Yeah somewhere between Hawaii and China for sure.

I doubt that Venezuela has much competition.

Especially to the South.

The Question is still out there . . .
Anyone care to venture and Answer ?

OK - So here is another Question :

Given a small urban-suburban Lot with Limited Space.

Mounting one of these two Dipoles with the Center at
the Corner of the Lot with each of the Arms extended
alone adjacent sides {Right Angle} and Sloping down.

Would this Antenna now function more or less like :

1 - A single Inverted "V" Dipole Antenna ?

2 - Two Sloper Antennas set at Right-Angles to each other ?

What would your choice be # 1 or # 2 ?

pondering the imponderable - iane ~ RHF

NOTE - The Eavesdropper-T is Fed at the Center with
100 Feet (30 Meters) of 72 Ohm Balanced Feed-Line.
http://www.universal-radio.com/catalog/sw_ant/0680.html

Anyone using a 72 Ohm Balanced Feed-Line ?

What is 72 Ohm Balanced Feed-Line made of ?

? - Will Twisted Speaker Wire Do ?

? - Will Twisted Landscaping Electrical Wire Do ?
{Heavy Duty Out-Doors Zip Cord}

Where do you buy it ?
{Who Makes It ?}

A Dipole Antenna to a 72 Ohm Balanced Feed-in-Line
to a PL-359 Plug to the Radio seems like a natural !

Right now, there are Congressional hearings being held with regard to
the proposed merger between XM and Sirius. If you have any comments
which may be relevant to the merger you might wish to submit them. Do
a google on hearings xm sirius.

My guess, and this is because the antenna remains connected at the center (as opposed to two slopers which would presumably have no inherent electrical connection) is that it would function more as No. 1. However, because the configuration would force the antenna to be mounted at an angle, I suspect that the reception pattern would be askew, not only horizontally but vertically as well. The side lobes would likely aim upward on the side facing into the yard, and downward on the side aiming outward from the corner. If you want to get skywave from the direction of the yard, that could be a very good thing, although I'm not sure that practically it would make a big difference.

This is not all that different from what I have, although the legs on my antenna are only off 180 degrees by a fraction (maybe 10 degrees) rather than at right angles.

DRM and IBOC are different in that AM-IBOC adds digital sidebands
outside the spectrum occupied by the AM signal (otherwise the station
would interfere with itself) and thus increases interference to
adjacent AM stations. There is a variant of DRM that similarly
coexists with AM in a wider channel and would be as bad as IBOC at

interfering with adjacents but SW DRM used so far is purely digital and (usually) confined to the standard channel width.

Most SW DRM transmission use 10kHz total bandwidth; some went to 20kHz bw for higher quality and stereo but I think this was done mainly for demonstration and/or only at upper HF, e.g. 26MHz. The SW analog 5kHz channeling plan is based on 10kHz wide channels so, on the surface, 10kHz DRM is compatible. However, the energy distribution of DRM is uniform throughout the channel (rectangular) while DSB-AM is sort of triangular (high at carrier, medium at sideband bass and mid-voice frequencies and tapering off at higher frequencies) but varies with modulation. A DRM signal with center-channel 5kHz away from the carrier of an AM DSB signal will put a uniform energy across the whole of one of the latter's sidebands. This will create a constant interference and sound profoundly more interfering to the desired AM signal than an adjacent AM signal would unless the AM adjacent was modulated with something like white noise (or certain electronic or rock music compositions) and its carrier power produced a sideband of equal energy to the DRM.

One of the arguments in favour of DRM is that lower power levels are needed than for DSB-AM and that mitigates interference. But you would need controlled A-B testing to witness the advantage. Instead, we just hear the interference to AM signals and, because of its constancy, think it's worse than if there was an AM signal there instead.

Pretty much all of it is off-topic junk. It doesn't belong here
and the only way we can rid this newsgroup if this village idiot
is to speak up about it.

If he wants to "blog" then let him set up a blog.

Or find some general newsgroup where as obnoxious as his posts
may be, at least they wouldn't be off-topic most of the time.

I should point out that most of the time, even if his posts are
somehow radio related, he doesn't meet "community standards".

He can't quote what he's replying to, so his already inane
posts lack any sort of context.

And posting a stream of incoherent references to things found
with a search engine, or whatever he does, is just clogging
the newsgroup.

Like I've said before, he should find a place where his posts
belong, or at least where his need to fit in doesn't mess
up the newsgroup.

Instead of giving the village idiot permission to continue
posting here, you should be thinking about what this newsgroup
used to be like. Or perhaps you are one of those who don't
have much history with this newsgroup. The actual radio
related content is down tremendously, thanks to people like
the village idiot. There are a lot less familiar posters here,
and when they left, they took their posts with them.

The village idiot does nothing to the newsgroup, but I am
quite certain his continued existence here has driven people
away.

I think that this Photo of "LeRoy" tells me just
about everything I want to know about him :

Glad you like it! Something else I thought of...just thinkin' out loud here...

One more thing to consider is that (at least as I understand it), when portions of your antenna slope, either as a sloper or as an inverted V, you get some lobing off the upward sides of the slopes as well, so that overall your antenna winds up being more omnidirectional - or at least has lobes in more directions than just broadside.

In this regard, an Inverted V dipole may not be so different from two slopers mounted back to back and either harnessed or phased...so, although the system you describe may electrically be more like No. 1, the two may not be all that different from one another in practice.

Now, if you take that and bend it 90 degrees horizintally in the middle...well, I can't say that I know for certain. It would be fun to see a measured lobe pattern for these configs, especially when many people in this situation might want to give it a try.

"HD Radio Marketing: Change is Coming"

"The date is no surprise. It was a 2-year deal. It ends in January.I agree it's time to re-assess. The problem with the licensing plan is two very different groups with different agendas pay the fee. Which is why neither is happy. Broadcasters pay for the encoder, and they're not happy with the radios, and electronics manufacturers pay for the decoder, and they're not happy with anything. They see no demand, and therefore, no return on their investment.I think the best bet is for everyone to walk away at the end of this deal, and leave iBiquity to think about what went wrong."

"Maybe the date is no surprise to you, George. But the lack of renewal of that deal for a later date might be a surprise to some."

http://www.hear2.com/2007/07/hd-radio-market.html#comments

"HD Radio - what's the holdup?"

"The way I see it, there are at least two very large barriers standing in the way... The lack of subsidies, however, has really made it difficult for iBiquity to move things along. Moreover, the slow adoption rate has kept the company's operating expense burn rate high, which has in turn delayed investors' payoff. If the burn rate is high enough and the rate of adoption is slow enough, well, let's just say that's not a good thing."

RADIO isn't going to give up on this lightly. After the millions
spent, hardware installed, transmitter sites bought, paid for, and
bullt, broadcasters aren't going to simply cut their losses and run.

Expect additional marketing maneuvers. I wouldn't rule out a change
in business model.

Now, if it doesn't catch fire soon, AM HD will have effectively
killed AM radio. But AM's are moving to FM, or secondary HD channels on
FM stations, as WLS is now on WZZN.

But there's a lot at stake here. HD may go the way of AM stereo. But
don't think for a minute that HD is over. Not yet. Not by a long shot.

Hello - IBOC is a Crazy . . .

IBOC "HD" Radio works on the FM Band -and-
is Questionable on the AM/MW Band.

The limiting factor for "HD" Radio's success on
the FM Band is the 1% Digital signal 'Limit'
-wrt- the Analog ERP output of the FM Radio
Station. This is in contrast to HDTV's 50%
signal 'Limit' -wrt- the Analog ERP output of
the TV Station.

FM "HD" Radio needs to Kick-Up the Digital
Signal Output to at least 4% and ideally 10%.

"HD" Radio {IBOC} in the USA will be a Winner
or a Loser based on how well FM "HD" Radio
is received by the Radio Listening Public.

Point One - Most People in the USA Do Not
Listen To Radio : They Listen {Watch} TV .

Point One-A - Radio Listening is NOT the
Primary Form of Home Entertainment.

Point Two - Most Peope in the USA "Only"
Listen To Radio : While Driving a Car.

Point Three - Some People in the USA
are Able to Listen to the Radio at Work.

Point Three-A - Most People in the USA
Who are Able to Listen to the Radio at Work :
Listen to Music on FM Radio and can't have
AM Talk Radio {Political} Heard by the Public.

Point Four - Most Peope in the USA
Listen To FM Radio : Not AM Radio.

Point Four-A - Most Younger Peope in the
USA Listen To FM Radio : Not AM Radio.

The Future of Radio is with the Younger
Generation and they Choose FM Radio.

"HD" Radio {IBOC} will be Successful "IF" the
Younger Generation Choose "HD" FM Radio.

Radio Listening It's About Enjoyment !

Anyone have an opinion on the IC703's receiver capabilities?

I'm wanting to upgrade to something a cut above a portable.
Most of the use will be for ham and utility monitoring.

I know there are some weaknesses on the xmtr side, but I'm planning
on use just as a receiver.

Tnx,
Jackson

DPM,

I still think that one of the better uses of the FM Radio
Secondary HD-2 Channels is a Simulcast of one of the
'local' TV Channel's Audio Programming. Especially
where there is Co-Ownership of both the TV and FM
Radio Stations; {Co-Brand Building} and sets the
FM Radio Station apart in the Market Place from
being just another Music Station with a 2nd Music
Channel.

I've not seen any research indicating there's sufficient market for
that to be a practical or profitable use of the channel. And in the US,
Radio is ALWAYS about the money.

There would have to be a ratable audience interested in TV audio for
a broadcaster to consider that.

That doesn't appear to be the case, so making that case would likely
be futile. If there's not a lot of money in it, broadcasters don't want
to know about it.

It doesn't matter what broadcasters want - that was the whole problem
with HD Radio; HD Radio was for the broadcasters, but consumers voted
NO:

"Finally, A Good Use for HD Radio"

"That's why I was happy to hear that even the folks at iBiquity are
looking at other options. They have to."

That doesn't mean they're going to give up. It just means that eventually consumer apathy may prevail down the road. If consumer apathy prevails.

For now, at least, broadcasters will soldier on, until either they make it stick, get an FCC mandate for digital only broadcast, or it finally, mercifully, goes away.

It may not look good, but the matter is not yet settled.

Tester,

When the FCC and the Radio Industry can get
US Auto-Makers to make HD Radios 'standard'
Equipment in all new Cars - Then "HD" Radio will
be 'accepted' by the Radio Listening Public.

When the FCC "Mandates" that all new 'imported'
AM/FM Radios are "HD" Radios - Then "HD" Radio
will be 'adapted' by the Radio Listening Public.

Otherwise the 'acceptance' and 'adaption' of HD
Radio will take 5-15 Years like FM Radio did
-and- HD Radio has only been around for about
2-3 Years so only time will tell . . . ~ RHF

Tester,

Standard HD Radio will never happen, as the Big 3 have rejected HD Radio (it would cost them $600 million anually to install HD Radio, so it isn't going to happen) and Satellite Radio and iPod jacks are taking over in-dash::

"U.S. automakers not jumping into HD Radio"

"The radios are estimated to cost about $45 each to install, or each of the three carmakers about $150 million to $200 million annually, automotive industry sources said."

http://www.reuters.com/article/ousiv/idUSN2632750220070427?pageNumber=1

"XM vs. Sirius: Tale of the Transmitters"

"If you're buying a new car, there's a good chance you can have satellite radio factory- or dealer-installed, and get a few months of service free to boot. Honda, Acura and GM (including Chevy, Cadillac and other brands) offer XM in many new models. Daimler Chrysler, BMW and Ford (Volvo, Mazda, Jaguar) offer Sirius. Nissan and Volkswagen offer both."

http://www.time.com/time/techtime/200404/sat-radio.html

"iPod Compatible Cars"

"More auto makers are discovering that iPod compatiblity can help close a sale. Here's a list that won't break the bank when you sign on the dotted line."

http://www.digitalmania-online.com/iPod-Compatible-Cars.html

Also, there will never be HD Radio mandates by the FCC, as a mandatory switch to digital will never happen. The FCC has left it up to the marketplace/consumers to determine the fate of HD Radio:

"4/4/07 - FCC: Market to Decide Fate of HD Radio"

RHF is just another IBOC shill, as was the ghost of Eduardo who has given up.

- Glad you like it! Something else I thought of...
- just thinkin' out loud here...

- One more thing to consider is that (at least as I understand it),
- when portions of your antenna slope, either as a sloper or as
- an inverted V, you get some lobing off the upward sides of the
- slopes as well, so that overall your antenna winds up being
- more omnidirectional - or at least has lobes in more directions
- than just broadside.

BpnJ,

You are right - A Dipole Antenna only functions as
a Dipole when it is 'cut' to size and 'mounted' at the
right Height and 'rigged' Flat. Then it is usually
consider lossy Off-the-Ends and best Off-the-Sides.

When notheing else changes except 'reducing' the
Height of the Ends : Then the Arms of the Dipole
have a Negative {Down} Slope toward the Ends
-and- the reception Off-the-Ends improves.

As the Slope increases and the Apex Angle goes
from 180* {Flat} to 120* {30* Slope} to 90* {45* Slope}
the Dipole goes from what is consider a Bi-Directional
Antenna to an Omni-Directional Antenna.

- In this regard, an Inverted V dipole may not be so
- different from two slopers mounted back to back
- and either harnessed or phased...so, although the
- system you describe may electrically be more like
- No. 1, the two may not be all that different from one
- another in practice.

Yes to my way of think taken together both would
perfrom about the same.

But the key thing as you correctly point out is
that Electrically it is still wired as a Dipole with
a Common Feed-in-Line and that is why it is not
Two Slopers -because- If it were you would be
able to select one or the other or both and use
them as two independent Antennas. Especially
when they are Rigged in a Corner at 90*.

SO - My Conclusion After Thinking About It Is :
A Corner Rigged Dipole Antenna was Don't
Waste the Time -and- Instead install a Pair
of Flat Wires or Slopers with two separate
Feed-in-Lines so that you could get the benefit
of each Antenna's use independently.

- Now, if you take that and bend it 90 degrees
- horizintally in the middle...well, I can't say that
- I know for certain. It would be fun to see a
- measured lobe pattern for these configs,
- especially when many people in this situation
- might want to give it a try.
- BJ

The so-called 'half-a-swastika' shaped Dipole
Antenna is usually executed Across a Diagonal
{Two Corners} and along the sides of a small
piece of property : So the Bend is 45* and it
looks like a "Z" when viewed from the top.
- - - It requires 4-Support Points and for the
effort a Loop Antenna could be the better
choice.

DPM,

When the FCC and the Radio Industry can get
US Auto-Makers to make HD Radios 'standard'
Equipment in all new Cars - Then "HD" Radio will
be 'accepted' by the Radio Listening Public.

When the FCC "Mandates" that all new 'imported'
AM/FM Radios are "HD" Radios - Then "HD" Radio
will be 'adapted' by the Radio Listening Public.

Otherwise the 'acceptance' and 'adaption' of HD
Radio will take 5-15 Years like FM Radio did
-and- HD Radio has only been around for about
2-3 Years so only time will tell . . . ~ RHF

I liked the AM-on-FM-subchannel feature, which allowed me to hear
a so-called local Imus affiliate finally. I see no point in
additional FM channels for music though. It's the same junk as
the regular FM.

And of course Imus is gone now, so that edge is gone.

AM HD radio is annoying even when it works ; like vinyl records,
AM has a pleasing sound on its own, and this just destroys that
slight advantage. In addition, it drops in and out of HD when
a thunderstorm goes through, which is beyond annoying and you have
to search for a station carrying the same program without HD.

Then there's the HD hash, but that's been discussed to death. I'm
just talking now about HD when you're listening to the HD station.

Keep the FM subchannels, throw out the rest.

RH - Good evaluation of "HD" Radio -and- Yes the
2nd Subchannel is a good feature of FM "HD" Radio
Most just have more 'copy-cat' Music Programming
while one of the CAL Central Valley "HD" FM Radio
Stations is a Rocker on HD-1 with Pop-Classical
Music on their HD-2 now that is an interesting
contrast. ~ RHF

Drive Time is a daypart, Roy. Not a listening environment. 2/3 of radio listening occurs during drive time. At home, at work. Jogging, walking. Some even in the car.

But, he's right, the majority does not take place in the car.

I installed an iPod interface for the databus on my GM radio. A dock cord plugs into the iPod, the iPod goes into the glove box and everything is controlled from the radio face. It's pretty slick. I can listen to any genre, any playlist, at will just like I can while carrying the iPod. But nothing in the car except the display on the radio indicates I've got an iPod with me.

This allows me to listen to my choices of podcast in the car. Instead of the local radio which is increasingly less satisfying as time goes on. So, in my case, even less radio listening takes place in the car.

But the majority of what I listen to, podcast, music, even satellite radio, happens during drive time.

But, in my case, only about 20% of it happens in the car.

Nothing is over until the service is decommissioned.

Which was my point. It's not over until the service is
decommissioned. Keep in mind that FM failed. Twice. Until it didn't.
And even when FM finally gained acceptance, it took 15 years.

So, while IBOC hasn't set the bands on fire with rabid consumption of
it's product, it isn't necessarily DOA, either.

RADIO isn't going to give up on this lightly.

If I were developing IBOC, I would have petitioned the FCC to use the
1600 to 1700 KHZ upper band to broadcast the digital signal only at full
strength and designed the IBOC receivers to automatically select the
digital signal when available, otherwise the receiver would just tune in
the analog signal as normal, this would be a seam-less process that the
listener wouldn't even have to think about, much like when the FM or AM
stereo reception in fringe areas switches out to provide maximum

fidelity. In my dxing there is relatively little commercial or otherwise in this upper band. In my QTH of Tucson, AZ, even though several of our local broadcasters licensed to broadcast there, none do so today, therefore, the upper am band conversion to digital would cause the minimum disruption on the AM band.
Just a thought.

It's the FMs that are screwed, not the AMs. The FM band is
overcrowded, so simulcasting AM on FM is limited. KSL tried it and its
ratings eventually went back to where they were . FM will fail along
with HD Radio, while the AMs will live on ! My favorite, 700 WLW is
ranked by far #1 and will live on - screw you and Eduardo ! Ha Ha !

It should be on a RX par with the more powerful IC706 series, and
that's a very popular radio. Only drawback for strictly listening is
it has only 100 memories -- maybe that's enough for you, maybe not.

You might also check to see what filter it comes with for the AM mode.
If it only has the 2.xx khz filter, that will be fine for SSB, but
your AM broadcast stations will sound pinched.

FEMA covered up toxic danger in trailers given to Katrina victims
http://www.wsws.org/articles/2007/jul2007/fema-j21.shtml

I'll tell YOU again, CBC, CNN, and FOXNEWS knows the bushmob did 911, and lie to you entertainingly to sacrifice even more of US to the demon antichrist forces of evil.. While I ABSOLUTELY destroy bushite with joy for God and the defense of love.

/ / Support me, or fail to recognize true wisdom when it speaks to you of need for desperate change to save your dying selves. No evidence against an accused is US being truly abused.

TRAITORS TO LIFE

"I told him, there's women and kids in that room," Lance Cpl. Humberto M. Mendoza said of Lance Cpl. Stephen B. Tatum. Tatum's response was, "Well, shoot them,"

If Americans don't proudly put to death Tatum, on behalf of the Family that lost their son, their Marine, Johnny will formally conclude, Bushite america is an ungodly evil nazi fascist state of intolerance and hate to US, the Great Human Race. Bushite amerka does not own Freedom, nor do they own our rights to be Just. Join me in demanding the Public execution of the satanic demon liar Tatum, on his Public

insistence that murdering innocent families to thieve from for the neocon, is a crime not warranting the death sentence enforced by any family man. Death to the bushite. death to the enemies of man. The neocons will be arrested, tried, and executed for the crimes of 911 as traitors to Life.

Death to the bushite instead of the innocent loved in God

/ / IntelCenter issued a tacit warning that the footage may be re-hashed when they released the "new" tape to the media, but they failed to mention the fact that they released portions of the exact same clips in October 2003. \ \ amazingly - I witnessed blurred-out faces of those they claimed al-Qaida in another instance just recently. (Then, look at the dog fight vids that CNN and CBC refuse to show the dog haters faces in..)

I say American taxing payer folks, flip me some dollars, and I'll pay out rewards - after a moderate lunch - all to take these IntelCenter AL-QAIDA! - AL-QAIDA! - AL-QAIDA! straight to public trial, then public execution for high treason - like holy fuk mon let's get real here People. Or don't and we die further for bin Laden's fear of cameras. Offer a 500,000,000 dollar reward for Zawahererri's crew to get the rest of this done quick like. I wanna rock! Death to the neocon enemies LIARS, death to those who WAR - WAR - WAR innocent Humanity for the continuing bushmob's escape plan from nowhere. See? Heaven or Hell? YOU DECIDE.

Don't EVER forget, the private company Aegis has been officially found dressing up as AL-QAIDA! - AL-QAIDA! - AL-QAIDA! to murder pro-western forces in Iraq, while desecrating Elvis. Elvis Presley. If you don't love Elvis, there is something seriously wrong with America. Now yous messing with a real son-of-bitch. HeY!, question: why don't Americans kill a bushite for Yourself bud? - because Bushites insist "we're" willingly being led by the antichrist enemy of all human life as Satanic LIARS who intend to cheat ourselves of freedom through self respect. Pro-neocon-media enemies are nazi savages, and I don't like it..How about you?

Death to the bushite instead of the innocent loved in God

Time is Up

Al-Qaida Kagan "Al-Qaida, their whole strategy revolves around generating sectarian violence, because that is how they embed themselves within local communities "

What?? For friendship?

What is the demon TRAITOR to HUMANITY in America saying about the reasons he embeds an Iraqi under 50 odd divergent NEOCON labels? Wouldn't most Al-Qaida take great joy in killing a bushite nazi grunt like any real Family man would also? These LIAR dumfuk grunts who cheer "whore yeah", routinely, can barely read or write, so, how possibly does this FOXNEWS expert, expect such ungodly antichrist forces to delineate Al-Qaida from the local communities they PROVABLY indiscriminately bomb as Satanic?

Kristol and Kagan: 'Put Everything' Behind Escalation So We Can Bomb Iran and Syria

Kristol and Kagan MUST be put to death for treason against America, treason against Life, treason against GOD. They both have continued to Publicly advocate murdering more innocent peoples indiscriminately they call, "Al-Qaida", all to rob further monies from an undefended America. It is easily learned by any as all, the victims of bushite tyranny are exclusively, US, The People, guilty of nothing but our shared love of GOD. Remember forever: there was NO JUSIFIED REASON for bombing PEACEFUL Samara, NONE! that bombers confess was done as ordered by Allawi INDISCRIMINATELY, all for getting killed Marines sent in later for more stolen cash from America. P2OG. [hundreds of bushited Marines died rightly almost immediately - (wow eh?)] A Satanic action, Kistol and Kagan, both blame without thought to question on "Al-Qaida".

The action of Satanic bushite bombers targeting Samara as war criminals is FULLY documented.

Death to the bushite neocon LIARS, death to the enemies of Freedom for Humanity. My beloved friends of GOD, please, when you see the mute bushite, kill it for Christ, kill it for Love, kill it to defend your loved family. (Any soldier who doesn't proudly talk of how it hunts those British soldiers who kidnapped barefoot children and victimized them on video, is a soldier worth destroying NOW to defend GOD and Life from needless death.) I HATE the REAL demon antichrist Christ says.

Kagan "You rarely know in the middle of a war, what the outcome will be."

Johnny Wizard the Creator "I win."

/ / The US has also been backing some pro-western politicians like Iyad Allawi \ \

Do you know who Allawi is? Allawi confesses to blowing up school buses filled with children for "CIA" money. NOT THEORY. HE ADMITS IT AS AN ACTUAL SATANIC DEMON! Allawi, the truly insane mad man, confesses to having ordered the murder of doctors and nurses that treated wounded god loving women and children from Fallujah. It was these DOCUMENTED acts that had him thrown out of 'the CBC, CNN, and FOXNEWS TV expert scene as workable', all for fears that US humans might actually wake the fuk up on WHO is Our True Enemies here. All three, pro-private-bank zionist news stations are well aware that the bushmob did 911, but lie to YOU as forsakenly dying for their growing riches and world wide broadcast fame.

CBC National Newz - July 11th 'tens of thousands have died in Iraq since the war against truth started.'

Anyway, these two Allawi incidences are fully documented, look it up, then demand the "The US" pro-western politician person quoted as supporting Allawi - be found guilty of CRIMES AGAINST HUMANITY, Demand publicly, having the neocon zionists EXECUTED by America, for America, as America. A Just America that defends America from criminal madness. Or don't. Death to the bushite, death to the enemies of Man I say.

ABCNEWS.com : FBI Called off Terror Investigations

A question Johnny Wizard has for America: Tell me, is this not a treasonous act - for Bush to close criminal investigations, immediately after the terrorist crimes of 911? Shouldn't the demon enemy be put to arrest for that godless act alone in this forsaken dying world? A world left instead suffering further the tyrannies of the war criminal ENEMY of all Human Life?

A refresher: the neocon will tell you openly, they live to lie to the Public for cheating and stealing by murder of US, innocent peoples purposefully enslaved by a made ignorantly entranced TV audience that is repeated reminded, we have no power worth respecting.

CNN, CBC, and FOXNEWS aren't taking are calls presently, but just lie and tell US they do. Look to see, almost all political internet traffic condemns Bush straight to hell well he rightly belongs, but the polls still say no - WE, seeking for Just cause, are the minority.. just roll over and die for the neocon betrayers to god and country, life and loving.

-

George Bush "The same folks that are bombing innocent people in Iraq were the ones who attacked us in America on September the 11th"

George Bush 'Iraq has nothing to do with 911, you bunch of nazi dumfuk grunting LOSERS. Whore yeah - praise Satan - die America die. I mean... I love Jesus'

So it was as I thought too: the direct co-operation of the joint chiefs of staff assisting General Ahmad, in committing the murder of thousands in America on 911 for the neocon TRAITORS, as the same 'escaping' enemies today, responsible for 'secretly' ordering these indiscriminate terror attack bombings against YOUR Humanity for their continuing stolen pleasures as Satanic.

-

/ / U.S. Marines are said to have killed as many as eight unarmed Iraqi prisoners when U.S. forces attacked Fallujah in November of 2004. \ \

HA! Trying to ignore the murder of more than 200,000 People as if OUR lives have no real meaning. WE KNOW they murdered everyone they could in around between 15-55, but went ahead gunning for infants and the elderly too under Sattler. Look it up. Death to the demonic bushite LIARS, death to the enemies of Man, so says the Son to God as Man to men - Kill the dishonorable bushite enemy and be Loved by all as Savior.

DEMON MURDERER PETER POWER TRIES TO LIE HIS SOCKS OFF ABOUT HOW HE MURDERS LONDONERS AS A FOR REAL TERRORIST RECRUITER

[letter written as signed by Peter Power to MSNBC et al.]

/ /It is confirmed that a short number of 'walk through' scenarios planed [sic] well in advance had commenced that morning for a private company in London (as part of a wider project that remains confidential) and that two scenarios related directly to terrorist bombs at the same time as the ones that actually detonated with such tragic results. \ \

/ / Thompson continues by asking Chertoff to further explain what measures the country should take based on his instincts, "What cities should be asking their law enforcement to work double shifts because of your "gut feeling?" Are the American people supposed to purchase duct tape and plastic sheeting because of your 'gut feeling?'" \ \

Homeland Security Committee Chairman Bennie G. Thompson

NOTE: Americans are literally paying billions for Chertoff's THREAT of "gut feeling". Billions, while the neocon walk away from MURDERING Americans on 911 with the bushite on America's Coast to Coast radio network, claiming they don't know you know, nor, ever will. They'll tell you, blame the shadows in the New World Order, but don't rely on evidence to form your conclusions on who PERSONALLY is responsible for criminal actions against YOUR rights to be free as alive. Evil is real my friend, evil is real. Death to the bushite, death to the enemy LIARS of human kind. Death to the enemies of Love and God. Death to the enemies of Life.

"A dead Iraqi is just another dead Iraqi... You know, so what?"

These demons are murdering god loving people as enemies to Humanity with the nazi assistance of corporate news america. Peter Power needs to be arrested for the London bombings. Sattler, Blount, and Russell need to be arrested, tried and put to death for WAR CRIMES against Iraq, along with those responsible for other indiscriminate targetings against innocent PEOPLES for the zionist neocon god betrayers hidden in shadows as the un-known "Joint Chiefs of Staff" demon enemies.

OBSTRUCTING JUSTICE FOR AMERICA

Tony Snow "The executive branch is under no compulsion to
testify to Congress because Congress, in fact, doesn't have
oversight abilities."

IT LOOKS like they are going to attempt making the move of
BLATANTLY TREASONOUS war criminals acting to measurably now
destroy yOur Freedoms in godless America. The Satanic
neocon's 'faith', is in that YOU as an American, will watch
the same corporate drivel that offers next to nothing to
empower YOURSELF to speak Justly for a dying America. Instead
of demanding 24 hour, wall to wall news coverage, of war
criminals going down one by one by the will of Man to Justice,
CNN, CBC, and FOXNEWS will broadcast your blind 'belief' that
you are only a impartial viewer, who doesn't really care about
dying right in front of yourself for the zionist's riches, and
great worldly power of tyranny through lawless nazi bushite
censorship.

AMERICA HATES BUSHITE

Nationally broadcasted every day across America, Mr. George Norry publicly supports the murder of innocent Arab children, and I'm beginning to really hate a silent dying America for it. Speak to defend the innocent in this world American, or die yourself from self contempt.

Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. They shoot innocent women and children dead in the streets for humor, and bushite pirates at CBC and CNN, state bushite in Afghanistan are doing a good thing helping the bushmob escape the crimes of 911 by warring for Muslim fundamentalism, persecuting INNOCENT women and Christians, while for entertainment, bomb innocent families running for their lives from a Holy Church. Soulless child killing soldiers who CBC execs would tell are our DEMONIC heroes. Lawless dope pushing cop killers have got to go down dead screaming, instead of the innocent - YOU and me they target for MURDER. Death to the dishonorable bushite THIEVES, death to the enemy neocon LIARS of GOD and man.

We can really be something greater, while a murderous bushite thief, a LIAR, can hardly read or write Liberty without flinching from self contempt.

Kill a bushite LIAR, why don't you my brothers and sisters of the faith in something greater than bushite godless tyranny?

Brig. General David Fraser - former nazi commander of NATO who 'okayed' the bombing of defenseless innocent Afghan women and children for the Satanic enemies of Man, stated on CBC, he liked killing police officers, along with innocent women and children, (deliberately targeted for the pleasures of the demon antichrist) because, Afghanistan's children hope to learn. See? The bushite 'will' murder all our children and teachers on hope that we will never learn the Taliban, led by "Omar the Just", were loyal to Christ as REAL American Freedom, when publicly demanding evidence to form your conclusions. Thus is why the ENEMY to LIFE neocon state on YOUR TV and radio, WE must never be allowed to speak openly with the Taliban regarding the FACTS. Because if we did, neocon pension thievers would be hunted down in the streets for public trial, and then gloriously put to death by

Christian values committed to TRUE freedom from lawless
godless zionist LIAR tyrannies against Mankind - YOU included.

George Norry and Art Bell are the most evil of bushite, who as
betrayers of the Human race, deny soldiers to know: General
Ahmad funded Atta. They will both support the murder of Your
American Son or Daughter for further zionist evils, before
allowing true open line communications, to defend ourselves
from the lawless demon enemies of Man. Do something about it,
or don't. Let TRUTH set US free.

Instead of making an easy phone call today for your dying
brothers and sisters, die as Satanic bad guy enemies of Life
on Earth, sacrificed in cowardice to the real demon
antichrist, and see if we, the true, strong, and free, care.
The Son of Man SCREAMS before coming home to GOD'S America:
We are coming to destroy Satanically lawless bushite enemies,
all for the love of God, we shall succeed my friends, we
shall succeed. I will not willingly live in a forsaken world
with LIAR zionist war criminals conning US to believe, God is
not Great, True, Strong and Just.

Die bushite die!

Why should WE continue to silently die unjustly victimized?, for the bushite's contempt of Mankind censored?, the Eternal Son of Man to GOD forever answers correctly.

Kill a bushite as the Love of Justice for Humanity

The Son of Man BEGS all honorable men to defend Life from bushite enemies of GOD who murder, rape and steal from innocence through lawlessness as thieves of everyone. Please kill the bushite for the love of women and children. kill the bushite for the love of GOD. God is Great

Again, George W. bush did 911 with General Ahmad, but CBC zionists, actual treasonous LIARS, actually smile to dying Canadian soldiers with only true contempt. CBC kills Canadian kids, with their intentional demon lies, trying to subvert Justice for God and Johnny. In fact, yesterday, they did a special, all on how "God is NOT Great", giving that bush bitch demon LIAR, all the space to pontificate it's hatred for Wisdom, Science, and GOD, with only nods and smiles from the 'illiterate' hord. Remember: A zionist KNOWS it's an enemy of Humanity when it supports dropping seven million land minds to murder indiscriminately OUR CHILDREN for decades, or stealing a Christians Home because they say God says Jews would do such ungodly acts. Blame innocent Jews the holocaust denying zionist shout, of which not one, is a Jew. Like me.

To Kill a Bushite, is to be Heroic

Pro child killer George Norry, enemy of the American soldier, still blabs about how more must die unjustly for bin Laden with LIES, knowing full well, video of steel flowing like water from the WTC exists, and that General Ahmad funded Atta. George Norry is a traitor to the FBI, who further plans more to die sacrificed under the censorship of the tyrant antichrist. Who cares I ask about America truly dying as neoCONNED, for George Norry has millions to not take your calls for protection, and honestly, 'Americans' couldn't care much less for Our Humanity's future. Love to God Gives US Strength

The Son of Man begs the Men of Earth to defend Ourselves from the unholy forces of our tyrannical enemies. Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of Just causes. The THIEVING satanic bushite forces, speak only contempt for GOD on our demandings of the public execution of the boastful terrorists, like the bushite who video taped the murderous assault of OUR kidnapped bare footed children, or murdered Iraqis while desecrating ELVIS, done all to please the "escaping" satanic demon antichrist zionist, Our Mr. bush Jr., who with his private business partner, General Ahmad, actually committed the ungodly treasons of 911 in a land of blind men sleeping., according to the eternally Honorable FBI anyway.

Death to the ungodly bushite thieving LIARS, death to the ungodly enemies of American children everywhere. GOD praises all Men, who kill the murderous bushite enemies of America's America. "The Liar" Hannity's America, can go it alone as treasonous liars, who boastcast a con to 'neutralize' America; 'finding' that we believe their demon lies about how one dies sacrificed 'Heroic' without any IMPORTANT questions answered. do we do?

War criminals who deliberately set them up with Satanic 'black magic' to be killed in criminal actions. P2OG. But see?, the bushite fodder, can't care enough for Life to read, because it already knows like the zionist, it's an ungodly coward and a thief, as siding to lying and censorship, this will out work for evil doers in the long run without any consequences to themselves as Our sworn eternal enemy.

Bushites 'think' that being Satanic brethrens for the LIAR neoCON, they'll die sacrificed not seen by all Patriot Warriors, as a dead coward - too fearful to stand as a godly Man for true accountability to living Life honorably. Cheney, McCain, and 911's gooliannie believe, You can only TV 'see' them protected Satanically by "Molech" [THEIR DEMON COG] Immune from REAL American Justice the bushite bray, We are told they believe so anyway. By Satanic command, 'inconceivable' to see the bushmob up on high treason charges... Oohh. Yeahhh.. I can see that going for real - quite excitedly I am about saving innocent lives. Kucinich for President!
http://www.democracynow.org/index.pl?issue=20070524

Now, it's true, America's Alex Jones states Kucinich wants to take away all your guns, and is a communist, but, Alex as sometimes, is terrified of those who seek the requirements to defend freedom directly, as more specific. (Example: NWO isn't the name of the specific guy who financed 911 to murder America.) So, as a consequence, he gets near ridiculous with labels applicable to generalizations only dummies could believe blindly. With Kucinich campaigning on ACCOUNTABILITY, Alex Jones looks quite foolish. But, he's still trying. Thank god for that. Thank god for that. Talk radio in America should take open line calls on our ideas about how to actually plan to defeat these, found factually to be, traitors to God and Country.

Lt. Denton to the completely innocent as god loving
'You die, you die, you die'

Lt. Denton must die. We apparently have him on video blowing
up People not guilty of anything. He shall die as the dope
pushing cop killer he is, and we'll use his brief existence as
a beneficial measurement to determine, which other demonic
bushite soldiers, who as bonafide 'evil doers', disagree with
such Just action - be put to death for our Freedoms also.
Simple for everyone to understand? We think so, so says the
Son of Man.

Death to the zionist bushite enemy forces

/ / After it was revealed by the Plaid Cymru MP Adam Price
that British trained policemen had tortured prisoners to death
with drills, we discovered, through the New York Times (!!),
that American intelligence officers had been working alongside
them at the Jamiyat police station \ \

Death to the zionist bushite enemy forces, death to the
ungodly enemies of Man who torture innocent people to death
for fun - expecting Johnny's America will not raise a word in
defense for the Human race, or our guns to defend our loyal
brothers to the cause of Justice. Death to the bushite, death
to God's enemies who lie cheat and steal from Humanity to
assist in the escape of those responsible for 911.

BASELESS?

/ / Prime Minister Stephen Harper "We will conclude a formal
agreement so that we never again face these baseless
allegations," he said. Thirty Afghan detainees have claimed

they were beaten, whipped, given electric shocks and denied food once they were transferred to Afghan security forces by the Canadian military \ \

These demons who war for ZIONIST censorship are a bunch a dope pushing cop killers, who murder innocent people they call 'Taliban' better known as in Arabic - students.

-

Proudly kill the bushite who would drop from the sky,SEVEN MILLION landmines on our cities to kill our children for decades indiscriminately, while offering our Humanity to God no apologies. Proudly kill the bushite savages all to desperately survive ourselves creating a better world through fair, free market communications. To warring for Liberty as true Freedom wills, is for Justice understood as measured, not just made up out of nowhere for the pleasures of those truly Satanic. So spoke the King of being the wisdom we here revealed by statement of timeless fact. Good will triumph over evil. That's that.

-

Tenent "Lets everybody tell the truth."

It seems Tenent wants to inform us he actually meant when saying "slam dunk" - that, selling the war to the American Joe, without establishing any real facts would be easier than anything against the powerless as media unrepresented!

Bushite War LIFE Itself - and - They Couldn't Care Less

'Alpha company patrols the poppy fields.'
20070420_taliban28.mp3 (pbs broadcast)

"About the poppy harvest, currently gathering pace all around them, they couldn't care less." Instead they kill unarmed innocent people indiscriminately as enemies to ALL HUMAN LIFE.

They Couldn't Care Less

The 82 Airborne, in assisting in defending the world wide distribution and production of heroin, tells of murdering innocent farmers, that would never raise a gun in anger, are those they openly confess to target for first degree murder as labeled the, second tier Taliban. That's when not defending American Pension thiever ENRON'S pipeline managed under their extremist Muslim fundamentalist regime of intolerance for public communications, as the continuing thieving of 80 percent the Humanitarian Aid given by Canada to feed the STARVING, and school our children of the impoverished Afghanistan, as so reported. Eighty percent. 80. 80 percent stolen. I'm telling YOU: CBC couldn't care less about what Canadian soldiers are actually dying as COWARDS for: "Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime" CBC national radio management needs to be arrested in Canada for high TREASON. Please, be a Patriot, and demand these zionists allow open communication with the facts to save the lives of Canadians soldiers they hold in contempt to die as the bad guys committed to no better good.

/ / [...] the [New York Times] piece details the torture of [Innocent People] Sunni prisoners at one of the new American-Iraqi "security stations" \ \ Kill the bushite for America, for Justice is Freedom. Lawless mercenaries are not granted by our will to survive truly. A "lawless" enemy granted "immunity" by bushite evil phonies, is that of which, holds ourselves in their confessed contempt for Justice. Receive thanks from everyone, GOD included, by rightly destroying such inexcusable treasonous ungodly enemies of all human life.

Torture is a crime against God and Humanity. So, likewise, joyously, with pride, destroy the neocon traitors of Justice - for the true Love you have as Freedom willed - is as granted. Don't buy their demon lies by blind blanket false assertions, against YOUR Humanity's Innocence in tyrannical bondage, all done in to fool you believing, we have no rights to be heard in our presence - here existing freely. Therefore, to survive US all for something better, halt the 'escaping' murderous

bushite thieves for God and America. SOLDIERS: Instead of dying for nothing, my wannabe Patriot Brothers, try joining Liberty's cause, which is our cause truly. Is it because corporate TV zionist money whores, are cowardly and ignorant, as evil hypno muggers, in MY dying for real America, that YOU refuse to speak Now in your Humanity's begging further defense?, on evidence being the only requirement to establish a person's guilt or innocence? for ungodly terrorist activities committed in our name by bushite bombers from the neo-conned AIR FORCE, who, as rotted juveniles, cheeringly bomb us People indiscriminately leaving a Church as something TRULY SATANIC? To dare, in our presence, continue threatening harm against an innocent child of wonder, not yet even born to God's suffering world? Bushites war LIFE itself. So then pleads I again the Son to God, as Man to Men: war to kill the enemy bushite nazi savage thieves, for real Freedom is waged truly by Just causes. The mute, pro-censorship/tyranny THIEVING bushite savaged nation, has NO EXCUSE for the crimes they have committed in our dying names. I demand our voices heard internationally for Justice as Freedom is Godly.

-

Look, these neocon zionists KNOW they are OUR enemies

Israel Knesset member Talab al-Sanai "It took Israel 37 years to develop and perfect these barbaric methods of repression and humiliation," al-Sanai observed. "Surprisingly, the Americans surpassed and outmatched the Israelis in their [Zionist] savagery in less than two years."

-

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

SATANIC AMERICA

/ / After playing a tape of Cheney's statement, Russert asked Daschle, "Did the vice president call you and urge you not to investigate the events of Sept. 11?" \ \

911 "truthers" don't want to address the hard evidence like the clear as day video of steel running like water from the WTC towers, for, as Humanity witnesses, they'd rather watch silently, children murdered indiscriminately, before, acknowledging wise godly men from our communities who speak ONLY facts on America's derision for real, open market Free communications - freedom fighters who ACTUALLY defend the innocent from the neocon bushmob traitors. Each day we hear of near hundreds of US murdered by the godless Satanic THEIVING "American" forces in Iraq. without near a peep of concern by "America". Lawless bushite mercenaries torture rape and murder, paid to do so by the WILLING American tax payer, and near 300 million "People" (the NAZIS) can't find the effort to pick up a princely phone and call the ENEMY pro child killer George Norry, (who broadcasts every day across America nationally for the IRRATIONAL neocons,) to air any real concern for our Lives. True, the demon enemy censors OUR calls, and contrives WE a buyer without questions, but he doesn't censor You always forever. So, get to it fukhead, JOHN is growing angry with americans of EVIL ignoramuses escaping the bushmob for crimes against MY HUMANITY. The Son of Man States: Death to the bushite, death to our MURDEROUS enemies, who lie cheat and steal to assist in the further criminal escape of the ungodly bushmob for 911 as TRAITORS.

Loyal bushie McCain as bona-fide nazi savage "Bomb bomb bomb Iran.."

Reporter 'Mr. McCain, you demon liar nazi fu-ker, don't you think your being insensitive to innocent god loving Iranians?'

Pro-Torture of INNOCENT PEOPLE McCain "Insensitive to what? The Iranians? My response is lighten up and get a life."

PRO-TORTURE Gonzales "I quite frankly don't like the idea of the Judiciary deciding who is on my staff." [at Justice]

PRO-TORTURE Gonzales "I did not make decisions about who should or should not be asked to resign." [in mid-term]

As US State Attorneys?, whom have the most serious of American Justice Department Motions of Defense for REAL Freedom?, he's not concerned directly with?, nor would "like" democratic Peoples to be allowed to care either?. IF he gets HIS way he says - as minding for the criminal master. True, Americans are generally, extremely cowardly as Bush's freely giving PAYERS, led for more ungodly sacrifices in fascistic silence, but this continuing charade of incompetence gathering against our entire Humanity, is going way beyond acceptable to everyone concerning. Johnny Wizard conceivers and otherwise non-believers state together:

The Iraq war against Christ has no true justifiable cause.
Torture is against the law warranting immediate death sentences
The Zionist AIR FORCE bomb people indiscriminately as Satanic
The bushmob stole all the Development Funds for Iraq
The bushmob are stealing ALL of Iraq's oil
The bushmob stole 100s of billions from censored AMERICANS, while George W. Bush personally stole 50 billion from America in the first four months of stealing the initial election.

/ / A BUSHITE GRUNT PRISSING PROUD AS OUR ENEMY "I grabbed her little sister and put her in front of me . . as the bullets began to fly, the blood sprayed from between her eyes, and then I laughed maniacally." [, then were heard the cheers of godless bushite dumfuk traitors obscening to God and Man as the unholy enemy.]

What ever happened to butterfly kisses after evening prayers?

Are you telling me, an American Father, wouldn't gloriously kill this lawless bushite enemy and his demonic ilk, for our love of girls everywhere? Or, how about the UNARRESTED soldiers we witnessed on video beat shoeless children pratically to death while laughing and cheering? Or like those that speak zero defenses for Haditha's confessed MASS MURDERING irrational women and child killers? The REAL demons CONFESS to going into a house, WITHOUT reasoned approach, and slaughtering an entire INNOCENT family.. for nothing but their lifeless SATANIC pleasures. The 'cause'? "The [mass murdered unarmed innocent neighbor's] back door was open.." To, for God, gloriously, with love, kill these unarrested murderous continuing ungodly bushite nazis, is to war the TRUE enemies of Humanity to save the lives of our precious loved ones.

The Pentagon's Power to Jail Americans Indefinitely

paid for by the silent American tax payer. Americans refuses

pleasure of the president

US Attorneys don't serve "the pleasure of the president", they serve freedom lovers dedicated to defending America from willful criminality. But, americans are too stupidly weak to demand Coast to Coast hosts allow open communications on America's highest of concerns. Bushite america would rather, in silence, thieve from God as our Humanity, than serve the protections of Justice as ourselves.

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Hmmm. Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. The tribal strategy of Afghan fighters, where Allah is Oonerroh, seems to be not the only thing missing from the statements of this "Taliban" RELIGIOUS FUNDEMENTALIST top top top leader. Only "second" to Omar the Just. (Apparently an individual this current bushite incantation of "Dadullah" is totally un-familiar of.) Omar, the Just, whom Dadullah claims he receives his Top Secret nobody can see'im orders. In other winds: Bill a bushite for God and America, an all day long you'll have good faith in a world freeing ourselves of godless dumfuk tyranny implemented by the horribly foolish, as deeply ignorant of Allah, bushite demon liars for the traitor neocon. TRAITORS!

"Those who negotiate in the name of the Taliban will be killed," he [the bushite nazi dumfuk 'Taliban' 2nd in command] said. He did not elaborate.

Allah is all, and negotiating for freedom from naked bushite tyranny is won EASILY through communicating understanding. Omar the Just knew this to say so, as do I. And this is why corporate news professionals forbid me to speak openly without

nazi censorship, ON OUR AIR-WAVES, because I am honorable, right, and true as believable. While America's fun guy, zionist George Norry, states to support PUBLICLY, the ungodly murder of innocent Arabic children for nothing but his personal contempt of YOUR DYING LIFE, while further wanting to invite thoughtlessly nuking places on Earth all for his secret hatred of US freely commutating. Typical bushite. Ending with to tell US again 'convincingly', that bin Laden did do 911 as a terror-ist bad guy in G's World!!?! How so? EH? How so? he don't care man, he don't care. He and his family have millions of dollars to sell you out, so why care for your struggle to survive in bushville soldiering? Frankly, George Norry is a total dickhead. True, he has lots of money in America, but he's still a dickhead nevertheless.

Alex Jones and me aren't on the best of speaking terms, but I will state, a desire to address every same challenge he has adroitly addressed as publicly lacking. And when I am addressed 'officially', I will campaign to put US in the space to realize, we are the government, we are the people. We don't need to run to the hills and encamp ourselves away to defend ourselves to the max from the man, we are the man. I'm telling yeh, I know this to be so as the sea is we magically. Equal rights for all in God's name is self evident. Self evident to ME anyway... but well.. who am i?, right - I'll tell you as I have for more than a decade as a living fiction forsaken for lack of anybody anywhere understanding in totality what I am here on Earth as true Son to Man - a 'understandable' timeless stand in for G to gain recognition through as honest broker. [I've been everywhere around forever, and.. blahblah.. I know people really don't care to know of ancient wisdoms, truths that guide the order to the Universe, cause often they think I'm beyond their comprehension as a 'better than', when all power is in equal respect for others as our hurting brothers and sisters suffering with tyranny by our collective willful ignorance on Justice.[God's bestest is Just for every reason being thus]] I am one serious genius by no accident in words you have as much right to contend for yourself being, if you'd only believe we have some good ideas here to really defend ourselves with.

Please my American friend, help US speak out freely Coast to Coast. So we together can start, on demanding Justice for all, as innocence in serious jeopardy. Dadullah is most likely an individual who holds at least some control over official military functions of NATO in the region. So, we're going to seed loyalties of the rare Patriots in the force to recognize our need to isolate who supports, not talking FREELY for peace easily in Afghanistan without question. No evidence was brought against Laden, therefore, the Taliban were True Patriots, and bushite traitors are pure racist nazi filth

ridden, toxic, as being cowardly dishonorable as despicably evil, enemies to us all. Put US in Command.

Question the bushite, question to anyone who mumbles disagreement in the godly fact, that WE, as Humanity, will spend the better part of this next generation, hunting every last war profiteering nazi war criminal down for our real Freedom from their, so errorred "endless" tyranny of big money terror. Lawlessness with be outlawed, and ANY corporate american who mumbles otherwise, as an enemy totalitarianist, the clear ungodly, (as should be criminal,) will be put to challenge by their very own children, or parents, or bleeding dead brothers. Hannity must be tried for death as lying that the holocaust never happened from Iran. DEATH to the demon liar nazi fu-ker I say, DEATH to the demon liar nazi fu-ker.

"Al-Qaida" = "General Mahmoud Ahmad" = "bush's ungodly partners in crime"

Who IS running this bushite nazi liar show, where they, our elite corporate media masters, kill our stupid kids with their flagrant naked monster lies, while refusing all calls for clarity, Johnny America really wants to know. Like immediately. Help us out here some man, don't be evil.

/ / "Those who negotiate in the name of the Taliban will be killed," he said. He did not elaborate. \ \ He's either with the proven cowards of JTF2, or the two or three "CIA" guys secretly hunting bin Laden in caves out there with tens of billions of dollars. SPENT EACH YEAR 'unknowingly'. (No reason why, but, they just can't tell You, as the paying for it really while DYING) Put US in Command.

/ / Timothy Griffin, Karl Rove's assistant, the President's pick as US Attorney for the Eastern District of Arkansas. Griffin, according to BBC Television, was the hidden hand behind a scheme to wipe out the voting rights of 70,000 citizens prior to the 2004 election. \ \ Timothy needs to be arrested for high treason, for fixing an election, or instead, what? we'll make him a State US Attorney in bushville?

kill all of them

/ / In his testimony on Wednesday, Pfc. Bradley Mason of Company C said that on May 8, the night before the raid, Colonel Steele told soldiers to ``kill all of them.'' Three other soldiers gave similar testimony. \ \

I would offer rewards for more soldiers to come forward. Why? because there truly is, no honor among thieves. Every bushite soldier in Iraq for the liar neocon is minimum, a purposeless dumfuked cowardly thief. See? if you offer a reward, and they don't take it, their 'fellow' bushite, kill'em for it, right? why take the risk it'll cash in over your worthless life? For, who can trust a lying bushite nazi savage? certainly not a lying bushite nazi savage. In other words: speak against committing war criminal acts of lawless aggression in Iraq for Bush, as CLEARLY un-American, and I'll try to forgive you as human. Or, I guess you'll kill yourselves in mutually muted total contempt for this universal life as actually worth something.

When you see and hear on video, sexually dysfunctional, as sadistically satanic grunt puke pro-bush soldiers moaning, while deliberately killing innocent defenseless Family People running for our dying lives from a holy church, or as just simply anyone standing near the side of the road, then, my friend, you'll begin to understand what evil actually is. And, what needs to be done to seriously save ourselves. Seriously. Justice must be won sooner than later.

Five Star American General Johnny Wizard will train American Soldiers to recognize such demonic behaviors in combat as worthy of immediate frag to defend the lives of truly fellow honorable soldiers. Soldiers ACTually, committed to freedom from godless satanic dumfuk tyranny of the antichrist demon, Mr. evil personified, the UN-ELECTED 911 TERRORIST, George Walker Bush and CO..

/ / "He realized that they had killed these three [innocent] detainees, and in that moment, yes, he decided to help his [ungodly murderously nazi fascist] squad members, [escape Freedom through Law wisely practiced]" Gorecki said. \ \

There is much self evident truth hovering above the realities of such statements. For the exampled fact, that he did actually use a weapon against 'his' troops, 'to save them punishment', says a great deal more than they contend we hear. Now really, how ''we be dying as godless war criminals for demon LIAR Bush'' dumb is that? (and how does such an evil thing steal our military command in an un-defended Johnny's America? as a dying for bushite tyranny, irrational neocon war wanker? like holy fu-k..) Remember: evil is real.

The time is now.

Let Johnny Wizard on Coast to Coast everywhere god damn them man, get US on the PUBLIC radio to make something better of ourselves by communicating freely. Do it!

Praise Jesus, and pass the ammo forthrightly. I'm a hungry man.

US officer "upset" Iraqi suspects taken alive, court hears
http://www.telegraph.co.uk/news/main.jhtml?xml=/news/2007/03/14/wsoldier114.xml

/ / A US military officer sounded "pretty mad and upset" that a group of soldiers had taken suspected Iraqi insurgents alive during a raid in which they had been told to kill all military-aged males, a court was told Tuesday. \ \

Come on now, who wouldn't take great joy in destroying any and all such ungodly bushite hatred for Humanity in this light of day, eh? In fact,why don't American Congessmen, who believe in defending Liberty, campaign JUST that? Why not??? Is it because they're LIARS?

Like Coast to Coast's fun guy, he ain't taking our screams, George "pro Arab child Killer" Norry??

Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911.

/ / As a result, the Defense Department put up a Web site in 2005 designed to clarify [to the dumfuk bushite demon liars] that sexual assault is illegal [...] \ \

Rumsfeld, as it was told on Oprah, doesn't want any arrests of bushite rapists though, so has worked to deny Justice for female grunts by denying all requests to the 'Pentagon' from American Police Departments. [and you thought he was fired!] Why? because, they, the very weakest intellectually of America's - do what they're told teen kids, ALL don't have rights anyone in bushite corporate america is willingly strong enough as a dedicated Leader to speak in demanding defense of, for innocence.. Why? because they soullessly advocate continuing bushite war crimes for a stolen dollar. Stuck that way apparently. Support my rise to speaking publicly for open challenge on the rights and privileges of all concerned parties. Rapists and torturers must not be allowed to rule our pirated authority through defending the further 'escape' of the bushmob for 911. I would like to form a global posse of sleuthers to identify on international open line radio, all guilty INDIVIDUAL parties by evidenced conclusion on our highest of priority issues, and get started with the nothing to hide from anyone global arrests, with PUBLIC court proceedings, done all for our public interest as the refusing to further fall as innocent murder victims.

Let's save some lives, what do you say guys?

Or, are we going to go further with this: George W. Bush:
"If the absence of violence is victory, no one will ever win."

YOU

"If the absence of violence is victory, no one will ever win."
http://cleveland.indymedia.org/news/2007/03/24652.php

I know, it's seems odd that I am, at the same time, offering answers to any question on the science of God as is pertains to Justice measured, but this is just who I am to be conscious man. So, if we can get over the shock of me being so especially normal, maybe we can then realize, I have some simple good old ideas that transcend through time by rational understanding communicable between any two people. I am not a "miracle worker" to all those I advise to not eat Aspartame because it's a poison that also makes your body crave un-needed carbs, that will likely convert to more unless fat. So, it slowly kills you, while making you fatter than you need be along the dead end journey faithing in "the system". So, why do some do it religiously? Who cares (for now) but to say, our governments are failing US miserably. I spoke personally with one of the head scientists in Canada at "Health Food and Safety", and he told me the scientific analysis done by reputable scientists I found freely available repeatedly on the internet years ago, was completely true. (It breaks down to formaldehyde, and methanol (a slow lethal poison), among other shockers. Poison. P-o-i-s-o-n-s in our food stuffs. Poisons.) However, he could take no action to defend Canadians "officially" because we, Canadians, have our corporate interest news departments completely refusing to defend ourselves from corporate exploitation anywhere, and as natural consequence, we, as the dying world, would together unrepresented, probably lose a law suit from mutant Monsanto through the self inflicted bounds of OUR censored WTO program. - instituted through the top secretly mastered puppet people persons of the 'unseen' NWO I guess.

I'm telling you, we need me as King.

Look: Aegis's workforce, for American PAYING profit, has been publicly disclosed through CNN to be shooting people in Iraq indiscriminately for your money, and when the Pentagon was contacted by Nick Roberts about what would be done, they responded, nothing would be done by Johnny's America but to increase the multi-hundred-million dollar contract with demon enemy Tim Spicer to continue. Now... why you ask? Because the neocon liars, steal money by lying to cowardly American kids about what they mindlessly, without thought, give their souls for. Tim Spicer openly hires South African goons to commit hardships for American GIs to die without end for, in

lawless tyranny. Peace sells less money for the neocon war profiteers to murder the innocent American as. (Iraqis, along with the rest of Humanity's Men, WILL eventually learn this truth, or life for you will end.) As an Arab hating bushite, (like what you'd find as a publicly proud practiced hatred for all Humanity, by an Amerkan dumfuk soldier in Google's alt.religion.islam), they say nothing for Freedom by Justice, but root themselves to Spicer's monsters who like killing black guys, as world renown mass murdering racist nazi filth. That's why zionist Israel loves them so much.

Look: Somebody stole four trillion dollars out of the Pentagon.

Look: Greenspan STOLE four trillion American dollars for his international billionaire banker friends before 'leaving'. [Asian market chaos SCAM]

Look: Lotteries everywhere in North America are running the same PROVEN criminal scams that cost US ALL billions and billions of public dollars that, without question, (as MATHEMATICAL FACT), regressively destroy our dying communities. CRIMINAL. [Solution: 100 percent cash payouts.]

Look: corporate magic TV people couldn't care less for US if they tried. Ahmad funded Atta. bin Laden claimed he played no part in 911. And video of steel running like water moments before the first tower fell is freely available for download all over the place. CBC, CNN, FOXnews et al. know the Bushmob did 911 in other words. I've spoken to most of those 'in control', and I'm telling you, they're losers, and they know it. Remember: they'll censor my voice to send YOUR child to die for no better good, or reason understood, while entertaining. Weekend TV in North America totally sucks. Now, why do YOU think that is brother? The more powerless they make US, the more money the neocon zionists can murder Humanity for, thinking they might just get away from this if we continue to take no action in defense of anyone as God would will. Let me be Your servant King, by backing me up some here. We need some dollars to eat, and I need it now before we starve to deaths.

Look: Barbra Bodine did the Cole bombing. [the Cole whose crew has been completely overhauled. Where are the many who served there NOW eh?]

Look: America has kidnapped countless thousands without evidence to be held against OUR will indefinitely. [Like the NOT Jewish Israel]

Look: innocent people are being tortured to death by those who hide OPENLY in America's uniform. [let US hunt them down for GOD, despite what demon lies they argue give them as Satanic to avoid "The Law".]

Look: the bushmob war profiteers STOLE the Iraqi Development fund

Look: the more than 100,000 security contractors for Bush are officially deemed lawlessly unaccountable to anyone - THINK ABOUT IT

Look: Negroponte PERSONALLY stole the Iraqi emergency water provision money

Look: Sattler OPENLY committed the worst war crimes of all Humanity's history

Look: I am a guy that is regularly denied public access to our national radio programs because I speak documented truths consistently on behalf of real honorable soldiers and police officers. I agree with most, if not all facts Alex Jones importantly brings to our attention, however, I almost as often, disagree with his conclusions.

Support my cause, which is your cause.

King Johnny Wizard
President and CEO

-

Senior Military analyst, Rob Riggle "In the field John, the soldiers are out there, every day, risking their lives, for a common Ideal: that none of the President's decisions be questioned."

This is more true than a bushite would admit before murdering a honorable father to rape his young child, like Lcpl Boudreaux freely confesses. Boudreaux will tell you, openly, you have to murder the Arab father of the Arab child your planning to rape, because if you don't, that Father will spend the rest of this life, hunting you down in the streets to rip you limb from limb for it.

Let US, me and the few, proud, and the brave, bring that Father's intent to bare on lancing Boudreaux, and any other who would sing in it's ungodly defense.

Zionist american media celebs do tell, everyday, soldiers for the neocon are all Heroes. (True Hero worship has long gone dead, and simple common respect for the starving man of Johnny Wizard is almost entirely illusionary, but for the love of God has for me, the Son, to never stop caring religiously.) While McCainites advocate imprisoning any (chosen) man in America (with our familiar "Exploitation Units"), who has a picture anywhere on their computer of a fully clothed teen, while denying this following censored video of children being beat to death for fun and profit is real. When I watch only thirty seconds, my rage as a god increases beyond anything anyone of Humanity can even contemplate, and i start crushing bricks in my hands with fury, twist iron bars into pretzels, all as a

foolishly feeble attempt to personally have killed those
present in this video. Then I cry. I cried for these
children present in this video the first time I watched it,
and I cried last night briefly, before stopping it.

Please, my brothers, join me in hunting each and every bushite
present in this video down for death. For a Love of God that
will never end, until we have seen each and every responsible
child killing bushite present brought to true Justice extreme.

ARE YOU TALKING TO ME? - A Johnny America Exclusive! - a
candid interview on Bush's deeper than ever political thoughts
about the war, up front, and personal. Surely, an historical
event such as this, with the revelations contained in his own
shockingly powerful words, while granting a stage in Johnny
Wizard's World, is frankly, beyond the pale, quite shocking in
perspective I'm sure I would state again. I feel confident
Bush's surprising candor on life's humbling higher meaning
wont make the crazies 'out there' any more less right per say.
As for the barely living of you passing travelers to our dying
Realm.... be ready to be taken on a journey of such profound
discovery, with a wit never before witnessed from President
Bush!, all about the cruel hardships Americans continue to
endure without guidance through effective leadership. Without
evidence to form his guilty verdicts. That orders the murder
of the innocent with. I kid you NOT. Hey? maybe the Son of
Man doesn't have to wipe out the entire human race after all..
With Bush co-operating now, I personally believe, no, I know,
we're going to make a go of this after all.

Let US speak in challenge to any or all bushite enemies

NATO war plane bombers must be hunted down by the will of
Humanity to be gloriously publicly executed to defend the
innocent lives, they once again, have indiscriminately
murdered in Afghanistan without a sliver of evidence, but for
to say, some dumfuk had a 'rumor' that a single individual
SUSPECTED to be an anti-heroin pro-child defending Taliban
supporter, granted the bombers of NATO to wipe out an entire
village MURDERED indiscriminately by the TRUE demonic enemies
of LIFE. Please, if you must forsake me in your personal
cowardice and self loathing, don't forsake GOD and America by
not killing with PRIDE, these bushite dumfuks of NATO the
first chances you get. Love liberty as if it were your own,
and kill a lawlessly murderous bushite nazi savage for your
love of anyone included. (You can quote me forever on that.)

Giuliani told ABC's Peter Jennings on September 11, 2001

'..and I was operating in there [75 Barkley St.], when I was
told that the World Trade Center Towers were going to collapse.'

WTC TOWERS? "WERE"?

Did you know that the international Johnny Wizard comic book
is out there? Don't miss out on picking up a copy for

yourself, or your loved ones. And did you know, I'm trying to get on international radio without a censor to thunder my audience back into submission. I HATE HANNITY. All I want is free open debate to resolve this crisis, that doesn't have to be so ruining our dying worlds without questions forwarded by the dumfuks. Justice is Paramount through reason to be so. The Bush Administration have been up to no good, escaping for 911, that New York City should sue for. Hire me on as legal consultant buddies, cause I'm like near starving broke here, with supreme court challenges failing my cost factor, and hunger pangs slowing our progress on fighting unjust incarceration. I desperately need money, like now, as a gift, or an advance on a industry paid private consultant gig. Or, instead, maybe you'll idly watch some innocent person willfully be sent to prison by liars in your demonized name, to defend the ungodly evils of war criminal traitor, our Mr. Bush Jr. in foolish disguises. Your call Bud.

be Wiser,

Johnny Wizard - Patriot Liberator of Eternal Destiny
(i.e. REAL sustainability as self sufficiency)

(i.e. nothing is separate from existence ourselves, not even time, and Justice is binding to defend our lives if practiced fairly with it's elemental divisions through reason. Example: a person accused of a criminal offence, without any evidence, is INNOCENT. Those who say otherwise, are the actual terror-ists. Civilization's ancient Founder Hammurabi, suggested just to openly publicly have executed those who lay capital allegations without any evidence, while working to close outstanding criminal investigations. A made CRIME within ourselves Hammurabi claimed, and by thinking such ways, brought birth of 'Civilized' to an untamed till then, chaotic confusion. Old becomes again anew, because Americans are weak as polluted, and too cowardly to defend the rights of US innocent. Let's change that. Support my climb to international controversy, with my unchallenged claims of direct accountability being sought, for the 911's neocon war terror plot.

The pro-bush irrational military said only eight innocent
un-armed Afghans were counted as murdered deliberately, by
those who believe our Mankind, can not ever find themselves
accountable, without zionist controlled, corporate news
permission. See? The military counts mankind as zionist, but
I am a man of real men, committed to defend our world from all
enemies, foreign, or domestic. Unlike a bushite traitor to God
and America, who's word, as Oath, means as much to them, as we
do. Ungodly as they are loveless, the bushite, is Life's enemy.

for all able bodied men, to kill treasonous bushite on sight,
for every time you love God by defending the innocent from
murder, (the innocent whom any pro-bush corporate professional
hold in total self contempt,) you save REAL peoples lives, and
you defend God's good name to love God as ourselves committed
to true Liberty. Bushites are enemies of freedom, enemies of
God, and worthy of death, before allowed to further bomb

after day without risking instant frag because, bushites are
blind cowardly thieving nazi fascist savages, brain damaged,
who believe as satanic demon whores of Molech, they can con

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

Former FBI Director Calls For New OKC Bombing Investigation

/ / The FBI man in charge of collecting evidence from the
government building destroyed by the Oklahoma bomb has called
for the case to be reopened. \ \

WHERE IS YOUR NATIONAL NEWS TO DEFEND OUR PRIVATE INTERESTS?

First things first: America must demand the immediate arrest
of those who told America the victim committed suicide, when
clearly, due to autopsy photos, the individual was tortured to
death as the innocent. So, the 'officers' responsible for the
fraudulent claims, need to be arrested for accessories to
MURDER. The torture will earn them both the death sentence,

if found guilty under STANDING AMERICAN LAW. And any bushite like a, it's always a great day George Norry, who purposefully with criminal intent stands in life's continuing way for Justice's demand, American Patriots will phone to Bill with every once of pinky power we have at our disposal.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege. Coast to Coast radio hosts need to be publicly challenged for debate they deny US knowing of together naturally speaking. Great example of our Problem: CBC National Radio, in Canada. When a caller phones during the very rare moments we're taking public words, have a pre-broadcast rig-a-ma-role question session, you'll have with not only the OFF-AIR screener, where he'll probe you for controversy, but after the first process of noting in book form your disclosed intel, will notify you that; IF your independent thought is granted by the "Producer" (- who reviews everyone - rules are rules -) Our national station will phone you back this afternoon, so stay tooned, to line you up with your baking gingerbread creds. They never ever dido! The more Brilliant you are, (like the highly charged as extremely charismatically charming, wild man ruler, Johnny America - the media phenomenoner) the higher probability they'll find POSSIBLE concern, on their do nothing for your taxed attitudes..!. Why take chances someone might show a greater living responsibility to a real suffering God as our left corporately forsaken Country?.?.?. A dying Humanity.

Look, seriously, my friends, we have all the answers to our problems.

Support Johnny Wizard's personal challenge against thieving LIAR traitor Hannity, and his corporate nazi bush whores who lore our stolen values by how much they can deny US privilege of equal standing.

Senator Hagel "..we're decimating our National Guard."

Again, commander Blount, a Saudi, from the third infantry, gave out 170 TONS of plastic explosives from Qaqaa to kill Marines with. And, "American Patriots" don't rightly bill the true demon nazi fuker for it. Again, Blount, a Saudi, confesses to ordering SOULLESS bushite soldiers to murder People indiscriminately for profit, all so to let US know he is there still laughing with our stolen billions. Bill the bushite Bush bitch Blount, a Satanic demon ENEMY for it.. why don't you? as the snookered to sacrifice your loved Family Guy, American Dad? Corporate TV News people are part of a death cult that doesn't rely US on evidence for proof they say we believe them unbiasedly without question. While forbidding ourselves to hear OUR calls for real Justice.

Get it done.

promoted through the tyranny of censorship

Corporate News America's Terror Expert, Gaffney, who publicly advocates the rape and murder of the innocent in Iraq to thieve from for the 'escaping' neocons, (as the truly UNGODLY,) stated these words about why American Soldiers continue to lawlessly DIE sacrificed for no better good or reason understood, as total willing dumfuks under deep hypnosis:

"It is not George Bush, it is not the Neocons, it is not people who have been advocating waging that [IRRATIONAL 'Evil' UNJUST] war [against the established innocent] where we find our [hidden from view] enemies, who are responsible for that fact that we are indeed in a global war [sacrificing our conned kids to the un-accountable war profiteering thieves of American labor as the UNELECTED]. It *is* the enemy that started it, that is pursuing it, and that is trying to bring it here back here home now. [, and that way, us neocon zionists would miserably fail against those who would speak in freedom's demand for Universal Justice. Real freedom I mean of course, you know, evidence to form conclusion factually, public trial by questioning juries, blah blah blah. We can't have that Now can We? Colmes? Greenwald?]"

"," = swinging pocket watch

Don't let these neocon zionist bastards doe this to US. Either Gaffney suffers from some blind dolt syndrome, where he clearly can't see himself flailing madly in criminal ignorance, or he's an accomplis of blatant treachery, to help escape his demonic war profiteering benefactors who murdered thousands of Americans for similar gains through the unspeakable bonanza of the "Pearle Harbor" like event that 911 was. What the peenackers publicly stressed they would crave to fool US into Iraq and beyond as glorified war criminals. 911, New York City, where thousands of Americans were murdered, and millions polluted. killed like now American teen soldiers with the Iraqis. Led by a Sattler, or Mattis, Blount or Russell, who order the murder of women and children openly, and 'they', the actual soulless minions of the demon antichrist, the true dumfuk cowardly enemies of Humanity, don't cut them down instantly instead for Life as cherished. That must change for our betterments. Kill any bushite bomber and be loved by God's America.

Any Commander that doesn't support the arrest of those responsible for 911 and the subseqent neocon war crimes of Iraq, is a traitor to God and Country. Death to the bushite, death to our enemies - so says Johnny.

How much much God take as taken, before you people get on over this criminally empowered war monger Congress of an unelected

lawless dictator demon, and call them out on the turning talk commercial radios, all to finally truly defend ourselves with a good media plan for results.

Make the call, be a man.

further to the death cults of corporate news:

Realize, our corporate experts on Life in the national news agenda, don't work to defend our children from mercury in innoculations they promote for profit. Nor, do they tell US about radio-active depleted uranium. Instead, as now, they look to blame others, even God, when suggesting dna is responsible, as if the American corp public could even comprehend multi-demensional cross kingdoming. They can't, (too stupid) but their Satanic death cult [no evidence] where they News pretend and WE DIE, they are willing to continue to go with by refusing all calls. Ahmad funded Atta, but they don't want to tell US there either. Look how many people they have so far watched murdered as the innocent for zionism while entertaining.

Support our call to be heard my brothers.

-

Sir Ken, head of the Crown Prosecution Service

"The fight against terrorism on the streets of [..] is not a war. It is the prevention of crime, the enforcement of our laws and the winning of justice for those damaged by their infringement."

You got that right. So, join US in demanding the quick trials, and public executions of known bushite enemies who murdered Americans on 911 with general Ahmad, and who with Peter Powers, murdered the innocent in Britain for more stolen goods against God. And anyone in the air force as bushite bombers should be a great joy for US all to hunt for prosecuting too. The bushite dumfuk is an enemy to our lives, with it's blatant naked contempt for the innocent, who like the demon liar THEIVES at CJOB, George Norry, or Hannity, will forbid ANY human defenses of the lawless dictate of the IRRATIONAL tyrannical demon antichrist, all so to victimize more of You as the censored forsaken.

REPENT. [from the Greek, meaning to think.]

The TRUE Son of Man Johnny Wizard Exists Born to this Eternal World to end permanently demonic bushite enemies of Creation. Help Life out by destroying cowardly America's greatest threat to the Species, the greatest threat against Humanity's Freedom to be Loved by God. Corporate nazi zionist bushlores at CBC,

CNN, and criminal thieving from the desperately poor in Winnipeg CJOBers forbid open communications, and I can't 'take over', because then I'd be defeating my own, power to the Peoples argument. So, it really is up to YOU, yes you there... reader. Who.. really..? YOU, here, now. Life begs, takes a stand for your fellow man, and demand our voices heard for the defense of the entire human race. And be quick about it. Repuglicons don't want freedom from endless war where they kill your forsaken kids, for we all know, bushites would be publicly tried, then spend the rest of their treasonous lives behind bars broke, or dead from lethal injections made popular in America. Again, officer Bowman is responsible for letting 'escape' those from Fort Detrick, who attempted to murder the American Congressmen who thought going into lawless tyranny, !makes no sense! Where is corporate America on our issues when OUR free speech is ruled by the irrational evil minds of Limbaugh, Bell, and Norry?!?!! Back to Bowman: Bowman, also is responsible for sabotaging the Moussaoui warrant. And, how much you wanna bet, he's probably the same bushite who found Atta's passport, and likely had all 19 names of the high-jackers to give CNN, CBC, and FoxNews just like the neocon's "bin Laden" would have too. Take the publicly prancing bushite enemy out for questions by yourself, if he doesn't plead his defense publicly on Coast to Coast by tomorrow. Remember, there ain't an "Intelligence" group worth their salt on the face of our Earth, that doesn't know exactly what I'm doing here honorably for a real Justice made through careful thought. So, support Johnny Wizard speaking for public challenges internationally, and with the 23 plus co-operating for life 'Intel' agencies, along with, anyone else who can join in on the call. as a growing number of Patriot Soldiers, who trust yourself to see, this wanting of Justice isn't complicated. A person accused of a terrorist event without any evidence, has our accuser a bushite, who should be watched carefully until verifiable conclusions are done by the understanding of fact. Not faith. With George W. Bush making real decisions in faith, expecting us to believe as corporately broadcasted unabashedly unbiased, that he is not a deliberate incompetent monster war criminal of unfathomable evil?, who is just too 'stupid' to understand why we are innocent until proven otherwise?, is really something we all need to scream about to save our dying lives.

"[..] just like the neocon's "bin Laden" would have too."

However, the real Laden, on video taped confession, claimed he played no part whatsoever in 911, then later, offered himself for arrest, confident he would be acquitted. Not corporately newsworthy though, so, few even know why their American child was later died in the terrorists act of corporate contempt for US living Freedom with something greater as real Justice wills

Yours again,

King Johnny Wizard

CONTACT

/ / IDEA: Let's get our show up and running, by allowing open public investigations To be conducted internationally, with open line challenges, so we can publicly isolate each and every bushmobster personally responsible for 911, and then, all of everything else still left outstanding murdering ourselves. Whatdoyahsay?? \ \

Art Bell, the zionist enemy of Life, wont allow free communications with the established facts though,

What do you think? Are you truly all alone on this?

Again, more than half of the money being spent on demon Bush's wars against life's reason for being, is completely left un-accounted for thieving. Not spent to offer dumfuk cowardly soldiers help hunt to kill bushite rapists and torturers. Stolen American values Just like the bushite soldier on the ground, who after gunning down innocent people in the street, go through our pockets to steal the spared change. Kill a bushite for the love of God why don't you my American Patriot brother and sisters?, today!

Again, my friends, Art Bell and George Norry have thousands of bushite dumfuk in America that will phone them to tell US how greatly they are to have no care for dying freedoms in America. While when the humans call, Art Bell for example, between breaks, when privately screening his calls, just hangs up on anyone he fears might articulate things like Ahmad funded 911's Atta, according to the FBI, in defense of America. I say, we at LEAST, talk about putting them both to death for treasons against Your Life dying teen soldier, wannabe Patriot. Make sense?

Again, corporate nazi america states 30 percent of America supports the ungodly George W. Bush's demon antichrist action, when in truth, it's less than one in a thousand. it's just CBC, CNN, CJOB, and Art Bell the liars ain't taking our calls for enlightenment. just like they treat the innocent in Palestine for zionism's encouraged racist in-action. For what does a fan of 'we're the best' Coast to Coast radio network family know about nothing after we witness them froth at the thoughts of nuking countries, or calling for enemies, none of us here in North America have any real problems with?

People of Earth, know, these bushite soldiers war Creation proudly with repeatedly committing aggravated felons, and

South African death squad goons, all to war Love for the
neocon god haters. Who, as peenacking atheists, as their very
own documents stress, would murder anyone of US for a stolen
nickel.

NEVER seen any legitimate bombing campaign, but for to kill
People indiscriminately like NATO regularly does with
radio-active toxic waste, while then sending in the dumfuk

are OPENLY traitors, as the TRUE enemies of evidenced Justice,
as the Freedom to do our own things loving God on our own.
Besides, most bushites aren't even registered American
citizens. Bushites need to be hunted down for destruction -
by the Loyal Christian American Patriot Soldier, the ones who
war to win against those who torture US innocent to death as
the ungodly Satanic LIAR enemies. Save the Humans, kill a

A Public Letter to the "American" Coast to Coast Radio Network:

1. We, as the People, demand you allow US, the human species to openly discuss the public evidence on who funded the terrorist acts of 911 according to the FBI. And full disclosure on the science of building Seven.

2. That the Iraq war never had, nor ever will have a justification, concluding Naturally, that all stolen Iraqi money must be returned by the will of GOD to the victims; with those responsible for stealing it, made to pay US back, with the true American Patriots to be found, backing US up 100 percent. The bush administration has teamed our kids to mercenary forces who have no loyalty to freedom but to freely die another Marine for more dying stolen values. While successful at it corporate America, just lies and lies and lies without shame, nor apology for the death of your poor cowardly kin.

3. Also, that mercury tainted vaccines are deadly stupid. Mercury is scientifically understood, without question, (no doubt) to be a neural-toxin, and, Influenza is a constantly mutating virus. So, pre-determining which 'deadly' strain is going next, is only because the WHO wants to continue killing US for huge cash profit. With cult slaves, like those who forced Jones Towners to drink at gun point, are the same as those who now demand we give our girls of America from Texas such. It seems the magic TV news people don't want to trouble us on this matter of our actual survival.

You must wake up to life's demand for you to defend our dying lives my friend. Please? Make the call, be a man to defend our women. Be a man to protect our children.

Support our call to be heard my brother.

That's all.

/ / "There were Harriers dropping 500lb bombs on buildings. If they're dropping 500lb bombs without knocking on the door first, how can you argue the troops on the ground did anything wrong?" \ \

5000lbs of radio-active toxic waste that will murder for years more like, while after, then striking again to get the god helpers and screaming children, then even, as in Fallujah, going house to house to murder every one, young and old as the truly Satanic. Just obeying lawless orders to thieve from Humanity as bushite for neocon zionist traitors of G-D doesn't fly in the big book. Exit strategy to save the lives of dying Americans:

War bushite LIAR zionist repuglicons who did God wrong on 911

War bushite who LIE to American Sons and Daughters to not hunt those who stole billions with ear-marks, Social Security, no-bid contracts, Iraqi oil, ect.

War those who stole the Iraq Development Fund, and the emergency monies left to save the lives of our dying children

War bushite who feed soldiers radio-active toxic waste as harmless

War bushite who support torturing the innocent to death

War bushite who sing about the joys of murdering Iraqi children

War bushite who beat to death barefoot Iraqi children

War bushite who jokingly beat lamed dogs for fun

War bushite who claim they are lawlessly un-accountable as liars.

War bushite in the air force who target bombing innocent People
like in Fallujah or Somalia with land mines and mini nukes

Justice for Humanity.

Please, help US.

The guilty party of Haditha have confessed that targeted killing of innocent children is fair game in their worlds, and as confessed, they 'got away' committing the same Satanic acts - going house to house in fallujah murdering more than two hundred thousand innocent folks for LIAR E-N-E-M-Y Sattler. Bushite corporate america, has stated in silence, the bushite

enemies of Haditha will never face public execution for such offences, YOU apparently WILL NOT GRANT IT, too cowardly, and in all likelihood, (like those of the Saudi Blount's third infantry) will be allowed to walk freely down american streets after being found guilty as politically supporting the robbing and murder of innocent men, women, and children all because we're rag-heads or niggers. The, deserving to die as illiterately intolerable bushite drone soldiers HAPPILY, WITHOUT QUESTION, co-operate with ANY lawless mercenary forces such as south african death squad goons in finding the enemies of themselves. Purposelessly ungodly bushite soldiers are told they are DYING to defend Iraqis, while breaking out of prison, mercenaries caught trying to kill innocent Iraqis for fun and profit. While, at the same time, actually having SLAVES from India preparing their lunches!!! And guess what? they're coming to live bushite america as the patriots after they get killed you're forsaken American Son or Daughter teen! With millions of stolen American dollars to set up new 'freedom' operations.

Let US demand open radio communications on the mathimatical facts to save our own selves further victimhood to their personal contempt for the true value of YOUR life. Thanks.

Can you help us speak this outrage to your local media outlets?

thanks again bud.

AFFIDAVIT

AFFIDAVIT OF JOHNNY WIZARD

I, Johnny Wizard, in the city of Winnipeg, Province of Manitoba
MAKE OATH AND SAY:

1.

Pakistani ISI Director General Ahmad orders an aide to wire transfer about $100,000 to hijacker Atta. Ahmad later resigns after the transfer is disclosed in India and confirmed by the FBI. [Dawn, 10/8/01, Times of India, 10/9/01, Wall Street Journal, 10/10/01, AFP, 10/10/01]

2.

On March 3, 2002, MSNBC's Jim Miklaszewski reported that he had received anonymously, top secret presidential war strategy documents dated September 9th, 2001, originating from Condolezza's office, outlining a strategy to invade Afghanistan premised on blaming bin Laden a terrorist, but providing no evidence to back up the allegations, thereby guaranteeing criminal invasion. Only workable if Laden pleads innocence to a crime that hadn't yet taken place, a crime serious enough to "justify" sacrificing American GIs truly for a liquefied natural gas pipe line for pension thieving Enron. ["The Dahbol Working Group" and Bridas] Any evidence for any offense would have been sufficient to have Muslim fundamentalists hand Laden immediately over, as they had offered [as others of other nations had also] repeatedly during the Clinton years.

CBC and CNN have still, to this day, consciously refused to do any follow up on the intelligence, deciding instead on behalf of dying people everywhere, our public devolvement of a just society.

RTÉ News - US rejects Taliban bin Laden evidence calls
21 September 2001 17:41

The White House has rejected requests from Afghanistan's ruling Taliban for proof that Osama bin Laden was responsible for last week's attacks. According to the US Secretary of State, Colin Powell, the United States has enough evidence to try bin Laden in an American court.

The US Government said there would be no negotiations.

Good point. Tho I usually don't use memories that heavily, since the 703

HD and DRM may be different technically but share commonalities in how
they degrade in less than perfect conditions. Both systems do not have
enough margin built in to make them an actual improvement over analog.
The almost endless BS by some posters and economic interests has been
hard to take. These systems do not use enough bandwidth to actually have
improved sound. These systems do not have enough redundancy to have
adequate weak signal or interference protection. HD and DRM sound
quality and reliability just plain suck.

I posted this years ago that these systems do not fit the medium in that
they do not transfer information in a more reliable manner that analog.
There is no improvement using HD or DRM over analog as a result.

Having a limited band HD makes to much sense and iBiquity was intending
to cram HD down everyones throats anyway.

You are about to run out of luck when they start HD broadcasting at
night.

They don't have Radio Shack in CA?

I think your whole premise is faulty. Most "average citizens", rich,
middle class, or poor, do not have NOAA radios. They find out about
impending weather conditions from broadcast radio and television.

HtH,
After 40+ Years of Shortwave Radio Listening (SWL'ing)
you know what you hear and can decern the 'sounds'
of different Languages. Like the sounds of different kinds
of Music to ones ears. Not to complex of and idea and
realy simple to understand.

Mr. AI was trying to make subtle racial remarks. First of all, Richmond isn't all that close to Oakland. In fact, they are in different counties. There is a Fry's in Concord, and both towns have BART (Bay Area Rapid Transit) service, so a Richmond resident could get to Concord even if they didn't own a car. CA is plenty of RadioShacks as well.

There is no denying Richmond has some tough neighborhoods. However, parts of town are middle class, and Point Richmond is upper middle class. Point Richmond was where Pixar was located until they moved to Emeryville.

Jackson,

I am a Manual Band Scanner so with my Icom IC-R75
Receiver I have set Memories to the Bottom Frequency
of the Shortwave Radio Broadcast Bands that I normally
Listen on :
90 Meters = 3200 kHz
75 Meters = 3900 kHz
60 Meters = 4700 kHz
49 Meters = 5900 kHz
41 Meters = 7100 kHz
31 Meters = 9300 kHz
25 Meters = 11600 kHz
22 Meters = 13500 kHz
19 Meters = 15100 kHz
16 Meters = 17400 kHz
13 Meters = 21400 kHz
11 Meters = 25600 kHz

Note : The Grundig Satellit 800 Radio already has
this Meter Band Memory Set-Up built-in as a feature.

Followed by WWV / WWVH on :
2500 kHz
5000 kHz
10000 kHz
15000 kHz
20000 kHz

So with less that 20 Memories I cover the Shortwave
Bands and get to do what I want Manual Band Scan
a Band - Just to See {Hear} What's Out There . . .

I also have a few Favorites keyed into Memory -and-
When I am trying to catch a specific Broadcaster I
will key it into a Memory and place a Stick Note next
to the Radio to remind me to take a look a few times
just to see if it is there.

every thing is written down on paper -cause-
my 'memories' ain't to good ~ RHF

Telamon,

Are you comments directed specifically at the
AM/MW Band and the Shortwave Bands ? ?

It would seem that FM "HD" Radio using IBOC
does work better than Analog and offer some
improvements in sound quality plus the 2nd
Subchannel can be used effectively.

LW,

WPED339 on 790 kHz in the AM Broadcast Band
is about Communications and reaching People where
they are without requiring any extra effort on their
part to hear you

1 - Nearly Every Household in the USA has
at least one AM/FM Radio ~ 99.73%

2 - Nearly Every Car and Truck in the USA has
a AM/FM Radio ~ 99.73%

TIS and Alert is about keeping it simple and
Reaching People where they are [.] With no
special Weather Radio required .

Keeping the Most People Safe at the Least Expence.

The same concept applies to puting the USCG's
SF Bay Radar Scan and NOAA Weather Audio
on a UHF TV Channel - Most small Boaters
can have a small 'portable' TV on-board to check
things out without going to the expence of buying
expensive extra equipment.

M-Sushi,

Richmond is North of Oakland and they are about
15 Miles apart down the 80/580 Freeway on the

East Side of the SF Bay.

The average Citizen of most US Villages, Towns
and Cities does not need a Weather Radio -and-
an 'effective' TIS and "Alert" Radio Broadcast System
located on the AM/MW Band serves more people.

1 - The First thing is Emergency "Alert" Sirens

2 - The Second thing is a TIS "Alert" Broadcast

3 - The Third thing is a Reverse 911 Telephone System

Don't do # 3 until you have fully implemented # 1 & # 2 [.]

The City of Richmond has # 1 and # 2 and is
trying to keep All it's Citizens Safe from Harm.

And Yes I did detect a 'tone' of Racism in "AI"s
comments -but- one thing he said about most
US Households is true - no batteries in Radios

Yes, but unfortunately, I have decided, as of today, to no longer post frequencies or other logging information here due to abuses by Mike Terry-UK, and others, who have taken it upon themselves to take information posted here and post it elsewhere without proper attribution to either myself or the original poster.

2044. Mind Control and Directed Energy Weapons

Mind Control and Directed Energy Weapons

Do you know Mind Control Weapons and Brain Washing (such as CIA Mind Control Project : MKULTRA) ? Do you know voice can be transmitted to human's head from long distance(V2K)? (In 2002, the Air Force Research Laboratory patented precisely such a technology: using microwaves to send words into someone's head.)Do you know Directed Energy Weapons(such as: Electromagnetic weapons) and Non-lethal Weapons? Do you know that people's thoughts can be read now? Do you know Nano technology weapons (such as British MI5 Nano technology spy weapons which can control little spy mice from long distance)?

Such kinds of weapons have already been used covertly to torture and harass innocent, legal, unarmed and defenseless civilians for many years all over the world.

There are more than 1500 people who are suffering terribly from mind control and electromagnetic weapons torturing and harassment. Some victims were only 21-22 years old when the first time they were seriously tortured and harassed.

Have you ever imagined that there even was not one happy and peace day in the life, but only suffering for 5,10 or 20 years? Yes! Some victims died, but at the last minutes in their lives, the only thing belongs to them was still suffering.

Please come to help us by signing your support to stop these kinds of weapons torturing and harassing lawful citizens. Our goals:

(1) We wish a resolution from United Nations to stop Mind Control and Directed Energy weapons torturing and harassing. (2) We wish all government cooperate together to sentence those torturers according to law.

It's far worse.

He still seems to think this is "google groups" since he just posted
reems of google fine print that basically have no relevance to
Usenet.

He constantly changes subject headers without leaving in any
reference to the original subject header.

It's fascinating that this just reinforces the notion that he
is starting all kinds of off-topic threads, since they simply
look like he is starting off-topic threads.

He often (or maybe always) leaves in the full message
he is replying to), even when all he has to add is one line of response.

Like you say, he is one of the worst perpetratores of off-topic posts,
at the very least he likes to get his digs in when someone
does post off-topic junk.

For someone so "concerned" about the state of the newsgroup, he
certainly spends enough time getting into arguments with people.

It's one thing to spank an idiot who thinks it's acceptable
to post an off-topic message here, it's another when he keeps
at it for posts and posts.

Note that it is his behaviour that makes me spank the off-topic
idiots. I see no reason to be polite to a bozo who thinks posting
about movies is appropriate here, and the fact that this "RHF"
is doing his best to allow off-topic posts is the problem.

A few months ago, in his self appointed role as "net cop" here (I
put it in quotes because I want to reinforce the notion that he
can only play at doing any good in this newsgroup so long as
he is part of the problem), he posted about how people should

use "OT" in the subject headers of off-topic posts. In effect, he's trying to give permission to off-topic posts, by being "civil" about it. Yet the real lack of civility is in the people who can't keep their off-topic junk out of this newsgroup.

He has no real notion of netiquette, and certainly his ridiculous empty posts and empty replies in an attempt to kill threads just add to the clutter.

Long ago, I basically tuned out of his posts, since he rarely has anything valuable to say. Just links to stuff from elsewhere. I could live with that, but his nonsense interpreation of the rules, and his hypocritical stance on off-topic posts is a concern to this newsgroup.

I should point out that his lack of real content, is just echoed in the village idiot's posts, with all the nonsense posts about search engines. The clueless following the clueless.

He constantly encourages the village idiot, nevermind that the village idiot basically has nothing of value to post here.

He's like a lot of clueless posters, taking up bad habits from those with bad habits. Hence the changing of subject headers to include people's names in them, a sure sign that he realizes people aren't reading his junk and that's the only way of getting attention. Note the cross-posted junk from rec.radio.amateur.misc often has that sort of nonsense, and surely that's where he's gotten the brilliant idea of putting people's names in the subject header. I suspect he also learned the nonsense of changing subject headers on a whim, and not including any of the original subject header, comes from those posts.

And once again today, he is confused about the purpose of this newsgroup. Despite the title, it is not now and never has been strictly about shortwave. It's about the hobby of radio listening, and that includes AM broadcast, FM broadcast, low frequency. The intent was clearly for the "SWL" type, ie people who were interested in the hobby as opposed to merely listening to the local talk show. The only real exceptions are amateur radio, because there's a whole hiearchy for it, rec.radio.amateur.* though someone who only listens to amateur radio likely does fit in here. And scanners, since there's at least one newsgroup for that specific area of the radio hobby.

It's no different from "Communication World" circa 1971, where all kinds of listening was covered.

The joke is that he keeps posting old messages about the purpose of this newsgroup, and old messages even spell this out.

Look at the messages, and we get his spew, and the spew from the village idiot, and very few actual on-topic posts. INdeed, take away their spew, and there are actually very few posts here.

That's the state of the newsgroup, and the only can defend these two posters is because they've come so recently that they don't have a clue what this newsgroup used to be like.

I don't think those Helicopter Pilots were dumb.What it was, (in my opinion) was too many Helicopters sharing too much of the same air space and inattention on the part of the Pilots.By the way, one of the main thingys that causes Helicopters to fall out of the air is, vibration.

www.devilfinder.com They fell apart in the air

(Vietnam 1964: ''They just fall apart'')

Looka here, this afternoon, (this Saturday afternoon) I am going to Duece McAllister Nissan (on the Hill, it's about five miles East of doggy's couch) www.devilfinder.com Duece McAllister Nissan Jackson Mississippi)

Because on Monday of this week, I received in my snail mail a big fancy double fold glossy card from them that says I am a guaranteed winner! (I will believe it when I see it) I am going to get over there this aftenoon and spin that wheel.I doubt if I will win that $250.00 cash, but I want y'all to wish me Luck.

Early 60s is way before my time. (born in 1974) I remember the
Weatheradio, which came in cube and regular versions. A while back I
picked up a Weatheradio at a thrift store. It used the AC line cord as
an antenna, which made it annoying to use. It tended to pick up
spurious FM broadcast signals all over the place. Using the AC line
cord as an antenna was common practice on clock radios back then. It
also didn't distinguish between test alerts and real alerts. After
being woken up several times for no reason, I unplugged it.

Today I use a Midland. I can't remember the model, but it's the same
one that is sold cheap in tornado alley. I've heard that a lot of
tornado alley residents don't have weather radios, which in Oklahoma
can mean the difference between life and death. After a tornado hit
Evansville, Indiana, in the middle of the night, killing people in
their beds, people rushed out to buy weather radios according to a
news report. Apparently they never thought they'd need one. One woman
lost her infant son in the twister, after which she bought a radio and
placed it next to a photo of her kid salvaged from the rubble on a

table in her new home. The TV report showed huge displays of weather radios in stores. You just don't see that in California or in the Southwest where flash floods are a concern.

2067. For Shortwave Listeners (SWLs) : Which is Better to Use ? a FM Folded Dipole Antenna ? -or- a Whip Antenna ?

"Reflex Snooper" Shortwave Antenna
also does Scanner plus FM Ham too !
http://cgi.ebay.com/_W0QQitemZ270149136286

Basically a Ready-Made FM Folded Dipole Antenna
with a BNC Connector attached to hook-up your
Handy-Radio or Scanner. And -IF- they cover the
Shortwave Bands too - Oh well you have an Antenna
that is better then a Rubber Ducky type.

OK - SO THIS GOT ME TO THINKING . . .
For Shortwave Listeners (SWLs) : Which is Better to Use ?
a FM Folded Dipole Antenna ? -or- a Whip Antenna ?
http://groups.yahoo.com/group/Shortwave-SWL-Antenna/message/14026

The basic Ready-Made FM Folded Dipole Antenna
has an impedance of 300 Ohms and using a BNC
or PL-259 to connect to a Radio-Receiver's LO-Z
{50 Ohm} external Antenna Input is a 'mismatch'.

However, using a Ready-Made FM Folded Dipole
Antenna connected to the Radio-Receiver's HI-Z
{500 Ohm} external Antenna Input is a Match ! :o)
http://www.universal-radio.com/catalog/mwant/3239.html

Now the common Ready-Made FM Folded Dipole
Antenna usually has an 8-Foot Balance feed-in-line
with a 6-Foot Folded Dipole {Tip-to-Tip}. This is a
Horizontal Antenna Element with 12-Feet of Wire
in it but effectively on the Shortwave Frequencies
is just a thick 6-Foot Wire. The 8-Foot feed-in-line
allows the Antenna Element to be placed away from
the Radio : On-the-Wall or Across-a-Window for
better reception.

Contrast this to a Back-of-the-Radio Whip Antenna
using a PL259 Plug connected to the Radio's LO-Z
Antenna Input or a Built-in Whip Antenna. These
are usually about 3-5 Feet long; and rigged straight
up Vertically. Plus they are very close to the Radio.

Read - Building a Telescoping "Whip" Antenna
for the Back of your Shortwave Receiver
http://groups.google.com/group/rec.radio.shortwave/msg/0e3079f01b0070c6

IMHO - As an Emergency {Back-Up} Antenna the
Ready-Made FM Folded Dipole Antenna is the better
'choice' then the Back-of-the-Radio Whip Antenna
for the Shortwave Radio Listener (SWL'er).

NOTE - If you must use a Whip Antenna on the back of
a Radio then think about using a "Miracle Whip" Antenna
that is designed to use there and can be Tuned to the
general operating frequency being listened to.

in an emergency don't forget the radio; the antenna

In the bay area, 15 miles is a large distance. I hardly consider Richmond next to Oakland. Geez, you have to drive past Berkeley then get on 580 to reach Richmond. To be honest, I have no reason to go there, but have driven through it a few times. There are times when the Richmond Parkway comes in handy if you are trying to reach the Richmond bridge, i.e. heading to the north bay.

It's been a while, but you can go through Orinda and eventually reach the southern tip of RIchmond. I think the Dam Road takes you there. I've hiked most of those east bay hills at one time or another. [Generally I'll hike TIlden Park rather than the Richmond hills.]

HtH,
After 40+ Years of Shortwave Radio Listening (SWL'ing)
you know what you hear and can decern the 'sounds'
of different Languages. Like the sounds of different kinds
of Music to ones ears. Not to complex of and idea and
realy simple to understand.

OK, and station calls, tunes, etc. surely will help.
Anyway, I did think you really understood what they were
talking about in that news bulletin.

Closer to : North 37.78 -and- West 122.24
http://maps.google.com/maps?q=n37.78%20w122.24

OK, so we still have a maximum of 60 minutes in 1°. :-)

HtH - You got it Mapped out now ?

Think so.
N37.78° W122.24°
means between N37.77500 and N37.78500
and between W122.23500 and W122.24500
So it could be any place within a distance of
709 m (775 yd) from
N37.78000° W122.24000°
(which is 70 m or 77 yd from Cotton Sreet).

Max. 455 m (498 yd) north of Cotton Sreet
Max. 360 m (394 yd) east of Cotton Sreet
Max. 530 m (580 yd) south of Cotton Sreet
Max. 500 m (547 yd) west of Cotton Sreet
Right?

FO&A,

Some have pointed out that using the "T"-Adapter is not
Electrically Wired the same as the GreerTech design.

So here is an Alterative Method of Building a "Multi-Hub"
Box to allow the use of differenct Loop Antenna Elements
when ever your want to Swap-them-Out :

http://groups.yahoo.com/group/Shortwave-SWL-Antenna/message/14031
.
Building an "Electrically Correct" GreerTech Coax Cable
[Shielded] "Loop Antenna Element Multi-Hub" Box :

Then you will need a Metal Construction Box that will enable
you to Mount Two SO-239 Jacks on it at Opposite Sides with
another SO-239 Jack Mounted on one of the Adjacent Sides
between them.
.
The Center Pin of the "Feed-in-Line" Jack # 1 is 'wired' to
the Center Pin of the "Start" Loop Antenna Element Jack # 2.
.
The Center Pin of the "End" Loop Antenna Element Jack # 2
is 'wired' to the Outer Mounting Frame of Itself.
.
The Metal Construction Box provides the Common {Ground}
Connection for All the Jacks.
.
Close-up the Box.
.
Connect a Feed-in-Line to Jack # 1
.
Connect a Loop Antenna Element across Jacks # 2 and # 3
.
This "Loop Antenna Element Multi-Hub" will allow you to
try a few different sized Coax Cable Loop Antenna Elements
and Feed-in-Lines and swap them out as your needs change.
.
Remember 55.5% of Shortwave Radio Listening (SWL)
is the Shortwave Antenna => http://tinyurl.com/ogvcf

hope this helps and clarifies things a bit - iane ~ RHF

OK, you tell the fine folks what frequencies are being used!

Don't have 'em?

Yep, I've actually seen Mike Terry take my posts and post them elsewhere (word for word) as if he/she/it had heard it themselves!

But, he/she/it will no longer get any info here on RRS because it will no longer be posted here!

I used to worry about the effects of al that CIA/Dod skullduggery. Howver
since finding this site, my worries are over. IT is truly amazing that
millions of dollars wasted by government department in attempting to contorl
the population surreptitiously can be so easily defeated by $0.05 worht of
aliminium foil.

Hope it helps

It amazes me as well, Brian.

Boggling, is what I like to say!

That's an interesting idea, but it might be even better if the imagined IBOC radios refered the standard AM station to an IBOC FM sideband.

People just don't seem very interested in digital simulcasts of analog FM or the secondary also-ran fare, but there would be some benefit for AM radio if the programming could be heard in steel frame buildings and walkman type radios wouldn't have to be continually reoriented for good reception.

Burr & RHF,

Yep, I'm still around. Nope, I'm not Col. IP Yurin.

Burr, you must have sent the email to the wrong address, I don't remember receiving one. Try another. I prefer to keep my personal conversations off usenet, these days.

RHF, glad to see you finally got a good radio ;-) I keep my Sat800 near my computer, so that's the radio I use to post logs. I still use my R75, but I've been busy expanding my radio collection. Some of my newer radios that I've been having fun with include an Eton E5, a Sony 7600GR and a used Magnavox D2935 that I bought off of eBay. I'm currently awaiting the arrival of another Sony 2010 and an Eton E1.

I'm just about to sit for my test for a ham license, so I've also been busy collecting some ham transceivers.

RHF, thanks for the awesome work you do with your Yahoo antenna group and for the recent west coast R75 logs (which I really enjoy reading!). I've even grown used to your unique typographic skills!

But please, guys, don't keep posting "what ever happened to" alerts on me. I really don't want to get dragged into these juvenile off-topic pack pissing contests that seem to characterize this group. I respect your rights to your political perspectives, but no longer wish to fight with you over them in a public forum dedicated to shortwave.

Best wishes to everyone,

Mike

Phoenix is a very aggressive market for TV news. Even more so than Chicago in many instances. The use of helicopters is likewise very aggressive. More so than other markets. Because Phoenix is considered a feeder market for LA, the pilots, reporters, producers and photographers are all more aggressive than they need to be in order to get the attention the LA market for the move up, the higher salaries, yada yada yada.

The huge number of Californians living full or part time in Phoenix has made it easy for LA media to consider Phoenix a suburb of LA. Which exacerbates the problem. And most of the media coverage of this event began with LA stations, not Phoenix stations. LA had video on the air before Phoenix did. Albeit, not by much.

So, Pheonix is an atypical market for TV news coverage. More aggressive that most markets of it's size, often more aggressive than top 5 markets, with personal agendae often driving much of what gets to air.

FAA reps interviewed by LA CBS 2 said that Phoenix' use of helicopters is also unique. And where the collision occurred was Class Bravo Surface Area. That means, literally, right off the end of a Class B airport runway system. Once cleared into the area by ATC, the pilots were on their own to manage safety, intervals and spacing. And FAA regs under those conditions are 'see and avoid,' with the ultimate responsibility for the safety of each aircraft resting with the Pilot in Command.

What happened here was a tragedy. And it was wholly avoidable.

It's not just about ratings. It's also about getting personal credit for the shot that puts the station over the top, to get attention of those who would lure the winner away with offers in markets like, especially like, LA.

The stations are aggressive, to be sure. But the pilots, photographers, producers and reporters add their own extra level of aggression for personal benefits.

It's just sad. It really is. And perhaps I was a bit over the top in referring to them as dumbasses (and yes, I realize the story originates in Arizona), so I humbly apologize to them (yeah, they're gone, but they watch) and to their families.

That's a big loss for this group. I for one have benifited quite well from those reports Steve since our QTHs were relativly close. In fact some of your reports helped me get back on track when I moved here from Calif five yrs ago and I was getting acustomed to the propagation conditions in this area.

Last name? I'll ask her. I mentioned you, and the amp business, but I don't think she's lived there for awhile.

She did mention four bars and two gas stations! Seemed like a neat little town, and she said it was. It's always interesting to meet folks and find out how connected we all really are.

Actually, I'm sure it is. For some reason that brought
back some memories to me. Some happy, some sad. I once worked with a nice fellow
with the last name of Bui. We shared many common memories, but he was always kinda
ticked off at me because we passed so many folks by in the days following the
evacuation of South Viet Nam. I always tried to explain that there was no way that
we could have rescued everyone, and that I was certainly not in charge!

I learned the true meaning of being powerless then.

I'd say about 50% of the people in California are in the dumb-ass class. People will stop on the opposite side of a divided highway (with a wide green median) to gawk at a crash on the other side. Sometimes it creates another car crash.

One time I had this ditz in front of me in left lane of a 3 lane highway come to a complete stop because a CHP had someone pulled over on the right shoulder.

Any time their is an "event" like a car chase that starts dome in LA and makes its way up here you can easily have a half dozen news choppers in the air following along. It's a wonder to me that they don't crash into each other more often.

The coppers will come up from LA for fire, flood, landslide or anything deemed exciting. Idiots.

Amazing, just amazing!!

A drunk posts FIVE times while he's drunk. I respond to each of his
posts. Fair enough that you <Plonk> me...but if you weren't so
two-faced, mightn't you consider plonking the drunk while you were at it?

Once again, you are a H-Y-P-O-C-R-I-T-E !!!! (and too clueless to
realize it).

Well, how many times did the drunk post? Looks like you might think about twanging your Magic Plonker on the drunk, you hypocrite.

2168. OT Message: My Disability

Hi Everyone:

I have a neurological disability called Asperger's Syndrome.

I would like to give you some information about my disability. The reason I am posting this message about Asperger's is to help avoid any potential misunderstandings [though it's probably too late].

I have been diagnosed with Asperger's Syndrome (AS). AS is a neurological condition that causes significant impairment in social interactions. People with AS see the world differently and this can often bring them in conflict with conventional ways of thinking. They have difficulty in reading body language, and interpreting subtle cues. In my situation, I have significant difficulty with natural conversation, reading social cues, and maintaining eye contact. This can lead to a great deal of misunderstanding about my intent or my behavior. For example, I may not always know what to say in social situations, so I may look away or may not say anything. I also may not always respond quickly when asked direct questions, but if given time I am able express my ideas.

On Usenet, the text-equivalent of my disability is probably noticed. I do apologize profusely, for any inconvenience it causes.

Thank you very much in advance for your understanding, cooperation, and assistance.

Regards,

Radium

Nobody cares. And didn't I tell you to change your adult diapers, put in your dentures, park yourself in front of the tv and drool on your slippers and leave the rest of us alone?

It's bad enough the taxpayers have to pay for your existence via monthly welfare checks (called "entitlements" when you old timers get taxpayer handouts, "welfare" when a single mother trying to raise a family gets a pittance).

And one other thing, sober up. Better yet, do society a favor and give Jack Kevorkian a call.

Hi
I have a American version Ten-Tec RX-325 (that is it will only run on 110v and not the 240v we have here in the uk.
Would anybody like to do a trade for this, eveything works perfect, as I've tested it on a friends 240 to 120v converter.
Its no good to me in the UK as I can only run it if I get a power supply for the 12v it will take, but the hum is to much.
Willing to consider any other sw-radio portable or otherwise, especially interested in a Sony, maybe a 7600gr if posible, or maybe an early kenwood, but it MUST be able to run on 240AC. just as long as its in good condition.
This is just sitting around, so no use to me.
Pay our own shipping costs
email if interested
cheers

Well, if I could merely cut their hands off so that they might no longer type,
that would cure the problem. However, air fare to the UK is expensive, and

trying to get into the facility where Mike Terry is currently housed poses an even bigger dilemma.

I suggest waiting until a minty SR II shows up for $6!
And then get a little 'turntable' for $1.

There's a bit in the "SR III Power Switch Fix" about disassemblying

Know?

All I 'know' is that I'm not a 'fake'. And as you well 'know', tribal membership of the Miami (at least in Indiana) is based upon having a relative on a census roll in the late 1800's. Percentage means nothing. Nor does checking a box on a US Government Census Form, (ala David 'Eduardo' Frackelton Gleason, Programmer to the Illegals).

Yes, unfortunately or fortunately. Ultimately, we are all better off, than we were then. We are all 'here' today, and must live within the society that exists around us. We can try and alter that as best we can, but that is where 'we' are, like it or not. Live life to the utmost of our ability, because, even under the best of circumstances, it is short.

I am proud of my heritage, but in the long run, it gets me nothing. The only way I, you, and anyone else gets ahead is by sheer perseverance.

Do you drink a lot of diet soft drinks or have you used a lot of
artificial sweetners?? People who are heavy users of these tend to get a
range of neurological problems. There was a pretty good documentary on
it I downloaded, a lot of research behind it, can't remeber the name
now.

Do you drink a lot of diet soft drinks or have you used a lot of
artificial sweetners?? People who are heavy users of these tend to get a
range of neurological problems. There was a pretty good documentary on
it I downloaded, a lot of research behind it, can't remeber the name

Rohde-Schwarz makes very good equipment. This unit is described as
"HFH2-Z2; Active H Field Measurement Antenna; Loop Antenna" so I don't
know how good a receiving antenna it would make for HF since it does not
have much gain there (10 to 5 dB)for a ~ 2 foot loop. Here is a spec.
link. Looks like it might be a good low band or AMBCB antenna.

I am getting where it hurts to turn the knobs on the radios, hurts to do much walking, guess I'm getting old.

I started with the Tylenol today and I am going to keep using it. I cycle three days a week (about 60 miles) and lift three days a week, I'm a diabetic so it's do or die and I'm happy with me but I just hurt a lot. Because I'm a diabetic I can't take most of the arthritis medication. I'll just have to tuff it out and keep going.

When I get to where I can't get around I am going to do pigeons. I already have the plans for the coop and I'm ready BUT, I will hold off until I can't do any more. I'll be DXing in the coop instead of the shack. I may move in with them, do pigeons snore?

Finally someone has noted that Asperger's Syndrome is one form of autism. If you visit your local schools you will find whole classrooms full of autistic kids - almost entirely boys. It's an epidemic!

For Radium to be able to post his message places him in the "high-functioning" category. Many are not high-functioning.

Bill Gates is high functioning. Many of the Microsoft billionaires have Aspergers. On the other hand, many with Aspergers end up in their mother's basement playing D&D and computer games the rest of their lives.

Yes but you should speak up when you can. I'm a white man with native American heritage, as are lots of other people and my great great great grandmother died at the hands of Custer's filth and I want to know why native Americans are treated like shit! and all the other ethnic groups get all the attention? Can of worms has been opened! Everybody grab a fork!

It really does piss me off!

I also heard Radio Havana last night in the wee hours of the UTC
morning, with a YL reading "news" (i.e. yabbering about The Cuban
Five) just like Arnie Coro was doing on Friday night around the same
time. She sounded like someone had an Arnie voice synthesizer and had
switched it to "female" mode. :-)

I primarily chase UTEs so I didn't log the exact time but it was on
6000.0 kHz. Didn't even note S-meter reading, but moderately strong
signal and perfectly readable with no difficulty.

I also heard a station on 7335.0 playing country music for a program
they were billing as "New Music Spotlight" with decent signal levels
but some minor fading. My understanding was that WRNO's antenna had
been destroyed by Katrina, so who's broadcasting on 7335? Their
website doesn't seem to have been updated since August 2006. Did WRNO
get a new antenna or what? I didn't stick around long enough to hear
an ID because by this time I was finding it hard to stay awake.

I unwisely forgot the radio, with alkaline cells in it, in one of the the worse places: my car's glove compartment, in high summer, in southern Europe.

When I found it I feared the worst. The new batteries were dead, and it took a while to get them out. Dried remains of leaked battery fluid were all over the battery compartment.

- Are there any good directions on how to open this tiny and fragile radio?

- What's the best way of removing the dry and powdery crust?

- is the circuitry static sensitive enough to risk being zapped of I use a brush to clean it? Should I use a slightly wet brush, or would it make matters worse?

Encouraging a well know Troll to start posting to the news group again is irresponsible. Encouraging current news group Trolls is also irresponsible. Encouraging people to post off topic by putting "OT" in the subject is BS. All you do is proliferate the off topic threads.

You are already kill filed some of the time and I'm considering making it 100% of the time.

Now wake up or spend all your time in the news group with the other Trolls. Your choice.

If you haven't opened tiny and fragile radios before I would entrust
it to someone who has. The Sony service center is one possibility or
someone who specializes in the repair of radios.

>

Brushing it out of the battery compartment. Don't use compressed
air. The unknown is whether the leakage has dissolved battery
contacts and damaged electronics. Once it is cleaned up the smoke
test will tell whether it works.

Well, it's different.

1) WWV on 20 MHz is coming in, faintly.

2) Radio Australia is missing on 9710, 7240, and 5995 at 16:00 UTC

3) My VCR, tuned to channel 3, is coming out of blue screen and showing
a signal, with audio in Spanish. Not that I think it's great DX, just
the ABC affiliate in Sacramento. Still, that's 700-800 miles (to Seattle)
into an antenna pointed the wrong way.

Anybody else getting different stuff?

Band Together and form a Tribe
Buy some Land and Open a Casino.

OBTW the second largest Native American Group in
Tuolumne County are the Cherokees
* Tuolumne Band of Cherokee Indians Meets at 2 to 4 p.m.
at the Tuolumne County Library, Greenley Road, Sonora, CA
Many Cherokees came to California during the Gold Rush
in 1849 and were part of the 49'ers and a lot of them eventually
settled in the litttle town of Cherokee in Tuolumne County for
self protection. The town of Cherokee is gone; but the
descendants of the Cherokees are still here.

Medium Wave Circle publishes NEW 2006-7 Archive CD

This is fourth year we have published an Archive CD which this time contains all 10 copies of MWN from Volume 52 (2006-7). In addition there is about 500MB worth of material of use an interest to the MW listener or DXer.

Medium Wave News Volume 52: 2006-7
==========
This edition contains 592 pages of Medium Wave News from April 2006 to March 2007. This is one of the biggest volumes of Medium Wave News ever published.

2006 was a "record" year for long distance MW DX and numerous "UK Firsts" were heard. The vast majority are included on this CD as mp3 files for your enjoyment.

In addition to MW News (in PDF format) the 2006 CD includes:

* 177 recordings (mp3) of unique DX signals heard for the first time in the UK/Ireland
* all the important and up to date station lists (including latest EMWG & PAL)
* 48 useful maps
* 4 All Time DX Lists listing over 2200 stations heard in the UK from outside Europe.
* complete daily geomagnetic data for 2006 (and previous years)
* 24 receiver manuals
* 60 receiver reviews
* updates on MW signal propagation
* We've also included a variety of other feature items which will no doubt be of interest.

In summary a vast amount of written material, audio and video for the keen DXer but, as they say, there is too much to list everything here!

For more information see http://www.mwcircle.org/member-ordercd.htm#vol52

If you are ordering by mail order you can get your copy by sending £5 (UK), €10 (Europe), US$12 (Rest of World) to: Medium Wave Circle, 59 Moat Lane, Luton LU3 1UU, England.

But by far the simplest and quickest way of ordering this CD is via the Medium Wave Circle's on line shop at www.mwcircle.org

Enjoy!

well youd be wrong this time BB

RRAP is a total waste land I suspect it will stay that way until
something related to need to deal ARS rules comes up again

I have always read the RRS gruop I coment when something strikes me to

I would think education funds for native children and better resources for reservations would be appropriate. I just heard that native women are some of the most victimized people in our country and drugs are quite prevalent on reservations. Just a thought?

hmmmm. ok, I am not sure how to respond to this:
1. you are either trying to get some sympathy attention (in which case, it won't work and everyone will pile on you more for it)
2. you really do have it (highly unlikely as I know folks with this who are extremely successful and make no claim to having it publically)

in any case, I know folks with AS and they are very reticent about making it public (most people won't understand and oft times assume that the body language, etc would still be that of someone suspicious). Most of those I know with AS have one additional point: they don't get emotionally involved. for them, logic is the better answer. So.... pardon my finding it hard to believe you actually have AS.

Once Again Today :
Radio Nacional de Venezuela (RNV) on 15250 kHz
@ 23.50 UTC with RNV, La Voz de Venezuela and
Canal Internacional Station IDs.
.
The claim to be Transmitting from Caracas, VEN

S-Meter : Solid S-9+10dB with Excellent Audio

For DX Ace this short little Horizontal Wire Antenna
seems to be picking up the South American Radio
Stations pretty good with both Venezuela and Brazil
coming Strong.
- Shortwave Listening (SWL) Antenna :
- Four Element Flat TV 5-Wire Rotor Cable 25 Foot

There used to be a SW station out of Kentucky that broadcast country type gospel music 24/7. I don't remember their callsign. This was in the early 2000s. I immediately thought of them when I read the above. It could be WHRI, though. I don't follow American domestic SW all that closely.

Cuba has occupied 6000 in the local evenings for a very long time. I can usually get 6000 in very strong in California. Sometimes it's

strong, but very noisy. It can have so much static that understanding what they're saying can be a challenge.

7335 was occupied 24/7 by RFPI in the late 90s before University For Peace canned them. I wasn't aware that WRNO was still on the air as late as 2005. I thought they had disappeared years before that. WRNO-FM in the New Orleans metro area never went under, just changed owners (a lot), but I thought that WRNO-SW had gone under in the 90s and the tx sold then used for a station with another call.

I guess the Chinese are fed up with Kim Jong Il's games. Maybe they'll start squeezing North Korea in other ways too. I've read that their ultimate goal is to depose the Kims and make NK into a client state similar to those the Soviets had. A sudden implosion of the regime is not desired, because it would create a huge crisis that the PLA couldn't control, thus forcing them to ask America for help. The Chinese do NOT want US troops messing around in North Korea. The US would likely demand reunification without thinking of the consequences, namely a massive disruption of the South's society and economy that would send Koreans pouring into the US. The North has been such a failure for so long that the South could not absorb it without bringing their materialistic society to a crashing halt. West Germany's economic juggernaut of the 80s was effectively stopped when they had to reunify with the East.

Long shank screwdriver, available at a good electronics store, and no
Radio Shack does not count. The place where I bought mine went out of
business years ago. A decent electronics store is tough to find. If
you're in California, Frys has them. If you're anywhere else, open the
phone book to "electronics", then start calling until you find a
decent place. Electronics parts aren't as popular as they once were.
If you're in a major city, you should be able to find one. Otherwise
you'll be driving a ways. By the way, most radios (including the SR3)
use a philips head screw. I've never needed a standard head long shank
driver.

Without a PWBR, I can't say for sure, but my guess would be either
French or Spanish. If you heard a definite "Voix du la Coree" ID, then
it's French. I believe in Spanish it would be "Voz de la Corea".

Russia frequently has technical problems. They're probably still using
old Radio Moscow equipment. Parts are scarce, and even if they weren't
the Russian government couldn't afford them. Since virtually nobody
pays taxes in Russia, the government is chronically underfunded. Like
19th century California, Russia is not powerful enough to confront its
barons and force them to pay taxes. Only when one of them directly
challenges Putin (like Khordokovsky) does the government act. Most of
them wisely stay out of politics. Khordokovsky was a warning, and the
Russian robber barons heeded it. The Russian masses have no money
anyway, so the government doesn't bother to make them pay taxes, since
there's no there there. In the final analysis, the government ends up
broke, always.

Making special tools is often a requirement in this field; feel free
to grind a piece of square steel bar of the proper width at the end
into the correct size spade for a screwdriver -- with a hand grinder
(dremel tool) and cutoff wheel, you can make a reed-prince or philips
head as well. If you need to make a "Mac cracking tool" for the
classic Macs, weld a torx bit of the proper size onto the end of
a 12 inch long barbeque poker -- works well for me ;)

Really? Where was this station located? How could this persist for
any length of time on top of CHU in view of international agreements

The frequency is wrong, RFPI was somewhat higher in freqency (actually
I seem to recall there may have been a number of frequencies somewhat
above the 40metre ham band, since I think they used different
frequencies for SSB and AM).

The transmitter was down in Costa Rica.

Of course, there was talk earlier this year that CHU would have
to move or even shut down (if the cost of a frequency move was
too prohibitive) since it uses a frequency allocated to shortwave
broadcast, while time stations are classified as something else.
I can't remember how that was resolved.

Other stations have used 7335 over the years, so it's nothing new. As for Radio for Peace International (Costa Rica), I don't recall them using 7335, however they did use 7385. WRNO made use of 7355 many years ago.

That's too bad. I definitely remember his show. He also had a late
night TV show on NBC for a while that was quite good.

But, Paul Gallo Supertalk Mississippi FM 97.3 on my radio, Monday through Friday 6:00 to 9:00 AM. www.supertalkms.com about a month or so ago, I asked Paul about that and Paul said Jeff Pine (Pyne?) is/was the firtiest.I think Paul Gallo is right.Because I think I seem to remember a Jeff Pine (Joe Pyne?) radio talk show/host before I ever listened to Stan Major's radio talk show.

Hi ACE. didn't see that. but, it's been a little

heavy here, on the newsgroup. i had hoped to lighten

conversation up a bit.

BTW, I didn't know you made it to Nam. what was your

ship? I was there- 68 to jan. 1,72. my teams base

camp was Firebase Hawk Hill on the Cama Rahn Bay

I own a precursor (if that's a word for it?) of a General Electric Super Radio I.It looks like a General Electric Super Radio (Superadio) But, nowhere on that radio does it say Super Radio.(Superadio) I bought it at a Service Merchandise store back in the 1980s.Not many years later, the on/of push button that was on top of the radio, that button croaked.I took it off and I threw it away.Then, I fished around in one of my many, many junk boxes and I found an old toggle switched.I drilled a hole in the back panel of the radio and I wired that cheap toggle switch in.It works perfect, will last forever.I had a better Idea than Geneal Electric radio departmental ever had.

Lossen those screws up as much as you can.(cuss em out too) Get a thin blade screwdriver, or a dull kitchen table knife.Pry up under the heads of those screws while loosening up some more on them with a screwdriver.If those plastic heads under there are stripped, heat up something on your kitchen stove and melt those plastic threads.when you go to reinstall those metal threads,,,,,,,,

If one means by "talk show" a regularly scheduled show where on air folk responded to phoned questions and comments, something called "party line" or some similar at kdka pittsburgh in the '50's has to be the first if not close to it. There was a man/woman host team.

He said many times that Radio was his first love. For being the near doofus he could be on TV, sometimes, I was quite surprised to discover how good he really was on radio when his syndicated show hit WLS at night. He was sharp, he was funny, he was quick. And yet, he still managed to retain the essential qualities that made him so popular on TV.

He was also not unwilling to ask a tough question, or two, when the need arose.

Night time radio has been a placeholder for decades, in most markets. John McCormick on KMOX was the last one I recall who really 'got' night time radio, and played it like a virtuoso musician. When McCormick retired, Snyder was a very nice gift.

Still as 'dig me' as he ever was, but it worked better on radio than TV.

"In 1945, Barry Gray was bored with playing music and put a telephone
receiver up to his microphone to talk with bandleader Woody Herman.
Soon followed by listener call-ins, this is often credited as the

Cousin Burr.About twenty minutes ago, there were two Jackson,Mississippi cop cars on my street.Doggy, she just then took me out in the front yard so she could do whatever.(she took a wee wee) Then we checked out my snail mail box by the side of the road.(no snail mail at all) Then, doggy and I stepped over next door to skinny twin sister's house.Skinny twin sister said a woman cop asked her what her address is.Then, about thirty seconds later (while I was standing on skinny twin sister's front porch) I saw one of those cop cars had stopped in front of the house catty corner up the street and across the street from me.

Skinny twin sister said she is tearing down some old sheetrock in her house and she is going to replace it with new sheetock.I didn't tell her so, but I think the first thing she needs to do is get a new roof on that old house.

I asked her if there are any more pretty wimmins that work at that Shell Ram Powell off shore oil rig,,,,,, she said, NO!

David - Right there where you live in SoCal Land ~ RHF

Tom Snyder returned to virtually the same format on ABC Radio. The
show's three-hour format was a natural for Snyder. The first hour was
spent chatting with a celebrity guest, during the second hour Snyder
engaged someone in the news, and the final hour was consumed chatting
with his legion of fans. Occasionally the caller would be a well-known
fan like David Letterman or Ted Koppel. The "Tom Snyder Show" for ABC
Radio Networks 1985? and went off the air in late 1992.

Of course, it's cool to hate CC because first they overpay to get broadcasting monopolies or near monopolies in some areas and then they cut spending so that instead of actually having a morning DJ in Podunk they have some guy in Orlando armed with a Podunk newspaper recording the material between the songs on the Podunk morning show.

By the way, I have some idea of what HD TV means - high definition. But does HD Radio have anything to do with hearing more? Might someone with the listening skills of a Toscanini (After he signed a contract to conduct the NBC Symphony but before he left Italy he listened to NBC Bound Brook and figured out which musicians needed work) be able to get more out of an HD broadcast? or did they just use the letters to make it sound good, the way that the name "Javascript" was used even though it has very little to do with Java?

"HD" in HD Radio, at one time stood for "HYBRID DIGITAL."

Now, according to iBiquity, it stands for nothing.

And apparently does it well.

There was some hot-headed right-winger, Joe ???, who was nationally
syndicated in the 60s. Used to hear him on the radio in Austin back in
those days, possibly on KLBJ, of all stations.

What's a radio talk show host. Local community stations have had call
in programs going back into the 1930's. It would be impossible at
this date to figure out who was first.

Yes, an obvious monkier to get suckers to buy into HD Radio - but
wait, there's something called Internet blogs/consumer reviews/tech
reviews/message boards and the general public that are not the morons
the HD Alliance/IBiquity thought they were !

Sheetrock is usually sold at the building supply stores in 4 x 8 foot size, I think.Doggy just now took me out in the front yard and skinny twin sister was just then getting a bag or two of whatever out of her little Ford car.

I asked her, How is the new sheetrock going? She said, fine.I asked her what color is she going to paint it.She said she is painting it brown, right now.

She couldn't be painting, or installing any new sheetrock over there now because I never have seen any new sheetrock delivered over there before! cuhulin

WillisMat,

Turn the Radio so the Screw-Head are facing down :

1 - Tap the Radio to see -if- the Screws fall out.

2 - Use a Screwdriver with a Magentic Tip
and gently unscrew the screws while slowly
removing the Screwdriver.

hope this helps ~ RHF

The old ANC-4 is really cleaning up the 40m band this evening at my location.

Come to think of it, the ANC-4 always seems to do an especially good job cancelling noise on the 40m band. Must be due to the details of my particular setup and the kinds of locally generated noise here.

All I know is that it works.

Hello everyone. I was referred here form another newsgroup where my topic
was found off topic.I hope some of you here can help...
here's what I'm looking for. I go hunting/fishing with the boys and it's
kind of boring in the evening. my portable radio am/fm have a very limited
receptor and I can get only 1 FM station, when weather permits, and like
10 really bad reception AM stations.
I would like to get my hands on a better radio with super reception..
nowadays all the portable radio that we see have lots of cheap and useless
things and they are all pretty bad for reception...
is there a make/model that stands out? it has to be affordable also...
thanks for your time

1 - I currently have a 4-Bander Horizontal Wire Antenna
using a TV type 300 Ohm to 75 Ohm Matching Transformer
and 75 Ohm RG6 Coax Cable feed-in-line.
.
2 - It can also be Rigged as a Sloper with a Couterpose
* Just 25 Foot Long
* Rig the Apex at 20 Feet with the Far-End at 8 Feet
* Use a 20 Foot Counterpose
* 22 Feet of Ground Space {Foot-Print} at 60 Degree Angle
* 18 Feet of Ground Space {Foot-Print} at 45 Degree Angle
.
3- For very "Limited' Space rig it as a Vertical
* Bottom Feed-Point at/near Ground Level
* Use a Ground Rod at the Base -if- possible
* Apex High-End-Point 25-26 Feet
.

Hi Stef,

Take a look at www.universal-radio.com and www.ccrane.com for some
decent am-fm-sw radios. I could recommend some models but I don't
know your price range. It may be worthwhile to stop by your local
Radio Shack, though they don't stock many portables nowadays.
Whatever you do, make sure your radio includes shortwave coverage,
even if it costs a little more. You'll enjoy listening to stations
all over the world on those long camping trips; shortwave is
definitely worth is the small extra investment. Good luck and let us
know what you find.

Western Electric/AT&T rejected the assigned call for its NYC station
in 1922, WDAM. It got the next available call sign (in alphabetical
order), WEAF.

This later became the flagship station of the NBC Red Network. It
later became WNBC, WRCA, WNBC again, and, when GE got rid of radio
after buying NBC, it became WFAN.

2404. News/Talk/Sports:Radio's Last Bastion - calling Eduardo's HD/IBOC bluff !

"News/Talk/Sports:Radio's Last Bastion"

"Music FMs of any flavor are utterly screwed... Right now -- while FMs are losing the music audience to new media -- satellite radio is offering more News/Talk/Sports programming than we can fit on AM radio... Meanwhile, also at the Consumer Electronics Show, at an event much-less-attended than the Sirius and XM press conferences, well-intended radio group executives mumbled through short scripted statements about commitment to HD radio. They do so in the shadow of these undeniable realities:

1. It doesn't work at night on AM radio.
2. It costs about $100K per station to convert.
3. Nobody owns receivers; and why would listeners spend several hundred dollars for an aftermarket installation, only to hear 18 commercial minutes, and not to hear CNBC or 2500+ baseball games?"

I've called your HD/IBOC bluff !

There are three or more ships full of ROK's on there way to Afghans.

You are going to see what a blood is, just give it a few days!

Rok's are the meanest, hardest and deadliest troops in the world. The only thing that hurts them is they are not flexible.

Just hang on and watch.

What do you think Brenda? can you say anything?

Burr,

I would LOVE to see these men make a visit to Afghanistan. Maybe we could
untie their hands and let them do some work. Tough fellows those ROK

"The Source".

There is Radio H.F. on the south shore, I don't think they are
keeping up the webpage, but it is http://www3.sympatico.ca/radiohf

But he didn't ask where, he asked about suggestions.

The problem is that the average radio should be getting all kinds
of signals on AM at night. It's actually hard to not get them. IN
the daytime, the limit is the groundrange of the stations, and if he's
far away then no radio is going to improve things.

Likewise with FM. They are only line of sight, except for the small
percentage of the time when special radio conditions kick in, so if you
are beyond range of the FM stations, no radio is going to improve things.

Most radios are actually too sensitive, overloading on local stations.

Height is the only thing that will really improve FM reception, and only when you get a good antenna high enough will the matter of a better receiver start coming into play.

Depending on where you are, a "better radio" may not help all that much. Once a couple of mountains get between you and cities FM signals will all but disappear as you discovered. AM (both medium wave and shortwave) reception may be better, but what you will be hearing will be mostly signals that skip in from other localities. Those sognals tend to fade a lot and be impacted by static crashes, etc. I have two suggestions.

1. Try slowly rotating your existing radio as you are listening on AM, to catch signals from another direction.

2. Look into a good performing compact radio like a Degen DE1103 for about $60.00 on Ebay. It will likely catch more signals on MW and provide an entrance into the world of shortwave listening.

You might check with Fred Osterman at Universal Radio. At one time he
had quite a collection of manuals and technical books for a lot of
radio equipment.

Hi,
I have a twenty year old R-5000. The power was off for a while and
I noted that the digital display is showing a series of dots where
there should be numerals in the frequency display.
I get frequencies for three seconds when I turn the tuning dial but
they vanish into dots again.
Anyone encounter this? Solutions please?
Thank you,
Mike

Very common. The main PLL (phase locked loop) has become unlocked.

This is due to Kenwood potting it in a rubber compound that over the years absorbs moisture from the air. The normal fix is to open the little metal can the PLL is in, and carefully remove and replace all of the components in it.

Depending upon how badly corroded they are, some components can be reused, some may have to be replaced with new ones.

Cost varies dependeing upon where you are and how many components need to be replaced. An estimate for the U.S. is $100-$150 plus shipping both ways.

The TS-440 had the same problem, if you are a ham or know someone that is they may know someone who fixes them.

Geoff.

Well, good audio is a relative term when it comes to Pete Peters.
Nothing he says is very good. ;-)

Check the Kenwood R5000 forum on Yahooo Groups. There are several
excellent articles dealing with problems of this excellent but aging
radio.

Mike:
Give this cheap fix a try. It might work. The R 5000 runs quite
warm. Leave the radio running for a few days. It may bake off the
excess moisture . I had the same problem about 1997 at it worked for
me. Also helps if you keep it plugged in even if you are going to be
away for a month or two.

HI,
I recall friends of mine who were in awe of the ROK troops
I think one was the Tiger Squad. They terrorized the VC and NV

their officers that they did the job.

You're right, it WAS 7385. Duh! But it's been so LONG since RFPI was
on air, at least 7 or 8 years, and my memory has always been terrible.
I never paid a whole lot of attention to RFPI, anyway. But apparently
they had a small but loyal band of listeners, as they discovered when
the standoff with the university came about and they were locked in
the studio for several months. People showed up to pass cans of food
through the fence.

At one time there supposedly was a list of calls deep within the FCC that were no-no's. I suspect that when assignment was automated that the list, if it ever existed, went away. I do know that there was an internet site called kcuf.com years ago that did hourlong presentations of punk music that could be played streaming or downloaded. It was a crude attempt at the idea of "internet radio" that was floating around in the early days. Today "internet radio" has been totally superseded by podcasts. kcuf.com was supposedly descended from a pirate station also called KCUF. I'd be curious to know if the KCUF in Colorado managed to claim the kcuf.com domain, or if they had to use something else. The farm town of Watsonville, California, had an FM station called KPIG starting in the late 60s that was run by a local commune (the area was a popular hippie retreat) called Freedom. Back then, calls were approved individually, but the FCC apparently didn't know that "pig" was leftist slang for a police officer. KPIG hasn't been on the air for years, and the site of Freedom is apparently tract houses (the area is still called Freedom by locals, however).

The 1102 would probably be easier for a newbie to use. To the
untrained ear, there's not much difference between the 1102 and the
1103. The problem is that Canada Post is reportedly turning away
packages containing Chinese radios sent from Hong Kong (this would
include Liypn, who is the main seller of Chinese SW radios on Ebay).
Apparently Canadians were buying the Ebay radios at the expense of the
much costlier Kaito and Eton versions sold through Canadian retailers.
The retailers complained, and the Canadian government compliantly
started rejecting the packages. The market is much smaller in the US,
as is the price spread, so retailers like Universal Radio haven't
raised a stink.

I remeber back in the 60s my sister in law did a survey of autistic kids in our school sytem. The elementatry grades hade about 650 students and there were six autistic kids. Numbers sound about the same now aas then.

I've enjoyed an R5000 since 1988 and I'm a member of that fine Yahoo group. Bought mine new from Gilfer Shortwave.
